

**Press Release – For Immediate Release**

**Everbright Water Wins Nanjing Pukou Reusable Water Project**

**Singapore, 15 December 2015** - China Everbright Water Limited (“Everbright Water” or the “Company”, SGX: U9E) (中国光大水务有限公司), an environmental protection company focusing on integrated environmental water services, is pleased to announce that it has won the tender for Nanjing Pukou Reusable Water Project in Jiangsu Province (“Pukou Reusable Water Project” or the “Project”) with the highest ranking in the overall score rating.

Pukou Reusable Water Project has a designed daily reusable water supply capacity of 40,000 m<sup>3</sup> and will be built on a BOT basis (Build-Operate-Transfer). It will be constructed in two phases, the Project Phase I will have a designed daily reusable water supply capacity of 20,000 m<sup>3</sup>, with a total investment of RMB45.7 million. The water discharge will comply with the standard as category IV surface water and the Project Phase I is expected to commence operation in 2016.

**Mr. Wang Tianyi, Executive Director & Chairman of Everbright Water**, said: “Winning the bid for the Pukou Reusable Water Project by emerging as the first in the comprehensive evaluation showed that the Company’s overall capability and technology are recognized by the local government. This is beneficial in the Company’s quest to develop other water treatment projects locally. The reusable water project facilitates recycling of water resources, thus it achieves the aim of environment protection. With intensified support from the state government in environmental protection as well as relentless efforts by various departments of the Company, we believe Everbright Water will go from strength to strength and achieve more breakthroughs to give back to the community in the future.”

**-End-**
