

New Listing Portfolio Introduction–

Enterex International Limited

Enterex International Limited (“Enterex”) was founded in 1984, specializing in automotive radiators and condensers, as well as intercoolers and evaporators for passenger vehicles and industrial vehicles. Enterex set up its manufacturing facility in China in 1996 in Yangzhou. The Yangzhou facility is built to provide stable and sufficient capacity and to vertically integrate manufacturing process for the purpose of streamlining manufacturing cost and yield. With its high production quality and diverse product mix, Enterex has become one of the leading aftermarket suppliers in North America’s automotive sector. Furthermore, to take full of its geographical advantages, Enterex has begun OEM contracts with auto-makers in China, which will be one of the most lucrative growth factor in the next few years.

Hotung Group has invested in Enterex since September 2013 to assist Enterex in stock diversification to conform to the relevant regulations of Taiwan Stock Exchange Corporation (“TWSE”). The 2013 consolidated audited sales revenues of Enterex reached NT\$4.3 billion (US\$143 million), which was a 15% growth year-on-year. Enterex has been approved by TWSE and plans to debut on TWSE on the 16th of October 2014.
