Civmec Secures Award of Major Iron Ore Project for Fortescue Metals Group

PERTH/SINGAPORE, 13 August 2019 – Civmec Limited (“Civmec” or the “Group”) will deliver the Primary Crushing and Ore Processing Facility for Fortescue Metals Group’s (Fortescue) new Eliwana Mine and Rail project, located approximately 90km north-west of Tom Price in the Pilbara region of Western Australia.

Civmec’s scope is for the full vertical delivery of the facility’s Iron Ore Loading, Primary, Secondary and Tertiary Crushing, Ore Screening and Associated Conveyor Systems, up to no load commissioning. Shop detailing, fabrication, delivery and site installation of the civil, structural, mechanical, piping and electrical works is included in this significant package of work.

Civmec’s Chief Executive Officer, Mr Patrick Tallon, said: “We are pleased to extend our relationship with Fortescue in the delivery of this exciting new contract. We have worked extensively with Fortescue for some time to secure this award, with the package of work utilising many of our core disciplines in a single, vertical solution offering.”

The package for Eliwana will provide employment for an estimated 300 local people, both at Civmec’s heavy engineering facilities where the fabrication will be undertaken, and in the Pilbara for onsite works. Work will commence over the coming months, with completion anticipated by late-2020.

“Fortescue’s strong commitment to supporting West Australian industry, by engaging our fabrication capability as part of the turnkey solution, is commendable. This is a great start to FY2020 and we look forward to the year ahead,” said Mr Tallon.

Civmec also recently secured additional contracts within its maintenance division and subsea fabrication work for the Oil & Gas sector, and these combined with the award of the Eliwana package from Fortescue, brings the value of new work since the beginning of the financial year to approximately AUD \$120 million.

These most recent contract awards take the Group’s current order book to approximately AUD \$850 million.
