- 1 No Indicated previously reported.
- 2 Change in cut-off grade from 0.5% Cu to 0.3% Cu, which accounts for the increase in the copper resource.
- 3 The reduction in the magnetite resource is a reflection of the reporting the resource within the optimised pit shell based on the copper mineralisation.
- 4 The Mineral Resource is limited to within the CASB and SDSB mining lease boundaries and is also constrained within an optimised pit shell based on the recovery of copper only, no value was attributed to iron hosted by the magnetite units or the gold and silver or any other materials present on the mining leases.

Operational updates

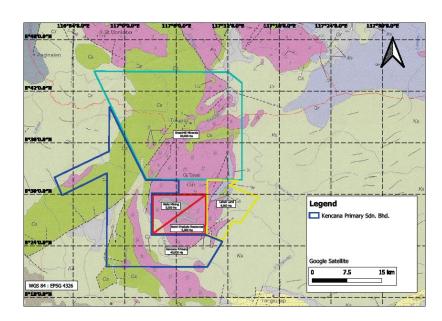

Mengapur

- The Group is building up its production capabilities at the CASB mine, which commenced production in July 2022.
- Looking to build new integrated processing plant which will enhance production capability at the CASB mine and enable the Group to produce high grade iron ore, copper and pyrrhotite concentrate.
- The Group will continue to update shareholders as and when there are material developments.

Iron Ore Beneficiation Plant at the CASB mine

Telupid and Tongod

- The Group had commenced exploration at the Telupid and Tongod Projects in May 2023.
- We are currently progressing through the Phase 1 of our exploration plan by performing Geological Mapping, Geochem and Geophysical Survey.
- The Group will continue to update shareholders as and when there are material developments.

Operational updates

12 October 2023 – Two new 9-month offtake agreements

- On 12 October 2023, the Group secured two new 9-month offtake agreements with an independent third-party domestic steel mill in Malaysia.
- The agreements involve approximately 150,000 WMT and 90,000 WMT of iron ore, respectively and will run contemporaneously to each other.
- The agreements are expected to contribute positively to the earnings of the Group for the financial year ending 29 February 2024.

10 April 2023 – Completion of placement of 23,316,100 Placement Shares at S\$0.386 per Placement Share

- 60% of net placement proceeds Fund the Company's efforts to build up its production capabilities at the CASB Mine located at Mengapur, which commenced production in July 2022.
 - These initiatives will continue to propel the Company's pipeline growth and support sustainability of earnings in the long term.
- 40% of net placement proceeds Partially fund the Group's exploration efforts in Sabah arising from the receipt of the two prospecting licenses announced by the Company on 6 March 2023.
 - The Group's strategic growth plan is to venture into new mining opportunities and enhance long term shareholder value, thereby expanding the Group's commodities profile.
