## **E Selected notes to the condensed interim financial statements**

### **1. Corporate Information**

Fu Yu Corporation Limited (the “**Company**”) is incorporated and domiciled in Singapore and whose shares are publicly traded on the Mainboard of the Singapore Exchange.

These condensed interim financial statements as at and for the six months (“**2H25**”) and full year ended 31 December 2025 (“**FY2025**”) comprise the Company and its subsidiaries (collectively, the “**Group**”).

The principal activities of the Company are those of manufacturing and sub-assembly of precision plastic parts and components, fabrication of precision moulds and dies and investment holding. The principal activities of the Company’s subsidiaries consist of (i) manufacturing and sub-assembly of precision plastic parts and components, fabrication of precision moulds and dies, trading, provision of management services and investment holding.

### **2. Basis of Preparation**

#### **2.1. Statement of compliance**

The condensed interim financial statements for the six months and full year ended 31 December 2025 have been prepared in accordance with SFRS(I) 1-34 *Interim Financial Reporting* issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance of the Group since the last annual financial statements for the year ended 31 December 2024.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.5.

#### **2.2. Basis of measurement**

The condensed interim financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities which are measured at fair value or amortised cost.

#### **2.3. Functional and presentation currency**

The condensed interim financial statements are presented in Singapore dollars (\$) which is the Company’s functional currency. All financial information presented in Singapore dollars has been rounded to the nearest thousand, unless otherwise stated.

#### **2.4. Use of judgements and estimates**

The preparation of the condensed interim financial statements in conformity with SFRS(I) requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2024.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

## 2.4. Use of judgements and estimates (Cont'd)

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next interim period are included in the following note:

- Note 3 – measurement of recoverable amounts of PPE
- Note 5 and 6 – recoverability of investments in and amounts due from subsidiaries
- Note 6 – measurement of expected credit losses (ECLs) allowance for trade and other receivables

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the condensed interim financial statements is included in the following note:

- Note 4 – classification of investment property

### Measurement of fair values

A number of the Group's accounting policies and disclosures requires the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement (with Level 3 being the lowest).

Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 14 – financial risk management: accounting classification and fair value

## 2.5. New and amended standards adopted by the Group

The Group has applied the following SFRS(I)s, amendments to and interpretations of SFRS(I) for the first time for the annual period beginning on 1 January 2025:

- Amendments to SFRS(I) 1-21: Lack of Exchangeability

The application of these amendments to standards and interpretations does not have a material effect on the condensed interim financial statements.

### 3. Property, plant and equipment

During the financial year ended 31 December 2025, the Group acquired assets amounting to \$3,451,000 (31 Dec 2024: \$9,389,000) of which \$233,000 (31 Dec 2024: \$2,449,000) relates to right-of-use assets and disposed of assets amounting to net book value of \$1,700,000. (31 Dec 2024: \$186,000).

At 31 December 2025	<u><u>5,917</u></u>

The buildings are leased to third parties.

External valuation of the investment property is conducted at least once a year. The fair value of the investment property (fair value hierarchy of level 3) as at 31 December 2025 amounts to approximately \$7,442,000 (2024: \$7,158,000) and has been determined based on valuations performed by accredited independent valuers with recent experience in the location and category of investment properties being valued. The valuations are based on comparison method and the depreciated replacement cost method. The depreciated replacement cost method makes reference to the cost of replacing the buildings as new and allowing for depreciation. Key unobservable inputs correspond to replacement costs having regard to asset life, physical deterioration, functional and economic obsolescence. The comparison method involves comparing and adopting recent transactions as a yardstick and sale evidences involving other similar properties in the vicinity. The Group has assessed that the best use of its properties does not differ from their current use.

The Group has certain leasehold land held to earn rental income and also for own production or supply of goods and administrative purposes. If a portion of the property cannot be sold or leased out separately under a finance lease, the entire property is classified as investment property only if the portion of the property held for own use is insignificant. Judgement is involved in determining the allocation of investment property and property, plant and equipment.

## 5. Subsidiaries

Impairment loss	(73,932)	(66,864)
	<u>46,830</u>	<u>53,898</u>

### Impairment assessment

Subsidiaries in People's Republic of China incurred operating losses and had shown indication that impairment loss recognised in prior years may no longer appropriate. Accordingly, the Company performed an assessment of the recoverable amount of its investments in these 3 subsidiaries. The recoverable amounts of investments in subsidiaries were estimated based on the fair value less costs of disposal ("FVLCD") method.

The fair value is estimated based on the fair value of the leasehold properties and machineries determined by independent valuers with experience in the location and category of the assets being valued.

**Expected credit loss (“ECL”) assessment**

The Group uses an allowance matrix to measure the ECLs of trade receivables and contract assets, which comprise a large number of small balances, while for other receivables there is no significant increase in credit risk for these exposures, therefore impairment has been measured on the 12-month expected loss basis, and the amount of the allowance is insignificant.

Loss rates are estimated based on actual credit loss experience over the past five years. These rates are adjusted to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Group's view of economic conditions over the expected life of the receivables.

Based on management's assessment, the Company recognised additional impairment loss of S\$1,229,000 (2024: S\$1,773,000) on current amount due from subsidiaries and S\$3,888,000 (2023: S\$2,168,000) for non-current amount due from subsidiaries in profit or loss for the year.

The non-trade amounts due from subsidiaries are unsecured, non-interest bearing and are amounts lent to subsidiaries to satisfy funding requirements.

The current amounts due from subsidiaries are unsecured, non-interest bearing and repayable on demand.

The Company applies the general approach for expected credit loss model to measure the loss allowance on the amounts due from subsidiaries. Due to the economic uncertainty in the current and future economic environment, the Company concluded that there has been significant increase in the credit risk expected over the remaining life of the exposure, irrespective of the timing of the default (lifetime ECL).

## 13. Operating Segments

The Group has the following two strategic divisions, which are its reportable segments. These divisions offer different products and services, and are managed separately because they require different technology and marketing strategies.

- Manufacturing Segment
- Supply Chain Management Services Segment

Within the manufacturing segment, the Group has three reportable segments which, are geographical segments and are based on the location of assets, namely Singapore, Malaysia and China. These geographical segments are managed separately because they bear different financial and business risks. The locations of the Group's customers are not significantly different from the locations of the Group's assets.

Segment results and assets include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Performance is measured based on (loss)/profit before income tax, depreciation of property, plant and equipment and investment property, finance costs and net foreign exchange gain/(loss) as included in internal management reports that are reviewed by the Operating Committee (operating decision maker). Such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within the Group's industry. Both inter-segment and intra-segment pricing are based on terms agreed by the counterparties.

The full results of the Supply Chain Management Services Segment are presented separately on the Condensed interim consolidated income statement as "Discontinued operations" for the financial years ended 31 December 2025 and 31 December 2024.

## 14. Financial Risk Management

### *Accounting classification and fair values*

The carrying amounts of financial assets and liabilities (including trade and other receivables, cash and bank balances and trade and other payables) are assumed to approximate their fair values because of the short period to maturity or re-pricing. Further, the fair value disclosure of lease liabilities is also not required.

Set out below is an overview of the financial assets and financial liabilities of the Group and Company as at 31 December 2025 and 31 December 2024:

The Group does not have material related party transactions apart from those disclosed elsewhere in the condensed interim financial statements.

## 16. Contingent Liabilities

### *Legal Claims*

As announced by the Company on 6 November 2025, following the termination of former Executive Director and Group Chief Executive Officer, Mr. Seow Jun Hao David's ("**Mr. Seow**") employment, the Company received a letter of demand dated 4 November 2025 from Mr. Seow's solicitors alleging wrongful termination of employment and demanding that the sum of S\$1,853,548.39. Additionally, the Company received a further letter of demand dated 5 November 2025 from Mr. Seow alleging defamation and demanding damages be paid to Mr. Seow in the sum of S\$200,000.

Based on the legal advice, the Board of Directors is of the view that the Company has strong basis and it is not probable that a significant liability will arise. Accordingly, no provision has been recognised in these financial statements.

### *Claims from Former Employees*

During the financial year ended 31 December 2025, the Company terminated the employment of two employees. Subsequent to the year end, the Company received letters of claims from these former employees alleging wrongful termination and seeking total claims of S\$1,511,070.54.

The Company, having consulted legal counsel, is of the view that the terminations were carried out in accordance with employment contracts. As the outcome of these claims is uncertain and an outflow of resources is not considered probable at this stage, no provision has been recognised in these financial statements.

- Diluted (cents)	(0.10)	(0.49)	(0.07)	(0.43)

Earnings per ordinary share on existing issued share capital is computed based on the weighted average number of shares in issue during the period of 761,994,775 (2024: 761,885,186).

For the purpose of calculating the diluted earnings per ordinary share, the weighted average number of ordinary shares is adjusted to take into account the dilutive effect arising from the dilutive restricted share plan awards to ordinary shares, with the potential ordinary shares weighted for the period outstanding. However, as the Group is in loss position in FY2025, the calculation of diluted earnings per share does not assume conversion, exercise, or other issue of potential ordinary shares that would have an antidilutive effect on earnings per share.

## 8. Review of performance of the Group

### CONSOLIDATED INCOME STATEMENT

#### **Revenue**

For the six months ended 31 December 2025 (“**2H25**”), the Group’s revenue declined 3.6% to S\$62.2 million from S\$64.6 million in 2H24 mainly due to the absence of revenue contribution from supply chain management services, following the cessation of all business activities in Fu Yu Supply Chain Services Pte Ltd in the last quarter of FY2024.

For the financial year ended 31 December 2025 (“**FY2025**”), revenue declined 35.9% to S\$122.7 million from S\$191.3 million in FY2024, mainly due to the absence of revenue contribution from supply chain management services.

#### Manufacturing business

For FY2025, revenue from the manufacturing business rose, mainly due to higher sales from the Singapore and China operations, partially offset by a decline in the Group’s operations in Malaysia. During FY2025, the Group secured new projects and recorded higher order volumes, underscoring the recovery in the overall manufacturing environment and global economy.

Sales from Singapore operations improved 22.9% to S\$56.8 million in FY2025 from S\$46.2 million a year ago, mainly due to higher sales in the medical segment and consumer segment.

Meanwhile, revenue contribution from the Malaysia segment declined 9.5% to S\$33.1 million in FY2025 from S\$36.6 million a year ago, mainly due to lower demand for power tools and consumer products.

Revenue contribution from China improved 2.2% to S\$32.8 million in FY2025 compared to S\$32.1 million in FY2024.

As a percentage of total sales from the manufacturing business, contribution from Singapore increased marginally to 46.3% in FY2025 (FY2024: 40.2%). Contribution from Malaysia decreased to 27.0% (FY2024: 31.8%) while China operations accounted for 26.7% (FY2024: 27.9%) of the manufacturing business’ revenue in FY2025.

#### Supply chain management services

Supply chain management services segment ceased all business activities in the last quarter of FY2024.

## 8. Review of performance of the Group (Cont')

### **CONSOLIDATED INCOME STATEMENT (Cont'd)**

#### **Gross Profit**

Despite the absence of gross profit from the supply chain management services segment, the Group's gross profit in 2H25 increased 29.5% to S\$11.0 million from S\$8.5 million in 2H24, translating to a higher gross profit margin of 17.6% compared to 13.2% previously.

The Group's gross profit in FY2025 increased 4.8% to S\$17.8 million from S\$17.0 million in FY2024.

For FY2025, gross profit from the manufacturing segment increased 14.8% to S\$17.8 million from S\$15.5 million in FY2024, translating to a higher gross profit margin of 14.5% in FY2025 compared to 13.5% in FY2024.

Including contributions from the supply chain management services segment, Group-wide gross profit for FY2024 would have been S\$17.0 million, while the Group's composite gross profit margin was 8.9% in FY2024.

#### **Other Income from continuing operations**

Other income increased 63.8% to S\$4.2 million from S\$2.6 million a year ago, mainly due to income from technical and advisory services, interest income and rental income.

#### **Selling and Administrative Expenses from continuing operations**

Selling and administrative expenses from continuing operations in FY2025 increased 55.6% to S\$26.4 million from S\$17.0 million a year ago, attributed mainly to an increase in professional fees of S\$2.9 million arising from (i) the requisition of shareholder's requisition to convene extraordinary general meeting to appoint and remove directors and (ii) the investigations into the affairs of Fu Yu Supply Chain Solutions Pte. Ltd., provision of doubtful debts of S\$1.5 million and costs of about S\$3.1 million arising from the liquidation of the Group's facility in Zhuhai, China.

#### **Other Operating Income/(Expenses) from continuing operations**

The Group's continuing operations recorded foreign exchange loss of S\$2.5 million in FY2025, compared to foreign exchange gain of S\$0.1 million in FY2024.

The Group recognises foreign exchange gains or losses as a result of transactions denominated in foreign currencies, and the translation of receivables, cash and payables denominated in foreign currencies to the functional currencies of the respective companies in the Group as at each reporting date. As the Group is in net US Dollar assets position, the depreciation of the US Dollar against the Singapore Dollar and Malaysia Ringgit contributed to the higher foreign exchange losses in FY2025.

#### **Finance Costs from continuing operations**

Finance costs in FY2025 remain stable at S\$0.3 million.

#### **(Loss)/ Profit before Income Tax from continuing operations**

The Group recorded a loss before income tax ("LBT") of S\$6.7 million in FY2025, compared to a profit before income tax ("PBT") of S\$150,000 in FY2024.

On a geographical basis, the Group's manufacturing operations in Singapore posted a LBT of S\$4.2 million in FY2025 compared to LBT of S\$2.8 million in FY2024. The Malaysia segment recorded a lower PBT of S\$2.3 million compared to FY2024's PBT of S\$3.8 million, while the China segment posted LBT of S\$4.8 million in FY2025 compared to LBT of S\$4.9 million in FY2024.

## 8. Review of performance of the Group (Cont')

### **CONSOLIDATED INCOME STATEMENT (Cont'd)**

#### **Tax Expense from continuing operations**

The Group incurred tax expenses of S\$888,000 for FY2025 compared to a tax expense of S\$1.4 million in FY2024. The tax expense was mainly in relation to the operating profits registered by the profitable entities within the Group.

#### **Net Profit from continuing operations**

	<b>FY2025</b>	<b>FY2024</b>	<b>Change</b>
	<b>\$'million</b>	<b>\$'million</b>	
<b>Operating (loss)/profit</b>	(6.7)	0.1	NM
<b>Net (loss)/profit</b>	(7.6)	(1.2)	NM

The Group's continuing operations incurred a net profit of S\$2.2 million in 2H25, compared to a net loss of S\$854,000 in 2H2024.

For FY2025, the Group's continuing operations recorded a net loss of S\$7.6 million, compared to a net loss of S\$1.2 million in FY2024. This was primarily due to one-off professional fees of S\$2.6 million, foreign exchange losses of S\$2.5 million, closure costs related to the Fu Yu Zhuhai factory, provision for doubtful debts, as well as provisions for obsolete inventories.

### **STATEMENTS OF FINANCIAL POSITION**

As at 31 December 2025, the Group maintained in a sound financial position with net cash of S\$50.2 million. Shareholders' equity stood at S\$128.2 million, equivalent to net asset value of 16.82 cents per share (based on the total number of issued shares of approximately 762.0 million shares) which included net cash of around 6.6 cents per share.

Total assets as at 31 December 2025 decreased to S\$165.0 million from S\$173.8 million as at 31 December 2024. The reduction was attributed mainly to decreases in cash and bank balances and property, plant and equipment.

The Group's total liabilities as at 31 December 2025 decreased to S\$36.8 million from S\$37.6 million as at 31 December 2024. This was due mainly to a reduction in loans and borrowings and tax provisions.

### **CONSOLIDATED STATEMENT OF CASH FLOWS**

The Group generated net operating cash outflow of S\$1.3 million in FY2025 compared to net cash inflow from operating activities of S\$3.6 million in FY2024. This was attributed mainly to higher loss before tax for FY2025, an increase in inventories, and contract assets offset by a reduction in trade and other payables and contract liabilities.

Net cash used in investing activities amounted to S\$1.7 million during FY2025. The Group incurred capital expenditure of S\$3.2 million, which was mainly for the purchase of factory equipment, plant and machineries. This was compensated partially by interest income.

Net cash used in financing activities amounted to S\$1.3 million in FY2025, attributed mainly to the repayment of lease liabilities.

---

As a result of the above, the Group's cash and cash equivalents decreased to S\$50.2 million (including cash deposits pledged of S\$0.4 million) at the end of FY2025 compared to S\$55.5 million as at 31 December 2024.

**9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results**

Not applicable.

**10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months**

During the year under review, the Group completed several key initiatives, which include consolidating its manufacturing footprint in China through the liquidation of its facility in Zhuhai in July 2025. As announced on 3 October 2025, the Board closed off investigations into the affairs of Fu Yu Supply Chain Solutions Pte Ltd, allowing the Group to direct its focus on its core manufacturing business. The Group expects these one-off costs to decline from FY2026.

Following the cessation of the Group Chief Executive Officer's employment on 31 October 2025, the Group also established a new Operating Committee to oversee all operational matters of the Group. The Group also appointed Mr Lim Wei De, Victor as Managing Director, who will oversee strategic planning and day-to-day operations, in February 2026.

The Group has embarked on an internal review of its business and operations, and is focused on optimising processes by reducing material waste and minimising yield loss, lowering its cost structure, increasing its customer base and streamlining its approval process.

In line with its strategy to grow in the medical and biomedical sectors, the Group is expanding its business development team to reach out to potential customers. The Group will continue to leverage the enhanced manufacturing capabilities of its Smart Factory to grow its project pipeline. In response to macroeconomic headwinds arising from geopolitical tensions and global uncertainty, the Group will maintain a strong balance sheet and strict cost management.

Under the leadership of its new Board and management team, the Group remains committed to delivering long-term value to shareholders.
