1(d)(v) A statement showing all sales, transfers, cancellation and/or use of subsidiary holdings at the end of the current financial period reported on.

There were no subsidiary holdings as at the end of the current financial period reported on.

2. Whether the figures have been audited or reviewed and in accordance with which auditing standard or practice.

The figures have not been audited or reviewed by the auditors

3. **Where the figures have been audited or reviewed, the auditors' report (including any modifications or emphasis of a matter).**

Not applicable.

- 3A. **Where the latest financial statements are subject to an adverse opinion, qualified opinion or disclaimer of opinion:**

- (a) **Updates on the efforts taken to resolve each outstanding audit issue.**
- (b) **Confirmation from the Board that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.**

Not applicable. The latest audited financial statements of the Company for the financial year ended 31 December 2019 did not have any adverse opinion, qualified opinion or disclaimer of opinion.

4. **Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.**

The same accounting policies and methods of computation adopted in the most recently audited financial statements for the financial year ended 31 December 2019 have been applied in the preparation for the financial statements for the financial year ended 31 December 2020.

5. **If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.**

The adoption of the new/revised FRS and INT FRS does not have any material financial impact on the Group's and Company's financial statements for the current period.

6. **Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends.**

FY2020 vs. FY2019

Revenue

The Group's revenue decreased by RMB42.8 million (or 6%) to RMB697.9 million. This was mainly due to the decrease in the sales of the Zipper segment (RMB12.3 million), the Trading segment (RMB22.7 million), and the Processing segment (RMB3.8 million).

The inter-segment sales elimination represented the dyeing and electroplating services provided by the Processing segment to the Zipper segment.

The decreases in revenue in the Zipper segment and the Processing segment were mainly due to the COVID-19 pandemic which adversely affected the global economy. This had resulted in the decrease of sales order from customers.

The Group's Trading segment relates to the sourcing and buying of certain raw materials (such as rubber thread, nylon fabric and nylon yard) in accordance to customers' requirements. The profit margin and all purchases were based on confirmed sales. As such, the volume of trading depends on the opportunities available so as the profitability and price movements which are dependent on customers' demand for raw materials. The decrease in revenue from the Trading segment was mainly due to the decrease in sales volume from customers during FY2020.

Gross Profit and Gross Profit Margin

The Group's gross profit decreased by RMB21.7 million (or 54%) to RMB18.4 million. The decrease was due to the decrease in gross profit from the Zipper segment, Trading segment and Processing segment. Processing segment suffered a gross loss as the revenue was not sufficient to cover its fixed production overheads.

Average gross profit margin decreased by 2.8 percentage points to 2.6% mainly due to the decrease in gross profit margin from the Zipper segment, arising from the decrease in the selling prices. As a result of the COVID-19 pandemic, some of the Group's PRC customers were facing a more challenging business environment than before and had requested for bigger price reductions. The Group had obliged to these customers' requests in order to retain these customers to keep the production orders.

Other income and expenses

Other income comprises government subsidies, sales of scrap materials, rental and management fee income from the Group's Xiamen headquarters ("Xiamen HQ"). Other expenses comprised fair value loss from valuations on investment property, property, plant and equipment and assets held for sale and loss on disposal of assets held for sale.

The fair value loss from valuation on investment property (RMB35.0 million) arose at the time for reclassification to assets held for sale. For a transfer from investment property carried at fair value to assets held for sale, the property's deemed cost for subsequent accounting shall be its fair value at the date of change in use. As at 31 December 2020, the fair value loss from valuation on assets held for sale (RMB3.4 million) and fair value loss from valuation on property, plant and equipment (RMB3.2 million) arose due to the decrease in fair value of Xiamen HQ arising from an valuation performed by an independent professional valuer in FY2020.

The loss on disposal of assets held for sale (RMB19.4 million) was recognised at the time of completion of the disposal and sales of all units of the Disposal Property at Xiamen HQ. Please refer to the announcements released on 4 December 2020 and 3 February 2021, pertaining to "Update on Completion of the Disposal of Xiamen HQ and Use of Proceeds".

The foreign exchange loss arose from the appreciation of RMB against USD and SGD in the Group's foreign currencies denominated bank balances and from the translation of HK dollar denominated balances

owing from subsidiaries in the Company's book due to appreciation of RMB against HK dollar.

Selling and distribution expenses

Selling and distribution expenses increased by RMB0.4 million (or 6%) to RMB6.3 million mainly due to increase in transportation costs incurred for shipments of the goods. As a result of the COVID-19 outbreak, additional costs had to be incurred to rent new shipping containers to ship out the goods.

General and administrative expenses

General and administrative expenses increased by RMB26.2 million (or 51%) to RMB77.5 million. This was mainly due to the increase in allowance for doubtful debts and increase in provision for social security contribution. The increase was partially offset by written back of allowance for advances to suppliers.

The allowance for doubtful trade receivables amounted to RMB28.6 million arose from longer credit period requested by some customers. Due to the challenging business environment facing by some of the Group's PRC customers, the Group had obliged to these customers' request for longer credit terms in order to retain them. According to the Group's accounting policy, the extended credit period will be accounted for allowance for doubtful debts on a prudent basis.

Provision for social security contribution represented the under-provision of social security contributions in FY2020 and FY2019. The Group had made a more detailed computation of the provision required for social security contributions for FY2020 and FY2019 to ensure full compliance with the prevailing PRC rules and regulations. The significant increase was mainly because the local government allowed the Group to defer the payment of social security contributions.

The written back of allowance for advances to suppliers amounted to RMB1.2 million following the receipt of raw materials in the FY2020.

Finance income and expenses

Finance expenses decreased by RMB2.1 million to RMB12.8 million. This was mainly due to the repayment of short-term bank loans in 2H2020.

Finance income increased by RMB0.4 million (or 63%) to RMB1.1 million was mainly due to the increase in cash and bank balance after the receipt of disposal proceeds of Xiamen HQ.

Tax expense

	Group		
	Year Ended 31/12/2020 Unaudited	Year Ended 31/12/2019 Audited	Increase/ (Decrease)

Deferred tax ³	(4,102)	(9,086)	(55)
Tax expense/(credit)	5,307	(6,983)	NM

Notes:

¹ Current tax decreased by RMB0.9 million or 42% was in line with the decrease in profit before taxation in FY2020.

² Current tax for property tax is charged on the disposal consideration of the investment property.

³ Deferred tax credit arose from temporary differences in the fair value of the investment property arising from revaluation of the investment property.

FINANCIAL POSITION

Non-current assets

As at 31 December 2020, non-current assets amounted to RMB279.0 million comprising property, plant and equipment, land use rights and prepayments.

The Group's property, plant and equipment amounted to RMB211.1 million, a decrease of 21% (or RMB54.5 million) compared to RMB265.6 million as at 31 December 2019. The decrease was mainly due to the reclassification of 24th floor of the office building under property, plant and equipment to properties held for sale as a result of the Company's intention to dispose part of its office building within a year. The 24th floor was originally intended for the Group's own usage, thus the value was classified under "Property, plant and equipment". Upon receiving buyers' interests for the 24th floor, the Group decided to also sell the 24th floor.

The investment property was reclassified to properties held for sale under current asset subsequent to the entering into provisional sale and purchase agreements (collectively, "Provisional SPAs") with independent third party purchasers ("Purchasers"), for the sale of part of the Company's office building ("Proposed Disposal of Property"). Please refer to the Company's announcement released on 6 July 2020.

The prepayment balance as at 31 December 2020 represented the deposit paid for purchase of machineries. During FY2020, the Company entered into an agreement for purchase of machineries to automate the production process of zippers.

Current assets

As at 31 December 2020, current assets amounted to RMB602.9 million, an increase of 32% (or RMB146.9 million) compared to RMB456.0 million as at 31 December 2019. This was largely due to an increase in properties held for sale, advances to suppliers, cash and bank balances.

The Group retained inventories of 2 months' raw materials to satisfy the production requirements for 1st quarter 2021.

Properties held for sale represented the remaining office units in the lower floors of level 2 to 4 in Xiamen HQ. Under SFRS5 "Non-current Assets Held for Sale and Discontinued Operations", the remaining office units in Xiamen HQ are available for sale upon receipt of buyers' offers.

The increase in advances to suppliers was mainly due to suppliers' requirements of full payments to be made before delivery of raw materials to the Company especially after COVID-19 outbreak whereby the supply of raw materials was not stable and had to be secured in advance.

For advances to suppliers, the Group will secure supply agreements with its various suppliers. The prepayments to suppliers were to secure the supply of raw materials at competitive prices for the year, at about 2% to 3% discount of the total contracted value. The Group will make the advance payment upon the signing of the purchase agreements. After the receipt of the advance payments, the suppliers will take approximately 1 to 2 months to make full delivery of the raw materials to the Group's warehouse.

Cash and bank balances increased from RMB27.5 million to RMB160.8 million after completion of the disposal of the office building in Xiamen HQ.

Current liabilities

As at 31 December 2020, total current liabilities were RMB378.9 million, a decrease of 34% (or RMB197.3 million) compared to RMB576.2 million as at 31 December 2019. This was mainly attributable to the decrease in bills payable to banks, short-term bank loans, amount due to a director, other payables and accruals. The increase was partially offset by the increase in trade payables.

The decrease in other payables and accrual was mainly due to deposits received from the purchasers of office building in Xiamen HQ were recognised as other income at the time of completion of disposal.

The short-term bank loan decreased by RMB121.5 million (or 45%) to RMB149.7 million as at 31 December 2020 compared to RMB271.2 million as at 31 December 2019. This was mainly due to the utilisation of disposal proceeds to repay short-term bank loans after the completion of the disposal of office building in Xiamen HQ.

The amount due to a director was due to funds remitted from Mr Hong Qing Liang for the payment of the Company's professional fees and expenses. There is no fixed payment schedule for the personal loan from Mr. Hong Qing Liang who had also agreed that all his personal loans granted shall be interest free. The decrease in amount due to Mr Hong Qing Liang was due to the repayments made to him in FY2020.

Non-current liabilities

Non-current liabilities comprised deferred tax liabilities. The decrease in deferred tax liabilities was mainly due to the deferred tax credit in FY2020 as explained above under the note (3) for tax expense.

CASH FLOW

Operating activities

Net cash flows used in operating activities in FY2020 amounted to RMB107.8 million while net cash flows generated from operating activities in FY2019 amounted to RMB24.7 million. This was mainly due to the increase in inventories, advances to suppliers, trade and other receivables, other payables and repayment of amount due to director.

Investing activities

Net cash flows generated from investing activities in FY2020 amounted to RMB351.5 million while net cash flows used in investing activities in FY2019 amounted to RMB35.2 million. This was mainly due to the proceeds received from the purchasers for the disposal of the office building in Xiamen HQ.

Financing activities

Net cash flows used in financing activities in FY2020 amounted to RMB110.5 million while net cash flows generated from financing activities in FY2019 amounted to RMB14.3 million. This was mainly due to the higher repayments of short-term bank loans in FY2020 as compared to FY2019.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The performance for FY2020 is in line with the Company's commentary in paragraph 10 of its results announcement released to SGX via SGXNET on 14 August 2020.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Group continues to operate under a highly challenging and competitive environment as the zipper industry in the People's Republic China ("PRC") faces intense competition with razor thin profit margins.

The Group expects the uncertainties from the current trade war tension between the United States and PRC to have a negative impact on the revenue of the Group going forward. Cost pressures arising from higher production and labour costs will also continue to affect the Group's operating outlook for the next twelve months. The Group is automating its manufacturing process progressively to mitigate the above mentioned cost pressures. The Group intends to sharpen its competitive edge with automation and improve the quality

of its zippers, so that the Group is able to secure higher margin sales orders from new customer segments. In addition, the Group will also keep a tight rein over its operating costs and monitor its receivables and collections closely.

Update on impact of COVID-19 pandemic on the Group's operations in PRC

After the break from Chinese New Year, the Group experienced some delays in the commencement of production as the workers were staggered to return to work due to concerns over the COVID-19 outbreak. In the subsequent months, the Group has progressively resumed operations with normalcy returning and as of to date, the Group is able to fulfill the customers' orders on time.

Update on the Company's Proposed Disposal of Property-completion and use of proceeds

The Company refers to the announcement dated 4 December 2020 and 3 February 2021 and wishes to update that the Group has completed the disposal and sale of all units of the Disposal Property (the "Disposal"). The Group has received all the sales considerations from the purchasers, save for RMB14.3 million outstanding (which constituted approximately 3.3% of the total sales consideration of RMB430.3 million receivable) to be received from two purchasers who are pending the relevant bank approvals for their office units.

As at the date of this announcement, the net proceeds raised from the Disposal amounted to approximately RMB372.3 million after excluding the sales consideration receivable of RMB14.3 million (as mentioned above) and deducting the related costs and expenses in connection with the Disposal. The updates on the utilisation of the net proceeds from the Disposal as disclosed in the Circular are as follows:

Intended use of net proceeds as disclosed in the Circular (In RMB'000)	Amount allocated	Amount utilised	Balance to be utilised
Repayment of bank borrowings including the mortgage loan for the office building	170,000	170,000	-
