E. Notes to the condensed interim consolidated financial statements

1 Corporate information

Green Build Technology Limited (the “Company”) (Co. Reg. No. 200401338W) is incorporated and domiciled in Singapore and listed on the Main Board of the Singapore Exchange Securities Trading Limited.

The registered office of the Company is at 16 Raffles Quay, #17-03 Hong Leong Building, Singapore 048581.

The principal activity of the Company is that of investment holding. The principal activities of the Group’s operations are (i) construction, operation and management of sustainable development projects, (ii) energy conservation services and installation of green technology and architecture, (iii) management, (iv) hotel management and (v) investment holdings.

As at 31 March 2026, the Group consists of the Company and its subsidiaries which include Hotel Nuve Urbane Pte Ltd (“Urbane”) and Hotel Nuve Elements Plus Pte Ltd (“Elements Plus”). The subsidiaries are in the business of providing hotel management and consultancy services.

2 Basis of preparation

The condensed interim financial statements for the financial period ended 31 March 2026 (“1Q2026”) have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance since the last audited financial statements for the financial year ended 31 December 2025. The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in paragraph 2.2 below. The condensed interim financial statements are presented in Singapore dollar (“S\$”) and all values in the tables are rounded to the nearest thousand (“S\$’000”), except where otherwise indicated.

2.1 Use of estimates and judgements

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The areas involving a higher degree of judgement in applying accounting policies, or areas where assumptions and estimates have a significant risk of resulting in material adjustment within the next financial year are disclosed in paragraph 2.4 below.

The carrying amounts of cash and cash equivalents, trade and other current receivables and payables, and current borrowings approximate their respective fair values due to the relatively short-term maturity of these financial instruments.

GREEN BUILD TECHNOLOGY LIMITED

(Incorporated in Singapore)
(Co. Reg. No. 200401338W)

2.2 New and revised standards that are adopted

In the current financial period, the Group has adopted all the new and revised SFRS(I) and Interpretations of SFRS(I) (“SFRS(I) INT”) that are relevant to its operations and effective for the current financial year. Changes to the Group’s accounting policies have been made as required, in accordance with the transitional provisions in the respective SFRS(I) and SFRS(I) INT. The adoption of these new/revised SFRS(I) and SFRS(I) INT did not have any material effect on the financial results or position of the Group and the Company.

2.3 Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incurs expenses, including revenues and expenses that relate to transactions with other components of the Group. Operating segments are reported in a manner consistent with the internal reporting provided to the Group’s chief operating decision maker for making decisions about allocating resources and assessing performance of the operating segments.

2.4 Critical accounting judgements and key sources of estimation uncertainty

Estimates, assumptions concerning the future and judgements are made in the preparation of the financial statements. They affect the application of the Group’s accounting policies, reported amounts of assets, liabilities, income and expenses, and disclosures made. They are assessed on an on-going basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances.

Critical judgements in applying the Group’s accounting policies

In the process of applying the Group’s accounting policies, the management has made the following judgements that have the most significant effect on the amounts recognised in the condensed interim financial statements (apart from those involving estimations).

Going concern assumption

As at 31 March 2026, the Group’s and the Company’s current liabilities exceeded its current assets by S\$1,996,000 (31 December 2025: S\$1,895,000) and S\$2,128,000 (31 December 2025: S\$1,940,000) respectively. During the financial period ended 31 March 2026 (“1Q2026”), the Group generated a net loss of S\$169,000 (1Q2025: S\$323,000) while the Company incurred a loss of S\$162,000 (1Q2025: S\$175,000).

These factors indicate the existence of material uncertainties that may cast significant doubt on the Group’s and the Company’s ability to continue as going concerns and to realise their assets and discharge their liabilities in the ordinary course of business.

Nevertheless, the management believes that the use of the going concern assumption in the preparation and presentation of the condensed interim financial statements for 1Q2026 is appropriate after taking into consideration the following factors:

- (i) At the extraordinary general meeting held on 29 November 2024, the Company obtained shareholders’ approval to diversify and carry out the following business activities:
 - provision of management and consultancy for hotels;
 - management of operations of hospitality and lodging related business; and
 - acquisition and investment of hospitality or lodging related assets,

(the “New Business”).

GREEN BUILD TECHNOLOGY LIMITED

(Incorporated in Singapore)
(Co. Reg. No. 200401338W)

In connection with the New Business, the Company will continue to explore new business opportunities to diversify its revenue stream and strengthen shareholders' value.

- (ii) As at the date of this announcement, the Company acquired a 51% equity interest in Hotel Nuve Urbane Pte Ltd ("Urbane"), a hotel management company whose principal activity is that of a hotel operator and it manages a 62-room hotel. Notwithstanding the date of completion of the acquisition of Urbane, all profits generated and losses incurred by Urbane with effect from 1 January 2026 (the "**Effective Transfer Date**") shall be for the account of the Company (to the extent of its 51% shareholding) and the Seller (to the extent of its remaining 49% shareholding).
- (iii) In addition, the Company is also looking to capital markets to explore fundraising opportunities to strengthen its cash and financial position.

As announced on 29 April 2026, the Company had, on the same day, entered into a subscription agreement with Helyon Pte. Ltd. (the "**Subscriber**") (the "**Subscription Agreement**") in connection with the allotment and issuance to the Subscriber: (i) 600,000,000 new ordinary shares in the capital of the Company (each a "**Subscription Share**", and collectively the "**Subscription Shares**") at an issue price of S\$0.016 for each Subscription Share; and (ii) 360,000,000 free, non-listed and non-transferable warrants (the "**Warrants**" and each a "**Warrant**"), with each Warrant carrying the right to subscribe for one (1) new ordinary share in the capital of the Company at an exercise price of S\$0.02 for each new share (the "**Proposed Placement**"). The Company will be seeking shareholders' approval for the Proposed Placement at an extraordinary general meeting ("**EGM**") to be convened and a corresponding circular containing the notice of the EGM will be despatched to shareholders in due course. The Proposed Placement, if approved by shareholders at the EGM, would raise net proceeds of approximately S\$9,067,000 (before the exercise of any Warrants). For more information on the Proposed Placement, shareholders may refer to the Company's announcement dated 29 April 2026 in relation to the Proposed Placement.

The condensed interim financial statements have been prepared on the assumptions that the Group and the Company will continue as going concerns. If the Group and the Company are unable to continue in operational existence for the foreseeable future, the Group and the Company may be unable to realise their assets and discharge their liabilities in the normal course of business and adjustments may have to be made to reflect the situation that assets may need to be realised other than in the normal course of business and at amounts which could differ significantly from the amounts at which they are currently recorded in the statements of financial position. In addition, the Group and the Company may have to provide for further liabilities that might arise, and to reclassify non-current assets and liabilities as current assets and liabilities, respectively. No such adjustments have been made to these financial statements.
