E. Notes to the condensed interim consolidated financial statements

1 Corporate information

Green Build Technology Limited (the "Company") (Co. Reg. No. 200401338W) is incorporated and domiciled in Singapore and listed on the Main Board of the Singapore Exchange Securities Trading Limited.

The registered office of the Company is at 16 Raffles Quay, #17-03 Hong Leong Building, Singapore 048581. The principal place of business of the Group is at No. 1 Longxi Xiaoqu, Block T1, Room 3401, Daoli District, Harbin City, Heilongjiang Province, the People's Republic of China (the "PRC").

The principal activity of the Company is that of investment holding. The principal activities of the Group's operations are (i) construction, operation and management of sustainable development projects, (ii) energy conservation services and installation of green technology and architecture, (iii) management and (iv) investment holdings.

2 Basis of preparation

The condensed interim financial statements for the financial period ended 30 June 2023 ("HY2023") have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last audited financial statements for the financial year ended 31 December 2022. The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in paragraph 2.2 below. The condensed interim financial statements are presented in Renminbi ("RMB") and all values in the tables are rounded to the nearest thousand ("RMB'000"), except where otherwise indicated.

2.1 Use of estimates and judgements

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The areas involving a higher degree of judgement in applying accounting policies, or areas where assumptions and estimates have a significant risk of resulting in material adjustment within the next financial year are disclosed in paragraph 2.4 below.

The carrying amounts of cash and cash equivalents, current service concession receivables, trade and other current receivables and payables, and current borrowings approximate their respective fair values due to the relatively short-term maturity of these financial instruments.

2.2 New and revised standards that are adopted

The Group and the Company have adopted the new and revised SFRS(I)s, and interpretations of SFRS(I) ("SFRS(I) INTs") that are effective for the annual period beginning on 1 January 2023. The adoption of these SFRS(I)s and SFRS(I) INTs did not have any significant effect on the condensed interim financial statements of the Group and the Company.

2.3 Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incurs expenses, including revenues and expenses that relate to transactions with other components of the Group. Operating segments are reported in a manner consistent with the internal reporting provided to the Group's chief operating decision maker for making decisions about allocating resources and assessing performance of the operating segments.

2.4 Critical accounting judgements and key sources of estimation uncertainty

Estimates, assumptions concerning the future and judgements are made in the preparation of the financial statements. They affect the application of the Group's accounting policies, reported amounts of assets, liabilities, income and expenses, and disclosures made. They are assessed on an on-going basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances.

Critical judgements in applying the Group's accounting policies

In the process of applying the Group's accounting policies, the management has made the following judgements that have the most significant effect on the amounts recognised in the condensed interim financial statements (apart from those involving estimations).

Going concern assumption

As at 30 June 2023, the Group's and the Company's current liabilities exceeded its current assets by RMB8,339,000 (31 December 2022: RMB97,853,000) and RMB9,924,000 (31 December 2022: RMB7,478,000) respectively. During HY2023, the Group generated a net profit of RMB93,202,000 (HY2022: RMB4,198,000) while the Company incurred a loss of RMB635,000 (HY2022: RMB1,522,000). In addition, the Covid-19 pandemic and the zero-Covid-19 strategy adopted by the PRC for the financial year ended 31 December 2022 has brought about uncertainties to the Group's and the Company's operating environments and has impacted the Group's operations in the PRC and its financial performance, cash flow and liquidity.

These factors indicate the existence of material uncertainties that may cast significant doubt on the Group's and the Company's ability to continue as going concerns and to realise their assets and discharge their liabilities in the ordinary course of business.

Nevertheless, the management believes that the use of the going concern assumption in the preparation and presentation of the condensed interim financial statements for HY2023 is appropriate after taking into consideration the following factors:

- (i) Following the Disposal of the Discontinued Operations, the excess of current liabilities over current assets of the Continuing Operations has been reduced to RMB8.3 million as at 30 June 2023. This is significantly lower in comparison with the Group's excess of current liabilities over current assets of RMB97.9 million as at 31 December 2022. The Group has also recorded a gain on sale of the Discontinued Operations of RMB93.4 million in HY2023.
- (ii) As at the date of this announcement, the Company has entered into loan agreements for the loans of approximately RMB3.1 million from two lenders for working capital purposes and for investment in hotel management businesses in Singapore.
- (iii) Sourcing and procurement of new business and projects similar to the Group's existing business to increase revenue stream.

The condensed interim financial statements have been prepared on the assumptions that the Group and the Company will continue as going concerns. If the Group and the Company are unable to continue in operational existence for the foreseeable future, the Group and the Company may be unable to realise their assets and discharge their liabilities in the normal course of business and adjustments may have to be made to reflect the situation that assets may need to be realised other than in the normal course of business and at amounts which could differ significantly from the amounts at which they are currently recorded in the statements of financial position. In addition, the Group and the Company may have to provide for further liabilities that might arise, and to reclassify non-current assets and liabilities as current assets and liabilities, respectively. No such adjustments have been made to these financial statements.
