Restrictions on distribution

The distribution of this Information Memorandum and any Pricing Supplement and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Information Memorandum or any Pricing Supplement comes are required by the Issuer, HTC and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Information Memorandum or any Pricing Supplement and other offering material relating to the Notes, see "Subscription and Sale". In particular, Notes have not been and will not be registered under the United States Securities Act of 1933 (as amended) (the "Securities Act") and are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to U.S. persons.

Neither this Information Memorandum nor any Pricing Supplement constitutes an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by the Issuer, HTC, the Dealers or any of them that any recipient of this Information Memorandum or any Pricing Supplement should subscribe for or purchase any Notes. Each recipient of this Information Memorandum or any Pricing Supplement shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer or HTC.

Notification under Section 309B(1) of the Securities and Futures Act, Chapter 289 of Singapore, as modified or amended from time to time (the "SFA"): Unless otherwise stated in the Pricing Supplement in respect of any Notes, all Notes issued or to be issued under the Programme shall be prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

PROHIBITION OF SALES TO EEA RETAIL INVESTORS: The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). Consequently no key information document required by Regulation (EU) No. 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Product Governance under Directive 2014/65/EU (as amended) – A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**EU MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

The Pricing Supplement in respect of any Notes may include a legend entitled "EU MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to EU MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

Product Governance under UK MiFIR: A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR product governance rules set out in the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

Programme limit

The maximum aggregate principal amount of Notes outstanding and guaranteed at any one time under the Programme will not exceed U.S.\$500,000,000 (and for this purpose, any Notes denominated in another currency shall be translated into U.S. dollars at the date of the agreement to issue such Notes (calculated in accordance with the provisions of the Dealer Agreement)). The maximum aggregate principal amount of Notes which may be outstanding at any one time under the Programme may be increased from time to time, subject to compliance with the relevant provisions of the Dealer Agreement as defined under "**Subscription and Sale**".

Stabilisation

In connection with the issue of any Tranche of Notes under the Programme, the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the applicable Pricing Supplement may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail.

However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilising action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or person(s) acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws and rules.

RISK FACTORS

Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes, the business of the Issuer and the Guarantor and the industries in which each of them operates together with all other information contained in this Information Memorandum, including, in particular the risk factors described below. Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Information Memorandum have the same meanings in this section.

Prospective investors should note that the risks relating to the Issuer and the Guarantor, the industries in which each of them operates and the Notes summarised in the section of this Information Memorandum headed "Summary of the Programme" are the risks that the Issuer and the Guarantor believe to be essential to an assessment by a prospective investor of whether to consider an investment in the Notes. However, as the risks which the Issuer and the Guarantor face relate to events and depend on circumstances that may or may not occur in the future, prospective investors should consider, among other things, the risks and uncertainties described below.

The following is not an exhaustive list or explanation of all risks which investors may face when making an investment in the Notes and should be used as guidance only. Additional risks and uncertainties relating to the Guarantor and its consolidated subsidiaries taken as a whole that are not currently known to the Guarantor and its consolidated subsidiaries taken as a whole, or that either currently deems immaterial, may individually or cumulatively also have a material adverse effect on the business, prospects, results of operations and/or financial position of the Guarantor and its consolidated subsidiaries taken as a whole and, if any such risk should occur, the price of the Notes may decline and investors could lose all or part of their investment. Investors should consider carefully whether an investment in the Notes is suitable for them in light of the information in this Information Memorandum and their personal circumstances.

Risks Relating to the Guarantor and its consolidated subsidiaries taken as a whole

1) Risks Related to COVID-19

The spread of COVID-19 has caused restrictions on movement, including lockdowns on cities and stay-at-home orders and requests, closures of business establishments, restrictions on production activities, decreases in consumer spending and capital expenditure, supply chain disruptions, sporadic violent fluctuations in capital markets worldwide and deterioration in the financing environment. As a consequence, it has caused economic deterioration of the world and had adverse effects on the businesses, financial position and operating results of the Guarantor, its consolidated subsidiaries and equity-method associates and joint ventures (the "Group"). COVID-19 may have additional adverse effects depending on its future course.

The effects that COVID-19 is expected to have on the Group's business in each segment are as follows.

2) Risks Related to Market

Economic Trends

The Group's business is influenced by the global economy and economic conditions in certain regions or countries. The Group is affected by downward economic trends in the regions, countries and Japan. Such economic conditions could cause decline in consumer spending or capital investment and subsequently reduced demand for the Group's products, systems and services, which could adversely affect its business, financial condition and results of operations.

Currency Exchange Rates Fluctuations

Since the Group conducts business in many foreign countries, the Group's business activities are exposed to risks from fluctuations in foreign currency exchange rates. The Group sells products, provides services and purchases raw materials and components in local currencies. Therefore, fluctuations in foreign currency exchange rates may result in lower revenues or higher costs in yen to the Group and thus affect its results of operations, which are reported in Japanese yen. The Group's price competitiveness may decline if the Group seeks to increase prices in local currencies to compensate for lower revenues or to increase prices in yen to absorb the higher cost, and the Group's results of operations may be adversely affected accordingly. In addition, since the Group holds assets and liabilities denominated in foreign currencies, fluctuations in foreign currency exchange rates may adversely affect its financial condition which are presented in Japanese yen through foreign currency translation.

The table below shows the foreign exchange sensitivity for the fiscal year ending 31 March 2021 (impact of exchange rate fluctuation by one-yen fluctuation from the forecasted rate) estimated as of 30 June 2020.

Currency	Forecast	Foreign exchange sensitivity (Billions of yen)	
		Revenues	Adjusted Operating Income
U.S. dollar	105 yen / U.S. dollar	17.0	1.5
Euro	120 yen / Euro	4.0	1.0

Access to Liquidity and Long-term Financing

The Group's primary sources of funds are cash flows from operations, borrowings from banks and other institutional lenders, and funding from capital markets, such as offerings of commercial paper and other debt securities, as well as equity securities. The Group needs liquid funds to pay its operating

expenses, the principal of and interest on its debt and dividends on its capital stock. The Group also needs long-term financing to fund, among other things, capital expenditures and research and development expenses. The Group currently believes its cash flows from operations, borrowings from banks and other institutional lenders and funding from the capital markets can provide sufficient funding for its operations and other liquidity needs. However, a global economic downturn could adversely affect the Group's cash flows from operations, business results and financial condition and may adversely affect the Guarantor's credit ratings. If the Guarantor's ratings are downgraded, its ability to obtain additional financing on terms the Group considers favourable may be negatively affected.

The Guarantor's reliance on banks and institutional lenders exposes it to risks related to rising interest rates, and the Guarantor may need to increase its reliance on external sources of funding. An increased reliance on debt instruments may adversely affect the Guarantor's credit ratings, which may affect the Group's ability to successfully obtain additional financing on terms the Group considers favourable. The inability to successfully obtain such financing may increase its financing costs, and therefore could adversely affect its financial condition and results of operations.

Furthermore, insolvency of one or more of the Group's major lenders or a decision by one or more of them to change the terms and conditions of their loans or to stop lending to the Group could have an adverse effect on its access to funding.

Securities Risks

The Group invests in securities to maintain or promote its business or other relationships with other companies. These securities are exposed to the risk of declining stock prices. Such declines may require that the Guarantor and its consolidated subsidiaries write down equity securities that they hold. Further, contractual and other obligations may require the Guarantor and its consolidated subsidiaries to maintain their holdings of these securities despite declining share prices which may lead to material losses.

The table below shows the number of stock names and balance sheet amount of the stocks owned by the Guarantor at the end of the fiscal year ended 31 March 2020.

	Number of stock names (stock names)	Total amount recorded in the balance sheet (millions of yen)
Unlisted stocks	178	39,925
Others	55	101,934

3) Risks Related to Business Environment

Material and Component Procurement

The Group's manufacturing operations rely on external suppliers for supplies of materials, parts, components and services of adequate quality and quantity, delivered in a timely manner at a reasonable price. External suppliers may not have sufficient capacity to meet all of the Group's needs during periods of excess demand. Shortages of materials, parts, components and services may cause a sharp rise in their prices. In addition, prices of certain raw materials, parts and components which the Group purchases in local currencies, principally the U.S. dollar and the euro, could be adversely affected by fluctuations in foreign currency exchange rates. Increases in the market price of petroleum and other materials, such as copper, steel, synthetic resins, rare metals and rare-earth minerals, can increase the Group's production costs and may adversely affect its results of operations. Conversely, decreases in commodity prices, such as for raw materials, parts and components, can result in write-downs of inventory.

If natural disasters disrupt the operations of the Group's suppliers and damage supply chains, the Group's production may be adversely affected. If there are violations of laws or regulations by the Group's suppliers, including infringements of rights of workers such as child labour and forced labour, the Group's reputation as an entity that places orders may decline and the stable procurement of raw materials or parts from the suppliers may be hindered, which may adversely affect the Group's business, financial condition and results of operations.

Estimates, Fluctuations in Cost and Cancellation of Long-term Projects

The Group enters into a substantial number of long-term projects, particularly in connection with the construction of infrastructure systems. When the outcome of a construction can be estimated reliably, the Group recognises revenue and expenses by reference to the stage of completion of the contract activity. In this case, revenue is recognised mainly based on the progress of the project mostly based on the cost incurred relative to the estimated total cost. When the outcome of a construction cannot be estimated reliably, the Group recognises revenue only to the extent of contract costs incurred that it is probable will be recoverable, and recognises contract costs as expenses in the period in which such costs are incurred. The revenue recognition for such long-term projects requires the Group to make significant assumptions about the estimated total cost, estimated total selling price, contract risks and other factors. However, these estimates are subject to change. The Group regularly reviews these estimates and adjusts them as it deems necessary. The Group charges any anticipated losses on fixed price contracts to operations when the Group is able to estimate such losses. While the Group employs its best judgment based on available information, these estimates are subject to change. Fluctuations in costs can occur for a variety of reasons, many of which are beyond the Group's control. In addition, the Group or its counterparties may cancel these contracts. These factors would require the Group to revise its initial assumptions regarding a particular contract, and may adversely affect its business, financial condition and results of operations.

Intense Competition

The Group is subject to intense competition in many of the markets in which the Group operates, and this may adversely affect its results of operations. The Group competes with diverse competitors ranging from huge global corporations to specialised companies. Advanced products, systems and services are becoming general use products. The production and development of such products, systems and services and the provision of services in low-cost regions, and use of the cloud and automation are expanding. As a result, price competition is intensifying. To succeed in this competitive environment, the Group believes that its products, systems and services must be price competitive. The commoditisation of such products affects the Group's ability to set prices for its products. If the Group is unable to charge comparable prices to those of its competitors, its competitiveness and overall profitability may be harmed. On the other hand, charging comparable prices to those of the Group's competitors may require the Group to sell products and services at a loss. The Group's products, systems and services must also be competitive in terms of engineering sophistication, quality and brand value. The Group must introduce its products and services to the markets in a timely manner. There can be no assurance that the products, systems or services that the Group offers will be competitive. The failure of such products, systems or services to be competitive may negatively affect the Group's business, financial condition and results of operations.

Dependence on Specially Skilled Personnel

The Group believes recruiting additional and retaining existing people who are highly skilled in connection with its operations is indispensable to remaining competitive. The Group looks particularly for human resources with the following attributes: abilities to work globally, to identify customer needs, to work near customers, to provide optimal solutions and services and to take the lead in digital transformation. However, the number of skilled personnel is limited and the competition for attracting and maintaining such personnel is intense. The Group cannot ensure that the Group will be able to successfully attract new or maintain its current skilled personnel.

Rapid Technological Innovation

New technologies are rapidly emerging in the segments in which the Group conducts business, with the pace of technological innovation. The development of new and advanced technologies, the continuous, timely and cost-effective incorporation of such technologies into products, systems and services and the effective marketing of such products, systems and services are indispensable to remaining competitive. It is important to respond to technological innovations, including 5G (fifth-generation mobile communications system), automation and electrification using technologies such as AI, the IoT and robots, remote and non-contact technologies and environmentally friendly technologies. While introducing such products, systems and services requires significant resource to be allocated to research and development, there can be no assurance that the Group's research and development will be successful. Failure in the Group's endeavours to develop and incorporate such advanced technologies into products and services in a

timely manner, or to achieve market acceptance for such products, systems and services, may negatively affect its business, financial condition and results of operations.

Supply and Demand Balance

Oversupply in the markets in which the Group competes may lead to declines in sales prices, revenues and profitability. In addition, adjustment to demand may force the Group to dispose of excess supply or obsolete equipment or to reduce production, which can result in losses. For example, the imbalance between supply and demand in information systems, construction machinery and automotive equipment industries and a resultant deterioration in market conditions could negatively affect the Group's businesses, financial condition and results of operations.

Credit Risks Arising from Business Transactions

The Group enters into transactions with diverse customers and suppliers in Japan and other countries. The Group sells its products to certain customers on credit and pays in advance for products or services provided by certain suppliers. While the Group takes measures to manage counterparty credit risk, such as regularly monitoring credit conditions of such customers or suppliers and setting a limit on transaction amount according to their credit conditions, credit deterioration of or failure to pay by of one or more of them could adversely affect its financial condition, results of operations and cash flows.

4) Risks Related to Management Policy and Strategy

The Group's Strategy to Strengthen its Social Innovation Business

The Group's business strategy seeks to build its business portfolio and achieve a stable and profitable business structure mainly by strengthening its Social Innovation Business, which supplies advanced social infrastructure supported by information and communication technology. The Group plans to devote significant resources including capital expenditures and R&Ds and is making investments in mergers and acquisitions and in new projects to strengthen its Social Innovation Business. In addition, the Group attempts to design suitable organisational structure for promoting its Social Innovation Business more effectively in response to market changes. To implement this strategy, the Group has incurred and may continue to incur considerable expenses. The Group's efforts to implement this strategy may be unsuccessful or less successful than the Group currently anticipates. Even if these efforts are successful, there is no assurance that the Group will be able to sustain or increase profitability.

Acquisitions, Joint Ventures and Strategic Alliances

In every operating sector, the Group depends to some degree on acquisitions of other companies, joint ventures and strategic alliances with outside partners to design and develop key new technologies and products, to strengthen competitiveness by scaling up and to expand into new regions through acquiring local bases or distribution channels. Such transactions are inherently risky because of the difficulties in integrating operations, technologies, products and personnel and achieving return of the investment. Integration issues are complex, time-consuming and expensive and, without proper planning and implementation, could adversely affect the Group's business. Decisions made by or the performance of alliance partners that the Group cannot control or adverse business trends may also negatively affect the success of its alliances. The Group may incur significant acquisition, administrative and other costs in connection with these transactions, including costs related to integration or restructuring of acquired businesses. If it is expected that the amount invested is irrecoverable due to a decline in the profitability of an investee, the Group may incur significant losses, including impairment loss for goodwill. There can be no assurance that these transactions will be beneficial to the Group's business or financial condition. The Group recorded goodwill of ¥204,243 million in the IT segment and ¥158,010 million in the Industry segment as of 31 March 2020. Even assuming these transactions are beneficial, there can be no assurance that the Group will be able to successfully integrate acquired businesses or achieve all or any of the initial objectives of these transactions.

Restructuring of the Group's Business

The Group's business strategy seeks to build its business portfolio and achieve a stable and profitable business structure in part by:

- closing unprofitable operations;

- divesting the Guarantor's subsidiaries and affiliated companies;
- reorganising production bases and sales networks; and
- selling selected assets.

The Group's restructuring efforts may not be implemented in a timely manner or at all, including due to governmental regulations, employment issues or a lack of demand in the M&A market for businesses the Group may seek to sell. In addition, the Guarantor has listed subsidiaries and from time to time the interests of these listed subsidiaries' shareholders may conflict with the Guarantor's interests. Such conflicts of interest may result in difficulties in timely implementing group-wide policies, including mergers, company splits and other similar transactions to which the listed subsidiaries are parties. Restructuring efforts may also bring about unintended consequences, such as negative customer or employee perceptions, and have caused and may continue to cause the Group to incur significant expenses and other costs, including additional impairment losses on its fixed assets and intangible assets, write-offs of inventory and losses on the disposal of fixed assets and losses related to the sale of securities.

Current and future restructuring efforts may be unsuccessful or less successful than the Group presently anticipates and may adversely affect its business, financial condition and results of operations.

The Group's Overseas Growth Strategies

The Group seeks to expand its business, including its Social Innovation Business, in overseas markets as part of its business strategy. Through such overseas expansion, the Group aims to increase its revenues, reduce its costs and improve profitability. In many of these markets, the Group faces barriers in the form of long-standing relationships between its potential customers and their local suppliers. In addition, various factors in foreign countries where the Group operates may adversely affect its overseas business activities. These factors include:

- changes in regulations relating to investments, exports, tariffs, antitrust, anti-bribery, consumer and business taxation, intellectual property, foreign trade and exchange controls, human rights, employment and labour and environmental and recycling requirements;
- differences in commercial and business customs such as contract terms and conditions;
- changes in labour relations and practices;
- public sentiment against Japan, local residents' sentiment against the Group and various interest groups' criticism of the Group; and
- other political and social factors as well as economic trends and currency exchange rate fluctuations.

Because of these factors, there can be no assurance that the Group will be able to achieve the aims of its overseas growth strategy. This may adversely affect its business growth prospects and results of operations. For example, the future relations between the UK and other countries after Brexit could have significant adverse effects on the Group's railway system business that the Group operates in the UK.

Worsening of Business Performance of Equity-Method Associates and Joint Ventures

The Guarantor and its consolidated subsidiaries use the equity-method to account for a number of associates and joint ventures. If one or more of such associates or joint ventures, accounted for using the equity-method, records a loss during a given period, the Group must record that loss in a manner proportionate to its ownership interest in its consolidated financial statements. In addition, if the carrying amount of equity-method investments in associates or joint ventures by the Guarantor and its consolidated subsidiaries is below the recoverable amount of the investments, they could be required to record an impairment loss.

The table below shows investments accounted for using the equity method as of 31 March 2020.

Overhaul of Cost Structure

The Group implements "the Hitachi Smart Transformation Project", which promotes cost reductions in all activities of its value chain by thoroughly overhauling its cost structure across the Group. The Group seeks to stabilise earnings and strengthen cash flows by improving its management efficiency through the project. The project may be less successful than the Group currently anticipates. Even if the project is successful, there is no assurance that the Group will be able to sustain or increase profitability.

5) Other Risks Affecting the Overall Management

Significant Disasters, Climate Change and Similar Events

The Group has many facilities, including its R&D facilities, manufacturing facilities and the Guarantor's headquarter in Japan. Historically, Japan has experienced numerous natural disasters such as earthquakes, tsunamis and typhoons. Natural disasters in the future may have a significantly adverse effect on an array of the Group's corporate activities, from production to sales. The Group also has overseas facilities such as in Asia, the U.S. and Europe, which are also subject to similar natural disasters. Natural disasters in each of the areas may cause damage on certain of the Group's plants and offices and the operations of its suppliers and customers. Due to climate change, large-scale natural disasters, including drought, rising sea levels, long heat waves and floods, may become more serious. Such significant natural disasters may directly damage or destroy the Group's facilities, which could disrupt its operations, delay new production and shipments of existing inventory or result in costly repairs, replacements or other costs, all of which would result in significant losses. Furthermore, even if such significant natural disasters do not directly affect the Group's facilities, they could result in disruptions in distribution channels or supply chains. The spread of infectious diseases and geopolitical and social instability, such as terrorism, crime, civil disturbance and conflict, may also disrupt the Group's operations, render its employees unable to work, reduce consumer demand for its products or disrupt its supply and distribution channels. In addition, the Group is not insured against all potential losses, and even losses that are covered by insurance may not be fully covered and may be subject to challenges of or delays in payment. Direct and indirect disruption of the Group's operations as a result of natural disasters or other events could have a negative impact on its operating activities, results of operations and financial condition.

Litigation and Regulatory Investigations

The Group faces risks of litigation and alternative dispute resolution and regulatory investigation and actions in connection with its operations. Lawsuits or any other legal procedures for resolving disputes and regulatory actions may seek payment of large, indeterminate amounts or otherwise limit its operations, and their existence and magnitude may remain unknown for substantial periods of time.

In the past, the Group has been the subject of several investigations of alleged antitrust violations in relation to certain product markets in some countries and regions including Japan, Europe and North America and received claims for damages from its customers and other parties, which may have adverse effects on its financial condition or profitability. These investigations or disputes may result in significant penalties or compensation for damages. Such substantial legal liability or regulatory action could have an adverse effect on the Group's business, results of operations, financial condition, cash flows, reputation and credibility.

In addition, the Group's business activities are subject to various governmental regulations in countries where the Group operates, which include investments, exports, tariffs, antitrust, anti-bribery, consumer and business taxation, intellectual property, foreign trade and exchange controls, human rights, employment and labour and environmental and recycling requirements. These regulations limit, and other new or amended regulations may further limit, the Group's business activities or increase operating costs. In addition, the enforcement of such regulations, including the imposition of fines or surcharges for violation of such regulations, may adversely affect the Group's results of operations, financial condition, cash flows, reputation and credibility. For example, environmental regulations in response to climate change, tax related to carbon emissions and energy consumption tax could adversely affect the Group's

business and results of operations chiefly by increasing operating costs and resulting in losses of opportunities due to delays in technology development of environmentally friendly products and services. Regulations for protecting personal data also could adversely affect the Group's business.

Product Quality and Liability

The Group increasingly provides products and services utilising sophisticated technologies. Reliance on external suppliers reduces the Group's control over quality assurance. Defects in the Group's products and services could negatively affect its reputation for quality of products and services, expose the Group to liability for damages caused by such defects and negatively affect its ability to sell certain products. A significant product defect could adversely affect the Group's results of operations, financial condition and future business prospects.

Dependence on Information Systems

With the increased importance of information systems to the Group's operating activities, disruptions in such systems due to computer viruses and other factors could have a negative impact on its operating activities, results of operations and financial condition. The expansion of remote work is at risk of generating new security risks, including information leakage.

Management of Confidential Information

The Group maintains and manages personal information obtained from its customers, as well as confidential information relating to its technology, research and development, production, marketing and business operations and those of its customers and clients, in various forms. Unauthorised disclosures of such information could subject the Group to complaints or lawsuits for damages or could otherwise have a negative impact on its business, financial condition, results of operations, reputation and credibility.

Intellectual Property

The Group depends in part on proprietary technology and its ability to obtain patents, design right, trademarks and other forms of intellectual property rights covering its products, product design, manufacturing processes and software-based services in Japan and other countries. The fact that the Group holds such intellectual property rights does not ensure that they will provide a competitive advantage to the Group. Various parties may challenge, invalidate or circumvent the Group's patents, design right, trademarks and other intellectual property rights. There can be no assurance that claims allowed on any future patents will be sufficiently broad to protect the Group's technology. Effective patent, design right, copyright and trade secret protection may be unavailable or limited in some of the markets in which the Group operates, and its trade secrets may be vulnerable to disclosure or misappropriation by employees, contractors and other persons.

The Group designs many of its products to include software or other intellectual property licences from third parties. Competitors may not make their protected technology available to the Group, or may make it available to the Group only on unfavourable terms and conditions. There can be no assurance that the Group will be able to maintain a licence for such intellectual property if obtained, for economic or other reasons, or that such intellectual property will give the Group the commercial advantages that the Group desires.

From time to time, the Group is sued or receives notices regarding patent design right and other intellectual property claims. Whether or not these claims have merit, they may require significant resources to defend against and may divert management attention from the Group's business and operations and result in harm to its reputation. In addition, a successful infringement claim and the Group's inability to obtain the licence for the infringed technology or substitute similar non-infringing technology may adversely affect the Group's business.

Employee Retirement Benefits

The Group has a significant amount of employee retirement benefit costs that the Group derives from actuarial valuations based on a number of assumptions. Inherent in these valuations are key assumptions used in estimating pension costs including mortality, withdrawal and retirement rates, changes in wages and the discount rate. The Group is required to make judgments regarding the key assumptions by taking into account various factors including personnel demographics, market conditions and expected

trends in interest rates. Although management believes that its key assumptions are reasonable in light of the various underlying factors, there can be no assurance that the key assumptions will correspond to actual results. If the Group's key assumptions differ from actual results, the consequent deviation of actual pension costs from estimated costs may have an adverse effect on its financial condition and results of operations. A decrease in the discount rate may result in an increase in the amount of projected benefit obligations. In addition, the Group may change these key assumptions, such as the discount rate. Changes in key assumptions may also have an adverse effect on its financial condition and results of operations.

Risks Relating to the Notes

There is no active trading market for the Notes.

Notes issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche of Notes which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer. Although applications may be made for certain of the Notes issued under the Programme to be listed on the SGX-ST, there is no assurance that such applications will be accepted, that any particular Tranche of Notes will be so listed or that an active trading market will develop. Accordingly, there is no assurance as to the development of any trading market for or liquidity of any particular Tranche of Notes.

The Notes may be redeemed prior to maturity.

Unless in the case of any particular Tranche of Notes the relevant Pricing Supplement (as the case may be) specifies otherwise, in the event that the Issuer or the Guarantor would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of Singapore, Japan or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes of any Series in accordance with the Conditions.

In addition, if in the case of any particular Tranche of Notes the relevant Pricing Supplement specifies that the Notes are redeemable at the Issuer's option, in certain other circumstances the Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes.

Market values of notes issued at a substantial discount or premium may be volatile.

The market values of securities issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility of such securities issued at a substantial discount or premium to their nominal amount as compared to that of conventional interest-bearing securities with comparable maturities.

Certain benchmark rates, including LIBOR and EURIBOR, may be discontinued or reformed in the future - including the potential phasing-out of LIBOR after 2021.

The London Interbank Offered Rate ("**LIBOR**"), the Euro Interbank Offered Rate ("**EURIBOR**") and other interest rate or other types of rates and indices which are deemed to be benchmarks are the subject of ongoing national and international regulatory discussions and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented.

Regulation (EU) No. 2016/1011 (the "**EU Benchmarks Regulation**") and Regulation (EU) No. 2016/1011 as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the "**UK Benchmarks Regulation**") apply to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the EU and the UK, respectively. The EU Benchmarks Regulation and the UK Benchmarks Regulation could have a material impact on any Notes linked to LIBOR, EURIBOR or another benchmark rate or index, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the terms of the EU

Benchmarks Regulation or the UK Benchmarks Regulation, and such changes could (amongst other things) have the effect of reducing or increasing the rate or level, or affecting the volatility of the published rate or level, of the benchmark. More broadly, any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain "benchmarks," trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the discontinuance or unavailability of quotes of certain "benchmarks."

As an example of such benchmark reforms, on 27 July 2017, the UK Financial Conduct Authority announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 and, on 12 July 2018, announced that the LIBOR benchmark may cease to be a regulated benchmark under the EU Benchmarks Regulation. Such announcements indicate that the continuation of LIBOR on the current basis (or at all) cannot and will not be guaranteed after 2021.

At this time, it is not possible to predict the effect of any establishment of alternative reference rates or any other reforms to LIBOR that may be enacted in the United Kingdom or elsewhere. Uncertainty as to the nature of such alternative reference rates or other reforms may adversely affect the trading market for LIBOR-linked securities. The potential elimination of benchmarks, such as LIBOR, the establishment of alternative reference rates or changes in the manner of administration of a benchmark could also require adjustments to the terms of benchmark-linked securities and may result in other consequences, such as interest payments that are lower than, or that do not otherwise correlate over time with, the payments that would have been made on those securities if the relevant benchmark was available in its current form.

The elimination of the LIBOR benchmark or any other benchmark, or changes in the manner of administration of any benchmark, could require or result in an adjustment to the interest calculation provisions of the Conditions (as further described in Condition 7(k) (*Benchmark Discontinuation*)), or result in adverse consequences to holders of any Notes linked to such benchmark (including Floating Rate Notes whose interest rates are linked to LIBOR, EURIBOR or any other such benchmark that is subject to reform). Furthermore, even prior to the implementation of any changes, uncertainty as to the nature of alternative reference rates and as to potential changes to such benchmark may adversely affect such benchmark during the term of the relevant Notes, the return on the relevant Notes and the trading market for securities (including the Notes) based on the same benchmark.

The Conditions provide for certain fallback arrangements in the event that a published benchmark, such as LIBOR, (including any page on which such benchmark may be published (or any successor service)) becomes unavailable, including the possibility that the rate of interest could be set by reference to a successor rate or an alternative rate and that such successor rate or alternative reference rate may be adjusted (if required) in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of the relevant benchmark, although the application of such adjustments to the Notes may not achieve this objective. Any such changes may result in the Notes performing differently (which may include payment of a lower interest rate) than if the original benchmark continued to apply. In certain circumstances the ultimate fallback of interest for a particular Interest Period may result in the rate of interest for the last preceding Interest Period being used.

This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page. In addition, due to the uncertainty concerning the availability of successor rates and alternative reference rates and the involvement of an Independent Adviser (as defined in Condition 7(k) (*Benchmark Discontinuation*)), the relevant fallback provisions may not operate as intended at the relevant time.

Any such consequences could have a material adverse effect on the value of and return on any such Notes. Moreover, any of the above matters or any other significant change to the setting or existence of any relevant reference rate could affect the ability of the Issuer to meet its obligations under the Floating Rate Notes or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Floating Rate Notes. Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation reforms in making any investment decision with respect to any Notes linked to or referencing a benchmark.

Because the Global Notes are held by or on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on their procedures for transfer, payment and communication with the Issuer.

Notes issued under the Programme may be represented by one or more Global Notes. Such Global Notes will be deposited with a common depository for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive definitive Notes. Euroclear and Clearstream, Luxembourg, as applicable, will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg, as applicable.

While the Notes are represented by one or more Global Notes, the Issuer will discharge its payment obligations under the Notes by making payments through Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg, as applicable, to receive payments under the relevant Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg, as applicable, to appoint appropriate proxies. Similarly, holders of beneficial interests in the Global Notes will not have a direct right under the Global Notes to take enforcement action against the Issuer in the event of a default under the relevant Notes but will have to rely upon their rights under the Deed of Covenant.

Notes may be issued with a minimum denomination.

Notes may be issued with a minimum denomination. The Pricing Supplement of a Tranche of Notes may provide that, for so long as the Notes are represented by a Global Note and Euroclear and Clearstream, Luxembourg (or any other relevant clearing system) so permit, the Notes will be tradable in nominal amounts (a) equal to, or integral multiples of, the minimum denomination, and (b) the minimum denomination plus integral multiples of an amount lower than the minimum denomination.

Where the Pricing Supplement specifies that the Permanent Global Note will be exchangeable "only in the limited circumstances described in the Permanent Global Note", Definitive Notes will only be issued if (a) Euroclear or Clearstream, Luxembourg (or other relevant clearing system), as applicable, is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 13 (*Events of Default*) occurs. The Pricing Supplement may provide that, if Definitive Notes are issued, such Notes will be issued in respect of all holdings of Notes equal to or greater than the minimum denomination. However, Noteholders should be aware that Definitive Notes that have a denomination that is not an integral multiple of the minimum denomination may be illiquid and difficult to trade. Definitive Notes will under no circumstances be issued to any person holding Notes in an amount lower than the minimum denomination.

Any adverse change in an applicable credit rating could adversely affect the trading price for the Notes.

The Programme has been assigned a provisional rating of "(P)A3" by Moody's Japan K.K. ("**Moody's Japan**") and a rating of "A" by S&P Global Ratings Japan Inc. ("**S&P Japan**").

Moody's Japan is not established in the EEA or in the UK but the rating it has given to the Programme is endorsed by (a) Moody's Deutschland GmbH ("**Moody's Germany**"), which is established in the EEA and registered under Regulation (EU) No 1060/2009 on credit rating agencies (the "**EU CRA Regulation**") and (b) Moody's Investors Service Ltd ("**Moody's UK**"), which is established in the UK and registered under Regulation (EU) No 1060/2009 on credit rating agencies as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the "**UK CRA Regulation**").

S&P Japan is not established in the EEA or in the UK but the rating it has given to the Programme is endorsed by (a) S&P Global Ratings Europe Limited ("**SPGRE**"), which is established in the EEA and

registered under the EU CRA Regulation and (b) S&P Global Ratings UK Limited ("**SPGRUK**"), which is established in the UK and registered under the UK CRA Regulation.

Tranches of Notes issued under the Programme may be rated or unrated. Where a Tranche of Notes is to be rated, such rating will not necessarily be the same as the ratings described above. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Any adverse change in an applicable credit rating could adversely affect the trading price for the Notes issued under the Programme.

In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation or (a) the rating is provided by a credit rating agency not established in the EEA but is endorsed by a credit rating agency established in the EEA and registered under the EU CRA Regulation or (b) the rating is provided by a credit rating agency not established in the EEA which is certified under the EU CRA Regulation.

In general, UK regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the UK and registered under the UK CRA Regulation or (a) the rating is provided by a credit rating agency not established in the UK but is endorsed by a credit rating agency established in the UK and registered under the UK CRA Regulation or (b) the rating is provided by a credit rating agency not established in the UK which is certified under the UK CRA Regulation.

Each Temporary Global Note will be exchangeable for a Permanent Global Note or, if so specified in the relevant Pricing Supplement, for Definitive Notes. If the TEFRA D Rules are specified in the relevant Pricing Supplement as applicable, certification as to non-U.S. beneficial ownership will be a condition precedent to any exchange of an interest in a Temporary Global Note or receipt of any payment of interest in respect of a Temporary Global Note. Each Permanent Global Note will be exchangeable for Definitive Notes in accordance with its terms. Definitive Notes will, if interest-bearing, have Coupons attached and, if appropriate, a Talon for further Coupons.
Currencies:	Notes may be denominated in U.S. dollars, Singapore dollars, Japanese yen or in any currency or currencies, subject to compliance with all applicable legal and/or regulatory and/or central bank requirements. Payments in respect of Notes may, subject to such compliance, be made in and/or linked to, any currency or currencies other than the currency in which such Notes are denominated. Notes denominated in Singapore dollars will have a minimum denomination of S\$250,000.
Status of the Notes:	Notes will be issued on an unsubordinated basis.

Maturities:	Any maturity between 1 month and 20 years, subject, in relation to specific currencies, to compliance with all applicable legal and/or regulatory and/or central bank requirements. Where Notes have a maturity of less than one year and either (a) the issue proceeds are received by the Issuer in the United Kingdom or (b) the activity of issuing the Notes is carried on from an establishment maintained by the Issuer in the United Kingdom, such Notes must: (i) have a minimum redemption value of £100,000 (or its equivalent in other currencies) and be issued only to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses; or (ii) be issued in other circumstances which do not constitute a contravention of section 19 of the Financial Services and Markets Act 2000 (the "FSMA") by the Issuer.
Redemption:	Notes may be redeemable at par or at such other Redemption Amount (detailed in a formula, index or otherwise) as may be specified in the relevant Pricing Supplement. Negative Pledge:	The Notes will have the benefit of a negative pledge as described in Condition 5 (<i>Negative Pledge</i>).
Cross Default:	The Notes will have the benefit of a cross default as described in Condition 13 (<i>Events of Default</i>).
Taxation:	All payments in respect of Notes will be made free and clear of withholding taxes of Singapore or Japan, as the case may be, unless the withholding is required by law. In that event, the Issuer will (subject as provided in Condition 12 (<i>Taxation</i>)) pay such additional amounts as will result in the Noteholders receiving such amounts as they would have received in respect of such Notes had no such withholding been required.

Where a Tranche of Notes is rated, the applicable rating(s) will be specified in the relevant Pricing Supplement.

FORMS OF THE NOTES

Each Tranche of Notes will initially be in the form of either a temporary global note (the "**Temporary Global Note**"), without interest coupons, or a permanent global note (the "**Permanent Global Note**"), without interest coupons, in each case as specified in the relevant Pricing Supplement. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a "Global Note") will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear Bank SA/NV as operator of the Euroclear System ("Euroclear") and/or Clearstream Banking S.A. ("**Clearstream, Luxembourg**") and/or any other relevant clearing system.

The relevant Pricing Supplement will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the "**TEFRA C Rules**") or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the "**TEFRA D Rules**") are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Pricing Supplement specifies the form of Notes as being "Temporary Global Note exchangeable for a Permanent Global Note", then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) surrender of the Temporary Global Note at the Specified Office of the Fiscal Agent; and
- (ii) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership, within 7 days of the bearer requesting such exchange.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; *provided, however, that* in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Notes in definitive form ("Definitive Notes"):

- (i) on the expiry of such period of notice as may be specified in the relevant Pricing Supplement; or
- (ii) at any time, if so specified in the relevant Pricing Supplement; or

Temporary Global Note exchangeable for Definitive Notes

If the relevant Pricing Supplement specifies the form of Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules or the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes.

If the relevant Pricing Supplement specifies the form of Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Pricing Supplement), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note at the Specified Office of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If the relevant Pricing Supplement specifies the form of Notes as being "Permanent Global Note exchangeable for Definitive Notes", then the Notes will initially be in the form of a Permanent Global Note which will be exchangeable in whole, but not in part, for Definitive Notes:

- (i) on the expiry of such period of notice as may be specified in the relevant Pricing Supplement; or
- (ii) at any time, if so specified in the relevant Pricing Supplement; or
- (iii) if the relevant Pricing Supplement specifies "in the limited circumstances described in the Permanent Global Note", then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 13 (*Events of Default*) occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Pricing Supplement), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note at the Specified Office of the Fiscal Agent within 30 days of the bearer requesting such exchange.

6. **Fixed Rate Note Provisions**

- (a) *Application:* This Condition 6 (*Fixed Rate Note Provisions*) is applicable to the Notes only if the Fixed Rate Note Provisions are specified in the relevant Pricing Supplement as being applicable.
- (b) *Accrual of interest:* The Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 11 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6 (*Fixed Rate Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).
- (c) *Fixed Coupon Amount:* The amount of interest payable in respect of each Note for any Interest Period shall be the relevant Fixed Coupon Amount and, if the Notes are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination.
- (d) *Calculation of interest amount:* The amount of interest payable in respect of each Note for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Rate of Interest to the principal amount of such Note, multiplying the product by the relevant Day Count Fraction and rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards). For this purpose a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

7. **Floating Rate Note and Index-Linked Interest Note Provisions**

- (a) *Application:* This Condition 7 (*Floating Rate Note and Index-Linked Interest Note Provisions*) is applicable to the Notes only if the Floating Rate Note Provisions or the Index-Linked Interest Note Provisions are specified in the relevant Pricing Supplement as being applicable.
- (b) *Accrual of interest:* The Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 11 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in

which case it will continue to bear interest in accordance with this Condition 7 (*Floating Rate Note and Index-Linked Interest Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) *Screen Rate Determination*: If Screen Rate Determination is specified in the relevant Pricing Supplement as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Calculation Agent on the following basis:

- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Pricing Supplement, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date, where:
 - (A) one rate shall be determined as if the relevant Interest Period were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (B) the other rate shall be determined as if the relevant Interest Period were the period of time for which rates are available next longer than the length of the relevant Interest Period;

provided, however, that if no rate is available for a period of time next shorter or, as the case may be, next longer than the length of the relevant Interest Period, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate;

- (iii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iv) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than three such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (A) request the principal Relevant Financial Centre office of each the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations; and
- (v) if fewer than three such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; *provided, however, that* if the Calculation

Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

- (d) *ISDA Determination*: If ISDA Determination is specified in the relevant Pricing Supplement as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where "**ISDA Rate**" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:
- (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Pricing Supplement;
 - (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Pricing Supplement;
 - (iii) the relevant Reset Date (as defined in the ISDA Definitions) is either (A) if the relevant Floating Rate Option is based on the London inter-bank offered rate (LIBOR) for a currency, the first day of that Interest Period or (B) in any other case, as specified in the relevant Pricing Supplement; and
 - (iv) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Pricing Supplement, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates based on the relevant Floating Rate Option, where:
 - (A) one rate shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (B) the other rate shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period
- provided, however, that if there is no rate available for a period of time next shorter than the length of the relevant Interest Period or, as the case may be, next longer than the length of the relevant Interest Period, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.*
- (e) *Index-Linked Interest*: If the Index-Linked Interest Note Provisions are specified in the relevant Pricing Supplement as being applicable, the Rate(s) of Interest applicable to the Notes for each Interest Period will be determined in the manner specified in the relevant Pricing Supplement.
- (f) *Maximum or Minimum Rate of Interest*: If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Pricing Supplement, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- (g) *Calculation of Interest Amount*: The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the principal amount of such Note during such Interest Period and multiplying the product by the relevant Day Count Fraction.
- (h) *Calculation of other amounts*: If the relevant Pricing Supplement specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The

relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Pricing Supplement.

- (i) *Publication*: The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period.
- (j) *Notifications etc*: All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 7 (*Floating Rate Note and Index-Linked Interest Note Provisions*) by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Guarantor, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.
- (k) *Benchmark Replacement*: In addition, notwithstanding the provisions above in Condition 7(c) (*Screen Rate Determination*), if the Issuer determines that a Benchmark Event (as defined below) has occurred when any Rate of Interest (or the relevant component part thereof) remains to be determined by the relevant Reference Rate, then the following provisions shall apply:
 - (i) the Issuer shall use reasonable endeavours to appoint, as soon as reasonably practicable, an Independent Adviser (as defined below) to determine (acting in good faith and in a commercially reasonable manner), no later than five Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period (the "**Interest Determination Cut-off Date**"), a Successor Rate (as defined below) or, alternatively, if the Independent Adviser determines that there is no Successor Rate, an Alternative Reference Rate (as defined below) for purposes of determining the Rate of Interest (or the relevant component part thereof) applicable to the Notes;
 - (ii) if the Issuer is unable to appoint an Independent Adviser, or the Independent Adviser appointed by it fails to determine a Successor Rate or an Alternative Reference Rate prior to the Interest Determination Cut-off Date, the Issuer (acting in good faith and in a manner that is commercially reasonable) may determine a Successor Rate or, if the Issuer determines that there is no Successor Rate, an Alternative Reference Rate;
 - (iii) if a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) is determined in accordance with the preceding provisions, such Successor Rate or, failing which, an Alternative Reference Rate (as applicable) shall be the Reference Rate for each of the future Interest Periods (subject to the subsequent operation of, and to adjustment as provided in, this Condition 7(k) (*Benchmark Replacement*)); *provided, however, that* if sub-paragraph (ii) applies and the Issuer is unable to or does not determine a Successor Rate or an Alternative Reference Rate prior to the relevant Interest Determination Date, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the preceding Interest Period (or alternatively, if there has not been a first Interest Payment Date, the rate of interest shall be the sum of the Margin and Issue Date Reference Rate specified in the Pricing Supplement); for the avoidance of doubt, the proviso in this sub-paragraph (iii) shall apply to the relevant Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 7(k) (*Benchmark Replacement*);
 - (iv) if the Independent Adviser (in consultation with the Issuer) or (if the Issuer is unable to appoint an Independent Adviser, or the Independent Adviser appointed by it fails to determine whether an Adjustment Spread (as defined below) should be applied) the Issuer

(acting in good faith and in a manner that is commercially reasonable) determines that an Adjustment Spread should be applied to the relevant Successor Rate or the relevant Alternative Reference Rate (as applicable) and determines the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to such Successor Rate or Alternative Reference Rate (as applicable). If the Independent Adviser or the Issuer (as applicable) is unable to determine, prior to the Interest Determination Date relating to the next succeeding Interest Period, the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Successor Rate or Alternative Reference Rate (as applicable) will apply without an Adjustment Spread;

- (v) if the Independent Adviser or the Issuer determines a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) and, in each case, any Adjustment Spread, in accordance with the above provisions, the Independent Adviser or the Issuer (as applicable), may also specify changes to these Conditions, including but not limited to the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Days, Interest Determination Date, and/or the definition of Reference Rate applicable to the Notes, and the method for determining the fall-back rate in relation to the Notes, in order to follow market practice in relation to the Successor Rate, the Alternative Reference Rate (as applicable) and/or the Adjustment Spread. For the avoidance of doubt, the Fiscal Agent shall, at the direction and expense of the Issuer, effect such consequential amendments to the Agency Agreement and these Conditions as may be required in order to give effect to this Condition 7(k) (*Benchmark Replacement*). Noteholder consent shall not be required in connection with implementing the Successor Rate or Alternative Reference Rate (as applicable) and/or any Adjustment Spread or such other changes, including for the execution of any documents, amendments or other steps by the Fiscal Agent (if required); and
- (vi) the Issuer shall promptly, following the determination of any Successor Rate or Alternative Reference Rate (as applicable) and/or any Adjustment Spread, give notice thereof to the Fiscal Agent and the Noteholders, which shall specify the effective date(s) for such Successor Rate or Alternative Reference Rate (as applicable) and/or any Adjustment Spread and any consequential changes made to these Conditions.

For the purposes of this Condition 7(k) (*Benchmark Replacement*):

- (i) in the case of a Successor Rate, is recommended in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body (as defined below); or

"Benchmark Event" means any of:

- (i) the relevant Reference Rate has ceased to be published on the Relevant Screen Page as a result of such benchmark ceasing to be calculated or administered; or

- (v) a public statement by the supervisor of the administrator of the relevant Reference Rate (as applicable) that, in the view of such supervisor, (a) such Reference Rate is no longer representative of an underlying market or (b) the methodology to calculate such Reference Rate has materially changed; or
- (vi) it has or will, by a specified date within the following six months, become unlawful for the Calculation Agent to calculate any payments due to be made to any Noteholder using the relevant Reference Rate (as applicable) (including, without limitation, under the Benchmarks Regulation (EU) 2016/1011, if applicable),

provided that, where the relevant Benchmark Event is a public statement within sub-paragraphs (ii), (iii) and (iv) above and the Specified Future Date in the public statement is more than six months after the date of that public statement, the Benchmark Event shall not be deemed occur until the date falling six months prior to such Specified Future Date.

SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Clearing System Accountholders

Each Global Note will be in bearer form. Consequently, in relation to any Tranche of Notes represented by a Global Note, references in the Terms and Conditions of the Notes to "Noteholder" are references to the bearer of the relevant Global Note which, for so long as the Global Note is held by a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary.

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note (each an "Accountholder") must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder's share of each payment made by the Issuer to the bearer of such Global Note and in relation to all other rights arising under the Global Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by the Global Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes and such obligations of the Issuer will be discharged by payment to the bearer of the Global Note.

Exchange of Temporary Global Notes

Whenever any interest in a Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure:

- (a) in the case of first exchange, the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated, to the bearer of the Temporary Global Note; or
- (b) in the case of any subsequent exchange, an increase in the principal amount of such Permanent Global Note in accordance with its terms,

in each case in an aggregate principal amount equal to the aggregate of the principal amounts specified in the certificates issued by Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and received by the Fiscal Agent against presentation and (in the case of final exchange) surrender of the Temporary Global Note at the Specified Office of the Fiscal Agent within 7 days of the bearer requesting such exchange.

Whenever a Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Pricing Supplement), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note at the Specified Office of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Permanent Global Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (Luxembourg time) on the seventh day after the bearer of a Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or
- (b) Definitive Notes have not been delivered by 5.00 p.m. (Luxembourg time) on the thirtieth day after the bearer of a Temporary Global Note has requested exchange of the Temporary Global Note for Definitive Notes; or
- (c) a Temporary Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of a Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of

the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligation to deliver a Permanent Global Note or increase the principal amount thereof or deliver Definitive Notes, as the case may be) will become void at 5.00 p.m. (Luxembourg time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (Luxembourg time) on such thirtieth day (in the case of (b) above) or at 5.00 p.m. (Luxembourg time) on such due date (in the case of (c) above) and the bearer of the Temporary Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Note or others may have under a deed of covenant dated 15 November 2018 (as the same may be supplemented, amended and/or restated from time to time, the "**Deed of Covenant**") executed by the Issuer). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Exchange of Permanent Global Notes

Whenever a Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Pricing Supplement), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note at the Specified Office of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been delivered by 5.00 p.m. (Luxembourg time) on the thirtieth day after the bearer of a Permanent Global Note has duly requested exchange of the Permanent Global Note for Definitive Notes; or
- (b) a Permanent Global Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Permanent Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Permanent Global Note in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (Luxembourg time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (Luxembourg time) on such due date (in the case of (b) above) and the bearer of the Permanent Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Permanent Global Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Permanent Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Conditions applicable to Global Notes

Each Global Note will contain provisions which modify the Terms and Conditions of the Notes as they apply to the Global Note. The following is a summary of certain of those provisions:

Payments: All payments in respect of the Global Note will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Note at the Specified Office of any Paying Agent and will be effective to satisfy and discharge the corresponding

liabilities of the Issuer in respect of the Notes. On each occasion on which a payment of principal or interest is made in respect of the Global Note, the Issuer shall procure that the same is noted in a schedule thereto.

Payment Business Day: In the case of a Global Note, Payment Business Day shall be: if the currency of payment is euro, any day which is a TARGET Settlement Day and a day on which dealings in foreign currencies may be carried on in each (if any) Additional Financial Centre; or if the currency of payment is not euro, any day which is a day on which dealings in foreign currencies may be carried on in the Principal Financial Centre of the currency of payment and in each (if any) Additional Financial Centre.

Exercise of put option: In order to exercise the option contained in Condition 10(e) (*Redemption at the option of Noteholders*) the bearer of the Permanent Global Note must, within the period specified in the Conditions for the deposit of the relevant Note, give notice of such exercise to the Fiscal Agent, in accordance with the rules and procedures of Euroclear and Clearstream, Luxembourg and/or any other relevant clearing system specifying the principal amount of Notes in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

Partial exercise of call option: In connection with an exercise of the option contained in Condition 10(c) (*Redemption at the option of the Issuer*) in relation to some only of the Notes, the Permanent Global Note may be redeemed in part in the principal amount specified by the Issuer in accordance with the Conditions and the Notes to be redeemed will not be selected as provided in the Conditions.

Notices: Notwithstanding Condition 19 (*Notices*), while all the Notes are represented by a Permanent Global Note (or by a Permanent Global Note and/or a Temporary Global Note) and the Permanent Global Note is (or the Permanent Global Note and/or the Temporary Global Note are) deposited with a depository or a common depository for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and, in any case, such notices shall be deemed to have been given to the Noteholders in accordance with Condition 19 (*Notices*) on the date of delivery to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

2.1 Guarantee

The Guarantor hereby unconditionally and irrevocably guarantees:

4. Preservation of Rights

4.1 Principal obligor

The obligations of the Guarantor hereunder shall be deemed to be undertaken as principal obligor and not merely as surety.

4.2 Continuing obligations

The obligations of the Guarantor herein contained shall constitute and be continuing obligations notwithstanding any settlement of account or other matter or thing whatsoever and shall not be considered satisfied by any intermediate payment or satisfaction of all or any of the Issuer's obligations under or in respect of any Note or the Deed of Covenant and shall continue in full force and effect for so long as the Programme remains in effect and thereafter until all sums due from the Issuer in respect of the Notes and under the Deed of Covenant have been paid, and all other actual or contingent obligations of the Issuer thereunder or in respect thereof have been satisfied, in full.

5. **Deposit of Deed of Guarantee**

This Deed of Guarantee shall be deposited with and held by the Fiscal Agent for so long as the Programme remains in effect and thereafter until all the obligations of the Issuer under or in respect of the Notes (including, without limitation, its obligations under the Deed of Covenant) have been discharged in full. The Guarantor hereby acknowledges the right of every Beneficiary to the production of this Deed of Guarantee.

6. **Stamp Duties**

Recent Developments

In recent years, the Guarantor has endeavoured to restructure Hitachi's business portfolio and reorganised its businesses for the purpose of further focusing its management resources on its social innovation business. The recent developments include the following events.

On 17 December 2018, the Guarantor decided to acquire the power grids business from ABB Ltd ("**ABB**") and signed an acquisition agreement with ABB in order to strengthen and expand energy solutions business globally. Pursuant to this agreement, the Guarantor invested 80.1% in Hitachi ABB Power Grids Ltd ("**Hitachi ABB Power Grid**"), which was spun off from ABB, and the acquisition was completed on 1 July 2020. As a result, Hitachi ABB Power Grid became a subsidiary of the Guarantor. The Guarantor has a call option to purchase 19.9% of the shares of Hitachi ABB Power Grid held by ABB, and ABB has a put option to sell 19.9% of the shares of Hitachi ABB Power Grid held by ABB to the Guarantor exercisable after 2023. The consideration for the acquisition of Hitachi ABB Power Grid was U.S.\$6,850 million. Acquisition-related costs of ¥5,391 million have been posted up to the fiscal year ended 31 March 2020, and approximately ¥3,000 million is expected to be recorded in the fiscal year ending 31 March 2021. In addition to this acquisition, the Guarantor repaid U.S.\$3,000 million of certain loans owed by Hitachi ABB Power Grid from ABB's subsidiary, ABB Capital B.V.

On 30 October 2019, the Guarantor and Hitachi Automotive Systems, Ltd. ("**HiAMS**"), a consolidated subsidiary of the Guarantor in the Smart Life segment, signed an agreement with Honda Motor Co., Ltd. ("**Honda**"), and Keihin Corporation ("**Keihin**"), Showa Corporation ("**Showa**"), and Nissin Kogyo Co., Ltd. ("**Nissin Kogyo**") (together, the "**Associates of Honda**"), to integrate management of HiAMS and the Associates of Honda, in order to strengthen development and distribution of global and competitive solutions in the CASE area. On 1 January 2021, HiAMS and the Associates of Honda conducted an absorption-type merger (in which HiAMS survived and the Associates of Honda were absorbed) and established Hitachi Astemo, Ltd. ("**Astemo**"). As a result, the Guarantor's ownership ratio

of shares of Astemo is 66.6% and Astemo became a consolidated subsidiary of the Guarantor. The consideration of the merger is the common shares of Astemo, the existing company. The fair value of the consideration was allocated as follows: ¥88,747 million for Keihin, ¥59,062 million for Showa and ¥48,242 million for Nissin Kogyo. The fair value of the consideration was based on the valuation of HiAMS and the Associates of Honda agreed by the Guarantor and Honda. For the agreement, the Guarantor verified the validity of the valuation by taking into account the results of fair value measurements conducted by third-party valuation specialists and other factors. In addition to this acquisition, the Guarantor's ownership interest in the former HiAMS decreased from 100% prior to the execution of this acquisition to 66.6%, and the Guarantor will recognise increases in capital surplus and non-controlling interests in the amounts of approximately ¥120 billion and ¥80 billion, respectively, for the fiscal year ending 31 March 2021. Acquisition-related costs of ¥2,948 million have been posted up to the fiscal year ended 31 March 2020, and approximately ¥2,000 million is expected to be recorded in the fiscal year ending 31 March 2021.

On 18 December 2019 at its meeting of the Board of Directors, the Guarantor approved a settlement with Mitsubishi Heavy Industries, Ltd. ("**MHI**") regarding the transfer price adjustment for the South African project previously in the process of arbitration based on economic rationality and business strategy, and reached a settlement agreement with MHI on the same day. In this settlement, it was agreed that all common shares of Mitsubishi Hitachi Power Systems, Ltd. ("**MHPS**") held by the Guarantor would be transferred to MHI, and the Guarantor would pay ¥130,000 million to MHI comprising a settlement payment of ¥200,000 million offset by a consideration of ¥70,000 million in loans receivable to Mitsubishi Hitachi Power Systems Africa Proprietary Limited ("**MHPS Africa**") to be transferred to MHI. The amount of ¥130,000 million was scheduled to be paid to MHI in March 2020, and the shares of MHPS would be delivered to MHI as soon as the procedures required for the transfer are completed. Accordingly, the Guarantor recorded other accounts payable of ¥200,000 million related to the settlement payment to MHI and other provision of ¥273,272 million related to the transfer of shares of MHPS for the fiscal year ended 31 March 2020. The Guarantor also reversed the provision of ¥105,041 million related to the transfer price adjustment of the South African project for the same fiscal year, which had been recorded prior to the conclusion of this agreement. Mainly as a result of the above, the Energy segment recorded a loss of ¥375,967 million due to the settlement for the fiscal year ended 31 March 2020. Furthermore, on 30 March 2020, the Guarantor transferred to MHI the loans receivable to MHPS Africa and paid ¥130,000 million to MHI comprising the settlement payment offset by the consideration in loans receivable. On 1 September 2020, all shares of MHPS held by the Guarantor, with a value of ¥263,614 million, which were classified as held-for-sale assets, were transferred to MHI, and MHPS ceased to be an associate of the Guarantor. Accordingly, the Guarantor reversed other provision of ¥273,272 million related to the transfer of shares of MHPS, which was included in other current liabilities in the condensed quarterly consolidated statement of financial position as of 31 December 2020. Also on 1 September 2020, MHPS changed its name to Mitsubishi Power, Ltd. On 14 September 2020, the Guarantor and MHI received a notice from the Japan Commercial Arbitration Association stating that the arbitration was closed.

On 18 December 2019, the Guarantor signed an agreement with FUJIFILM Corporation ("**Fujifilm**") regarding the transfer of the Diagnostic Imaging-related Business included in the Guarantor, the Guarantor's subsidiaries and associates in the Smart Life segment to Fujifilm. The Guarantor plans to transfer all shares of common stock of a new company established by the Guarantor to Fujifilm after the Diagnostic Imaging-related Business is succeeded to the new company from the Guarantor through an absorption-type company split. The consideration is expected to be approximately ¥179 billion. Assuming the transaction is settled, it is expected that the Guarantor's ownership ratio of shares of the new company will decrease from 100% to 0%, and the new company will be deconsolidated. Originally, the effective date of the company split and the closing date of the share transfer (the "**Execution Date**") were scheduled on 1 July 2020. However, due to delays in preparation for such transactions caused by the spread of COVID-19 around the world, on 28 May 2020, the Guarantor and Fujifilm announced their agreement to change the Execution Date. On 18 February 2021, the Guarantor and Fujifilm concluded the absorption-type company split agreement and announced that the Execution Date is expected to be on 31 March 2021.

On 18 December 2019, the Guarantor signed a tender offer agreement with Showa Denko K.K. ("**Showa Denko**") and HC Holdings K.K. ("**HC Holdings**"), a wholly-owned subsidiary of Showa Denko, under which the Guarantor agreed to tender all shares of common stock in Hitachi Chemical held by the Guarantor, in response to a tender offer to be carried out by HC Holdings for the shares of common stock of Hitachi Chemical, a consolidated subsidiary of the Guarantor in the Hitachi Chemical segment. HC Holdings commenced the tender offer on 24 March 2020, and the tender offer was completed on 20 April 2020. The consideration received by the Guarantor was ¥495,145 million. As a result, the Guarantor's ownership ratio of shares of Hitachi Chemical decreased from 51.4% to 0%, and Hitachi Chemical was

deconsolidated. A gain on the sale of shares of Hitachi Chemical in the amount of ¥278,839 million was recognised in other income in the condensed quarterly consolidated statement of profit or loss for the nine-month period ended 31 December 2020. Furthermore, non-controlling interest in Hitachi Chemical decreased by ¥220,402 million in changes in non-controlling interests in the condensed quarterly consolidated statement of changes in equity as of 31 December 2020 as a result of its deconsolidation. On 1 October 2020, Hitachi Chemical changed its name to Showa Denko Materials Co., Ltd.

On 31 January 2020, the Guarantor decided to conduct a tender offer to acquire all issued shares of Hitachi High-Tech, a consolidated subsidiary of the Guarantor in the Hitachi High-Tech segment and currently unified to the Smart Life segment, to establish the measurement and analysis platform to strengthen Lumada. The Guarantor commenced the tender offer on 17 February 2020, and the tender offer was completed on 6 April 2020. Furthermore, the Guarantor conducted a series of procedures to make Hitachi High-Tech a wholly-owned subsidiary of the Guarantor. As a result, the Guarantor's ownership ratio of shares of Hitachi High-Tech increased to 100% on 20 May 2020. The total consideration paid was ¥531,084 million, and the Guarantor recognised decreases in capital surplus of ¥321,627 million and non-controlling interest of ¥209,457 million, respectively, for the nine-month period ended 31 December 2020.

On 16 December 2020, Hitachi Global Life Solutions, Inc. ("**Hitachi GLS**"), a consolidated subsidiary of the Guarantor in the Smart Life segment, and Arçelik A.S. (Arçelik) signed a share purchase agreement to establish a new joint venture company. Based on the agreement, Hitachi GLS plans to establish a new company and aims to transfer its global home appliances business outside of Japan into the new company in the spring of 2021, and Hitachi GLS plans to transfer 60% of the shares of common stock of the new company to Arçelik. The consideration is expected to be approximately U.S.\$0.3 billion. Assuming the transaction is settled, it is expected that Hitachi GLS's ownership ratio of shares of the new company will decrease from 100% to 40%, and the new company will turn into an equity-method associate of the Guarantor.

TAXATION

The following is a general description of certain tax considerations relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in those countries or elsewhere. Prospective purchasers of Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. This summary is based upon the law as in effect on the date of this Information Memorandum and is subject to any change in law that may take effect after such date.

Singapore

The statements below are general in nature and are based on certain aspects of current tax laws in Singapore and administrative guidelines and circulars issued by the Monetary Authority of Singapore (the "MAS") in force as at the date of this Information Memorandum and are subject to any changes in such laws, administrative guidelines or circulars, or the interpretation of those laws, guidelines or circulars, occurring after such date, which changes could be made on a retroactive basis. Neither these statements nor any other statements in this Information Memorandum are intended or are to be regarded as advice on the tax position of any holder of the Notes or of any person acquiring, selling or otherwise dealing with the Notes or on any tax implications arising from the acquisition, sale or other dealings in respect of the Notes. The statements made herein do not purport to be a comprehensive or exhaustive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and do not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or financial institutions in Singapore which have been granted the relevant Financial Sector Incentive(s)) may be subject to special rules or tax rates. Prospective holders of the Notes are advised to consult their own professional tax advisers as to the Singapore or other tax consequences of the acquisition, ownership of or disposal of the Notes, including, in particular, the effect of any foreign, state or local tax laws to which they are subject. It is emphasised that neither the Issuer nor any other persons involved in the Programme accepts responsibility for any tax effects or liabilities resulting from the subscription for, purchase, holding or disposal of the Notes.

Interest and Other Payments

1. Subject to the following paragraphs, under Section 12(6) of the Income Tax Act, Chapter 134 of Singapore (the "ITA"), the following payments are deemed to be derived from Singapore:
 - (a) any interest, commission, fee or any other payment in connection with any loan or indebtedness or with any arrangement, management, guarantee, or service relating to any loan or indebtedness which is (i) borne, directly or indirectly, by a person resident in Singapore or a permanent establishment in Singapore (except in respect of any business carried on outside Singapore through a permanent establishment outside Singapore or any immovable property situated outside Singapore) or (ii) deductible against any income accruing in or derived from Singapore; or
 - (b) any income derived from loans where the funds provided by such loans are brought into or used in Singapore.
2. Such payments, where made to a person not known to the paying party to be a resident in Singapore for tax purposes, are generally subject to withholding tax in Singapore. The rate at which tax is to be withheld for such payments (other than those subject to the 15 per cent. final withholding tax described below) to non-resident persons (other than non-resident individuals) is currently 17 per cent. The applicable rate for non-resident individuals is currently 22 per cent. However, if the payment is derived by a person not resident in Singapore otherwise than from any trade, business, profession or vocation carried on or exercised by such person in Singapore and is not effectively connected with any permanent establishment in Singapore of that person, the payment is subject to a final withholding tax of 15 per cent. The rate of 15 per cent. may be reduced by applicable tax treaties.

3. However, certain Singapore-sourced investment income derived by individuals from financial instruments is exempt from tax, including:

- (a) interest from debt securities derived on or after 1 January 2004;
- (b) discount income (not including discount income arising from secondary trading) from debt securities derived on or after 17 February 2006; and
- (c) prepayment fee, redemption premium and break cost from debt securities derived on or after 15 February 2007,

except where such income is derived through a partnership in Singapore or is derived from the carrying on of a trade, business or profession.

4. In addition, as the Programme as a whole was arranged by Merrill Lynch (Singapore) Pte. Ltd., which was an Approved Bond Intermediary (as defined in the ITA) prior to 1 January 2004, a Financial Sector Incentive (Bond Market) Company (as defined in the ITA) from 1 January 2004 to 31 December 2014 and was a Financial Sector Incentive (Standard Tier) Company (as defined in the ITA) thereafter, any tranche of the Notes ("**Relevant Notes**") issued or to be issued as debt securities under the Programme during the period from the date of this Information Memorandum to 31 December 2023 would be qualifying debt securities ("**QDS**") for the purposes of the ITA. Accordingly:

- (i) subject to certain prescribed conditions having been fulfilled (including the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities for the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require and the inclusion by the Issuer in all offering documents relating to the Relevant Notes of a statement to the effect that where interest, discount income, prepayment fee, redemption premium or break cost from the Relevant Notes is derived by a person who is not resident in Singapore and who carries on any operation in Singapore through a permanent establishment in Singapore, the tax exemption for qualifying debt securities shall not apply if the non-resident person acquires the Relevant Notes using the funds and profits of such person's operations through the permanent establishment in Singapore), interest, discount income (not including discount income arising from secondary trading), prepayment fee, redemption premium and break cost (collectively, the "**Qualifying Income**") from the Relevant Notes, derived by a holder who is not resident in Singapore and who (aa) does not have any permanent establishment in Singapore or (bb) carries on any operation in Singapore through a permanent establishment in Singapore but the funds used by that person to acquire the Relevant Notes are not obtained from such person's operation through a permanent establishment in Singapore, are exempt from Singapore tax;
- (ii) subject to certain conditions having been fulfilled (including the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities for the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require), Qualifying Income from the Relevant Notes derived by any company or body of persons (as defined in the ITA) in Singapore is subject to tax at a concessionary rate of 10 per cent. (except for holders of the relevant Financial Sector Incentive(s) who may be taxed at different rates); and
- (iii) subject to:
 - (aa) the Issuer including in all offering documents relating to the Relevant Notes a statement to the effect that any person whose interest, discount income, prepayment fee, redemption premium or break cost derived from the Relevant Notes is not exempt from tax shall include such income in a return of income made under the ITA; and

- (bb) the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities for the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require,

payments of Qualifying Income derived from the Relevant Notes are not subject to withholding of tax by the Issuer.

5. Notwithstanding the foregoing:

- (A) if during the primary launch of any tranche of Relevant Notes, such tranche of Relevant Notes are issued to fewer than four persons and 50 per cent. or more of the issue of such Relevant Notes is beneficially held or funded, directly or indirectly, by related parties of the Issuer, such Relevant Notes would not qualify as QDS; and
- (B) even though a particular tranche of Relevant Notes are QDS, if, at any time during the tenure of such tranche of Relevant Notes, 50 per cent. or more of such Relevant Notes which are outstanding at any time during the life of their issue is beneficially held or funded, directly or indirectly, by any related party(ies) of the Issuer, Qualifying Income derived from such Relevant Notes held by:
 - (i) any related party of the Issuer; or
 - (ii) any other person where the funds used by such person to acquire such Relevant Notes are obtained, directly or indirectly, from any related party of the Issuer,

shall not be eligible for the tax exemption or concessionary rate of tax as described above.

The term "**related party**", in relation to a person, means any other person who, directly or indirectly, controls that person, or is controlled, directly or indirectly, by that person, or where he and that other person, directly or indirectly, are under the control of a common person.

6. Where interest, discount income, prepayment fee, redemption premium or break cost (i.e. the Qualifying Income) is derived from the Relevant Notes by any person who is not resident in Singapore and who carries on any operations in Singapore through a permanent establishment in Singapore, the tax exemption available for QDS under the ITA (as mentioned above) shall not apply if such person acquires such Relevant Notes using the funds and profits of such person's operations through a permanent establishment in Singapore. Any person whose interest, discount income, prepayment fee, redemption premium or break cost (i.e. the Qualifying Income) derived from the Relevant Notes is not exempt from tax is required to include such income in a return of income made under the ITA.
7. The terms "**prepayment fee**", "**redemption premium**" and "**break cost**" are defined in the ITA as follows:

"**prepayment fee**", in relation to debt securities and qualifying debt securities, means any fee payable by the issuer of the securities on the early redemption of the securities, the amount of which is determined by the terms of the issuance of the securities;

"**redemption premium**", in relation to debt securities and qualifying debt securities, means any premium payable by the issuer of the securities on the redemption of the securities upon their maturity; and

"**break cost**", in relation to debt securities and qualifying debt securities, means any fee payable by the issuer of the securities on the early redemption of the securities, the amount of which is determined by any loss or liability incurred by the holder of the securities in connection with such redemption.

References to "**prepayment fee**", "**redemption premium**" and "**break cost**" in this Singapore tax disclosure have the same meaning as defined in the ITA.

Capital Gains

8. Any gains considered to be in the nature of capital made from the sale of the Notes will not be taxable in Singapore. However, any gains derived by any person from the sale of the Notes which are gains from any trade, business, profession or vocation carried on by that person, if accruing in or derived from Singapore, may be taxable as such gains are considered revenue in nature.

Holders of the Notes who apply or are required to apply Singapore Financial Reporting Standard ("**FRS**") 39, FRS 109 or Singapore Financial Reporting Standard (International) 9 ("**SFRS(I) 9**") (as the case may be) may for Singapore income tax purposes be required to recognise gains or losses (not being gains or losses in the nature of capital) on the Notes, irrespective of disposal, in accordance with FRS 39, FRS 109 or SFRS(I) 9 (as the case may be). Please see the section below on "**Adoption of FRS 39, FRS 109 and SFRS(I) 9 for Singapore Income Tax Purposes**".

Adoption of FRS 39, FRS 109 and SFRS(I) 9 for Singapore Income Tax Purposes

9. Section 34A of the ITA provides for the tax treatment for financial instruments in accordance with FRS 39 (subject to certain exceptions and "**opt-out**" provisions) to taxpayers who are required to comply with FRS 39 for financial reporting purposes. The Inland Revenue Authority of Singapore has also issued a circular entitled "Income Tax Implications Arising from the Adoption of FRS 39 - Financial instruments: Recognition and Measurement".

FRS 109 or SFRS(I) 9 (as the case may be) is mandatorily effective for annual periods beginning on or after 1 January 2018, replacing FRS 39. Section 34AA of the ITA requires taxpayers who comply or who are required to comply with FRS 109 or SFRS(I) 9 for financial reporting purposes to calculate their profit, loss or expense for Singapore income tax purposes in respect of financial instruments in accordance with FRS 109 or SFRS(I) 9 (as the case may be), subject to certain exceptions. The Inland Revenue Authority of Singapore has also issued a circular entitled "Income Tax: Income Tax Treatment Arising from Adoption of FRS 109 — Financial Instruments".

Holders of the Notes who may be subject to the tax treatment under Sections 34A or 34AA of the ITA should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding or disposal of the Notes.

Estate Duty

10. Singapore estate duty has been abolished with respect to all deaths occurring on or after 15 February 2008.

Japan

The statements below are general in nature and are based on certain aspects of current tax laws in Japan and are subject to any change in such laws, which change could be made on retroactive basis. The statements do not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision to acquire, own or dispose the Notes. Noteholders should consult their tax advisers with regard to the tax consequences of investing in Notes.

Generally, the payment of the principal and interest in respect of the Notes to an individual non-resident of Japan or a non-Japanese corporation will not be subject to any Japanese income or corporation tax, unless the receipt of the relevant payment is the income of such individual non-resident of Japan or non-Japanese corporation from sources in Japan.

Gains derived from the sale outside Japan of the Notes by an individual non-resident of Japan or a non-Japanese corporation are in general not subject to Japanese income or corporation taxes. Gains derived from the sale in Japan of the Notes by an individual non-resident of Japan or a non-Japanese corporation not having a permanent establishment in Japan are in general not subject to Japanese income or corporation taxes.

Japanese inheritance and gift taxes at progressive rates may be payable by an individual, wherever resident, who has acquired the Notes as legatee, heir or donee.

No stamp, issue, registration or similar taxes or duties will, under present Japanese law, be payable by Noteholders in connection with the issue of the Notes assuming that none of the certificates representing or evidencing the Notes will be delivered in Japan and the contracts are executed and delivered outside Japan.

CLEARING AND SETTLEMENT THROUGH CDP

Introduction

In respect of Singapore Dollar Notes ("**SGD Notes**") which are accepted for clearance by The Central Depository (Pte) Limited ("**CDP**") in Singapore, clearance will be effected through an electronic book-entry clearance and settlement system for the trading of debt securities ("**Depository System**") maintained by CDP. SGD Notes that are to be listed on the SGX-ST may be cleared through CDP.

CDP, a wholly-owned subsidiary of Singapore Exchange Limited, is incorporated under the laws of Singapore and acts as a depository and clearing organisation. CDP holds securities for its accountholders and facilitates the clearance and settlement of securities transactions between accountholders through electronic book-entry changes in the securities accounts maintained by such accountholders with CDP.

Clearance and Settlement under the Depository System

In respect of SGD Notes which are accepted for clearance by CDP, the entire issue of such SGD Notes is to be held by CDP in the form of a Global Note for persons holding the SGD Notes in securities accounts with CDP ("**Depositors**"). Delivery and transfer of the SGD Notes between Depositors is by electronic book-entries in the records of CDP only, as reflected in the securities accounts of Depositors.

Settlement of over-the-counter trades in the SGD Notes through the Depository System may be effected through securities sub-accounts held with corporate depositors ("**Depository Agents**"). Depositors holding SGD Notes in direct securities accounts with CDP, and who wish to trade SGD Notes through the Depository System, must transfer the SGD Notes to a securities sub-account with a Depository Agent for trade settlement.

General

CDP is not involved in money settlement between the Depository Agents (or any other persons) as CDP is not a counterparty in the settlement of trades of debt securities. However, CDP will make payment of interest and repayment of principal on behalf of issuers of debt securities.

Although CDP has established procedures to facilitate transfer of interests in the SGD Notes in global form among Depositors, it is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the Issuer, the Fiscal Agent, any of the other Paying Agents or any other agent will have the responsibility for the performance by CDP of its obligations under the rules and procedures governing its operations.

- (b) **Financial promotion:** it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21 of the FSMA does not apply to the Issuer; and
- (c) **General compliance:** it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

Japan

Each Dealer has represented, warranted and undertaken that the Notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended) and, accordingly, each Dealer has undertaken, represented and agreed that it has not, directly or indirectly, offered or sold and will not, directly or indirectly, offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any Japanese Person or to others for re-offering or resale, directly or indirectly, in Japan or to any Japanese Person except under circumstances which will result in compliance with all applicable laws, regulations and guidelines promulgated by the relevant Japanese governmental and regulatory authorities and in effect at the relevant time. For the purposes of this paragraph, "**Japanese Person**" shall mean any person resident in Japan for Japanese financial instruments law purposes, including any corporation or other entity organised under the laws of Japan.

General

Other than with respect to the admission to listing, trading and/or quotation by such one or more listing authorities, stock exchanges and/or quotation systems as may be specified in the Pricing Supplement, no action has been or will be taken in any country or jurisdiction by the Issuer or the Dealers that would permit a public offering of Notes, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required. Persons into whose hands the Information Memorandum or any Pricing Supplement comes are required by the Issuer, the Guarantor and the Dealers to comply with all applicable laws and regulations in each country or jurisdiction in or from which they purchase, offer, sell or deliver Notes or have in their possession or distribute such offering material, in all cases at their own expense.

The Issuer, the Guarantor and the Dealers shall, in relation to each issue of Notes, comply with all applicable laws, regulations and market or other regulatory guidelines as are in force from time to time which are relevant in the context of the issue of such Notes, including, without limitation, any relevant maturity requirements and minimum denomination requirements applicable to such issue, and shall submit (or procure the submission on its behalf or) such reports or information as may from time to time be required for compliance with such laws, regulations and market or other regulatory guidelines.

The Dealer Agreement provides that the Dealers shall not be bound by any of the restrictions relating to any specific jurisdiction (set out above) to the extent that such restrictions shall, as a result of change(s) or change(s) in official interpretation, after the date hereof, of applicable laws and regulations, no longer be applicable but without prejudice to the obligations of the Dealers described in the paragraph headed "**General**" above.

Selling restrictions may be supplemented or modified with the agreement of the Issuer. Any such supplement or modification will be set out in the relevant Pricing Supplement (in the case of a supplement

or modification relevant only to a particular Tranche of Notes) or (in any other case) in a supplement to this document.

Some of the Dealers and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with the Issuer, the Guarantor or their respective affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer, the Guarantor or their respective affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in the Issuer's securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of the Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
