SINGAPORE (28 April 2017) – iFAST Corporation Ltd. (“iFAST Corp” and together with its subsidiaries, the “Group”) reported its financial results for the first quarter of 2017 (1Q2017).

Following a difficult 2016, 1Q2017 started off on an encouraging note. The Group's Assets Under Administration (AUA) increased 17.2% YoY to hit a record high of S\$6.46 billion as at 31 March 2017. The core markets in the Group all hit record high AUA levels: Singapore's AUA (+13.8% YoY), Hong Kong's AUA (+17.3% YoY), and Malaysia's AUA (+33.5% YoY).

The Group's revenue and profitability improved significantly; net revenue increased 19.4% YoY in 1Q2017 to S\$11.17 million, while net profit rose 60.7% YoY to S\$2.01 million. The core markets in the Group showed significant improvement in their financial results in 1Q2017, while the China operation (soft-launched in March 2016) remains in the early stages of growing its business. Excluding the China operation, the Group's net profit rose 41.1% YoY to S\$2.95 million.

In the last two years, the Group has been busy broadening the range of products and services as an investment platform as it believes that it needs to position itself well for the potential growth opportunities and changes in the wealth management industry

in Asia. The Group believes that the full benefits from its efforts to broaden its products and services will be realised in the coming years. In addition to this, the Group believes that its improved IT solutions and focus on giving transparent pricing, research and information to clients, put it on a strong footing to grab a potentially larger slice of the wealth management industry.

Analysis Across Geographical Segments

Singapore's AUA grew 13.8% YoY (+5.0% QoQ) to a record high of S\$4.56 billion as at 31 March 2017, while net revenue grew 18.8% YoY to S\$8.03 million and net profit after tax grew 36.8% YoY to S\$2.71 million in 1Q2017, due to improved market sentiment and increased sales from the enhanced range of investment products.

Following the launch of the FSMOne (a seamless multi-products transactional platform for the investor community) on its Singapore B2C operation in Dec 2016, the Singapore operation is well-positioned to further grow its business in 2017 with the additional products and services, supported by the company's focus on transparent information and innovative IT solutions.

Hong Kong's AUA grew 17.3% YoY (+6.6% QoQ) to hit a record high of S\$1.40 billion as at 31 March 2017. Net revenue increased 14.7% YoY to S\$2.39 million and net profit after tax improved 181.4% to S\$0.12 million in 1Q2017. Improved market sentiment especially in the local Hong Kong market, and the increased range and depth of the products and services distributed, contributed to the significant improvement in AUA, sales and revenue. Both B2B and B2C platforms saw a strong rebound in 1Q2017, with stronger growth on the B2C platform, due to increased sales and more positive sentiment among the investor community.

Malaysia's AUA grew 33.5% YoY (+12.6% QoQ) to hit a record high of S\$413.31 million as at 31 March 2017. Net revenue grew 36.7% YoY to \$0.70 million and net profit after tax grew by 273.8% YoY to S\$0.24 million in 1Q2017. The positive momentum in the Malaysia operation's financial results followed good growth in 2016, as the platform continued to see improved sales and revenue in its B2B and B2C segments. Similar to the Group's Singapore and Hong Kong operations, the Malaysia operation is working towards enhancing its range of investment products and services, and has expanded its investment products range to also include bonds in April 2017.

The China business was soft launched in March 2016 and remains in the early stages of building the iFAST brand among potential clients and investment practitioners in China's wealth management industry. The loss from the China operation increased 11.8% YoY to S\$0.94 million in 1Q2017.

The China operation has continuously increased the range of fund house partners and the funds they carry on the platform; as at 31 March 2017, the China operation has signed up over 55 fund houses, with over 2,100 funds on its platform. The management team is continuing its dual strategy of (1) building its team of wealth advisers, as part of its 'platform-cum-IFA incubator' strategy; and (2) signing up more Internet and financial companies to use its platform, to bring in sales, AUA and net revenue.

Interim Dividend for 1Q2017

The Group's Dividend Guidance for FY2017 is: "For FY2017, our Directors intend to recommend and distribute dividends of 60% or more of our Group's net profit (excluding our China operation, and exceptional items)". The Dividend Guidance for FY2017 is the same as for FY2016. For the first interim dividend for 1Q2017, the Directors proposed a dividend per share of 0.68 cents per ordinary share, that is equivalent to about 60.6% of the Group's net profit (excluding our China operation, and exceptional items). The dividend per share was 2.79 cents per share for both FY2015 and FY2016.
