3Q 2014 Financial Results

3 November 2014
Important Notice

Credit Suisse (Singapore) Limited, Goldman Sachs (Singapore) Pte. and Standard Chartered Securities (Singapore) Pte. Limited were the joint global coordinators and issue managers for the initial public offering of OUE Hospitality Trust.

The value of stapled securities in OUE Hospitality Trust (“Stapled Securities”) and the income derived from them, if any, may fall or rise. Stapled Securities are not obligations of, deposits in, or guaranteed by, OUE Hospitality REIT Management Pte. Ltd. (as the manager of OUE Hospitality Real Estate Investment Trust), OUE Hospitality Trust Management Pte. Ltd. (as the trustee-manager of OUE Hospitality Business Trust) (collectively, the “Managers”) or any of their affiliates. An investment in Stapled Securities is subject to investment risks, including the possible loss of the principal amount invested. The past performance of OUE Hospitality Trust is not necessarily indicative of the future performance of OUE Hospitality Trust.

This presentation may contain forward-looking statements that involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from similar developments, shifts in expected levels of property rental income, changes in operating expenses (including employee wages, benefits and training costs), property expenses and governmental and public policy changes. You are cautioned not to place undue reliance on these forward-looking statements, which are based on the Managers’ current view of future events.

Investors should note that they will have no right to request the Managers to redeem or purchase their Stapled Securities for so long as the Stapled Securities are listed on Singapore Exchange Securities Trading Limited (the “SGX-ST”). It is intended that holders of Stapled Securities may only deal in their Stapled Securities through trading on the SGX-ST. The listing of the Stapled Securities on the SGX-ST does not guarantee a liquid market for the Stapled Securities. This presentation is for information only and does not constitute an invitation or offer to acquire, purchase or subscribe for Stapled Securities.

• Gross revenue was 0.7% higher than forecast at $28.5 million and $85.5 million for 3Q 2014 and 9 months ended 30 September 2014 respectively.
• Under the master lease arrangement for Mandarin Orchard Singapore, rental income of OUE H-REIT is pegged to a percentage of Gross Operating Revenue and Gross Operating Profit of the hotel.
• The hotel recorded better room revenue this quarter as the completion of the renovation enabled the hotel to achieve higher revenue per available room (RevPAR) of $252 in 3Q 2014 as compared to forecast RevPAR of $248. The hotel also enjoyed higher room revenue as it continued to attract more guests from the corporate business segment. Food and beverage (”F&B”) segment had also achieved better than forecast sales resulting from higher patronage. The better room and F&B performance translated into higher rental income for OUE H-REIT.
• For the 9 months ended 30 September 2014, RevPAR achieved was $247 as compared to forecast RevPAR of $254. The lower than forecast RevPAR was mainly due to the impact of the renovation on room rates in 1H 2014. Adjusting for the lower available room inventory due to renovation, the RevPAR for the 9 months ended 30 September 2014 would have been $253. Consistently strong performance in the F&B segment also contributed better operating results to the hotel thereby translating into higher rental income for OUE H-REIT.
• For 3Q 2014 and 9 months ended 30 September 2014, Mandarin Gallery had also contributed to the higher than forecast results due to higher income earned from casual leasing activities. The mall recorded an effective rent per square foot per month of $23.9 for 3Q 2014 and $23.7 for 9 months ended 30 September 2014 respectively.

¹ The forecast figures are derived from the forecast as set out in the final prospectus of OUE H-Trust dated 18 July 2014 (the “Prospectus”) and adjusted for seasonality of the Singapore hospitality sector.

- In line with higher net property income and lower trust expenses, income available for distribution for 3Q 2014 and the 9 months ended 30 September 2014 were $0.6 million and $2.0 million higher than forecast respectively. This translated into higher DPS of 1.64 cents and 4.96 cents in the respective periods.

¹ The forecast figures are derived from the forecast as set out in the Prospectus and adjusted for seasonality of the Singapore hospitality sector.
Actual 3Q 2014 vs Actual 3Q 2013

- Revenue from both the hospitality and retail segments were approximately 32% higher than 3Q 2013 mainly because the comparative information relates to a shorter financial period.
- For the same reason, net property income was higher for both segments with the net property income margin for both quarters maintained at 89%.
- Hospitality segment pertains to the master lease income earned from the Mandarin Orchard Singapore hotel which is pegged to a percentage of Gross Operating Revenue and Gross Operating Profit of the hotel. Retail segment pertains to rental and other income earned from the Mandarin Gallery shopping mall.
- Adjusting for the shorter period in 3Q 2013, hospitality revenue was marginally lower due to lower master lease income received from the hotel as the hotel recorded RevPAR of $261 in 3Q 2013 as compared to RevPAR of $252 in 3Q 2014. The higher RevPAR in 3Q 2013 was fueled by the increase in demand for hotel rooms due to higher visitor arrivals in 2013.
- Retail revenue was also lower due to straight-lining of rental income of $0.4 million recognised in 3Q 2013. The straight-lining of rental income is a non-cash item and does not affect distribution income.
- Income available for distribution was higher as a result of higher net property income coupled with lower net finance expenses.

*Actual 3Q 2013 relates to the period from 25 Jul 2013 to 30 Sep 2013 as OUE H-Trust was listed on 25 July 2013, therefore 3Q 2013 relates to a shorter financial period. In addition, it is not meaningful to compare year-to-date financial information as the comparative information relates to the financial period from 25 July to 30 September 2013 only.

Active Asset Management and Enhancement

Mandarin Gallery (3Q 2014)
Outlook & Prospects
Singapore Tourism Board (“STB”)\(^1\) reported a 6 per cent year-on-year drop in international visitor arrivals for the second quarter of the year at 3.6 million. Tourism receipts dipped by 3 per cent year-on-year to $5.6 billion due to lower shopping expenditure. There are tentative signs of the decline in visitor arrivals leveling off and possible recovery in the second half of 2014\(^2\).

Singapore has seen a number of new hotel entrants in 2014 and as the supply of new hotel rooms continues to increase, room rates are expected to remain competitive in the current environment. With the recent opening of the Sports Hub, Singapore has added capacity to host major international sporting events such as the WTA Finals and Singapore Sevens rugby tournament as part of the Sevens World Series, and major concerts for international artistes such as Mariah Carey. As one of the world’s preferred conventions and meetings cities, Singapore is also expected to continue to attract business travellers.

To promote Orchard Road as a vibrant lifestyle destination, the Orchard Road Business Association, with support from the STB, has launched an initiative to hold Pedestrian Nights on Orchard Road. The increased efforts to inject more vibrancy into Orchard Road will benefit both Mandarin Orchard Singapore and Mandarin Gallery. The prime Orchard Road location of Mandarin Orchard Singapore allows it to consistently enjoy healthy demand, as Orchard Road is a preferred accommodation location for international visitors. Mandarin Orchard Singapore is further well-positioned to leverage on its newly renovated rooms to attract customers seeking premium accommodation in a prime location. Mandarin Gallery is also expected to continue to enjoy stable income as more than 98% of the mall’s rental income comprises fixed rent.

We will continue to actively seek growth opportunities and yield accretive acquisitions from our Sponsor and third parties.
