its 80% interest in its subsidiary, Coliwoo PP Pte. Ltd. (the “**Transaction**”), which manages the Coliwoo Hotel Pasir Panjang, a premium co-living hotel property at 404 Pasir Panjang Road.

Under the terms of the Transaction, the Group will dispose of its 80% interest in Coliwoo PP Pte. Ltd. while simultaneously entering into a leaseback arrangement. This structure allows Coliwoo to continue operating the co-living hotel property, thereby maintaining its portfolio of keys under management.

The Company views the disposal of Coliwoo PP Pte. Ltd. as beneficial to the Group after taking into consideration the agreed terms and conditions of the Transaction. This disposal exemplifies the Group’s capital recycling strategy – crystallising capital appreciation in mature assets at opportune moments, then redeploying the proceeds to strengthen the balance sheet and fund sustainable growth initiatives. By unlocking the value tied up in the property while retaining operational rights through the leaseback arrangement, the Group effectively transitions towards a more asset-light business model without compromising operational excellence.

The Group had already recognised the fair value gain from the underlying property of Coliwoo PP Pte. Ltd. in previous financial years. Subject to the final adjustment of the consideration, the Group expects to recognise an estimated gain of S\$0.3 million upon the completion of the Transaction for FY2026. This figure is calculated by reference to the carrying value of Coliwoo PP Pte. Ltd. as at 30 September 2025.

Net proceeds generated from the Transaction, estimated at S\$15.3 million, are intended to repay part of the working capital loans owed to the Company’s immediate holding company, LHN Group Pte. Ltd., and for general working capital to operate and expand its business. This allocation enables the Group to optimise its debt structure, strengthen its financial position, and redeploy capital into projects or properties with better returns, thereby seizing new growth opportunities.

Coliwoo Executive Chairman & CEO Mr Kelvin Lim commented: ***"This sale-and-leaseback Transaction exemplifies our disciplined approach to capital management. By crystallising the value embedded in our mature assets while retaining operational control, we achieve a strategic trifecta: unlocking liquidity, reducing leverage, and maintaining our operational footprint. This is a strategic pivot towards building a more resilient, capital-efficient business model. More importantly, our tenants experience zero disruption from this Transaction, as our management team retains full control of operations, community programming, and service delivery. This is part of our continuous capital recycling initiatives. Over the next 18-24 months, we expect to unlock additional value from our portfolio, further strengthen our balance sheet, and redeploy capital into new acquisitions and growth initiatives that will drive sustainable long-term value creation."***
