NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate information

Sinostar PEC Holdings Limited (“the Company”) is incorporated and domiciled in Singapore as a limited liability company. The Company is listed on the Singapore Exchange Mainboard (“SGX-ST”).

The immediate and ultimate holding company of the Company is Intelligent People Holdings Limited (“Intelligent People”), a company which is incorporated in the British Virgin Islands (“BVI”).

The Company’s registered office is located at 30 Cecil Street, #19-08 Prudential Tower, Singapore 049712.

The principal activity of the Company is that of an investment holding company. The principal activities of its subsidiary corporations are:

- (a) Manufacture and sale of propylene, polypropylene and LPG products;
- (b) Provide logistics and transportation related services for petroleum products; and
- (c) Manufacture and sale of propylene, purified isobutylene, methyl tert-butyl ether (commonly known as MTBE), hydrogen and mixed gas.

These condensed interim consolidated financial statements as at and for the six months ended 30 June 2021 comprise the Company and its subsidiaries (collectively, “the Group”).

2. Basis of Preparation

The condensed interim financial statements for the six months ended 30 June 2021 have been prepared in accordance with SFRS(I) 1-34 *Interim Financial Reporting* issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance of the Group since the last interim financial statements for the year ended 31 December 2020.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The condensed interim financial statements are presented in Chinese Renminbi dollar which is the functional currency of the Company and have been rounded to the nearest thousand (“RMB’000”).

2.1. New and amended standards adopted by the Group

A number of amendments to Standards have become applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

2.2. Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2020.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is the useful lives of property, plant and equipment. The costs of property, plant and equipment are depreciated using the straight-line to allocate the depreciable amount over the estimated useful life. The useful lives of these assets are estimated by the management using common life expectancies applied in the industry and country of operations. Changes in the expected level of usage and technological developments could impact the economic useful lives of these assets, thus affecting the depreciation charges of property, plant and equipment.

There were no significant changes in critical judgements, estimates and assumptions as compared to the consolidated financial statements as at and for the year ended 31 December 2020.

3. Seasonal operations

The Group's businesses are not affected significantly by seasonal or cyclical factors during the financial period.

4. Segment and revenue information

For management purposes, the Group is organised into business units based on their products and services, and has two reportable operating segments as follows:

1. The gas separation segment is the manufacturing and sales of LPG, propylene, polypropylene, MTBE, hydrogen, isobutylene and other gas.
2. The transport and logistic services segment is the provision of logistics and transportation related services for petroleum products.

Except as indicated above, no operating segments have been aggregated to form the above reportable operating segments.

6. Income tax expense

The Group calculates the financial period income tax expense using the tax rate that would be applicable to the expected total annual earnings. The major components of income tax expense in the condensed interim consolidated statement of profit or loss are:

	The Group	
	6 months ended 30 June 2021 RMB'000	6 months ended 30 June 2020 RMB'000
Current income tax expense		
- Profit for the financial period	67,452	14,698
- Under provision in prior financial periods	1,059	-
	<u>68,511</u>	<u>14,698</u>

7. Property, plant and equipment

During the six months ended 30 June 2021, the Group acquired assets amounting to RMB27,400,000 (30 June 2020: RMB230,693,000), disposed off assets with net carrying value amounting to RMB 94,000 (30 June 2020: RMB Nil) and wrote-off assets with net carrying value amounting to RMB Nil (30 June 2020: RMB 67,000).

8. Goodwill arising on consolidation

	The Group	
	30 June 2021 RMB'000	31 December 2020 RMB'000
Cost and carrying amount		
Beginning and end of financial period	<u>10,345</u>	<u>10,345</u>

8.1. Goodwill impairment

For the purposes of impairment testing, goodwill has been allocated to the Group's CGUs as follows:

	The Group	
	30 June 2021 RMB'000	31 December 2020 RMB'000
Dongming Changshun Transport Company Limited (东明县昌顺运输有限公司)	2,501	2,501
Dongming Qianhai Petrochemical Co., Ltd. (东明前海化工有限公司)	7,844	7,844
	<u>10,345</u>	<u>10,345</u>

The recoverable amount of a CGU was determined based on value-in-use. Cash flow projections used in the value-in-use calculations were based on financial budgets approved by management covering a five-year period. Cash flows beyond the five-year period were extrapolated using terminal growth rate of 3% (2020: 3%). These cash flows were discounted using a pre-tax discount rate of 10% (2020: 10%) that reflected current market assessment of the time value of money and the risks specific to the CGUs. The growth rate is based on past performance and expectations on market development.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

8. Goodwill arising on consolidation (Cont'd)

8.1. Goodwill impairment (Cont'd)

Management determines that the recoverable amount is higher than the carrying amount. Accordingly, no impairment for allowance is provided. The Group believes that any reasonable possible changes on the above key assumptions are not likely to cause the recoverable amount to be materiality lower than the related carrying amount.

Under the fair value hierarchy, level 3 inputs were used.

9. Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income comprise the following:

	The Group	
	30 June 2021 RMB'000	31 December 2020 RMB'000

9.1. Fair value measurement

The Group classifies financial assets measured at fair value using a fair value hierarchy which reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

The following table presents the assets measured at fair value at each reporting date:

As China hits the stimulus pedal this year, it is expected to surpass the U.S. as the world's largest oil refiner according to the International Energy Agency (IEA). China's economy continued to recover steadily in the first half of the year, with a 12.7 percent year-on-year GDP expansion for an average two-year growth of 5.3 percent.

Products such as polypropylene are the essential building block for everything from food packaging, clothing, cosmetics and fertilizer, even car and train interiors. This includes the demand for protective surgical masks and related products have continued to drive the demand for the Group's products such as polypropylene (Pp) fibre which is used in the manufacturing of these protective equipment.

The Group has also completed its trial productions for the new polypropylene plant, which is now in stable production and operating at an average utilization rate of 90% in 2Q2021. The new polypropylene plant adopts the latest generation technology, Spheripol, to produce high-quality polypropylene which can be used in the production of automotive accessories, food packaging, and other consumer products.

The Group is optimistic about its FY2021 financial performance and will continue to manage its cash flow closely while optimizing production.
