Forward Looking Statement – Important Note

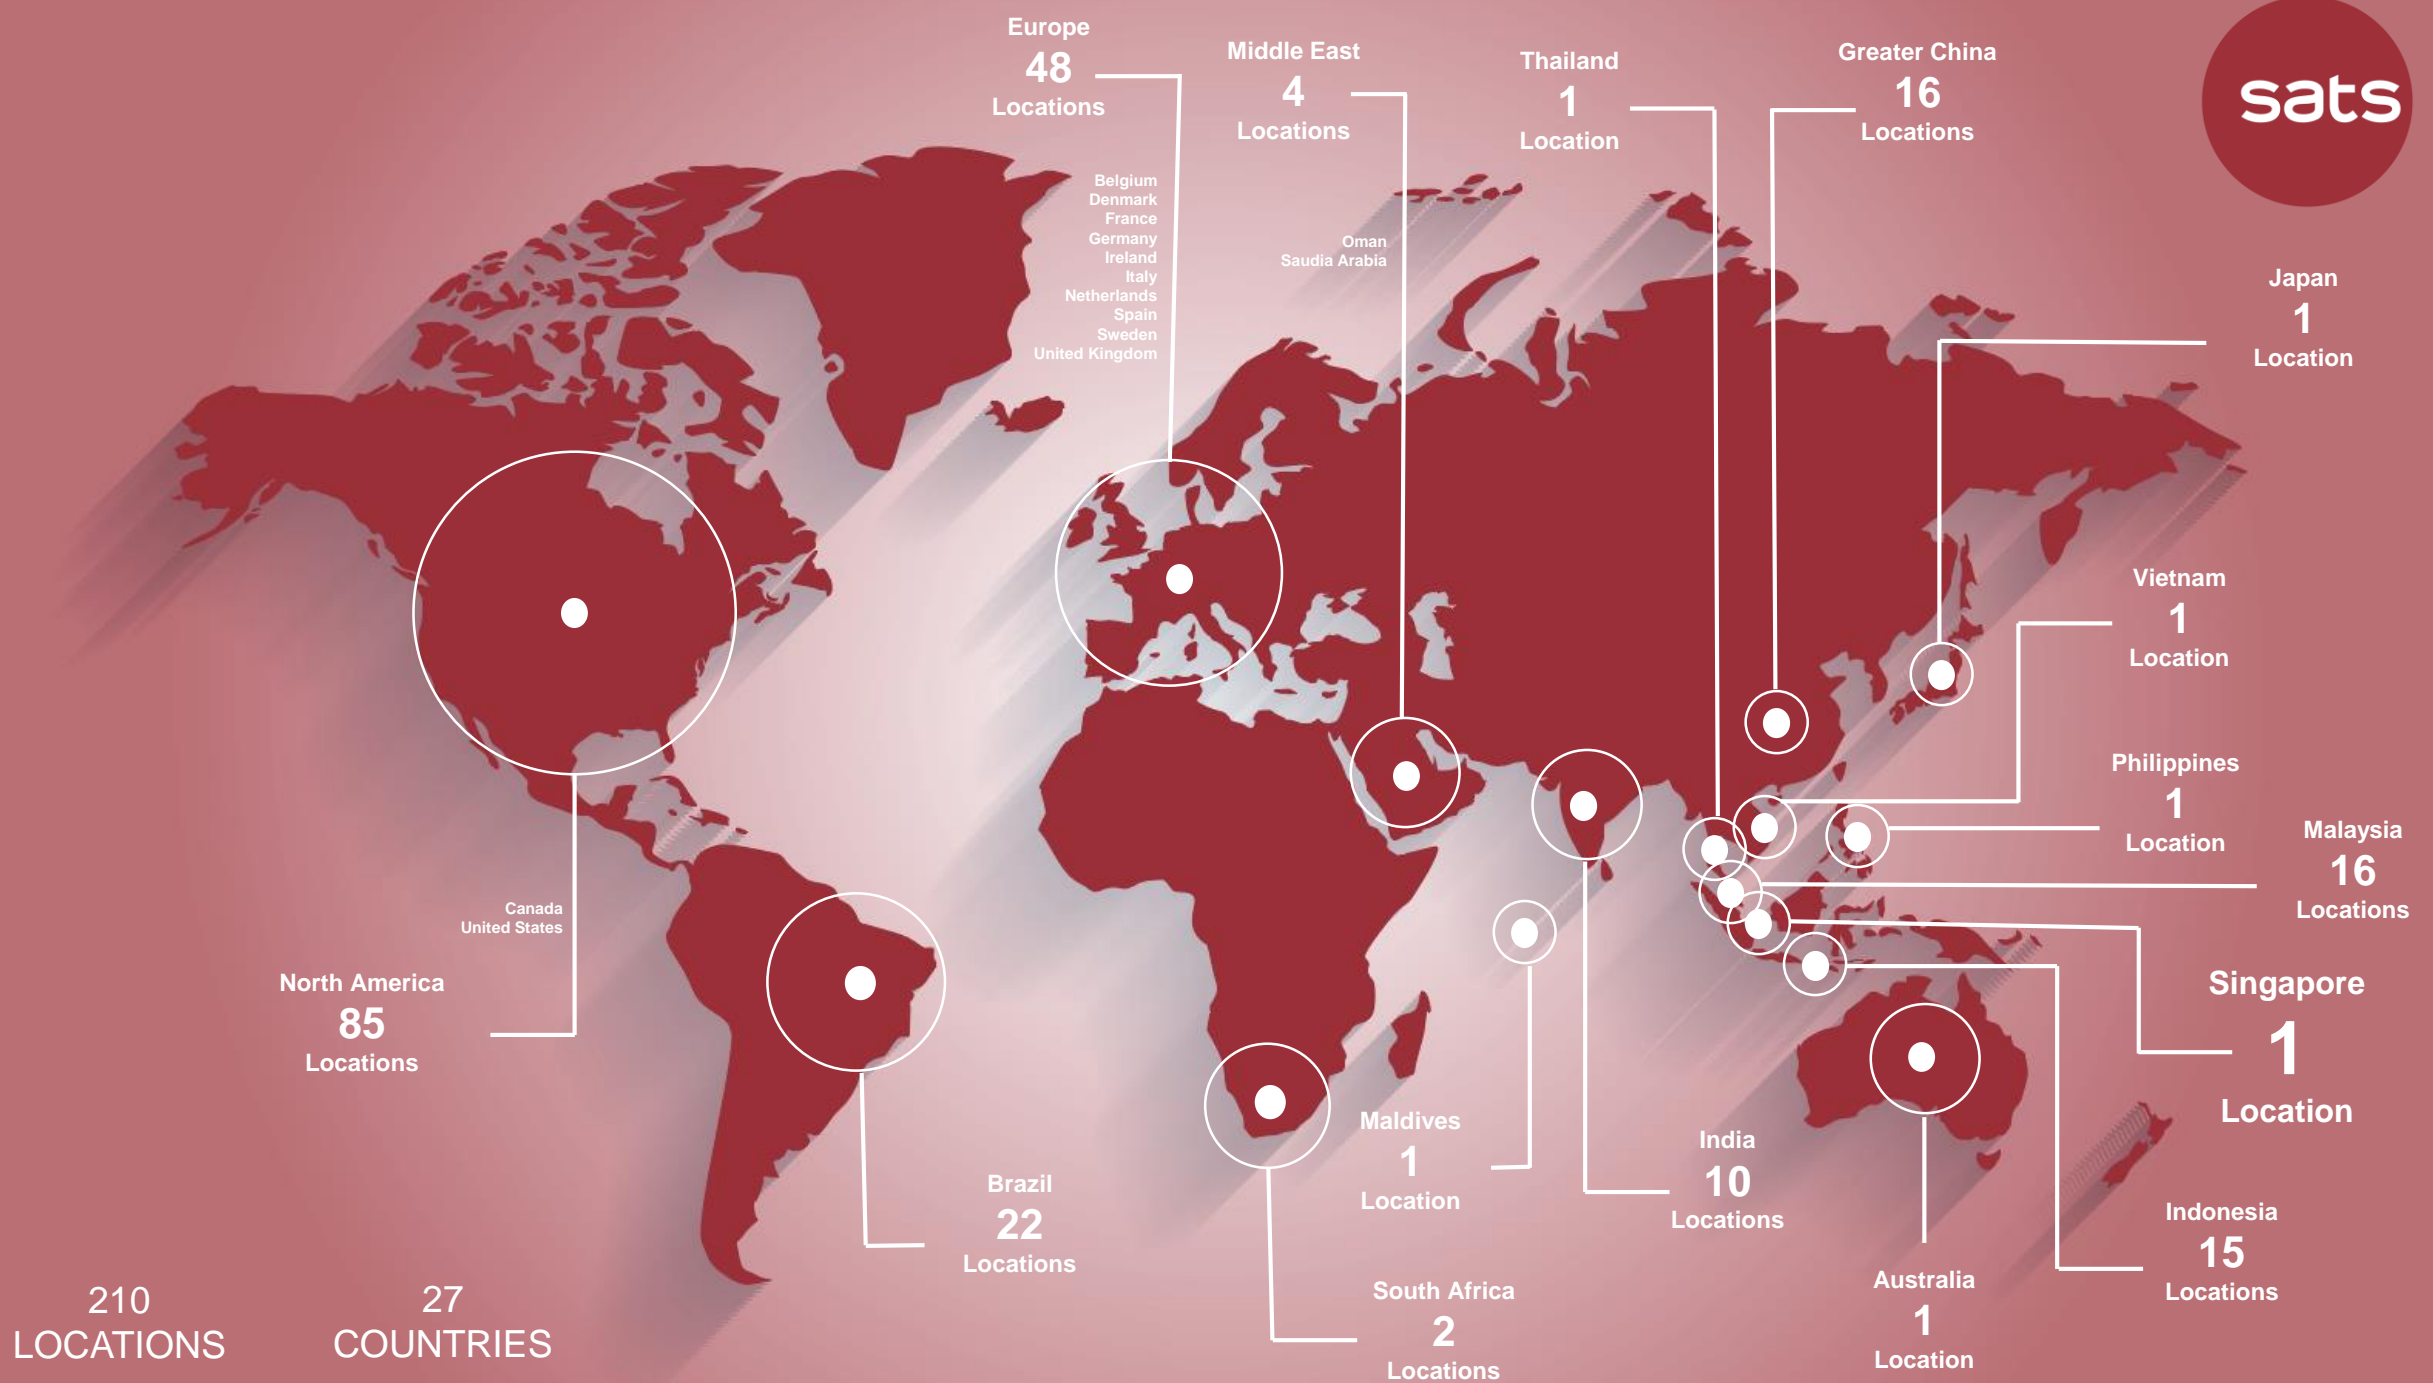

The following presentation contains forward-looking statements by the management of SATS Ltd. (“SATS”), relating to financial and market trends for future periods.

Some of the statements contained in this presentation that are not historical facts are statements of future expectations with respect to the financial conditions, results of operations and businesses, and related plans and objectives. Forward-looking information is based on management’s current views and assumptions including, without limitation, prevailing economic and market conditions. These statements involve known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those in the statements as originally made. Such statements are not and should not be construed as a representation of future performance or commitment of SATS. In particular, any targets should not be regarded as a forecast or projection of future performance of SATS. It should be noted that the actual performance of SATS may vary significantly from such targets.

2Q FY24 revenue grew three-fold compared to the same period last year, driven by WFS consolidation and continued travel recovery

New commercial wins

- Supporting Etihad Airways in its cold chain cargo handling in the US and Copenhagen
- Extending cargo handling partnership in Liege, Belgium
- Started handling Pakistan International Airlines' cargo in SATS Saudi

Strategic Collaboration

- Leverages its enlarged global network to develop new value-added solutions with key industry partners such as Kuehne+Nagel to improve speed and visibility for time-critical shipments.

New Capacity Expansion

- Chicago O'Hara new cargo terminal
- 5th cargo terminal in Madrid

Disciplined integration efforts and positive synergies contributed to stronger financial performance

Delivering Productivity Synergies

- 1H FY24 revenue grew +208.3 % to S\$2.48 Billion over the same period last year
- 1H FY24 EBITDA + SoAJV margin improved from 7.4% in 1H FY23 to 16.0% in 1H FY24
- PATMI loss narrowed from negative S\$32.5 Million in 1H FY23 to negative S\$7.8 Million in 1H FY24

Laser-focused on supporting the ramp-up of operations in Singapore

Path forward...

- SATS slated to **benefit from passenger traffic recovery**
 - Robust pax traffic recovery to fuel growth in Food Solutions and passenger-linked ground services
 - SATS Food Solutions continues to leverage scale benefit to improve overall profitability on the back of lower operating costs with production ramp up and increasing demand
- **Air cargo volume** showing signs of gradual recovery amid uncertain global trade outlook and may not be up for sharp near-future recovery
 - WFS to continue leveraging its market leadership and operational prowess to deliver strong contribution margins in line with historical trajectory
- SATS to continue disciplined integration effort for **full potential value unlock** in coming quarters to achieve target synergies
 - Debt refinancing is one of the first steps in this direction
 - Continue to optimise network footprint and cost structure while driving revenue growth to generate healthy cash flow
 - Leverage cash flow to aggressively pare down debt and generate ability for restoration of dividend pay-outs
- Priority recap:
 - **Restore profitability & drive shareholder value**
 - Optimise cashflow for 3Rs
 - Repayment of debt
 - Reinvestment for sustainable growth (Capex)
 - Resumption of dividend

Commentary

- Group revenue improved by 198.8% (\$852.9M) as Food and Gateway recorded higher revenue by 27.4% and 473.4% on the back of aviation recovery and WFS consolidation.
- Higher Opex driven mainly by WFS consolidation, increase in business activities and absence of government reliefs (\$11.4M).
- SoAJV improved resulting from recovery in the aviation sector and WFS consolidation.
- PATMI was higher due to improvement in EBIT and better SoAJV performance offset by higher interest expense.

Outlook

Outlook

The Group's operating statistics have shown a steady recovery, primarily driven by the return of air travel globally. IATA reported that passenger traffic has recovered to 88.5% of 2019 levels. Accordingly, the Group saw robust growth momentum across its key operating metrics with flights handled and aviation meals served returning to 82% and 83% of pre-COVID levels, respectively, at the end of September 2023.

Global cargo volumes grew for the first time in 19 months in August since February 2022 and continued to grow modestly in September. The Group handled a significant increase in cargo tonnage for 1H FY24, compared to the same period last year due to the consolidation of WFS. While we remain cautious of the ongoing geopolitical dynamics, we are leveraging our global networks and leading position in the market to win new contracts that will bring a steady stream of incremental revenue in the next few quarters. New commercial wins include supporting Etihad Airways in its cold chain cargo handling in the US and Copenhagen, the winning of a long-term cargo handling contract in Liege, Belgium.

Outlook

To better manage the higher cargo volumes in key stations, SATS has added a new cargo terminal at Chicago O'Hare International Airport and invested in a fifth cargo terminal in Madrid. The Group also leverages its enlarged global network to develop new value-added solutions with key industry partners such as Kuehne+Nagel to improve speed and visibility for time-critical shipments.

The integration of SATS and WFS is on track, bringing productivity synergies that have contributed to the financial performance of the combined business. In particular, 1H FY24 Operating margin has improved by 8.4% over the same period last year.

Outlook

Singapore remains strategic to the SATS business, and our investments in Singapore operations have started to bear fruit with stronger financial performance this quarter as the volumes continue to ramp up. We will continue to collaborate with key stakeholders to enhance the efficiency of Changi Airport as the world's best airport.

Said Kerry Mok, President and Chief Executive Officer, SATS Ltd., “We are working actively to improve operational excellence and accelerate commercial synergies. The integration of WFS and SATS is progressing well, and we are realising internal and commercial synergies reflected in our 1H FY24 financial performance. We remain laser-focused on supporting the ramp-up of our operations in Singapore and will continue to bring best-in-class practices to enhance service quality and safety performance for all customers and drive for shareholder value.”
