SOILBUILD CONSTRUCTION GROUP LTD.

UNAUDITED SECOND HALF AND FULL YEAR FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020

1(b)(i) A statement of financial position (for the issuer and group), together with a comparative statement as at the end of the immediately preceding financial year.

Total assets decreased by S\$21.0 million from S\$269.1 million as at 31 December 2019 to S\$248.1 million as at 31 December 2020, mainly due to (i) decrease in trade and other receivables of S\$32.9 million as a result of lower progress billings rendered to customers arising from closure of construction sites due to Covid-19 pandemic, and (ii) decrease in cash and cash equivalents of S\$2.3 million which was explained in the Consolidated Statement of Cash Flow.

The decrease in total assets was partially offset by increase in property, plant and equipment of S\$7.8 million. This was mainly due to purchase of plant and equipment, as well as capitalisation of construction cost incurred for the expansion of the Group's precast and prefabrication factory in Pontian, Malaysia.

Total liabilities increased by S\$7.8 million from S\$187.4 million as at 31 December 2019 to S\$195.2 million as at 31 December 2020, mainly due to (i) the increase in bank borrowings drawdown for working capital purposes and (ii) increase in provision for other liabilities due to accruals for foreseeable loss for projects. However, the increase in total liabilities was partially offset by decrease in trade and other payables of S\$7.2 million due to lower construction activities during the year.

As at 31 December 2020, the Group's current liabilities, amounting to S\$130.5 million, exceeded its current assets, amounting to S\$94.1 million by S\$36.4 million. The negative working capital position was mainly due to the significant operating losses for the current financial years, timing difference arising from the capital investment by the Group in recent years (i.e. investment in the Group's Integrated Construction and Precast Hub (ICPH) project, 2 factories in Tuas South Link, and the acquisition and expansion of manufacturing plants in Malaysia). The Group has since secured additional long term bank borrowings amounting to (i) S\$11.2 million during the financial year ended 31 December 2020, (ii) S\$5.0 million in January 2021, as well as an interest free substantial shareholder's loan from Mr Lim Chap Huat, amounting up to S\$10.0 million in February 2021, for corporate and working capital purposes. With the continual support from the banks and substantial shareholder, the Group believes that it will be able to strengthen its balance sheet position and capital structure.

1(b)(ii) Aggregate amount of group's borrowings and debt securities.

	As at 31 December 2020	As at 31 December 2019
	S\$'000	S\$'000
Amount repayable in one year or less, or on demand		
- Secured	4,302	4,740
- Unsecured	24,714	23,995
Amount repayable after one year		
- Secured	50,572	44,463
- Unsecured	5,098	425

The Group's total borrowings of S\$84.7 million comprise (i) a term loan of S\$47.6 million, (ii) Property loan of S\$5.8 million, (iii) Temporary bridging loan of S\$5.0 million, (iv) Hire purchase loans of S\$2.2 million, (v) short term bank loans of S\$23.7 million and (vi) lease liabilities of S\$0.4 million for the purposes as more explained in the above.

Details of any collaterals

The Group's term loan amounting to S\$47.6 million and Property loan of S\$5.8 million as at 31 December 2020 are secured by first legal mortgages executed over the Group's ICPH and 2 properties at Tuas South Link, Singapore.

Operating Activities

For the second half ended 31 December 2020 ("2HFY2020"), the net cash inflow from operating activities amounted to S\$11.4 million as compared to net cash inflow of S\$1.0 million in the comparative period. The cash inflow from operating activities in 2HFY2020 was mainly attributable to the increase in payables to suppliers and subcontractors, partially offset by increase in inventory during the period.

For the financial year ended 31 December 2020 ("12MFY2020"), the net cash inflow from operating activities amounted to S\$7.8 million as compared to net cash outflow of S\$7.0 million in the comparative year. The cash inflow from operating activities in 12MFY2020 was mainly attributable to the collections from customers.

Investing Activities

For 2HFY2020, cash outflow from investing activities amounted to S\$8.6 million as compared to S\$0.5 million in the comparative period. The cash outflow in 2HFY2020 was mainly attributable to the purchase of plant and equipment and construction cost incurred for the Group's expansion of its factory in Pontian, Johor, Malaysia capitalised during the period under review.

For 12MFY2020, cash outflow from investing activities was S\$16.9 million as compared to S\$4.7 million in the comparative year. The cash outflow in 12MFY2020 was mainly attributable to the purchase of plant and equipment and construction cost incurred for the Group's expansion of its factory in Pontian, Johor, Malaysia capitalised during the year.

Financing Activities

For 2HFY2020, cash outflow from financing activities amounted to S\$0.7 million as compared to cash inflow of S\$7.2 million in the comparative period. The cash outflow in 2HFY2020 was mainly attributable to the interest payment.

For 12MFY2020, cash inflow from financing activities was S\$6.9 million as compared to S\$20.5 million in the comparative year. The cash inflow in 12MFY2020 was due to drawdown of additional bank borrowings to finance the Group's operation, partially offset by interest payment during the year.

UNAUDITED SECOND HALF AND FULL YEAR FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020

8 A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:-

- (a) any significant factors that affected the turnover, cost, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
- (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

(a) **2HFY2020 vs 2HFY2019**

For 2HFY2020, the Group reported a net loss of approximately S\$10.7 million compared to net loss of approximately S\$7.3 million reported in the comparative period.

Revenue & Gross Loss

For the period under review, the Group's revenue decreased by 37.2% from S\$126.9 million in 2HFY2019 to S\$79.7 million in 2HFY2020. The lower revenue reported for 2HFY2020 was due to decrease in construction activities as a result of suspension of all its construction and precast activities in Singapore during the Singapore Covid-19 Circuit Breaker period ("CB") and slow resumption of construction works at site and precast manufacturing activities in the post-CB period.

Major revenue contributors in 2HFY2020 were:

- Yishun HDB project (public housing development at Yishun);
- Bedok Food City project (construction of a high rise multi-user food factory at Bedok North Avenue 4);
- Tai Seng project (construction of a multi-user general industrial factory development at Tai Seng Avenue);
- Rosehill Residence project (erection of a 24-storey residential development in Yangon);
- Tuas Bay Close project (construction of a multi-user general industrial development at Tuas Bay Close); and
- Corporation Drive project (construction of a multi-user general industrial factory development at Jurong West Planning).

In 2HFY2020, the Precast and Prefabrication division contributed approximately S\$6.2 million to the Group's revenue on sales of its products.

The Group reported a gross loss of S\$9.1 million in 2HFY2020 compared to gross loss of S\$0.7 million in 2HFY2019. The gross profit loss for 2HFY2020 was (11.4%) compared to gross loss margin for 2HFY2019 of (0.5%).

Other Income

Other income increased by approximately S\$3.3 million mainly due to government grants such as job support scheme and levy rebates provided by Singapore Government.

Other Losses

Other gains (net) of approximately S\$127,000 in 2HFY2020 were mainly attributable to fair value gain on derivative financial instruments of approximately S\$397,000, which was partially offset by foreign exchange loss of approximately S\$188,000 and loss on disposal of property, plant and equipment.

Administrative Expenses

Administrative expenses decreased from S\$4.3 million in 2HFY2019 to S\$3.0 million in 2HFY2020 mainly due to the decrease in various administrative expenses including property taxes on the buildings of the Group as well as staff remuneration, director's remuneration and directors' fee. In view of the challenges in operating environment caused by Covid-19 pandemic, the Directors have voluntary lowered their entitlement of salaries and fees for 2HFY2020.

Finance Expenses

The decrease in finance expenses in 2HFY2020 was mainly due to lower interest rates on bank borrowings during the period.

Other Operating Expenses

The increase in other operating expenses in 2HY2020 was mainly due to impairment loss on land lease prepayment amounting to S\$1.3 million, which was partially offset by decrease in various expenses that included upkeep of premises during the period under review.

Share of Profit of Joint Ventures

The Group recognised a gain of approximately S\$12,000 in the share of profit of its joint ventures in 2HFY2020 as compared to a gain of approximately S\$8,000 in the comparative period.

Income tax expenses

The Group reported income tax credit of approximately S\$851,000 in 2HFY2020 mainly due to recognition of certain deferred tax assets that are expected to be realised in near future.

Net loss after tax

With the impact of the above, the Group reported a net loss after tax of approximately S\$10.7 million in 2HFY2020.

UNAUDITED SECOND HALF AND FULL YEAR FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020

(b) **12MFY2020 vs 12MFY2019**

For 12MFY2012, the Group reported a net loss of approximately S\$28.7 million compared to net loss of approximately S\$9.1 million reported in the comparative period.

Revenue & Gross Loss

For the period under review, the Group's revenue decreased by 37.1% from S\$236.8 million in 12MFY2019 to S\$148.9 million in 12MFY2020. The decrease in revenue is attributable to decrease in construction activities during 12MFY2020 as a result of suspension of all its construction and precast activities in Singapore during the Singapore Covid-19 Circuit Breaker period ("CB") and slow resumption of construction works at site and precast manufacturing activities in the post-CB period.

Major revenue contributors in 12MFY2020 were:

- Yishun HDB project (public housing development at Yishun);
- Bedok Food City project (construction of a high rise multi-user food factory at Bedok North Avenue 4);
- Tai Seng project (construction of a multi-user general industrial factory development at Tai Seng Avenue);
- Rosehill Residence project (erection of a 24-storey residential development in Yangon);
- Tuas Bay Close project (construction of a multi-user general industrial development at Tuas Bay Close);
- Corporation Drive project (construction of a multi-user general industrial factory development at Jurong West Planning); and
- 68 Residence project (construction and completion of a 26 1/2 storey serviced apartment / condominium in Yangon).

In 12MFY2020, the Precast and Prefabrication division contributed approximately S\$8.5 million to the Group's revenue.

The Group reported a gross loss of S\$24.3 million in 12MFY2020 compared to gross profit of S\$5.1 million in 12MFY2019. The gross loss margin for 12MFY2020 was (16.3%) while the gross profit margin was 2.2% in 12MFY2019.

The gross loss of S\$24.3 million in 12MFY2020 was mainly due to (i) operating losses arising from the suspension of activities at sites/factories due to Covid-19 pandemic, (ii) provision for losses on certain projects in Singapore due to extended construction period where the Group may not be entitled to prolongation costs and (iii) additional construction costs for certain projects.

Other Income

Other income increased by approximately S\$6.8 million mainly due to (i) government grants such as job support scheme and levy rebates provided by Singapore Government, and (ii) increase in rental income in 12MFY2020.

Other Losses

Other losses (net) of approximately S\$0.6 million in 12MFY2020 were mainly attributable to foreign exchange loss of approximately S\$254,000 and fair value loss on derivative financial instruments of approximately S\$313,000.

Administrative Expenses

Administrative expenses decreased from S\$8.7 million in 12MFY2019 to S\$6.5 million in 12MFY2020 mainly due in the decrease in various administrative expenses including property taxes on the buildings of the Group as well as staff remuneration, director's remuneration and directors' fee. In view of the challenges in operating environment caused by Covid-19 pandemic, the Directors have voluntary lowered their entitlement of salaries and fees for 12MFY2020.

Finance Expenses

The finance expenses in 12MFY2020 comprised mainly interest on bank borrowings incurred during the period under review.

Other Operating Expenses

Share of Profit of Joint Ventures

The Group recognised a gain of approximately S\$6,000 in the share of profit of its joint ventures in 12MFY2020 as compared to a gain of approximately S\$11,000 in the comparative period.

Income tax expenses

The Group reported income tax credit of approximately S\$844,000 in 12MFY2020 mainly due to recognition of certain deferred tax assets that are expected to be realised in near future.

Net loss after tax

With the impact of the above, the Group reported a net loss after tax of approximately S\$28.7 million in 12MFY2020.

9 Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Save for the explanation in paragraph 8, there is no material deviation in the actual results for 2HFY2020 and 12MFY2020 from what was previously discussed under paragraph 10 of the announcement of the Company's financial statements for the financial period ended 30 June 2020.

10 A commentary at the date of announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Based on the advance estimates by the Ministry of Trade and Industry Singapore and its press release on 4 January 2021, the Singapore economy contracted by 3.8% on a year-on-year ("yoy") basis in the fourth quarter of 2020, an improvement from 5.6% contraction recorded in the third quarter of 2020. The construction sector shrank by 28.5% (on a yoy basis) in the fourth quarter 2020. The sector recorded a 46.2% contraction in the third quarter 2020 on account of the slow resumption of construction activities.

During the period under review, the Group has resumed construction activities at all its construction sites in Singapore. However, the progress of construction works was constrained by (i) the safety measures that we have put in place for our operations and (ii) shortage of manpower to execute the work at sites. For the Group's precast and prefabrication business, we had restarted our manufacturing and production activities at factories in Singapore and Malaysia in order to meet delivery schedules that we have committed to our customers. While the revenue recognised from our construction activities remained lower than those in the past, revenue recognised from the precast and prefabrication business increased to S\$6.2 million for the current period under review. The Group's precast and prefabrication business secured 4 new supply and delivery contracts worth approximately S\$10.1 million during the period. The Group expects the industry will continue to face challenges in near term, however, we will continue to seek growth in this business, in tandem with the Government push towards adoption of DfMA technologies in the industry.

As we have announced on 1 February 2021, the military of Myanmar seized power in Myanmar and declared a one-year state of emergency. Although there are no restrictions on the construction activities at our sites in Myanmar, we have lowered our manpower resources working at the construction sites as a precautionary measure in consideration of the uncertainties. We will continue to assess the situation and will adjust our progress at sites correspondingly.

The Group's order book as at 31 December 2020 amounted to S\$515.4 million, which comprise S\$470.4 million (of which, S\$420.2 million* from local projects and S\$50.2 million from Myanmar projects) of construction projects, and S\$45.0 million of precast and prefabrication supply contracts from external parties.

* comprise precast and prefabrication components with contract value worth approximately S\$12.7 million to be supplied and the Group's precast and prefabrication division.
