PROHIBITION OF SALES TO EEA RETAIL INVESTORS — The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”); (ii) a customer within the meaning of Directive (EU) 2016/97, (as amended, the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the “**Prospectus Regulation**”). Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

MiFID II product governance / target market – The Pricing Supplement in respect of any Notes may include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will, if applicable, be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the “**MiFID Product Governance Rules**”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealer nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

SECTION 309B OF THE SECURITIES AND FUTURES ACT 2001 OF SINGAPORE NOTIFICATION

– Unless otherwise stated in the Pricing Supplement in respect of any Notes, all Notes issued or to be issued under the Programme shall be “capital markets products other than prescribed capital markets products” (as defined in the SFA and the Securities and Futures (Capital Markets Products) Regulations 2018) and “Specified Investment Products” (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

United Overseas Bank Limited, as arranger, (the “**Arranger**”) has been authorised by the Issuer to arrange the Programme described herein. Under the Programme, the Issuer may, subject to compliance with all relevant laws, regulations and directives, from time to time issue Notes denominated in Singapore dollars and/or any other currencies.

This Offering Circular contains information with regard to the Bank, the Group (as defined herein), the Programme and the Notes. The Bank, having made all reasonable enquiries, confirms that this Offering Circular contains all information which is (in the context of the Programme or the issue, offering and sale of the Notes) material, that such information is true and accurate in all material respects and is not misleading in any material respect; that any opinions, predictions or intentions expressed herein are honestly held or made and are not misleading in any material respect; that this Offering Circular does not omit to state any material fact necessary to make such information, opinions, predictions or intentions (in the context of the Programme or the issue, offering and sale of the Notes) not misleading in any material respect; and that all proper enquiries have been made to ascertain or verify the foregoing.

The Notes will be issued in Series (as defined herein) in one or more Tranches (as defined herein). In respect of each Series or Tranche, the terms and conditions of the Notes (as set out in the section “*Terms and Conditions of the Notes*”, the “**Conditions**”) will be supplemented by a pricing supplement

(the “**Pricing Supplement**”) which supplements, amends and/or replaces the Conditions to constitute the terms and conditions applicable to such Series or Tranche. Potential investors should read this Offering Circular together with the applicable Pricing Supplement in order to understand the terms and conditions of each Series or Tranche of Notes.

Each Series or Tranche of Notes in bearer form will be represented on issue by a Temporary Global Note (as defined herein) or a Permanent Global Note (as defined herein). Notes in registered form will be represented by registered certificates (each, a “**Certificate**”), one Certificate being issued in respect of each Noteholder’s entire holding of Registered Notes of one Series. Global Notes and Certificates may be deposited on the issue date with either The Central Depository (Pte) Limited (“**CDP**”) or a common depository for Euroclear Bank SA/NV (“**Euroclear**”) and Clearstream Banking S.A. (“**Clearstream, Luxembourg**”) or otherwise delivered as agreed between the Issuer and the relevant Dealer (each as defined herein).

No person has been authorised to give any information or to make any representation other than those contained in this Offering Circular and, if given or made, such information or representation must not be relied upon as having been authorised by the Bank, the Arranger or any of the Dealers. Save as expressly stated in this Offering Circular, nothing contained herein is, or may be relied upon as, a promise or representation as to the future performance or policies of the Bank or any of its subsidiaries or associated companies (if any).

Neither the delivery of this Offering Circular (or any part thereof) nor the issue, offering, purchase or sale of the Notes shall, under any circumstances, constitute a representation, or give rise to any implication that there has been no change in the prospects, results of operations or general affairs of the Bank or any of its subsidiaries or associated companies (if any) or in the information herein since the date hereof or the date on which this Offering Circular has been most recently amended or supplemented.

The Arranger and the Dealers have not separately verified the information contained in this Offering Circular. None of the Arranger, any of the Dealers or any of their respective officers or employees is making any representation or warranty expressed or implied as to the merits of the Notes or the subscription for, purchase or acquisition thereof, the creditworthiness or financial condition or otherwise of the Bank or its subsidiaries or associated companies (if any). Further, none of the Arranger or the Dealers makes any representation or warranty as to the Bank, its subsidiaries or associated companies (if any) or as to the accuracy, reliability or completeness of the information set out herein (including the legal and regulatory requirements pertaining to Sections 274, 275 and 276 or any other provisions of the SFA) and in the documents which are incorporated by reference in, and form part of, this Offering Circular. Neither this Offering Circular nor any other document or information (or any part thereof) delivered or supplied under or in relation to the Programme may be used for the purpose of, or constitutes an offer of, or solicitation or invitation by or on behalf of the Bank, the Arranger or any of the Dealers to subscribe for or purchase, the Notes in any jurisdiction or under any circumstances in which such offer, solicitation or invitation is unlawful, or not authorised or to any person to whom it is unlawful to make such offer, solicitation or invitation. The distribution and publication of this Offering Circular or any such other document or information and the offer of the Notes in certain jurisdictions may be restricted by law. Persons who distribute or publish this Offering Circular or any such other document or information or into whose possession this Offering Circular or any such other document or information comes are required to inform themselves about and to observe any such restrictions and all applicable laws, orders, rules and regulations. The attention of recipients of this Offering Circular is drawn to the restrictions on resale of the Notes set out under “Subscription and Sale”.

The Notes have not been and will not be registered under the Securities Act, or under the securities laws of any state of the United States and, subject to certain exceptions, may not be offered, sold or delivered within the United States or to, or for, the account or benefit of U.S. persons (as defined in Regulation S). Notes may be offered to non-U.S. persons outside the United States pursuant to Regulation S under the Securities Act. The Notes may be subject to U.S. tax law requirements.

Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with all applicable laws and regulations.

The Notes have not been approved or disapproved by the United States Securities and Exchange Commission, any state securities commission in the United States or any other United States regulatory authority, nor have any of the foregoing authorities passed upon or endorsed the merits of the Programme or the Notes or the accuracy or adequacy of this Offering Circular. Any representation to the contrary is a criminal offence in the United States.

Neither this Offering Circular nor any other document or information (or any part thereof) delivered or supplied under or in relation to the Programme or the issue of the Notes is intended to provide the basis of any credit or other evaluation or should be considered as a recommendation by the Bank, the Arranger or any of the Dealers that any recipient of this Offering Circular or such other document or information (or such part thereof) should subscribe for or purchase any of the Notes. A prospective purchaser shall make its own assessment of the foregoing and other relevant matters, including the financial condition and affairs and the creditworthiness of the Bank and its subsidiaries and associated companies (if any), and obtain its own independent legal or other advice thereon, and its investment shall be deemed to be based on its own independent investigation of the financial condition and affairs and its appraisal of the creditworthiness of the Bank and its subsidiaries and associated companies (if any). Accordingly, notwithstanding anything herein, none of the Bank, the Arranger, any of the Dealers or any of their respective officers, employees or agents shall be held responsible for any loss or damage suffered or incurred by the recipients of this Offering Circular or such other document or information (or such part thereof) as a result of or arising from anything expressly or implicitly contained in or referred to in this Offering Circular or such other document or information (or such part thereof) and the same shall not constitute a ground for rescission of any purchase or acquisition of any of the Notes by a recipient of this Offering Circular or such other document or information (or such part thereof).

The maximum aggregate principal amount of the Notes to be issued, when added to the aggregate principal amount of all Notes outstanding shall be U.S.\$5,000,000,000 (or its equivalent in any other currencies), or such higher amount as such maximum aggregate principal amount may be increased pursuant to the terms of the Dealer Agreement (as defined herein).

To the extent that the Notes are physically settled, any person(s) who is invited to purchase or subscribe for the Notes agree that despite any other provision of the Offering Circular or any other agreement, arrangement or understanding between such person(s) and the Bank, the Arranger or any of the Dealers, such person(s) will be bound by section 83 of the Monetary Authority of Singapore Act 1970 (the “**MAS Act**”) or section 92 of the Financial Services and Markets Act 2022 of Singapore (“**FSM Act**”) (as the case may be) and by any suspension of a “termination right” in each agreement pertaining to the Notes imposed by the Monetary Authority of Singapore under section 84 of the MAS Act or section 93 of the FSM Act (as the case may be).

Notes issued under the Programme may be denominated in Renminbi. Renminbi is currently not freely convertible and conversion of Renminbi is subject to certain restrictions. Investors should be reminded of the conversion risk with Renminbi products. In addition, there is a liquidity risk associated with Renminbi products, particularly if such investments do not have an active secondary market and their prices have large bid/offer spreads. Renminbi products are denominated and settled in Renminbi deliverable in Hong Kong and Singapore, which represent markets which are different from that of Renminbi deliverable in the PRC (as defined below).

In this Offering Circular, unless otherwise specified, references to “**S\$**”, “**SGD**” or “**Singapore Dollars**” are to the lawful currency of the Republic of Singapore, references to “**U.S.\$**” and “**U.S. dollars**” are to United States dollars, the lawful currency of the United States, references to “**Renminbi**”, “**RMB**” and “**CNY**” refer to the lawful currency of the People’s Republic of China (for these purposes, excluding

Taiwan, Hong Kong and Macau) (“**PRC**”), and references to “**EUR**” or “**euro**” are to the single currency of participating member states of the European Union.

Neither this Offering Circular nor any other document or information (or any part thereof) delivered or supplied under or in relation to the Programme shall be deemed to constitute an offer of, or an invitation by or on behalf of the Issuer, the Arranger or any of the Dealers to subscribe for or purchase, any of the Notes.

This Offering Circular and any other document or material in relation to the issue, offering or sale of the Notes have been prepared solely for the purpose of the initial sale by the relevant Dealers of the Notes from time to time to be issued pursuant to the Programme. This Offering Circular and any such other documents or materials are made available to the recipients thereof solely on the basis that (i) where the Notes are offered in Singapore, the recipients are persons falling within the ambit of Section 274 and/or Section 275 of the SFA, and (ii) where the Notes are offered outside Singapore, such offer will be in compliance with the applicable laws and regulations of the relevant jurisdiction. This Offering Circular and such other documents or materials may not be relied upon by any person other than persons to whom the Notes are sold or with whom they are placed by the relevant Dealers as aforesaid or for any other purpose. Recipients of this Offering Circular and such other documents or materials shall not reissue, circulate or distribute this Offering Circular or any part thereof in any manner whatsoever. None of the Issuer, the Arranger nor any of the relevant Dealers is making any representation or warranty, expressed or implied, as to the merits of the Notes or the subscription, purchase or acquisition thereof, or the affairs of the Issuer. Further, none of the relevant Dealers gives any representation or warranty as to the Issuer or as to the accuracy, reliability or completeness of the information set out herein (including the legal and regulatory requirements pertaining to Sections 274, 275 and 276 or any other provisions of the SFA) and the documents which are incorporated by reference in, and form part of, this Offering Circular.

Any purchase or acquisition of the Notes is in all respects conditional on the satisfaction of certain conditions set out in the Dealer Agreement and the issue of the Notes by the Bank pursuant to the Dealer Agreement. Any offer, invitation to offer or agreement made in connection with the purchase or acquisition of the Notes or pursuant to this Offering Circular shall (without any liability or responsibility on the part of the Bank, the Arranger or any the Dealers) lapse and cease to have any effect if (for any other reason whatsoever) the Notes are not issued by the Bank pursuant to the Dealer Agreement.

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or any person acting on behalf of any Stabilisation Manager(s)) in the applicable Pricing Supplement may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilisation Manager(s) (or persons acting on behalf of a Stabilisation Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or any person acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

To the fullest extent permitted by law, none of the Arranger or any of the Dealers accepts any responsibility for the contents of this Offering Circular or for any other statement, made or purported to be made by the Arranger or any of the Dealers or on its behalf in connection with the Bank or the issue and offering of the Notes. The Arranger and each Dealer accordingly disclaims all and any liability whether arising in tort or contract or otherwise (save as referred to above) which it might otherwise have in respect of this Offering Circular or any such statement.

The following documents published or issued from time to time after the date hereof shall be deemed to be incorporated by reference in, and to form part of, this Offering Circular: (i) the most recently published audited consolidated and unconsolidated annual financial statements and any consolidated and unconsolidated interim semi-annual financial statements (whether audited or unaudited) published subsequently to such annual financial statements, of the Bank from time to time; and (ii) any supplement or amendment to this Offering Circular issued by the Bank. This Offering Circular is to be read in conjunction with all such documents which are incorporated by reference herein and, with respect to any Series or Tranche of Notes, any Pricing Supplement in respect of such Series or Tranche. Any statement contained in this Offering Circular or in a document deemed to be incorporated by reference herein shall be deemed to be modified or superseded for the purpose of this Offering Circular to the extent that a statement contained in this Offering Circular or in such subsequent document that is also deemed to be incorporated by reference herein modifies or supersedes such earlier statement (whether expressly, by implication or otherwise). Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this Offering Circular. Copies of all documents deemed incorporated by reference herein are available for inspection at the Specified Offices (as defined herein) of the Issue and Paying Agent and Registrar (each as defined herein). Copies of the documents listed in (i) above which are deemed to be incorporated by reference in this Offering Circular may also be obtained without charge at the SGX-ST's website at www.sgx.com.

Any discrepancies in the tables included herein between the listed amounts and totals thereof are due to rounding.

References in this Offering Circular to websites and other sources where further information may be obtained are intended to be guides as to where further public information may be obtained free of charge. Information appearing on these websites and in such other sources does not form part of this Offering Circular and none of the Arranger, the Dealers nor any of their respective officers or employees accept any responsibility whatsoever that such information, if available, is accurate and/or up to date and no responsibility is accepted in relation to any such information by any person responsible for this Offering Circular.

Any person(s) who is invited to purchase or subscribe for the Notes or to whom this Offering Circular is sent shall not make any offer or sale, directly or indirectly, of any Notes or distribute or cause to be distributed any document or other material in connection therewith in any country or jurisdiction except in such manner and in such circumstances as will result in compliance with any applicable laws and regulations.

It is recommended that persons proposing to subscribe for or purchase any of the Notes consult their own legal and other advisers before purchasing or acquiring the Notes.

FORWARD-LOOKING STATEMENTS

All statements contained in this Offering Circular that are not statements of historical fact constitute “forward-looking statements”. Some of these statements can be identified by forward-looking terms such as “expect”, “believe”, “plan”, “intend”, “estimate”, “anticipate”, “may”, “will”, “would” and “could” or similar words. However, these words are not the exclusive means of identifying forward-looking statements. All statements regarding the expected financial position, business strategy, plans and prospects of the Issuer or the Issuer and its subsidiaries taken as a whole (the “**Group**”) (including statements as to the Issuer’s and/or the Group’s revenue and profitability, prospects, future plans and other matters discussed in this Offering Circular regarding matters that are not historical fact and, including the financial forecasts, profit projections, statements as to the expansion plans of the Issuer and/or the Group, expected growth in the Issuer and/or the Group and other related matters), if any, are forward-looking statements and accordingly, are only predictions. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Issuer and/or the Group to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These factors are discussed in greater detail under “*Risk Factors*”.

Given the risks and uncertainties that may cause the actual future results, performance or achievements of the Issuer or the Group to be materially different from the results, performance or achievements expected, expressed or implied by the financial forecasts, profit projections and forward-looking statements in this Offering Circular, undue reliance must not be placed on those forecasts, projections and statements. The Issuer, the Group, the Arranger and the Dealers do not represent nor warrant that the actual future results, performance or achievements of the Issuer or the Group will be as discussed in those statements.

Neither the delivery of this Offering Circular nor the issue of any Notes by the Issuer shall under any circumstance constitute a continuing representation or create any suggestion or implication that there has been no change in the affairs of the Issuer, the Group or any statement of fact or information contained in this Offering Circular since the date of this Offering Circular or the date on which this Offering Circular has been most recently amended or supplemented.

Further, the Issuer, the Arranger and the Dealers disclaim any responsibility, and undertake no obligation, to update or revise any forward-looking statements contained herein to reflect any changes in the expectations with respect thereto after the date of this Offering Circular or to reflect any change in events, conditions or circumstances on which any such statements are based.

(“ Clearstream, Luxembourg ”) and/or The Central Depository (Pte) Limited (“ CDP ”) and/or, in relation to any Tranche of Notes, any other clearing system or no clearing system, as may be specified in the relevant Pricing Supplement.
Issuance in Series:	Notes will be issued in Series. Each Series may comprise one or more Tranches issued on different issue dates. The Notes of each Series will all be subject to identical terms, except that (i) the issue date and the amount of the first payment of interest may be different in respect of different Tranches and (ii) a Series may comprise Notes in bearer form and Notes in registered form and Notes in more than one denomination. The Notes of each Tranche will all be subject to identical terms in all respects save that Notes may comprise different denominations.

Pricing Supplements:

Each Tranche will be the subject of a Pricing Supplement which, for the purposes of that Tranche only, supplements the Conditions and this Offering Circular, and must be read in conjunction with this Offering Circular. The terms and conditions applicable to any particular Tranche of Notes are the Conditions as supplemented, amended and/or replaced by the relevant Pricing Supplement.

Form of Notes:

Notes may be issued in bearer form or in registered form.

Each Tranche of Notes issued in bearer form will initially be in the form of either a Temporary Global Note or a Permanent Global Note, in each case as specified in the relevant Pricing Supplement. Such Global Note will be deposited on or before the relevant issue date with Euroclear and/or Clearstream, Luxembourg and/or CDP and/or any other relevant clearing system. Each Temporary Global Note will be exchangeable for a Permanent Global Note or, if so specified in the relevant Pricing Supplement, for Definitive Notes and/or (in the case of a Series comprising both bearer and registered Notes and if so specified in the relevant Pricing Supplement) Notes in registered form in accordance with its terms. If the TEFRA D Rules are specified in the relevant Pricing Supplement as applicable, certification as to non-U.S. beneficial ownership will be a condition precedent to any exchange of an interest in a Temporary Global Note or receipt of any payment of interest in respect of a Temporary Global Note. Each Permanent Global Note will be exchangeable for Definitive Notes and/or (in the case of a Series comprising both bearer and registered Notes and if so specified in the relevant Pricing Supplement) Notes in registered form in accordance with its terms. Definitive Notes will, if interest-bearing and in bearer form, have Coupons (if in bearer form) attached and, if appropriate, a Talon for further Coupons.

Each Tranche of Notes issued in registered form will initially be represented by a Registered Global Note or a Registered Definitive Note, without interest coupons, as specified in the relevant Pricing Supplement. The Registered Global Note will be evidenced by a Global Note Certificate and (i) if cleared through a clearing system, will be deposited on or around the issue date with a depository or a common depository for, and registered in the name of a nominee or common nominee of, Euroclear and/or Clearstream, Luxembourg and/or CDP and/or any other relevant clearing system and (ii) if not cleared through any clearing system, will be deposited on or around the issue date with, and registered in the name of, United Overseas Bank Limited or its nominee, acting in its capacity as Registrar and Transfer Agent. For so long as any of the Notes is represented by a Registered Global Note and the Registered Global Note is held by United Overseas Bank Limited or its nominee, acting in its capacity as Registrar and Transfer Agent, each person (other than United Overseas Bank Limited) who is for the time being shown in the records

of United Overseas Bank Limited as the holder of a particular principal amount of such Notes (in which regard any statement of accounts, certificate or other document issued by United Overseas Bank Limited, acting in its capacity as Registrar and Transfer Agent, as to the principal amount of Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be deemed to be and shall be treated as the holder of such principal amount of Notes for all purposes. Notes in registered form may not be exchanged for Notes in bearer form.

Payments in respect of Notes may, subject to such compliance, be made in and/or linked to, any currency or currencies other than the currency in which such Notes are denominated.
Status of the Notes:	The Notes will constitute direct, unsecured and unsubordinated obligations of the Bank and will, at their date of issue, rank <i>pari passu</i> without any preference among themselves and with all other present and future unsecured and unsubordinated obligations of the Bank other than obligations preferred by law.
Issue Price:	Notes may be issued at any price and either on a fully or partly paid basis, as specified in the relevant Pricing Supplement.

Interest:	Notes may be interest-bearing or non-interest bearing, and interest (if any) may accrue at a fixed rate or a floating rate or be determined by reference to any underlying assets or (in the case of Physical Delivery Notes) be payable by delivery of any Underlying Physical Assets and the method of calculating interest may vary between the issue date and the maturity date of the relevant Series, all as may be specified in the relevant Pricing Supplement.

Fund Linked Notes may be subject to early redemption or adjustment (including as to valuations and fund substitutions) if certain corporate events (such as insolvency (or an analogous event) or nationalisation of a Fund; litigation against, or regulatory events occurring with respect to a Fund, suspensions of Fund subscriptions or redemptions, certain changes in net asset value or violations of leverage restrictions of a Fund, Fund reporting disruptions, or modifications to the investment objectives or changes in the nature or administration of a Fund) occur, or if certain valuation or settlement disruption events occur with respect to a Fund, as more fully set out under "*Terms and Conditions of the Notes – Fund Linked Notes*" below.

In that event, the Issuer shall pay such additional amounts as will result in the receipt by the Noteholders and the Couponholders of such amounts as would have been received by them if no such withholding or deduction had been required, subject to certain exceptions.

For the avoidance of doubt, neither the Issuer nor any other person shall be required to pay any additional amount or otherwise indemnify a holder for any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the “Code”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code (or any regulations thereunder or official interpretations thereof) or an intergovernmental agreement between the United States and another jurisdiction facilitating the implementation thereof (or any law implementing such an intergovernmental agreement).

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes issued under the Programme. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

Factors which the Issuer believes may be material for the purpose of assessing the market risks associated with the Notes issued under the Programme are also described below.

Prospective investors should carefully consider, among other things, the risks described below, as well as the other information contained in this Offering Circular (including any documents deemed to be incorporated by reference herein) and reach their own views prior to making an investment decision. Any of the following risks could materially adversely affect the Group's business, financial condition or results of operations and, as a result, investors could lose all or part of their investment. The risks below are not the only risks the Group faces. Additional risks and uncertainties not currently known to the Group, or which are currently deemed to be immaterial, may also materially adversely affect the Group's business, financial condition or results of operations.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal and other professional advisers to determine whether and to what extent (i) Notes are suitable investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

1 Risks Related to the Group

1.1 Creditworthiness of the Issuer.

Unless indicated otherwise in the applicable Pricing Supplement, the Notes constitute direct, general and unsecured contractual obligations of the Issuer only, which will rank *pari passu*, without preference among themselves and (save for certain obligations required to be preferred by law) equally with all other unsecured contractual obligations of the Issuer. The Issuer issues a number of financial instruments on a global basis and, at any given time, its obligations on the financial instruments outstanding may be substantial. If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under the Notes (i.e. the investors in the Notes assume the Issuer's credit risk). If the Issuer becomes insolvent or defaults on its obligations under the Notes, in the worst-case scenario investors in the Notes could lose all of their invested amounts.

1.2 Political instability, economic downturns, bank failures, civil unrest, cross-border tensions, terrorist attacks, natural calamities and outbreaks of communicable diseases around the world could lead to disruptions and/or higher volatility in the international financial markets, which may materially and adversely affect the Group's business, financial condition, results of operations and asset quality.

Geopolitical risks and tensions have continued to feature prominently on the global stage, such as the ongoing Russia-Ukraine War and Israeli-Palestinian militant group Hamas conflict in the Middle East. Such protracted conflicts could result in global economic slowdown, higher inflation, supply chain disruption, diminished access to commodities and financial market volatilities.

Trade tensions between the United States and major trading partners, most notably China, remain heightened following the introduction of a series of tariff measures in both the United States and China and a U.S. investment ban on certain Chinese companies, and these tensions could significantly impact global trade. Other economies have also implemented tariff measures on selected Chinese products. Such tensions are set to continue in the areas of data and technology security and the maritime claims in the South and East China Seas, and as the result of China-Taiwan relations and human rights accusations. In addition, financial market volatility and increased economic uncertainty may arise due to specific country-related factors. For example, the Chinese government may maintain tight regulatory oversight on specific sectors (such as property and platform technology companies) and rein in debt increases even as it attempts to stabilise economic growth. To the extent that uncertainty regarding the economic outlook is heightened and starts to negatively impact consumer confidence and consumer credit factors globally or regionally, the Group's business, financial condition and results of operations could be significantly and adversely affected. There has also been continued and lingering political unrest in certain countries within the Southeast Asia region in recent years. Such geopolitical risks could continue to emerge in the region, resulting in economic slowdown, financial and commodity market volatilities and capital flight from emerging markets.

Notwithstanding the global interest rate environment, the global economy remained resilient, especially in the United States. U.S. gross domestic product ("GDP") grew 2.5 per cent in 2023, and while the US slowdown may now be in sight (2H 2024), it is still aligned with a soft landing scenario. Headline consumer price index ("CPI") inflation in the United States continued to moderate as goods and energy prices corrected lower. Core inflation also eased but at a slower pace than headline CPI as services costs were elevated on the back of robust wage growth. In China, the economy has stabilised in 2024 to some extent compared to the past two years and this will likely reduce the urgency and the prospect of stronger policy responses to the lingering economic challenges, and thus the risk is that the domestic demand may continue to be sub-par. In the medium-to-long term, China economy continues to face a structural slowdown due to the downsizing of the property market, local government debt, shifting supply chains and ageing population.

For ASEAN, the downturn in regional trade found its bottom and showed signs of recovery, albeit bumpy, since late 2023. Asia's growth is expected to remain resilient in 2024 with the International Monetary Fund ("IMF") projecting average annual real GDP growth rate of 4.6% for 2024-2029. The UOB team is projecting around 5.0% growth for 2024 and 2025.

The Group's results of operations will also continue to be affected by the interest rates policies of central banks globally. A reduction in central bank policy rates generally causes net interest margins to decline, which may potentially hurt the Group's interest income, yet lower interest rates may spur more manufacturing, business and financial activities in Singapore and the region, raising the demand for credit.

Singapore's economy is closely interconnected with and heavily exposed to economic and market conditions in other countries. An economic downturn or recession in other countries could have an adverse effect on economic growth and market conditions in Singapore, which could result in lower demand for credit and other financial products and services and higher defaults among corporate and retail customers, affecting the Group's business, financial condition and results of operations. The Group's performance and the quality and growth of its assets are substantially dependent on Singapore's economy. As at 31 December 2023, 60 per cent. of the Group's assets (excluding intangible assets) were in Singapore. For the year ended 31 December 2023, the Group derived 67 per cent. of its pre-tax profit from Singapore (based on location where transactions are booked). The Group also offers banking and financial services to customers outside Singapore in the Asia Pacific region, including but not limited to Malaysia, Thailand,

Indonesia, Greater China, Vietnam and Australia, and its business may accordingly be affected by the economic environment in these countries.

1.3 Increased competition could affect the Group's business, financial conditions and results of operations.

The Group's primary competitors consist of other major Singapore banks, foreign banks licensed in Singapore and other financial institutions in Southeast Asia, Greater China and other markets in which the Group operates. The liberalisation of the Singapore banking industry has resulted in increased competition among domestic and foreign banks operating in Singapore, leading to reduced margins for certain banking products. The MAS, which regulates banks in Singapore, has issued Qualifying Full Bank ("QFB") licences to various foreign financial institutions since 1999. QFBs are permitted to establish up to 25 service locations in Singapore, either for branches or off-site automated teller machines ("ATMs"). QFBs are also permitted to share ATMs among themselves. Foreign banks granted such licences face fewer restrictions on their Singapore dollar deposit-taking and lending activities. The MAS has indicated that it will continue to allow greater foreign bank participation in the Singapore banking industry and refine the QFB system. Under the Significantly Rooted Foreign Bank ("SRFB") framework ("SRFB Framework"), QFBs that are significantly rooted in Singapore and from jurisdictions that have a Free Trade Agreement with Singapore are allowed to establish up to 50 places of business, of which up to 35 may be branches. In addition, the Singapore government has allowed more international banks to obtain "wholesale banking" licences to enable them to expand their Singapore dollar wholesale banking business in Singapore and to broaden the scope of Singapore dollar banking activities in which the international banks may participate.

In December 2020, the MAS announced successful applicants of licences to operate new digital banks in Singapore. The MAS had issued two digital full bank ("DFB") licences and two digital wholesale bank ("DWB") licences. These are in addition to any digital banks that Singapore banking groups may establish under MAS' existing internet banking framework. The digital bank licences allow entities, including non-bank players, to conduct digital banking businesses in Singapore. A DFB is allowed to take deposits from, and provide banking services to, retail and non-retail customer segments, while a DWB is allowed to take deposits from, and provide banking services to, SMEs and other nonretail customer segments. MAS expects digital banks to demonstrate a path to profitability on a standalone basis and will monitor market dynamics to deter any unsustainable banking practices, as it aims to preserve a level playing field among banks. The new digital banks in Singapore have launched their services from the second half of 2022.

Since the implementation of the United States Singapore Free Trade Agreement (the "USSFTA") signed in May 2003, Singapore banks, including the Group, have been subject to additional competition. The USSFTA has removed QFB and wholesale bank licence quotas for U.S. banks and significantly relaxed certain other restrictions on international banking activities. Further liberalisation of the financial sector in Singapore could lead to a greater presence or to new entries of domestic and foreign banks offering a wider range of products and services, which could adversely impact the Group's competitive environment. The Group also faces increasing competition in Malaysia and Thailand, which have liberalised their financial sectors.

There can be no assurance that the Group will be able to compete successfully with other domestic and foreign financial institutions or that increased competition will not materially and adversely affect the Group's business, financial condition and results of operations.

1.4 The Group may face significant challenges in achieving the goals of its business strategy.

Although the Group believes it has targeted the appropriate geographical and business segments in developing its business strategy, its initiatives to offer new products and services and to

increase sales of its existing products and services may not succeed if market conditions are not stable, market opportunities develop more slowly than expected, the identified strategic initiatives have less potential than were envisioned originally or the profitability of the Group's products and services is undermined by competitive pressures. Consequently, the Group may be unable to achieve or maintain profitability in its targeted business areas. Any failure to execute its strategy in the manner envisioned could have a material and adverse impact on the Group's business, financial condition and results of operations.

Taking into consideration the fluctuations and changes in customer behaviour, rising smart device and social media usage as well as the increasing use of non-bank players for effecting payments, traditional banking is fast changing. While digitalisation has provided new business opportunities, it has also introduced new and increased cyber-risk exposures for the Group. Despite increased investments in digital technologies and new digital initiatives, digitalisation remains a fast moving and evolving landscape and there can be no assurance that the Group will be able to fully and successfully execute its strategy in the digitalisation space.

1.5 The Group's operations in, and expansion into Southeast Asia and Greater China present different risks and challenges which may materially and adversely affect the Group's results of operations.

The Group continues to target expansion into the markets of Southeast Asia and Greater China. As at 31 December 2023, the Group had 40 per cent. of its total assets (excluding intangible assets) outside Singapore, of which 30 per cent. were in Malaysia, Thailand, Indonesia, Vietnam and Greater China.

While this regional expansion may be positive for the Group's long-term growth and may enhance revenue diversification, such expansion also increases the Group's operational risk and vulnerability to the political, legal and economic environment of each market in which it operates, and its exposure to asset quality issues. Although the Group actively manages risks in accordance with the Group's risk management policies and guidelines, there can be no assurance that the Group's business, financial condition and results of operations will not be materially and adversely affected by any political, legal, economic or other development in or affecting the markets in which it operates, or that its credit and provisioning policies will be adequate in relation to such risks.

1.6 The Group may not realise the expected benefits of recent acquisitions and the Group's future prospects will depend on the Group's ability to integrate acquired businesses and manage other challenges.

Certain members of the Group recently acquired Citigroup's consumer banking businesses in Indonesia, Malaysia, Thailand and Vietnam between 2022 and 2023, comprising unsecured and secured lending portfolios, wealth management and retail deposit businesses. Whilst integration processes are ongoing, the Group may face challenges such as:

- (a) failure to implement the Group's business plan for the combined business;
- (b) unanticipated issues in integrating the Group's logistics, information, accounting, communications and other systems;
- (c) inconsistencies in standards, controls, procedures and policies within the Group;
- (d) unanticipated changes in applicable laws and regulations;
- (e) failure to integrate, motivate and retain as well as attract or recruit, on a timely basis, key employees;
- (f) operating risks inherent in the acquired businesses and in the Group's business; and

(g) unanticipated issues, expenses and liabilities.

The Group may not be able to maintain the levels of revenue, earnings or operating efficiency that the Group or the respective acquired businesses have achieved or might achieve separately. In addition, the Group may not accomplish the integration with the Group's business smoothly, successfully or within the anticipated costs or timeframe or achieve the projected revenue and costs synergies anticipated from the acquisition. If the Group experiences difficulties with the integration process, the anticipated benefits of the acquisition may not be realised fully, or at all, or may take longer to realise than expected. While the acquisition is expected to further strengthen and deepen the Group's ASEAN franchise and is expected to be accretive in the immediate term to the Group's earnings per share and return on equity, there can be no assurance that the anticipated benefits of the acquisition will be realised.

1.7 Liquidity shortfalls may increase the cost of funds

Most of the Group's funding requirements are met through a combination of funding sources, primarily in the form of deposit-taking activities and inter-bank funding. As at 31 December 2023, approximately 74 per cent. of the Group's total equity and liabilities were attributable to non-bank customer deposits while approximately 6 per cent. came from inter-bank liabilities. A portion of the Group's assets have long-term maturities, creating a potential for funding mismatches. As at 31 December 2023, a majority of the Group's non-bank customer deposits had a maturity of one year or less or were payable on demand. However, in the past, a substantial portion of such non-bank customer deposits had rolled over upon maturity and became, over time, a stable source of funding. No assurance can be given, however, that this trend will continue. If a substantial number of depositors, in or outside Singapore, choose not to roll over deposited funds upon maturity or to withdraw such funds from the Group, the Group's liquidity position could be materially and adversely affected. In such a situation, the Group could be required to seek other funding sources, which may be more expensive than current funding sources. This may materially and adversely affect the Group's business, financial condition and results of operations.

1.8 A substantial increase in non-performing loans ("NPLs") may impair the Group's financial condition

The Group's NPLs as a percentage of gross customer loans was 1.5 per cent. as at 31 December 2023. A worsening of the economic condition in Singapore or the region where the Group operates, changes in the credit quality of the Group's borrowers as well as various other factors, such as a rise in unemployment, a sustained rise in interest rates, developments in the economies in which the Group operates, movements in the global commodities markets and exchange rates, global competition and any prolonged or escalated pandemic may lead to an increase in NPLs. A substantial increase in NPLs may materially and adversely affect the Group's business, financial condition, results of operations and capital adequacy ratios.

If the Group is not able to control or reduce the level of NPLs, the overall quality of the Group's assets may deteriorate, and the Group may become subject to enhanced regulatory oversight and scrutiny, which may materially and adversely affect the Group's reputation, business, financial condition, results of operations and capital adequacy ratios.

In addition, loan volumes are affected by market interest rates on loans, and rising interest rates are generally associated with a lower volume of loans. An increase in the general level of interest rates may also adversely affect the ability of certain borrowers to pay the interest on and principal of their obligations. Accordingly, changes in levels of market interest rates could materially adversely affect the Group's asset quality and NPLs.

1.9 The value of certain financial instruments recorded at fair value may change over time.

The fair values of financial instruments traded in active markets are based on quoted market prices at the balance sheet date. If the market for a financial instrument is not active, the Group establishes fair value by using valuation techniques or third-party valuations. These may include the use of recent arm's length transactions, reference to other instruments that are substantially similar, discounted cash flow analysis and option pricing models. In inactive markets, fair values, or market parameters used with internally developed models to derive fair values, may also be kept unchanged. Valuation reserves may be applied to the valuation of the financial instruments, where appropriate.

The valuation of the majority of the Group's financial instruments reported at fair value is based on quoted and observable market prices or on internally developed models that are based on independently sourced market parameters, including interest rates, option volatilities and currency rates. Other factors such as model assumptions, market dislocations and unexpected correlation shifts can materially affect these estimates and the resulting fair value estimates.

1.10 A decline in collateral values or inability to realise collateral value may necessitate an increase in the Group's provisions.

A significant portion of the Group's loans is secured by real estate. A downturn in the real estate markets where the Group conducts business, any decline in the collateral value, inability to obtain additional collateral or inability to realise the expected value of the collateral may require the Group to increase its impairment, which may materially and adversely affect the Group's business, financial condition, results of operations and capital adequacy ratios.

Any decline in the collateral value, inability to obtain additional collateral or inability to realise the expected value of the collateral may require the Group to increase its impairment, which may materially and adversely affect the Group's business, financial condition, results of operations and capital adequacy ratios.

1.11 New product lines and new service arrangements may not be successful

The Group continues to explore new products and services for its various businesses in and outside Singapore. It does not typically expect new products or services to be profitable in the first few years after launch, and there can be no assurance that the Group will be able to accurately estimate the time needed for these products or services to become profitable. The Group's new products and services may not be successful, which may materially and adversely affect the Group's business, financial condition and results of operations.

1.12 Significant fraud, data theft, cyber-attacks, system failures or calamities could materially and adversely impact the Group's business

Operational risk is managed through a framework of policies and procedures by which the business and support units identify, assess, monitor, mitigate and report their risks. A key component of the operational risk management framework is risk identification and control self-assessments. This is achieved through the Group-wide implementation of a set of operational risk tools. The Group actively manages fraud risk and bribery risk. Tools and policies, including a whistle-blowing programme, a material risk notification protocol and a fraud risk awareness training programme, have been developed to manage such risks. However, there is no assurance that the Group will be able to prevent all instances of internal and external fraud.

The Group also seeks to protect its computer systems and network infrastructure from break-ins, fraud, data theft, cyber-attacks and system failures. The Group has set up physical access control mechanisms and a security operations centre (which operate 24 hours a day, seven days a week) as well as information and cybersecurity surveillance systems, including firewalls, threat detection and prevention systems, tokens and password encryption technologies, which are

designed to minimise, detect and mitigate the risk of security breaches. Although the Group will continue to implement measures to enhance its cyber resilience and security technologies, conduct regular vulnerability assessments and network penetration tests and establish operational procedures to prevent break-ins, damages and failures, there can be no assurance that these security measures will be successful. In addition, although the Group's data centre and real-time back-up systems are separately located in different locations, there can be no assurance that both systems will not be simultaneously damaged or destroyed in the event of a major disaster or in separate disasters. A significant failure of security measures or back-up systems may have a material and adverse effect on the Group's business, financial condition and results of operations.

In addition, the Group uses information technology ("IT") systems to deliver services to and perform transactions on behalf of its customers, as well as for back-office operations. The Group therefore depends on the capacity and reliability of the electronic and IT systems supporting the Group's operations. There can be no assurance that the Group will not encounter service disruptions owing to failures of these IT systems. The Group's IT systems may be subject to damage or incapacitation as a result of quality problems, human error, natural disasters, power loss, sabotage, computer viruses, acts of terrorism, cyber-attacks and similar events. In addition, the Group may not be prepared to address all contingencies that could arise in the event of a major disruption to service and could expose the Group to lawsuits, administrative or regulatory actions or sanctions, and reputational harm.

The Group also handles personal information obtained from its individual and corporate customers in relation to its banking, securities, credit card, insurance and other businesses. The controls the Group has implemented to protect the confidentiality of personal information, including those designed to meet the strict requirements of banking secrecy and personal data privacy laws, may not be effective in preventing all unauthorised disclosure of personal information. Leakage of personal information could expose the Group to lawsuits, administrative or regulatory actions or sanctions, and reputational harm, thereby materially and adversely affecting the Group's business, financial condition and results of operations.

1.13 Income and expenses relating to the international operations and foreign assets and liabilities are exposed to foreign currency fluctuations

The Group's operations outside Singapore are subject to fluctuations in foreign exchange rates. In addition, a portion of the Group's assets and liabilities in Singapore is denominated in foreign currencies. To the extent that the Group's foreign currency-denominated assets and liabilities are not matched in the same currency or appropriately hedged, fluctuations in foreign currencies against the Singapore dollar may materially and adversely affect the Group's business, financial condition and results of operations. In addition, fluctuations in foreign exchange rates will create foreign currency translation gains or losses. From time to time, the MAS may announce changes to the Singapore dollar nominal effective exchange rate policy band. There can be no assurance that such policy changes will not adversely affect the Group's business, financial condition and results of operations.

1.14 Accounting and corporate disclosure requirements in Singapore may result in different disclosure than that in other jurisdictions

The Group is subject to Singapore's accounting and corporate disclosure standards and requirements, which differ in certain aspects from those applicable to banks in certain other countries. There may be less publicly available information or differences in information made available for companies listed in Singapore in comparison to that made available by public companies in other countries. The Group's published audited consolidated financial statements for the year ended 31 December 2022 ("**2022 Audited Financial Statements**") and the audited consolidated financial statements for the year ended 31 December 2023 ("**2023 Audited**

Financial Statements) have been prepared in accordance with the provisions of the Companies Act 1967 of Singapore (the “**Companies Act**”) and the Singapore Financial Reporting Standards (International) (“**SFRS(I)s**”). SFRS(I)s comprise Standards and Interpretations that are equivalent to International Financial Reporting Standards (“**IFRS**”). These standards may differ in certain aspects from other accounting standards with which prospective investors in other countries may be familiar.

Investors should also be mindful that the financial numbers reported in the 2022 Audited Financial Statements and 2023 Audited Financial Statements may not be directly comparable with the Audited Financial Statements of prior financial years. Any financial figures for and as of a recent period may not be directly comparable to the Group’s historical figures for and as of a prior period. Further, there may be differences in the Group’s results of operations and financial position should its historical financial statements be prepared in accordance with other accounting principles or standards. No attempt has been made to reconcile any information given in this Offering Circular with any other principle or to prepare it based on any other standards. As such, investors should exercise caution when making comparisons and when evaluating the Group’s financial condition and results of operations.

In addition, future amendments to accounting standards or requirements and the consequences of their implementation by the Group may have a material and adverse effect on the Group’s business, financial condition and results of operations.

1.15 Regulatory requirements relating to recognition and measurement of credit losses may have an impact on the Group’s financials and regulatory capital ratios

The Bank is subject to MAS Notice 612 Credit Files, Grading and Provisioning (“**MAS Notice 612**”) (last revised 15 March 2021) requirements, which requires banks to adhere to the principles and guidance set out in the “Guidance on credit risk and accounting for expected credit losses” issued by the Basel Committee for Banking Supervision (“**BCBS**”) in December 2015. In addition, locally incorporated domestic systemically important banks (“**D-SIBs**”) are subject to a minimum level of loss allowance equivalent to 1 per cent. of the gross carrying amount of selected credit exposures net of collaterals (the “**Minimum Regulatory Loss Allowance**”). Where the accounting loss allowance (which is the expected credit loss (“**ECL**”) on the selected credit exposures determined and recognised by the D-SIB in accordance with the impairment requirements under SFRS(I) 9 Financial Instruments (the “**Accounting Loss Allowance**”)) falls below the Minimum Regulatory Loss Allowance, the D-SIB shall maintain the additional loss allowance in a non-distributable regulatory loss allowance reserve (“**RLAR**”) account through an appropriation of its retained earnings. When the sum of the Accounting Loss Allowance and the additional loss allowance exceeds the Minimum Regulatory Loss Allowance, the D-SIB may transfer the excess amount in the RLAR to its retained earnings. The Group has complied with the Minimum Regulatory Loss Allowance requirements from 1 January 2018.

If the Minimum Regulatory Loss Allowance requirements applicable to the Group increase in the future, the Group’s return on capital and profitability could be materially and adversely affected. Any failure by the Issuer to satisfy such increased requirements within the applicable timeline could result in administrative actions or sanctions or significant reputational harm, which in turn may have a material adverse effect on the Group’s business, financial condition and results of operations.

1.16 Systemic risks from failures in the banking industry may adversely affect the Group

Concerns about, or a default by, one institution may lead to significant liquidity problems, losses or defaults by other institutions because the commercial soundness of many financial institutions may be closely related as a result of their credit, trading, clearing or other relationships. This risk is sometimes referred to as “systemic risk” and may adversely affect financial intermediaries,

such as clearing agencies, clearing houses, banks, securities firms and exchanges, with whom the Group interacts on a daily basis, which could have an adverse effect on the Group's ability to raise new funding and on the Group's business, financial condition and results of operations.

1.17 Legal and regulatory environment is subject to change, and violations could result in penalties and other regulatory actions

The Group is subject to regulatory supervision arising from a wide variety of banking and financial services laws and regulations and faces the risk of interventions by a number of regulatory and enforcement authorities in each jurisdiction in which it operates. Failure by the Group to comply with any of these laws and regulations could lead to disciplinary action, the imposition of fines and/or the revocation of the licence, permission or authorisation to conduct the Group's business in the jurisdictions in which it operates, or civil liability. The legal and regulatory systems under which the Group operates, and potential changes thereto, could affect the way the Group conducts its business and, in turn, its financial position and results of operations.

Under the resolution regime for financial institutions in Singapore, the MAS has resolution powers in respect of Singapore-licensed banks. Broadly speaking, in relation to Singapore-incorporated banks ("SIBs" and each a "SIB"), the MAS has the power to, inter alia, (a) impose moratoriums, (b) apply for court orders against winding-up or judicial management of the bank, against commencement or continuance of proceedings by or against the bank in respect of any business of the bank, against commencement, levying or continuance of an enforcement order, distress or other legal processes against any property of the bank, or against enforcement of security, (c) apply to court for the winding-up of the bank, (d) order compulsory transfers of business or transfers of shares, (e) order compulsory restructurings of share capital, (f) bail in eligible instruments, (g) temporarily suspend termination rights for contracts, (h) impose requirements relating to recovery and resolution planning and (i) give directions to significant associated entities of a bank. In addition, the MAS has powers under the Banking Act 1970 of Singapore (the "**Banking Act**") to assume control of a bank. Under the resolution regime, there are also provisions for cross-border recognition of resolution actions, creditor safeguards in the form of a creditor compensation framework and resolution funding.

On 11 May 2022, the FSM Act was gazetted. The MAS has indicated that the FSM Act will be implemented in phases, with Phase 1 having commenced on 28 April 2023, Phase 2A having commenced on 10 May 2024 and Phase 2B having commenced on 31 July 2024. Phase 1 related to the porting of provisions from the MAS Act covering (a) general powers over financial institutions, including inspection powers, offences and other miscellaneous provisions; (b) anti-money laundering/countering the financing of terrorism framework; and (c) financial dispute resolution schemes framework. Phase 2A introduces (a) new provisions on technology and risk management; and (b) provisions relating to the control and resolution of financial institutions and certain miscellaneous provisions, which are migrated from the MAS Act. Phase 2B introduces and implements MAS' harmonised and expanded power to issue prohibition orders against persons who are not fit and proper from engaging in financial activities regulated by the MAS or performing any key roles and functions in the financial industry that are prescribed, in order to protect a financial institution's customers, investors and the financial sector.

MAS also has the power to temporarily suspend termination rights for contracts due to resolution measure under Section 93 of the FSM Act. Contracts which are subject to such powers include contracts where one of the parties is a pertinent financial institution (as defined in Regulation 5 of the Financial Markets and Services (Resolution of Financial Institutions) Regulations 2024) that is the subject or a proposed subject of a resolution measure. Any entity that is part of the same group of companies as a within-scope pertinent financial institution is also caught to the extent the obligations of that entity under the relevant contract are guaranteed or otherwise supported by such pertinent financial institution and such contract has a termination right that is

exercisable if the pertinent financial institution becomes insolvent or is in a certain financial condition. UOB qualifies as a pertinent financial institution.

In addition, subject to certain exceptions, a qualifying pertinent financial institution (i.e. a SIB to which a direction has been issued under Section 52(1) of the FSM Act (concerning directions for recovery planning and implementation)), or any subsidiary of the qualifying pertinent financial institution, must include a provision in each specified contract to which the qualifying pertinent financial institution or subsidiary is a party, the effect of which is that the parties to the contract agree to be bound by Section 92 of the FSM Act (which prevents parties from terminating certain contracts on the basis of the occurrence of a resolution measure or events which are directly linked to resolution provided that the substantive obligations of the relevant contract continue to be performed by the parties to the contract) and by any suspension of a termination right in the contract made by the MAS under Section 93 of the FSM Act, where (a) the qualifying pertinent financial institution or subsidiary enters into the specified contract on or after 1 November 2024; or (b) the qualifying pertinent financial institution or subsidiary executes any transaction under the specified contract on or after 1 November 2024. A “specified contract” means a contract that (a) is a financial contract; (b) is governed by any law other than Singapore law; and (c) contains a termination right, the exercise of which may be suspended, or the applicability of which may be disregarded, under the FSM Act if the contract had been governed by the laws of Singapore. In rationalising this contractual recognition requirement, the MAS has stated that having provisions in the contract expressly recognising MAS’ authority to temporarily suspend termination rights under Section 93 of the FSM Act provides greater legal certainty and serves to support an orderly resolution. The contractual recognition requirement also ensures that the parties to the contract agree to be bound by Section 92 of the FSM Act, such that any resolution action taken by MAS would not trigger termination rights under the contract only because of the resolution measure, even if the contract is governed by foreign laws.

Severe supervisory actions taken against the Group by the MAS or other regulatory and enforcement authorities in each jurisdiction in which the Group operates may have an adverse impact on the Group’s reputation, operations and business and may, in certain circumstances, adversely affect the rights of a Noteholder against the Issuer.

1.18 The Issuer may face pressure on its capital and liquidity requirements

The Issuer is subject to capital adequacy and liquidity guidelines adopted by the MAS for a Singapore bank, which provide for a minimum ratio of total capital to risk-adjusted assets and a minimum liquidity coverage ratio and minimum net stable funding ratio, expressed as a percentage, as further described below. Failure by the Issuer to maintain its ratios may result in administrative actions or sanctions against it which may impact the Issuer’s ability to fulfil its obligations under the Notes.

SIBs are required to meet capital adequacy requirements under MAS Notice 637 Risk-Based Capital Adequacy Requirements for Banks incorporated in Singapore dated 20 September 2023 (“**MAS Notice 637**”), which are higher than the standards set by the BCBS. D-SIBs shall, at all times, maintain at both standalone and consolidated levels (referred to as “Solo” and “Group” levels in MAS Notice 637), the following minimum capital adequacy ratio (“**CAR**”) requirements:

- (a) a common equity Tier 1 (“**CET1**”) CAR of at least 6.5 per cent.;
- (b) a Tier 1 CAR of at least 8.0 per cent.; and
- (c) a total CAR of at least 10 per cent.

In addition to complying with the minimum CAR requirements, SIBs shall, at all times in the periods specified under MAS Notice 637, maintain at both the Solo and Group levels, a capital conservation buffer above the minimum CAR requirements. The capital conservation buffer is met with CET1 capital and is currently 2.5 per cent.

In addition to complying with the minimum CAR and the capital conservation buffer, SIBs shall, at all times in the periods specified under MAS Notice 637, maintain, at both the Solo and Group levels, a countercyclical buffer comprising CET1 capital of up to 2.5 per cent. above the minimum CET1 CAR, minimum Tier 1 CAR and minimum total CAR.

The actual magnitude of the countercyclical buffer to be applied shall be the weighted average of the country-specific countercyclical buffer requirements that are being applied by the national authorities in jurisdictions to which SIBs have private sector credit exposures. For the purpose of calculation of the countercyclical buffer by the Issuer, the country-specific countercyclical buffer requirement in respect of a jurisdiction outside Singapore shall be capped at 2.5 per cent., unless the MAS otherwise specifies.

In the Financial Stability Review released by the MAS in November 2023, the MAS confirmed that the Singapore countercyclical buffer is maintained at 0 per cent.

The MAS issued MAS Notice 649 (last revised on 16 May 2024) Minimum Liquid Assets and Liquidity Coverage Ratio (“**MAS Notice 649**”) which sets out the minimum liquid assets (“**MLA**”) framework and the liquidity coverage ratio (“**LCR**”) framework. A bank in Singapore need only comply with the requirements under the LCR framework under MAS Notice 649 if it has been notified by the MAS that it is a D-SIB or an internationally active bank (as defined in MAS Notice 649). Under MAS Notice 649, the Issuer shall be required to maintain, at all times, a Singapore dollar LCR of at least 100 per cent. and an all currency LCR of at least 100 per cent.

The MAS issued MAS Notice 652 Net Stable Funding Ratio (last revised 16 May 2024) (“**MAS Notice 652**”) which sets out the minimum net stable funding ratio (“**NSFR**”) to be maintained. Under MAS Notice 652, the Issuer shall be required to maintain, at all times, an all currency NSFR of at least 100 per cent.

The Basel III standards also include a leverage ratio as a non-risk-based backstop limit intended to supplement the risk-based capital requirements. Consistent with the Basel III standards, MAS Notice 637 imposes a minimum leverage ratio requirement of three per cent. for SIBs at both the Solo and Group levels.

As at 31 December 2023, the Group was in compliance with the regulatory capital requirements of each of the jurisdictions in which it operates subsidiaries. If the regulatory capital requirements, liquidity requirements or ratios applied to the Group continue to increase in the future, the Group’s return on capital and profitability could be materially and adversely affected. Any failure by the Issuer to satisfy such increased regulatory capital ratios or liquidity requirements within the applicable timeline could result in administrative actions or sanctions or significant reputational harm, which in turn may have a material adverse effect on the Group’s business, financial condition and results of operations.

On 20 September 2023, a revised MAS Notice 637 was issued and this has taken effect from 1 July 2024. The revisions implement the final Basel III reforms in Singapore relating to revised standards on (i) operational risk capital and leverage ratio requirements; (ii) credit risk capital and output floor requirements; (iii) market risk capital and capital reporting requirements; and (iv) public disclosure requirements

The Issuer was designated as a D-SIB in Singapore on 30 April 2015. However, this designation should not affect its higher loss absorbency (“**HLA**”) and LCR requirements, as the HLA and LCR requirements in respect of D-SIBs (which include the requirement to maintain minimum CET 1 CAR requirements that are two percentage points higher than those established by the BCBS) were already incorporated in existing capital and liquidity requirements applicable to Singapore-incorporated banks under MAS Notice 637 and MAS Notice 649 at the time of the Issuer’s designation as a D-SIB. Accordingly, the Issuer was already subject to these requirements.

1.19 The Group's business is inherently subject to the risk of market fluctuations, which could materially and adversely affect its operating results, financial condition and prospects

The Group's business is inherently subject to risks in financial markets and in the wider economy, including changes in, and increased volatility of, exchange rates, interest rates, inflation rates, credit spreads, commodity, equity, bond and property prices and the risk that its customers will act in a manner which is inconsistent with business, pricing and hedging assumptions.

Market movements may have an impact on the Group in a number of key areas. Issuing and trading activities undertaken by the Group are subject to interest rate risk, foreign exchange risk, inflation risk and credit spread risk. For example, changes in interest rate levels, yield curves and spreads affect the interest rate margin realised between lending and borrowing costs. Competitive pressures on fixed rates or product terms in existing loans and deposits sometimes restrict the Group in its ability to change interest rates applying to customers in response to changes in official and wholesale market rates.

Although the Group actively manages risks in accordance with the Group's risk management policies and guidelines, the Group's business, financial condition and results of operations may still be materially and adversely affected by any market fluctuations or unidentified and/or unanticipated risks, or by the fact that its credit and provisioning policies may not be adequate in relation to such risks.

1.20 An actual or perceived reduction in the Group's financial strength, or a downgrade in the Group's credit ratings, could have a negative effect on the Group, and could increase deposit withdrawals, damage the Group's business relationships and negatively impact sales of the Group's products and services

Depositors' confidence in the financial strength of a bank, as well as in the financial services industry generally, is an important factor affecting its business. The Issuer has received long-term issuer ratings of "AA-" from Fitch Ratings ("Fitch") and Standard & Poor's Rating Services ("Standard & Poor's") and "Aa1" from Moody's Investor Service, Inc ("Moody's"), with a stable outlook from Moody's, Standard & Poor's and Fitch. Any actual or perceived reduction in the Group's financial strength, whether due to a credit rating downgrade or some other factor, could materially and adversely affect the Group's business as any such development may, among other things:

- (a) increase the number of deposit withdrawals;
- (b) negatively impact the Group's relationship with its creditors, its customers and the distributors of its products;
- (c) negatively impact the sales of the Group's products and services; and
- (d) increase the Group's borrowing costs as well as affect its ability to obtain financing on a timely basis.

1.21 The Group's business is subject to reputational risk

Reputational risk is the risk of an adverse impact on earnings, liquidity or capital arising from negative stakeholder perception or opinion of the Group's business practices, activities and financial condition. Reputational risk could arise from the failure by the Group to effectively mitigate the risks in its businesses, including one or more of country, credit, liquidity, market, regulatory, operational, environmental and legal risks. Damage to the Group's reputation could cause existing clients to reduce or cease to do business with the Group and prospective clients to be reluctant to do business with the Group. Any such event could result in a loss of earnings and have a material adverse effect on the business of the Group. A failure to manage reputational

risk effectively could also materially affect the Group's business, financial condition and results of operations.

1.22 The Group's risk management policies and procedures may leave the Group exposed to unidentified or unanticipated risks, which could negatively affect its business or result in losses

The Group's hedging strategies and other risk management techniques may not be fully effective in mitigating its risk exposure in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Some methods of managing risk are based upon observed historical market behaviour. As a result, these methods may not predict future risk exposures, which could be greater than the historical measures indicated. Other risk management methods depend upon an evaluation of information regarding markets, clients or other matters. This information may not in all cases be accurate, complete, up-to-date or properly evaluated. Management of operational, legal or regulatory risk requires, among other things, policies and procedures to properly record and verify a large number of transactions and events. Although the Group has established these policies and procedures, there can be no assurance that these policies and procedures will adequately control, or protect the Group against, all credit, liquidity, market and other risks.

1.23 An investor may experience difficulties in enforcing judgments of courts of jurisdictions outside Singapore against the Issuer, the directors and executive officers of the Issuer and certain parties named in this Offering Circular

The Issuer is incorporated with limited liability under the laws of Singapore and most of its directors and executive officers and certain parties named in this Offering Circular reside or are incorporated in Singapore. All or the majority of the assets of the Issuer are located in Singapore. As a result, it may be difficult for investors to enforce judgments against the Issuer or such persons in courts outside Singapore. Investors should also be aware that judgments of courts of jurisdictions outside Singapore may, in some circumstances, not be enforceable in Singapore courts. In addition, the rights of Noteholders under the Notes will be subject to the bankruptcy, insolvency administrative and other laws of Singapore, which may be materially different from those with which Noteholders are familiar.

2 Risks Related to Conflicts of Interest

United Overseas Bank Limited, as the issuer, and its subsidiaries and affiliates may act in a number of capacities in relation to the Notes, including, without limitation, as the Arranger, a Dealer, the Issue and Paying Agent, the Calculation Agent, the Registrar and the Transfer Agent and such other capacities as may be specified in the applicable Pricing Supplement.

The economic interests of United Overseas Bank Limited and/or its subsidiaries and affiliates (while acting in their various capacities) may at times be inconsistent with the interests of Noteholders and potential and actual conflicts of interests may arise therefrom. As a result, Noteholders will be exposed not only to the credit risk of United Overseas Bank Limited and/or its subsidiaries and affiliates, but also the operational risks which may arise while United Overseas Bank Limited and/or its subsidiaries and affiliates are carrying out their duties and obligations in relation to, and under, any Notes.

United Overseas Bank Limited will take steps to ensure that, in respect of each of the above roles to be performed by it and/or its subsidiaries and affiliates in relation to the Programme, separate teams are allocated to perform the respective functions. United Overseas Bank Limited will also conduct itself with the same level of objectivity as it would when discharging its obligations to a third party client.

In addition, United Overseas Bank Limited and any of its subsidiaries and affiliates, in connection with their other business activities, may from time to time engage in business with or possess or acquire

material information about the underlying assets or entities or any other asset or entity on whose condition the payments of Notes are dependent. Such activities may include, without limitation, the exercise of voting powers, the purchase and sale of securities, providing financial advisory services and the exercise of creditor rights. Such activities and information may have an adverse impact on the investors of the Notes. United Overseas Bank Limited and any of its subsidiaries and affiliates have no obligation to disclose such information about any such asset or entity. United Overseas Bank Limited, its subsidiaries and affiliates and its or their respective officers and directors may engage in any such activities without regard to Noteholders and/or the effect that such activities may directly or indirectly have on Noteholders, and do not owe a duty or responsibility to Noteholders to avoid such conflicts of interests.

Potential investors should seek independent advice as they deem appropriate to evaluate the risk of these potential conflicts of interests.

3 Risks Related to the Market Generally and Credit Ratings

3.1 The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have an adverse effect on the market value of Notes. Upon request, the Issuer will use reasonable efforts to quote bid prices for the Notes, but is under no obligation to do so. The price quoted, if any, will be affected by many factors including, but not limited to, (i) the market price and volatility of each of the relevant underlying product of the Notes and equity and credit markets generally, (ii) political, economic, legal and market conditions that could directly or indirectly affect the market price of each of the relevant underlying product of the Notes, (iii) interest rates, (iv) the shape of the yield curve, (v) the expected interest rate volatility, (vi) the time remaining to maturity of the Notes, (vii) foreign exchange rates (in the case of quanto Notes) and (viii) Unwind Costs, as applicable.

3.2 Market and investment risk

An investment in Notes is subject to market fluctuations and the risks inherent in all investments. An investor's holding of Notes is subject to investment risk, including interest rate risk, exchange rate risk, liquidity risk, possible delays in repayment and loss of income and principal invested. Unless otherwise stated, Notes are subject to the credit risk of the Issuer and, where applicable, the credit risk of the underlying reference assets and reference entities. Accordingly, an investor in the Notes may lose some or substantially all of the amounts that he has invested in the Notes, even on maturity.

3.3 Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the currency specified in the applicable Pricing Supplement (the "**Currency**"). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Currency. These include the risk that foreign exchange rates may significantly change (including changes due to devaluation of the Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Currency would decrease (i) the Investor's Currency-

equivalent interest on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes and (iii) the Investor's Currency-equivalent market value of the Notes.

Governmental and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable foreign exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

3.4 Interest rate risks

Noteholders may suffer unforeseen losses due to fluctuations in interest rates. Generally, a rise in interest rates may cause a fall in the price of the Notes, resulting in a capital loss for the Noteholders. However, the Noteholders may reinvest the interest payments at higher prevailing interest rates. Conversely, when interest rates fall, the price of the Notes may rise. The Noteholders may enjoy a capital gain but interest payments received may be reinvested at lower prevailing interest rates.

3.5 The market value of the Notes may fluctuate

Trading prices of the Notes are influenced by numerous factors, including the operating results, business and/or financial condition of the Issuer, political, economic, financial and any other factors that can affect the capital markets, the industry and/or the Issuer generally. Adverse economic developments, acts of war and health hazards in countries in which the Issuer operates could have a material adverse effect on the Issuer's operations, operating results, business, financial position and performance.

3.6 Inflation risk

Noteholders may suffer erosion on the return of their investments due to inflation. Noteholders would have an anticipated rate of return based on expected inflation rates on the purchase of the Notes. An unexpected increase in inflation could reduce the actual returns.

3.7 Credit ratings may not reflect all risks

Notes issued under the Program may be rated or unrated. The ratings may not reflect the potential impact of all risks related to the structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be suspended, reduced or withdrawn by the rating agency at any time. Prospective investors should bear this in mind when considering the credit ratings disclosed in this Offering Circular and the applicable Pricing Supplement. An actual or anticipated suspension, revision, downgrade or withdrawal of the rating assigned to the Issuer or any entity may adversely affect the market value of such Notes.

3.8 Implementation of and/or changes to the Basel III framework may affect the capital requirements and/or liquidity associated with a holding of the Notes for certain investors

Regulated institutions may be subject to capital adequacy and liquidity standards under Basel III (which may be incorporated into local legislation by the MAS or other regulators). These requirements can include, among others, capital adequacy requirements and liquidity coverage requirements. The ongoing implementation of the Basel III framework and/or any changes (including those which are yet to be finalised) may have an impact on the capital requirements in respect of the Notes and/or on incentives to hold the Notes for investors that are subject to requirements that follow the revised framework and, as a result, they may affect the liquidity and/or value of the Notes.

In general, investors should consult their own advisers as to the regulatory capital and liquidity requirements in respect of the Notes and as to the consequences for and effect on them of any changes to the Basel framework (including the changes described above) and the relevant

implementing measures. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

4 Risks Related to the Notes Generally

4.1 General risk warning

The Notes are not conventional debt securities as they are linked to the performance of an underlying reference asset or basket of reference assets, including, without limitation, securities, commodities, credit or debt obligations of an entity or sovereign, currency or exchange rates, interest rates, exchange traded funds, or any basket thereof and/or the creditworthiness of one or more underlying reference entities, or any combination, variation or derivative thereof. Prospective investors should therefore understand that the payment amount, whether in respect of principal, interest or any other sum payable under the Notes, will be dependent upon the performance of the applicable underlying reference asset or basket of reference assets and/or creditworthiness of the applicable reference entity or reference entities and may, in certain circumstances, be zero.

4.2 Notes may not be a suitable investment for all investors

The Notes are complex and high-risk instruments. A position and an investment in structured products, such as the Notes issued under the Programme, involves substantial risks, including market risk, liquidity risk and the risk that the Issuer will be unable to satisfy its obligations under any Notes. This Offering Circular and the applicable Pricing Supplement are not, and do not purport to be, investment advice. Each potential investor in any Notes must determine the suitability of that investment in light of its own experience, objectives, financial position and other relevant circumstances and ensure that it understands the nature of all these risks before making a decision to invest in Notes. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Offering Circular or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Any prospective investor should make an investment only after it has determined that such investment is suitable for its circumstances, risk profile, financial position and investment objectives.

Some Notes are complex financial instruments. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

4.3 Return on an investment in Notes will be affected by charges incurred by investors

The Pricing Supplement in respect of an issue of Notes will describe the payments which may be made under the relevant Notes. However, the total return on an investment in any of the Notes may also be affected by fees charged by the Issuer, a distributor or other parties. Fees may be charged by the Issuer for the management of underlying reference assets and for the hedging of risks relating to the changes in the value of such reference assets. If any structured notes are traded on a stock exchange, the Issuer may also incur clearing and trading fees imposed by the stock exchange, as well as commission fees imposed by individual brokers. A distributor may also charge sales fees and/or fees for the opening and operation of an account with the Issuer or such distributor or transfers of Notes. The Issuer may also incur fees payable to financial institutions (which may or may not be the relevant distributor) for custody services and on payments of interest and principal. Prospective investors are therefore advised to consult with the Issuer or the relevant distributor to ascertain the basis on which fees will be charged by the Issuer or the relevant distributor on the Notes.

4.4 Singapore Taxation Risk

The Notes to be issued from time to time under the Programme, during the period from the date of this Offering Circular to 31 December 2028, are intended to be “qualifying debt securities” for the purposes of the Income Tax Act 1947 of Singapore (“**ITA**”) subject to the fulfilment of certain conditions more particularly described under the section “Taxation”. However, there is no assurance that such Notes will continue to enjoy the tax concessions in connection therewith should the relevant tax laws be amended or revoked at any time.

4.5 Potential U.S. Foreign Account Tax Compliance Act withholding

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as Foreign Account Tax Compliance Act (“**FATCA**”), a “foreign financial institution” (including an intermediary through which Notes are held) may be required to withhold at a rate of 30 per cent. on certain payments it makes (“**foreign passthru payments**”) to persons that fail to meet certain certification, reporting, or related requirements. The Issuer is a foreign financial institution for these purposes. A number of jurisdictions (including Singapore) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (“**IGAs**”), which modify the way in which FATCA applies in their jurisdictions.

Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, proposed regulations have been issued that provide that such withholding would not apply prior to the date that is two years after the date on which final regulations defining “foreign passthru payments” in the U.S. Federal Register. In the preamble to the proposed regulations, the U.S. Treasury Department indicated that taxpayers may rely on these proposed regulations until the issuance of final regulations. Additionally, Notes that are characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining “foreign passthru payments” are filed with the U.S. Federal Register generally would be “grandfathered” for purposes of FATCA withholding unless materially modified after such date. However, if additional notes (as described under “*Terms and Conditions of the Notes – Further Issues*”) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA.

Holders should consult their own tax advisers regarding how these rules apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

4.6 Information Reporting Obligations

Information relating to the Notes, their holders and beneficial owners may be required to be provided to tax authorities in certain circumstances pursuant to domestic or international reporting and transparency regimes. This may include (but is not limited to) information relating to the value of the Notes, amounts paid or credited with respect to the Notes, details of the holders or beneficial owners of the Notes and information and documents in connection with transactions relating to the Notes. In certain circumstances, the information obtained by a tax authority may be provided to tax authorities in other countries. Some jurisdictions operate a withholding system in place of, or in addition to, such provision of information requirements.

4.7 Considerations relating to Section 871(m) of the Code

Prospective investors must note that for Notes that reference one or more U.S. equities (including an index that includes one or more U.S. equities), 'dividend equivalent' amounts under Section 871(m) of the Code with respect to the Notes will be treated as U.S. source dividends subject to U.S. federal income tax withholding at a rate of 30 per cent. (or a lower rate under an applicable tax treaty). Under the Section 871(m) regulations, a Note issued on or after 1 January 2017 that has an expected economic return substantially similar to that of an underlying U.S. equity or index, as determined on the Note's issue date based on tests set forth in the regulations (an "**871(m) Note**"), will generally be subject to withholding. If the terms of a Note (whenever issued) are subject to a 'significant modification' such that the Note is treated as reissued for U.S. tax purposes, it may be treated as an 871(m) Note that is subject to withholding at the time of such reissuance. In addition, a Note that in isolation is not an 871(m) Note may nonetheless be subject to Section 871(m) if the investor has engaged, or engages, in other transactions in respect of a U.S. equity or index that relates to the Note (or the acquisition of the Note may cause such other transactions to be subject to Section 871(m)). The regulations provide certain exceptions to the withholding requirements, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalent amounts generally will be required when payments are made on an 871(m) Note or upon maturity, lapse or other disposition by the non-US holder of the Note. If an underlying U.S. equity pays one or more dividends during the term of the 871(m) Note, withholding generally will be required even if the Note does not provide for payments explicitly linked to dividends. The Issuer will not be required to pay any additional amounts in respect of amounts withheld under Section 871(m).

Any determination by the Issuer on the application of Section 871(m) to a particular Note generally is binding on Holders, but is not binding on the U.S. Internal Revenue Service ("U.S. IRS.") The Section 871(m) regulations require complex calculations to be made with respect to Notes referencing U.S. equities and their application to a specific issue of Notes may be uncertain. Accordingly, even if the Issuer determines that a Note is not subject to Section 871(m), the IRS could challenge the Issuer's determination and assert that withholding is required in respect of such Note.

SECTION 871(M) IS COMPLEX. EACH PROSPECTIVE INVESTOR SHOULD CONSULT HIS OWN TAX ADVISER TO OBTAIN A MORE DETAILED EXPLANATION OF SECTION 871(M) AND TO LEARN HOW THIS LEGISLATION MIGHT AFFECT IT IN ITS PARTICULAR CIRCUMSTANCE.

4.8 Modification and waivers

The Conditions contain provisions that relate to the calling of meetings for Noteholders to consider matters affecting their interests and to obtain Written Resolutions (as defined in the Agency Agreement) on matters relating to the Notes from Noteholders without calling a meeting. A Written Resolution signed by or on behalf of the holders of not less than 66 per cent. in nominal amount of the Notes who for the time being are entitled to receive notice of a meeting in accordance with the provisions of the Agency Agreement and whose Notes are outstanding shall, for all purposes, take effect as an Extraordinary Resolution.

In certain circumstances, where the Notes are held in global form in the clearing systems, the Bank will be entitled to rely upon:

- (i) where the terms of the proposed resolution have been notified through the relevant clearing system(s) in the manner as provided for in the Agency Agreement, approval of a resolution proposed by the Bank given by way of electronic consents communicated through the electronic communications systems of the relevant clearing systems to the Paying Agent or another specified agent in accordance with their operating rules and procedures by or on behalf of the holders of not less than 66 per cent. in nominal amount of the Notes for the time being outstanding; and
- (ii) where electronic consent is not being sought, consent or instructions given in writing directly to the Bank (A) by accountholders in the clearing systems with entitlements to such global note or certificate or, (B) where the accountholders hold any such entitlement on behalf of another person, on written consent from or written instruction by the person identified by that accountholder as the person for whom such entitlement is held. For the purpose of establishing the entitlement to give any such consent or instruction, the Bank shall be entitled to rely on any certificate or other document issued by, in the case of (A) above, Euroclear, Clearstream, Luxembourg or any other relevant alternative clearing system (the “**Relevant Clearing System**”) and in the case of (B) above, the Relevant Clearing System and the accountholder identified by the Relevant Clearing System for the purposes of (B) above.

Any resolution passed in such manner shall be binding on all Noteholders and holders of Coupons, Talons and Receipts, even if the relevant consent or instruction proves to be defective.

A Written Resolution or an electronic consent as described above may be effected in connection with any matter affecting the interests of Noteholders, including the modification of the Conditions, that would otherwise be required to be passed at a meeting of Noteholders satisfying the Relevant Fraction for voting on any Extraordinary Resolution relating to a Reserved Matter (each as defined in the Agency Agreement) in accordance with the provisions of the Agency Agreement, and shall for all purposes take effect as an Extraordinary Resolution passed at a meeting of Noteholders duly convened and held. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the meeting or in respect of the relevant resolution (or participate in the Written Resolution or electronic consent, as the case may be), as well as Noteholders who did not vote in favour of the majority (either in a meeting or by Written Resolution or electronic consent).

4.9 Change of law

The Conditions are based on English law in effect as at the date of issue of the relevant Notes. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of issue of the relevant Notes.

4.10 Where the Global Notes or Global Note Certificates are held by or on behalf of Euroclear, Clearstream, Luxembourg and/or CDP, investors will have to rely on

the procedures of Euroclear, Clearstream, Luxembourg and/or CDP for transfer, payment and communication with the Issuer

Notes issued under the Programme may be represented by one or more Global Notes or Global Note Certificates. Such Global Notes or Global Note Certificates may be deposited with a common depository for Euroclear and Clearstream, Luxembourg and/or with CDP. Except in the circumstances described in the relevant Global Note or Global Note Certificate, investors will not be entitled to receive definitive Notes or Certificates. Euroclear, Clearstream, Luxembourg and/or CDP will maintain records of the beneficial interests in the Global Notes or Global Note Certificates held through it. While the Notes are represented by one or more Global Notes or Global Note Certificates, investors will be able to transfer their beneficial interests only through Euroclear, Clearstream, Luxembourg and/or CDP (as the case may be).

While the Notes are represented by one or more Global Notes or Global Note Certificates, the Issuer will discharge its payment obligations under such Notes by making payments to or to the order of CDP and/or the common depository for Euroclear and Clearstream, Luxembourg (as the case may be) for distribution to their account holders. A holder of a beneficial interest in a Global Note or Global Note Certificate must rely on the procedures of Euroclear, Clearstream, Luxembourg and/or CDP (as the case may be) to receive payments under the relevant Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes or Global Note Certificates.

Holders of beneficial interests in the Global Notes or Global Note Certificates will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear, Clearstream, Luxembourg and/or CDP (as the case may be) to appoint appropriate proxies.

Other than in relation to Global Notes or Global Note Certificates held by CDP, holders of beneficial interests in the Global Notes or Global Note Certificates will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear or Clearstream, Luxembourg (as the case may be) to appoint appropriate proxies. Similarly, holders of beneficial interests in the Global Notes or Global Note Certificates will not have a direct right under the respective Global Notes or Global Note Certificates to take enforcement action against the Issuer following an Event of Default under the relevant Notes but will have to rely upon their rights under the Deed of Covenant or the UOB Deed of Covenant, as the case may be.

5 Risks Related to the Structure of a Particular Issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of certain such features:

5.1 Notes linked to securities, indices, funds, commodities, currencies, interest rates and/or underlying credits

The Issuer may issue Notes with principal and/or interest determined by reference to underlying assets including a single security or index, baskets of securities or indices, funds, currency prices, commodity prices, the credit of one or more entities not affiliated with the Bank or interest rates. In addition, the Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- (a) they may lose all or a substantial portion of their principal;
- (b) the market price of such Notes may be very volatile;

- (c) they may receive no interest;
- (d) payment of principal or interest may occur at a different time or in a different currency than expected;
- (e) they may receive the underlying assets in certain circumstances in the case of physically settled Notes;
- (f) the relevant underlying asset may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (g) if the relevant underlying asset is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the underlying asset on principal or interest payable is likely to be magnified; and
- (h) the timing of changes in an underlying asset may affect the actual yield to investors, even if the average level is consistent with their expectations.

5.2 Repayment of principal amount not guaranteed, whether on maturity or otherwise

The returns on Notes may be variable and may not include a guaranteed return of a percentage of the face amount at maturity or a minimum interest rate. Such returns are usually contingent on the performance of one or more underlying asset(s) as described above, foreign exchange or interest rates or the occurrence of an underlying credit event, as the case may be.

Apart from situations where there may be a loss of principal on the Notes due to the performance of the underlying assets as described above, investors may also lose their principal when the Notes are redeemed early prior to maturity under certain circumstances. In such circumstances, the amount investors will receive in respect of their Notes may be less and could be substantially less than the principal amount of the Notes. It is conceivable that investors could lose all of their investment in the Notes.

In addition, investors may sustain substantial losses on Notes if the market conditions move against the investors' position in respect of the Notes. Investors should fully understand the impact of market movements, in particular the extent of profit/loss investors would be exposed to when there is an upward or downward movement in the relevant rates, and the extent of loss if investors have to liquidate a position (by redeeming the Notes early) should market conditions move against investors. The movement in interest and exchange rates are affected by a variety of factors, including, without limitation, market sentiments, currency speculation or inflationary fears, which may or may not offer a logical basis for an explanation of the market's movement in a certain way. Investors should therefore ensure that they fully understand the risks involved in the underlying asset(s) and satisfy themselves that they are willing to accept such risks.

5.3 Interest payable on the Notes will depend on the terms of the Notes and there may be no interest payable on the Notes

Any amount of interest payable to investors under the Notes will depend on the terms of the Notes as set out in the applicable Pricing Supplement, including, but not limited to, the performance of the underlying asset or basket of underlying assets and/or the reference entity or entities linked to the Notes. If the terms of the Notes are not met, the interest amounts on the Notes will be affected.

In addition, investors should be aware that, unless otherwise specified in the Pricing Supplement, if payment of the Redemption Amount or Physical Delivery Amount should be improperly withheld or refused, the Notes will bear interest at the rate determined daily by the Calculation Agent to be the rate for overnight deposits in the relevant Specified Currency in which the payment is due to be made, and not any other rate of interest (including the Rate of Interest or Interest Amount last determined in respect of the Note).

In addition, where the Notes are repurchased or redeemed before the maturity date, any interest amounts payable on the Notes will be affected as well, in which case, investors may not receive any interest amounts payable on the Notes for the whole term of the Notes.

5.4 No rights to underlying reference assets or recourse to reference entities

Investing in the Notes is not the same as owning the underlying reference assets or investing in the underlying reference entities linked to the Notes. An investor has no right under the Notes to any underlying reference asset. In the event of any loss on the Notes, an investor will have no recourse under the Notes to the underlying reference asset, nor the sponsor of any index which may be an underlying reference asset, nor any fund service provider of any fund which may be an underlying reference asset

Investors will also have no proprietary or security interest in any of the reference assets or claim against any of the issuer or, as the case may be, the guarantor of the underlying reference assets.

5.5 Increases in the value of underlying reference assets may not lead to increases in the market value of the Notes or a higher return on an investment

The Notes are regarded as structured investment products. Buying the Notes is not the same as buying the underlying reference assets. Increases in value of the underlying reference assets may not lead to an increase in the market value of the Notes of the same magnitude or even to any increase at all. In addition, the market value of the Notes may be affected by other factors not directly related to the value of the underlying reference assets, such as market interest rate movements.

Further, increases in value of the underlying reference assets linked to a Note may not lead to an increase in investment returns under the Notes of the same magnitude or any increase at all, as the payment of principal, interest or any other amount payable under the Notes will depend on the terms of each particular Series or Tranche of Notes as set out in the applicable Pricing Supplement.

5.6 No affiliation with underlying companies

The underlying issuer for any single security or basket of securities, the publisher of an underlying index, fund service provider with respect to Fund Linked Notes or any specified entity with respect to Credit Linked Notes may not be an affiliate of the Bank, unless otherwise specified in the applicable Pricing Supplement. The Issuer or its subsidiaries may presently or from time to time engage in business with any underlying company, any fund service provider or any specified entity, including entering into loans with, or making equity investments in, the underlying company, or specified entity, or its affiliates or subsidiaries or providing investment advisory services to the underlying company, or specified entity, including merger and acquisition advisory services. Moreover, the Issuer does not have the ability to control or predict the actions of the underlying company, index publisher, fund service provider or specified entity, including any actions, or reconstitution of index components, or the fund of the type that would require the Calculation Agent (as defined in the Conditions) to adjust the payout to the investor at maturity. No underlying company, index publisher, fund service provider or specified entity for any issuance of Notes is involved in the offering of the Notes in any way or has any obligation to consider the investor's interest as an owner of the Notes in taking any corporate actions that might affect the value of the Notes.

5.7 The Issuer, the Dealer(s) (if any) and the Calculation Agent have no duty to disclose information with respect to any underlying reference asset, including non-public information

The Issuer, the Dealer(s) (if any), the Calculation Agent, any of their respective affiliates or any of their respective directors may have acquired, or, during the term of the Notes, may acquire, non-public information with respect to the underlying reference asset of the Notes that they may

not disclose. In particular, but without limitation, the Issuer may be privy to non-public information in relation to the underlying reference assets.

None of the Issuer, the Dealer(s), the Calculation Agent, any of their respective affiliates or any of their respective directors, employees or agents is under any obligation (i) to assess on the Noteholders' behalf, the likely performance of the underlying reference asset or conduct any investigation or due diligence in respect of such underlying reference asset or (ii) other than as may be required by applicable rules and regulations relating to the Notes to disclose any public or non-public information they may possess in respect of the underlying reference asset.

Prospective investors must therefore make an investment decision based upon their own due diligence and purchase the Notes in the knowledge that public and non-public information which the Issuer, the Dealer(s) (if any), the Calculation Agent, any of their respective affiliates or any of their respective directors may have will not be disclosed to investors.

5.8 Unwind Costs may apply when the Notes are early redeemed

Unwind Costs include (i) the fees, charges, losses, expenses and costs (if any), including any loss of bargain or cost of funding, or the gain to the Issuer and/or any Affiliate of the Issuer as a result of unwinding, terminating, liquidating, adjusting, obtaining, replacing, settling or re-establishing any underlying or related hedging arrangements (if any) (including, but not limited, to any funding arrangements, currency, options, swaps, and derivative trades or selling or otherwise realising any instruments of any type whatsoever which the Issuer and/or any Affiliate may hold as part of such hedging arrangements (if any)) in relation to the Notes, and (ii) the fees, charges, expenses and costs (if any) incurred by the Issuer and/or any of its Affiliates in connection with the early redemption of the Notes, including any expenses and costs in connection with the delivery of any Physical Redemption Assets, when the Notes are redeemed prior to their scheduled maturity date. If "Adjustment for Unwind Costs" are specified as applicable in the applicable Pricing Supplement or the relevant Conditions, the Early Redemption Amount, amongst others, will be adjusted to take account fully of Unwind Costs. Such adjustment may adversely affect the amount payable to the Noteholders on the early redemption of the Notes.

5.9 Risks associated with Leverage

The amounts payable in respect of certain Notes may be leveraged by reference to a participation level, multiplier, leverage factor or other formula having a similar effect.

In respect of any such Notes, the percentage change in the value of Notes subject to such leverage will be greater than any positive and/or negative performance of the underlying assets, bonds, equities, units, currencies, indices, commodities or other underlying referenced in respect of the Notes.

Accordingly, Notes which include a leveraged element in respect of any amounts payable in respect of the Notes represent a very speculative and risky form of investment, since any loss in the value of the relevant underlying carries the risk of a disproportionately higher loss on the Notes (and the greater the extent of such leverage element, the greater the risk of such loss).

5.10 Exposure to exchange rate risks

Investors may be exposed to exchange rate risks where Notes are denominated in one currency (the "**base currency**") and the underlying asset(s) are denominated in, or the basis upon which the repayment of the principal amount of Notes or the basis upon which any interest or other returns on Notes are calculated in, one or more different currency(ies). Investors may suffer a loss in such circumstances. Depending on the performance of these other currencies against the base currency, the market value of Notes will be affected if Notes are sold back to the Issuer before the maturity date of Notes. If such currencies weaken against the base currency, the market value of Notes is likely to decrease and *vice versa*.

Exchange rates between currencies are determined by forces of supply and demand in the foreign exchange markets. These forces are, in turn, affected by factors such as international balances of payments and other economic and financial conditions, government intervention in currency markets and currency trading speculation. Fluctuations in foreign exchange rates, foreign political and economic developments, and the imposition of exchange controls or other foreign governmental laws or restrictions applicable to such investments may affect the foreign currency market price and the exchange rate-adjusted equivalent price of the Notes. Fluctuations in the exchange rate of any one currency may be offset by fluctuations in the exchange rate of other relevant currencies.

5.11 Risks relating to underlying assets that are loss-absorption instruments

The Issuer may issue Notes referencing one or more underlying assets that are loss-absorption instruments. Such underlying assets are complex financial instruments that involve a high degree of risk, may be perpetual, subordinated and/or have special loss-absorption features such as full or partial write-off or conversion into subordinated securities, which may affect the performance of and return on the Notes. Potential investors of such Notes must determine the suitability of that investment in light of its own circumstances.

5.11.1 Non-viability loss absorption provisions under which the underlying assets may be fully or partially written off

Underlying assets may contain provisions relating to loss absorption upon a relevant government body, government officer or other relevant regulatory body determining that a write-off, conversion or public sector injection of capital or equivalent support is necessary, without which the issuer of the underlying assets (the “**Underlying Assets Issuer**”) would become non-viable (a “**Non-Viability Event**”). The underlying assets Issuer may be required to irrevocably effect a full or partial write-off of the outstanding principal and accrued and unpaid interest in respect of such underlying assets. In the event that underlying assets are written off, any written-off amount shall be irrevocably lost and holders of such underlying assets will cease to have any claims for any principal amount and accrued but unpaid interest which has been subject to write-off. There may be no compensation for any such loss, and holders could risk losing up to the full principal amount of underlying assets. When the value of the underlying assets decreases, the value of the Notes will in turn decrease (and may even be zero).

5.11.2 Conversion following the occurrence of a Non-Viability Event or Conversion Trigger Event

Upon the occurrence of any Non-Viability Event or certain conversion trigger events set out in the terms of the underlying assets (“**Conversion Trigger Event**”), the underlying assets may be converted into ordinary shares (“**Ordinary Shares**”). Such event may lead to a mandatory redemption event under the Notes and the market value or realised proceeds of such Ordinary Shares, after deducting expenses and any applicable adjustments according to the terms of the relevant Series of Notes, may be less than the outstanding principal amount of such Notes.

5.11.3 The occurrence of a Non-Viability Event or Conversion Trigger Event may be inherently unpredictable

Due to the inherent uncertainty regarding the determination of whether a Non-Viability Event or Conversion Trigger Event exists, it may be difficult to predict when, if at all, a conversion of the underlying assets into Ordinary Shares will occur. Accordingly, trading behaviour in respect of the underlying assets may not necessarily follow trading behaviour associated with other types of convertible or exchangeable securities. Any indication that a Non-Viability Event or Conversion Trigger Event may occur could have an adverse effect on the market price of the underlying assets. In addition, upon the occurrence of a Non-

Viability Event or Conversion Trigger Event, the prevailing market price of an Ordinary Share may be considerably less than the conversion price set out in the terms of the underlying assets in effect on the relevant conversion date and the market price of the Ordinary Shares may fall further by the time the Ordinary Shares to be issued on a conversion are delivered to the holders. The regulations requiring conversion and/or write-off of regulatory capital instruments are subject to interpretation and application by the relevant regulatory authorities. It is uncertain how the relevant regulatory authorities would determine the occurrence of a Non-Viability Event, and the grounds that constitute a Non-Viability Event may change (including that additional considerations may be introduced in the future). Any changes to the applicable regulatory capital regulations may increase the risk of a Conversion Trigger Event occurring, which will lead to conversion of the underlying assets into Ordinary Shares.

5.11.4 Obligations under the underlying assets may be subordinated and the rights of the underlying assets holders may effectively be further subordinated upon conversion

The Underlying Assets Issuer's obligations under the underlying assets may be unsecured and subordinated and rank junior in priority of payment to the current and future claims of all of its senior and certain of its subordinated creditors. If a winding-up or administration were to occur, the Underlying Assets Issuer's liquidator or administrator would first apply assets of the Underlying Assets Issuer to satisfy all rights and claims of senior creditors. If the Underlying Assets Issuer does not have sufficient assets to settle claims of such senior creditors in full, the claims of the underlying assets holders will not be settled and, as a result, underlying assets holders may lose the entire amount of their investment in the underlying assets. Upon conversion of the underlying assets following the Conversion Trigger Event, Underlying assets holders will be, effectively, further subordinated as they will be treated as, and subsequently become, holders of Ordinary Shares, even if other existing subordinated indebtedness and preference shares remain outstanding. There is a risk that holders of Notes referencing such underlying assets will lose the entire amount of their investment, regardless of whether the Underlying Assets Issuer has sufficient assets available to settle what would have been the claims of underlying assets holders or of securities subordinated to the same or greater extent as the underlying assets, in winding-up proceedings or otherwise.

5.11.5 No guaranteed distributions

The payment of any scheduled distributions pursuant to the terms of the underlying assets may be subject to the Underlying Assets Issuer having distributable profits and having met the capital adequacy requirements set out in the terms of the underlying assets. A failure by the Underlying Assets Issuer to make a scheduled payment may result in a mandatory redemption event under the Notes and, if the underlying assets' market value or their realised proceeds are lower than their nominal amount for any reason, Noteholders will receive less than the outstanding principal amount of their Notes.

5.11.6 Maturity date of Notes may precede redemption date of underlying assets

The underlying assets may not be redeemed by the maturity date of the Notes. Where the underlying assets are perpetual securities, there may be no scheduled redemption date and holders of the underlying assets have no right to put back the underlying assets to the Underlying Assets Issuer. The redemption amount of the Notes may depend on the price at which the underlying assets may be disposed of at the relevant time, which may be lower than the original investment amount of the Notes or may be zero if insufficient liquidity exists in the market for the underlying assets.

5.12 The regulation and reform of “benchmarks” may adversely affect the value of Notes linked to or referencing such “benchmarks”

The financial markets have been generally impacted by recent developments relating to the regulation and reform of “benchmarks”.

Interest rates and indices which are deemed to be “benchmarks” (including London inter-bank offered rate (“**LIBOR**”), Euro inter-bank offered rate (“**EURIBOR**”), Singapore dollar Swap Offer Rate (“**SOR**”), Singapore inter-bank offered rate (“**SIBOR**”) and Hong Kong inter-bank offered rate (“**HIBOR**”)) are the subject of recent national and international regulatory guidance and proposals for reform. These reforms are in different stages of implementation, with some already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a benchmark.

Regulation (EU) 2016/1011 (the “**Benchmarks Regulation**”) applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities of benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

Similarly, the SFA and the Securities and Futures (Financial Benchmark Regulations 2018) set out certain requirements in respect of designated benchmarks, benchmark administrators and benchmark submitters.

Each of these reforms (including the Benchmarks Regulation) could have a material impact on any Notes linked to or referencing a benchmark in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements imposed thereunder. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant benchmark.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements.

The sustainability of LIBOR has been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including possibly as a result of benchmark reforms) for market participants to continue contributing to such benchmarks. On 27 July 2017, and in a subsequent speech by its Chief Executive on 12 July 2018, the Financial Conduct Authority (“**FCA**”) confirmed that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the “**FCA Announcements**”). The FCA Announcements indicated that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. In addition, on 29 November 2017, the Bank of England and the FCA announced that, from January 2018, its Working Group on Sterling Risk-Free Rates has been mandated with implementing a broad-based transition to the Sterling Overnight Index Average (“**SONIA**”) over the next four years across sterling bond, loan and derivative markets, so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021. On 5 March 2021, the FCA announced the future cessation or loss of representativeness of all 35 LIBOR benchmark then being published by ICE Benchmark Administration Limited (“**IBA**”), the authorised and regulated administrator of LIBOR (the announcement being the “**March 2021 FCA Announcement**”). The March 2021 FCA Announcement follows the notification by IBA that

it intends to cease providing all LIBOR settings for all currencies, subject to any rights of the FCA to compel IBA to continue publication. In accordance with the March 2021 FCA Announcement:

- (i) publication of all 7 euro LIBOR settings, all 7 Swiss franc LIBOR settings, the spot next, 1-week, 2-month, and 12-month Japanese yen LIBOR settings, the overnight, 1-week, 2-month and 12-month sterling LIBOR settings, and the 1-week and 2-month USD LIBOR settings will cease immediately after 31 December 2021;
- (ii) publication of the overnight and 12-month USD LIBOR settings will cease immediately after 30 June 2023;
- (iii) immediately after 31 December 2021, the 1-month, 3-month and 6-month Japanese yen LIBOR and sterling LIBOR settings will no longer be representative of the underlying market and economic reality that such setting is intended to measure and that representativeness will not be restored; and
- (iv) immediately after 30 June 2023, the 1-month, 3-month and 6-month USD LIBOR settings will no longer be representative of the underlying market and economic reality that such setting is intended to measure and that representativeness will not be restored.

The FCA also indicated that (A) it will consult or continue consulting on using its proposed new powers to require IBA to continue the publication on a 'synthetic' basis of the 1-month, 3-month and 6-month sterling LIBOR and Japanese yen LIBOR settings for a further period after the end of 2021, and will continue to consider the case for requiring IBA to continue publication of the 1-month, 3-month and 6-month USD LIBOR settings for a further period after the end of June 2023, taking into account views and evidence from the US authorities and other stakeholders and (B) publication of certain LIBOR settings on a 'synthetic' basis would be intended to assist legacy contract holders and new use of this 'synthetic' LIBOR by UK regulated firms would be restricted.

The March 2021 FCA Announcement may already constitute a Benchmark Event (General) at time of issue (but which, pursuant to the definition of "Benchmark Event (General)", may or may not have been deemed to occur as at such time of issue) in respect of any Reference Rates Benchmark relating to a Series of Notes that is a LIBOR setting. The consequences of the occurrence of a Benchmark Event (General) and its potential impact on the value of the Notes are discussed further below.

Separately, the euro-interbank offered rate ("**EURIBOR**") has been reformed to be calculated using a hybrid methodology and to provide a fallback by reference to a euro risk-free rate (based on a euro overnight risk-free rate as adjusted by a methodology to create a term rate). On 13 September 2018, the working group on euro risk-free rates recommended Euro Short-term Rate ("**€STR**") as the new risk-free rate and €STR was first published by the European Central Bank (the "**ECB**") on 2 October 2019. In addition, on 21 January 2019, the euro risk-free rate working group has published a set of guiding principles for fallback provisions in new euro denominated cash products (including bonds). The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts may increase the risk to the euro area financial system.

In addition, as the SOR methodology relies on USD LIBOR in its computation, the likely discontinuation of LIBOR as described will impact the future sustainability of SOR. On 30 August 2019, the MAS announced that it has established a steering committee to oversee an industry-wide interest rate benchmark transition from the SOR to the Singapore Overnight Rate Average. The Association of Banks in Singapore has also proposed to discontinue certain tenors for SIBOR, to amend the methodology for determining SIBOR, and to transition from SOR to an alternative interest rate benchmark.

Ongoing industry transitions may cause such benchmark to perform differently than they have done in the past, and may have other consequences which cannot be predicted. Such factors may have (without limitation) the following effects on certain benchmarks: (i) discouraging market participants from continuing to administer or contribute to a benchmark; (ii) triggering changes in

the rules or methodologies used in the benchmark; and/or (iii) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

Benchmark Replacement (General)

In the case where “Benchmark Replacement (General)” is stated to be applicable in the relevant Pricing Supplement, the Conditions provide for certain fallback arrangements if the Issuer or the Calculation Agent determines that a Benchmark Event (General) (as defined in the Conditions) has occurred in relation to the Reference Rates Benchmark when any Rate of Interest (or the relevant component thereof) remains to be determined by the current Reference Rates Benchmark.

Such fallback arrangements include the possibility that the Rate of Interest could be set by reference to (a) a Successor Rate (General) or (b) an Alternative Reference Rate (General) (both as defined in the Conditions), in each case, with or without the application of an adjustment spread and may include amendments to the Conditions that may be appropriate to reflect the adoption of the successor or replacement benchmark in a manner substantially consistent with market practice, or if the Issuer (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) so determines that the adoption of any portion of such market practice is not administratively feasible or that no such market practice exists, the Issuer may specify such changes as is reasonably necessary to give effect to the successor or replacement benchmark. Investors should therefore be aware of the following:

- 5.12.1** The consent of Noteholders will not be required to effect the Successor Rate (General) or Alternative Reference Rate (General) (as applicable), any adjustment spread or any such amendments to the Conditions as described above and any such changes shall take effect upon notification by the Issuer.
- 5.12.2** An adjustment spread, if applied, could be positive or negative and would be applied with a view to reducing or eliminating, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of the current Reference Rates Benchmark. However, it may not be possible to determine or apply an adjustment spread and even if an adjustment is applied, such adjustment spread may not be effective to reduce or eliminate economic prejudice to investors. If no adjustment spread can be determined, a Successor Rate (General) or Alternative Reference Rate (General), as applicable, will apply without an adjustment spread and may nonetheless be used to determine the Rate of Interest. The use of a Successor Rate (General) or Alternative Reference Rate (General) (including with the application of an adjustment spread) will still result in any Notes linked to or referencing the current Reference Rates Benchmark performing differently (which may include payment of a lower Rate of Interest) than they would if the current Reference Rates Benchmark were to continue to apply.
- 5.12.3** In the event the Issuer does not notify the Calculation Agent, the Issue and Paying Agent and the Noteholders of a Successor Rate (General) or an Alternative Reference Rate (General) and the Notes are not subject to early redemption in accordance with the Conditions, the Rate of Interest applicable to the next succeeding Interest Period shall be subject to determination by the Calculation Agent acting in good faith and in a commercially reasonable manner and as further described in the Conditions. Prospective investors should note that the use of a Rate of Interest determined by the Calculation Agent will result in the Notes performing differently (which may include payment of a lower

Rate of Interest) than they would if the current Reference Rates Benchmark were to continue to apply.

Benchmark Replacement (SOR) and Benchmark Replacement (SORA)

In the case where “Benchmark Replacement (SOR)” or “Benchmark Replacement (SORA)” is specified as applicable in the relevant Pricing Supplement, the Conditions generally provide for similar fallback arrangements as those where “Benchmark Replacement (General)” applies as described above in the event a Benchmark Event (SOR) or a SORA Index Cessation Event, as applicable, occurs with respect to the relevant Reference Rate. Where “Benchmark Replacement (SOR)” applies, such fallback arrangements include the possibility that the Rate of Interest could be set by reference to Benchmark Replacement Rate (SOR), which comprises a waterfall of specified rates. Accordingly, investors should be aware of the risks as described above with respect to “Benchmark Replacement (General)” as it applies to “Benchmark Replacement (SOR)” or “Benchmark Replacement (SORA)”, as applicable.

Benchmark Event – Early Redemption

Where “Benchmark Event – Early Redemption” is specified as applicable in the relevant Pricing Supplement, investors should note that following the occurrence of a Benchmark Event (General), Benchmark Event (SOR) or SORA Index Cessation Event, as applicable, subject to the satisfaction of certain conditions (for example, if the Issuer does not notify the Noteholders of the relevant replacement rate), the Issuer may give notice to the Noteholders and redeem all, but not some only, of the Notes then outstanding. If the Notes are redeemed early, investors may not be able to obtain the expected return and may not be able to re-invest the proceeds at equally favourable terms.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by any international reforms in making any investment decision with respect to any Notes linked to or referencing a benchmark.

5.13 The market continues to develop in relation to risk free rates (including overnight rates) as reference rates for Floating Rate Notes

Investors should be aware that the market continues to develop in relation to risk free rates as reference rates in the capital markets and their adoption as alternatives to the relevant interbank offered rates. SONIA, SOFR and SORA are recently reformed and/or are newly established risk-free rates. Notes referencing these risk free rates (for example, SONIA, SOFR and SORA) rates may be issued under the Programme.

On 29 November 2017, the Bank of England and the United Kingdom Financial Conduct Authority announced that the Bank of England’s Working Group on Sterling Risk-Free Rates had been mandated with implementing a broad-based transition to the Sterling Overnight Index Average (“**SONIA**”) over the following four years across sterling bond, loan and derivatives markets, so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021.

The Secured Overnight Financing Rate (“**SOFR**”) is published by the Federal Reserve Bank of New York (the “**Federal Reserve**”) and is intended to be a broad measure of the cost of borrowing cash overnight collateralised by Treasury securities and a current preferred replacement rate to USD LIBOR. The Federal Reserve notes on its publication page for SOFR that the Federal Reserve may alter the methods of calculation, publication schedule, rate revision practices or availability of SOFR at any time without notice. The Federal Reserve Bank of New York has no obligation to consider the interests of holders of the Notes in calculating, adjusting, converting, revising or discontinuing SOFR.

SOFR is a new rate. Publication of SOFR began on 3 April 2018 and it therefore has a very limited history. In addition, the future performance of SOFR cannot be predicted based on its

historical performance. The level of SOFR over the term of the Notes may bear little or no relation to the historical level of SOFR or any other index. Prior observed patterns, if any, in the behaviour of market variables, such as correlations, may change in the future. While some pre-publication hypothetical performance data has been published by the Federal Reserve, such data inherently involves assumptions, estimates and approximations. Furthermore, since the initial publication of SOFR, daily changes in the rate have, on occasion, been more volatile than daily changes in comparable benchmark or market rates. As a result, the return on and value of Notes linked to SOFR may fluctuate more than floating rate debt securities that are linked to less volatile rates. The future performance of SOFR is impossible to predict and therefore no future performance of SOFR or the Notes may be inferred from any of the hypothetical or actual historical performance data. Hypothetical or actual historical performance data are not indicative of, and have no bearing on, the potential performance of SOFR or the Notes.

Similarly, on 30 August 2019, the MAS announced the establishment of the Steering Committee for SOR Transition to SORA (“**SC-STs**”) to oversee an industry-wide benchmark transition from the Singapore dollar Swap Offer Rate (“**SOR**”) to the Singapore Overnight Rate Average (“**SORA**”). In addition, The Association of Banks in Singapore and the Singapore Foreign Exchange Market Committee released a consultation report “Roadmap for Transition of Interest Rate Benchmarks: From SOR to SORA” (the “**Consultation**”) identifying SORA as the alternative interest rate benchmark to SOR, envisaging a phased transition over two years. On 19 March 2020, SC-STs released its “Response to Feedback Received on Proposed Roadmap for Transition from SOR to SORA”, which sets out its response to feedback received on the Consultation. Overall, SC-STs noted that there was broad support for the proposed transition roadmap and approach set out in the Consultation, and also outlined its key priorities and updated transition roadmap to achieve a smooth transition from SOR to SORA as the new interest rate benchmark for the SGD cash and derivatives markets. On 27 October 2020, SC-STs further announced industry timelines to support a coordinated shift away from the use of SOR in financial products and accelerate usage of SORA.

Meanwhile, market participants and relevant working groups are also exploring other alternative reference rates based on risk free rates, examples of which include term SOFR reference rates, term SONIA reference rates (which seek to measure the market’s forward expectation of an average SONIA rate over a designated term) and term SORA reference rates (which are intended to be forward-looking benchmarks based on SORA).

Investors should be aware that the development of risk-free rates in the market continues to develop and accordingly, such risk-free rates have a limited performance history and the future performance of such risk-free rates is impossible to predict. As a consequence, no future performance of the relevant risk-free rate or Notes referencing such risk-free rate may be inferred from any of the hypothetical or actual historical performance data. Investors should also be aware that risk-free rates may behave materially differently to interbank offered rates as interest reference rates. In addition, the method of calculation, publication schedule, rate revision practices or availability of a relevant risk-free rate may be subject to alteration by the relevant administrator and any such alterations could have a material adverse impact on the value and return on such risk-free rate instruments.

Under the Conditions, where a risk-free-rate (such as SONIA, SOFR or SORA) is used as the relevant reference rate, interest will be calculated on the basis of compounded risk-free rate which is calculated using the specific formula set out in the Conditions, and not the risk-free rate published on or in respect of a particular date during the relevant interest period. For this and other reasons, the Rate of Interest on the Notes in respect of any Interest Period will not be the same as the interest rate on other investments linked to such risk-free rate that use an alternative basis to determine the applicable interest rate.

Market conventions for calculating the interest rate for bonds referencing risk-free rates may continue to develop. The market or a significant part thereof may adopt an application of risk free rates (including, SONIA, SOFR and SORA) that differs significantly from that set out in the Conditions and used in relation to any that reference risk free rates issued under the Programme. The Issuer may in the future also issue Notes referencing risk free rates that differ materially in terms of interest determination when compared with any previous Notes referencing the same risk free rate issued by it under the Programme. If the market adopts a different calculation method, that could adversely affect the market value of the Notes issued under the Programme. The nascent development of compounded risk-free rate (including SONIA, SOFR and SORA) as an interest reference rate, as well as continued development of SONIA- SOFR- and SORA-based rates for such market and the market infrastructure for adopting such rates, could also result in reduced liquidity or increased volatility or could otherwise affect the market price of any such Notes issued under the Programme which references any risk free rate from time to time.

Furthermore, the basis of deriving certain risk free rates (including SONIA, SOFR and SORA) may mean that interest on Notes which reference any such risk free rate would only be capable of being determined after the end of the relevant interest observation period and immediately prior to the relevant Interest Payment Date. It may be difficult for investors in Notes which reference any such risk free rate to accurately estimate the amount of interest which will be payable on such Notes, and some investors may be unable or unwilling to trade such Notes without changes to their IT systems, both of which could adversely impact the liquidity of such Notes. Further, if such Notes become due and payable as a result of an event of default, the rate of interest payable for the final Interest Period in respect of such Notes shall only be determined on the date which the Notes become due and payable and shall not be reset thereafter. Investors should consider these matters when making their investment decision with respect to any such Notes.

In addition, the manner of adoption or application of risk free rates in the Eurobond markets may differ materially compared with the application and adoption of such risk free rates in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of risk free rates across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Notes referencing such risk free rates.

Since risk free rates are relatively new market indices, Notes linked to any such risk free rate may have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for debt securities indexed to any risk free rate, such as the spread over the index reflected in interest rate provisions, may evolve over time, and trading prices of such Notes may be lower than those of later-issued indexed debt securities as a result. Further, if any risk free rate to which a series of Notes is linked does not prove to be widely used in securities like the Notes, the trading price of such Notes linked to a risk free rate may be lower than those of Notes linked to indices that are more widely used. Investors in such Notes may not be able to sell such Notes at all or may not be able to sell such Notes at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk. There can be no guarantee that any risk free rate to which a series of Notes is linked will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in Notes linked to or which reference such risk free rate (or that any applicable benchmark fallback provisions provided in the Conditions of the Notes will provide a rate which is economically equivalent for holders). If the manner in which such risk free rate is calculated is changed, that change may result in a reduction of the amount of interest payable on such Notes and the trading prices of such Notes.

5.14 Notes subject to optional redemption by the Issuer

If a call option is specified in the relevant Pricing Supplement as being applicable and exercisable by the Issuer, the Notes will be subject to optional redemption by the Issuer. Such an optional redemption feature is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

5.15 Notes subject to partial redemption by the Issuer

If a call option is specified in the relevant Pricing Supplement as being applicable and exercisable by the Issuer in part, the relevant Series of Notes may be partially redeemed at the option of the Issuer. If the relevant Series of Notes are in bearer form, the Notes to be redeemed shall be selected by the drawing of lots in such place as the Issue and Paying Agent approves and in such manner as the Issue and Paying Agent considers appropriate. If the relevant Series of Notes are in registered form, the Notes will be redeemed (so far as may be practicable) *pro rata* to their principal amounts. Such a partial redemption feature is likely to limit the market value of those Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period. Further, the Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time. A partial redemption of a Series of Notes may also adversely affect the liquidity of the remaining outstanding Notes of such Series (in the case where some but not all of the Notes are redeemed).

5.16 Physical settlement of Notes

The applicable Pricing Supplement may provide that the Issuer may, at its election or otherwise as provided in the applicable Pricing Supplement, physically settle its payment obligations under the Notes. When such Notes are physically settled, the Issuer will not pay a Noteholder cash in discharge of its payment obligations, whether in respect of principal, interest or otherwise, under the Notes, but will deliver to the Noteholder the Underlying Physical Assets, which may, for example, be shares (or any other form of equity securities) or bonds (or any other form of debt securities) specified in the applicable Pricing Supplement.

There is no guarantee that there will be any market or liquidity in relation to such assets or if a Noteholder would be able to dispose or realise such Underlying Physical Assets for an amount equivalent to the payment obligations of the Issuer under such Notes. Therefore, if the Issuer physically settles any of its payment obligations under such Notes, a Noteholder may, upon realisation of such Underlying Physical Assets, receive less cash than if the Issuer had settled its payment obligations under such Notes in cash.

In addition, where physical settlement is provided for in the applicable Pricing Supplement, the terms and conditions of the relevant Notes may further provide that if the Issuer determines that physical delivery of any Underlying Physical Asset would be a breach of any applicable securities or other relevant laws, the Issuer will redeem the Notes by way of cash settlement, by payment

of the market value of the Underlying Physical Assets, which may be less or substantially less than the principal amounts of such Notes.

5.17 Notes issued at a substantial discount or premium

The market values of securities which are issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

5.18 Notes where denominations involve integral multiples

In the case of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case, a Noteholder who, as a result of trading such amounts, holds a nominal amount of less than the minimum Specified Denomination will not receive a Definitive Note in respect of such holding (should Definitive Notes be printed) and would need to purchase additional amounts such that it holds an amount equal to one or more Specified Denominations.

If Definitive Notes are issued, holders should be aware that Definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

5.19 Partly-Paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment on a Partly-Paid Note could result in an investor losing all of its investment.

5.20 Risks Related to RMB-denominated Notes

Notes denominated in RMB ("**RMB Notes**") may be issued under the Programme. RMB Notes contain particular risks for potential investors.

5.20.1 Renminbi is not freely convertible; there are significant restrictions on remittance of Renminbi into or out of the PRC

Renminbi is not freely convertible at present. The PRC government continues to regulate conversion between Renminbi and foreign currencies, including the U.S. dollar, despite the significant reduction over the years by the PRC government of control over routine foreign exchange transactions under current accounts. Participating banks in Hong Kong have been permitted to engage in the settlement of RMB trade transactions under a pilot scheme introduced in July 2009. This represents a current account activity. The pilot scheme was extended in August 2011 to cover the whole nation and to make RMB trade and other current account item settlement available in all countries worldwide. Currently, participating banks in offshore Renminbi settlement centres (including, but not limited to, Singapore, Hong Kong, Macau, Taiwan, Paris, Luxembourg, Doha, Sydney, Toronto, Kuala Lumpur, Bangkok, Seoul, London, Frankfurt, Santiago, Budapest, Johannesburg, Buenos Aires and Lusaka, together the "**RMB Settlement Centres**") have been permitted to engage in the settlement of Renminbi trade transactions.

On 7 April 2011, the State Administration of Foreign Exchange (the "**SAFE**") promulgated the *Circular on Issues Concerning the Capital Account Items in connection with Cross-Border Renminbi* (the "**SAFE Circular**"), which became effective on 1 May 2011. According to the SAFE Circular, in the event that foreign investors intend to use cross-border Renminbi (including offshore Renminbi and onshore Renminbi held in the accounts of non-PRC residents) to make contributions to an onshore enterprise or make payment

for the transfer of equity interest of an onshore enterprise by a PRC resident, such onshore enterprise shall be required to submit the relevant prior written consent from the MOFCOM to the relevant local branches of SAFE of such onshore enterprise and register for a foreign invested enterprise status. Further, the SAFE Circular clarifies that the foreign debts borrowed, and the external guarantee provided, by an onshore entity (including a financial institution) in RMB shall, in principle, be regulated under the current PRC foreign debt and external guarantee regime.

On 13 October 2011, the People's Bank of China (the "**PBOC**") issued the Measures on Administration of the RMB Settlement in relation to Foreign Direct Investment (the "**PBOC RMB FDI Measures**"), to commence the PBOC's detailed RMB foreign direct investments ("**RMB FDI**") administration system, which covers almost all aspects of RMB FDI, including capital injection, payment of purchase price in the acquisition of PRC domestic enterprises, repatriation of dividends and distribution, as well as RMB denominated cross-border loans. Under the PBOC RMB FDI Measures, special approval for RMB FDI and shareholder loans from the PBOC which was previously required is no longer necessary. In some cases, however, post-event filing with the PBOC is still necessary.

On 3 December 2013, MOFCOM promulgated the *Circular on Issues in relation to Cross-border Renminbi Foreign Direct Investment* (the "**MOFCOM Circular**"), which became effective on 1 January 2014, to further facilitate RMB FDI by simplifying and streamlining the applicable regulatory framework. Pursuant to the MOFCOM Circular, the appropriate office of MOFCOM and/or its local counterparts will grant written approval for each RMB FDI and specify "Renminbi Foreign Direct Investment" and the amount of capital contribution in the approval. Unlike previous MOFCOM regulations on RMB FDI, the MOFCOM Circular removes the approval requirement for foreign investors who intend to change the currency of its existing capital contribution from a foreign currency to Renminbi. In addition, the MOFCOM Circular also clearly prohibits RMB FDI funds from being used for any investment in securities and financial derivatives (except for investment in the PRC listed companies as strategic investors) or for entrustment loans in the PRC.

On 13 February 2015, the SAFE promulgated the *Notice on Further Simplifying and Improving Foreign Exchange Administration Policy of Direct Investment* (the "**2015 SAFE Notice**"), which became effective on and from 1 June 2015. Under the 2015 SAFE Notice, SAFE delegates the authority of approval/registration for direct investment (inbound and outbound) related matters to commercial banks. However, this 2015 SAFE Notice only applies to direct investment activities in foreign currency, and whether and how it would affect the Renminbi direct investment regime is currently unknown.

On 26 January 2017, the SAFE issued the *Notice on Further Promoting Foreign Exchange Management Reform by Improving Real Compliance Audit* (the "**2017 SAFE Notice**") which seeks to further regulate the foreign exchange management in relation to trading. Domestic institutions should handle their currency conversion trade finance businesses and process export earnings timely in accordance with the principle of "who exports, who receives payment, who imports and who makes payment". The 2017 SAFE Notice is also part of the PRC foreign debt, outbound loan and cross-border security regimes applicable to foreign currencies. For instance, the 2017 SAFE Notice states that in order for a domestic institution to carry out cross-border lending, the aggregate of the balance of domestic currency loans and foreign currency denominated loans shall not exceed 30 per cent. of the owner's equity as set out in the previous years' audited financial statements. However, there remain potential inconsistencies between these provisions and the existing PBOC rules, and it is currently unclear as to how regulators may address such inconsistencies in practice.

Subject to obtaining all necessary approvals from and registration with the relevant PRC government authorities, the Issuer may decide to remit the proceeds into China in Renminbi. However, there is no assurance that the necessary approvals from and registration with the relevant PRC government authorities will be obtained on a timely basis, or at all or, if obtained, they will not be revoked or amended in the future.

As some of the above measures and circulars are new regulations, they will be subject to interpretation and application by the relevant PRC authorities.

Although, since 1 October 2016, RMB has been included in the basket of currencies that make up the Special Drawing Rights (SDR) created by the International Monetary Fund (IMF), there is no assurance that the PRC government will continue to gradually liberalise the control over cross-border RMB remittances in the future, that the pilot scheme introduced in July 2009 will not be discontinued or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that the Issuer is not able to repatriate funds outside the PRC in Renminbi, the Issuer will need to source Renminbi offshore to finance their respective obligations under Renminbi Notes, and their ability to do so will be subject to the overall availability of Renminbi outside the PRC.

5.20.2 There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of RMB Notes and the Issuer's ability to source Renminbi outside the PRC to service such RMB Notes

As a result of the restrictions by the PRC government on cross-border Renminbi fund flows, the availability of Renminbi outside the PRC is limited. Since February 2004, in accordance with arrangements between the PRC central government and the Hong Kong government, licensed banks in Hong Kong may offer limited Renminbi-denominated banking services to Hong Kong residents and specified business customers. The PBOC has also established a Renminbi clearing and settlement system for participating banks in Hong Kong. On 19 July 2010, further amendments were made to the Settlement Agreement on the Clearing of RMB Business (the "**Settlement Agreement**") between the PBOC and Bank of China (Hong Kong) Limited (the "**RMB Clearing Bank**") to further expand the scope of RMB business for participating banks in Hong Kong. Pursuant to the revised arrangements, all corporations are allowed to open RMB accounts in Hong Kong; there is no longer any limit on the ability of corporations to convert RMB; and there will no longer be any restriction on the transfer of RMB funds between different accounts in Hong Kong. In addition, the PBOC has now established Renminbi clearing and settlement systems with financial institutions in other major global financial centres (each also a "**RMB Clearing Bank**"), including, but not limited to, London, Frankfurt and Singapore to further internationalise the Renminbi.

There are restrictions imposed by PBOC on Renminbi business participating banks in respect of cross-border Renminbi settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from the PBOC. The RMB Clearing Banks only have access to onshore liquidity support from the PBOC for the purpose of squaring open positions of participating banks for limited types of transactions and are not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services. In such cases, the participating banks will need to source Renminbi from the offshore market to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be

promulgated or the Settlement Agreement or any other settlement arrangement will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi offshore. The limited availability of Renminbi outside the PRC may affect the liquidity of the Issuer's RMB Notes. To the extent the Issuer is required to source Renminbi in the offshore market to service its RMB Notes, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all.

5.20.3 Investment in RMB Notes is subject to exchange rate risks

The value of the Renminbi against the U.S. dollar and other foreign currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. All payments of interest and principal will be made with respect to the RMB Notes in Renminbi (unless otherwise specified in the applicable Pricing Supplement). If an investor measures its investment returns by reference to a currency other than Renminbi, an investment in the Renminbi Notes entails foreign exchange related risks, including possible significant changes in the value of Renminbi relative to the currency by reference to which an investor measures its investment returns. Depreciation of the Renminbi against such currency could cause a decrease in the effective yield of the Renminbi Notes below their stated coupon rates and could result in a loss when the return on the Renminbi Notes is translated into such currency. In addition, there may be tax consequences for investors as a result of any foreign currency gains resulting from any investment in Renminbi Notes.

5.20.4 Payments for the RMB Notes will only be made to investors in the manner specified in the RMB Notes

All payments to investors in respect of the RMB Notes will be made solely (i) for so long as the RMB Notes are represented by a Global Note or a Global Note Certificate held with the common depositary, as the case may be, for Clearstream, Luxembourg and Euroclear Bank or any alternative clearing system by transfer to a Renminbi bank account maintained in Hong Kong, or CDP by transfer to a Renminbi bank account maintained in Singapore, or (ii) for so long as the Notes are in definitive form, by transfer to a Renminbi bank account maintained in Hong Kong or in Singapore in accordance with the prevailing rules and regulations. The Issuer cannot be required to make payment by any other means (including in any other currency or by transfer to a bank account in the PRC).

6 Additional Risks Relating to one or more particular type of Notes

6.1 Floating Rate Notes

The amounts payable in respect of principal and/or interest, and whether at maturity or otherwise, are calculated by reference to the rates of interest and/or a formula linked to such rates of interest. Movements in the rates of interest may therefore adversely affect the return on such Notes, and may also adversely affect the market value of such Notes prior to, or at, maturity. In addition, in certain circumstances, relevant rates of interest may not be available, either because the rates are not published on the relevant screen page, dealer quotations cannot be obtained, or otherwise. Under such circumstances, the rate of interest applicable to such Notes may be subject to the discretion of the Calculation Agent, acting in good faith and in a commercially reasonable manner.

6.2 Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or *vice versa*. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of such Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts

from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on its Notes.

6.3 Dual Currency Notes

The Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that payment of principal or interest may occur in a different currency than expected and accordingly, investors may be exposed to exchange rate risks as discussed in the risk factor "*Exposure to exchange rate risks*" above.

6.4 Interest Rate Linked Notes

Interest Rate Linked Notes may be redeemable by the Issuer by payment of either the par value amount or an amount determined by reference to the value of the underlying reference asset(s) or such other redemption amount as may be specified in the applicable Pricing Supplement. Interest payable on Interest Rate Linked Notes may be calculated by reference to the value of one or more underlying reference asset(s). Accordingly, investors in Interest Rate Linked Notes will be exposed to risks associated with one or more interest rates and investors should take independent professional advice accordingly.

In the case of Interest Rate Linked Notes, the amounts payable in respect of principal and/or interest, and whether at maturity or otherwise, are calculated by reference to: (i) interest rate benchmarks, (ii) interest rates for a specified currency for a specified term, and/or (iii) any combination of or a formula based on the above. Movements in any of the above may therefore adversely affect the return on such Notes, and may also adversely affect the market value of such Notes prior to, or at, maturity.

6.5 Credit Linked Notes

The Credit Linked Notes have a different risk profile to other unsecured debt securities. The return on the Credit Linked Notes is linked to the credit risk of one or more Reference Entities and certain obligations of one or more Reference Entities underlying that Series of Credit Linked Notes. Investing in the Credit Linked Notes is not equivalent to investing directly in shares, bonds or loans of any Reference Entity or in any obligation of any Reference Entity, nor is it equivalent to taking an exposure or hedging using over-the-counter derivatives.

Prospective investors should note that the Credit Linked Notes differ from ordinary debt securities issued by the Issuer in that (a) the amounts of principal and/or interest payable are dependent on whether a Credit Event has occurred with respect to a relevant Reference Entity and, if so, on the value of certain specified assets of the Reference Entity and (b) if such events have occurred, the Issuer may deliver, on redemption caused by the occurrence of a Credit Event, assets which are obligations of (or obligations guaranteed by) such Reference Entity/Entities in lieu of any cash payment under the Credit Linked Notes.

The Credit Linked Notes may redeem below par and investors may receive no or a limited amount of interest. The redemption amount or amount of assets delivered may vary considerably due to market conditions and may in certain circumstances (for example following a default of a Reference Entity) be likely to be valued at a considerable discount to their par value or even zero and investors may therefore lose all or a substantial portion of their investment. The redemption amount is further reduced by the costs incurred by the Issuer on unwinding the transactions entered into by the Issuer for the purpose of hedging its exposure under the Credit Linked Notes. Investors in the Credit Linked Notes should be aware that payment of the redemption amount or delivery of assets may occur at a different time than expected and that they may lose all or a

substantial portion of their investment. In particular, prospective investors should be aware that Notes to which “Credit Payment on Maturity” applies will only pay the relevant redemption amount of such Note on the Scheduled Maturity Date even though the Credit Event which leads to the calculation of the redemption amount occurs some time prior to the Scheduled Maturity Date. In certain circumstances, the Credit Linked Notes may redeem at zero. If “Credit Payment on Maturity” applies, the occurrence of a Credit Event will not result in the early termination of the Credit Linked Notes. Investors are therefore exposed to the risk that, following the occurrence of a Credit Event, they will not receive any payments of interest or principal from either the Interest Payment Date prior to the Event Determination Date, if “No Accrual of Interest upon Credit Event” applies, or the Event Determination Date, if “Partial Accrual of Interest upon Credit Event” applies, up to the Scheduled Maturity Date.

The market price of Credit Linked Notes may be volatile and will be affected by, amongst other things, the time remaining to the maturity date, prevailing credit spreads and the creditworthiness of the relevant Reference Entity or Entities which in turn may be affected by the economic, financial and political events in one or more jurisdictions. See also “Buy Back Arrangements”.

The primary credit risk of the Credit Linked Notes is that of the Reference Entity or Entities identified in the relevant Pricing Supplement. The occurrence of a Credit Event in relation to a relevant Reference Entity will directly and materially affect the return and/or value of an investor’s investment in the Credit Linked Notes. The likelihood of a Credit Event occurring in respect of a relevant Reference Entity will generally fluctuate with, among other things, the financial condition and other characteristics of such Reference Entity, general economic conditions, the conditions of certain financial markets, political events, developments or trends in any particular industry and changes in prevailing interest rates. Prospective investors should review each Reference Entity and conduct their own investigation and analysis with respect to the credit risk of each Reference Entity and the likelihood of a Credit Event with respect to such Reference Entity.

6.5.1 Risks related to the structure of a particular issue of the Credit Linked Notes

A number of the Credit Linked Notes may have features which contain particular risks for investors. Set out below is a description of the most common such features:

(i) *Risk of Loss of Interest*

Save as otherwise provided in the relevant Pricing Supplement, if a Credit Event occurs, interest will cease to accrue on any interest bearing Credit Linked Notes (or, in the case of Linear Basket Notes, a portion thereof equal to the Reference Entity Notional Amount of the Reference Entity in respect of which a Credit Event and Relevant Event Determination Date has occurred) as of the Interest Payment Date (or Interest Commencement Date where no Interest Payment Date has occurred) occurring on or immediately preceding the Relevant Event Determination Date, if “No Accrual of Interest upon Credit Event” applies or the Relevant Event Determination Date, if “Partial Accrual of Interest upon Credit Event” applies.

If “Credit Payment on Maturity” applies to the Notes, then, following the occurrence of a Credit Event, interest will cease to accrue as described above even though Noteholders will not receive any payment of principal until the Scheduled Maturity Date of the Notes. Consequently, where “Credit Payment on Maturity” applies, Noteholders risk losing the payment of interest on the redemption amount which is payable at maturity of the Notes.

(ii) *Risk of Loss of Principal*

Unless “Principal Protected Redemption” applies, investors bear the risk of loss of principal if a Credit Event and a Relevant Event Determination Date occur. The Auction Redemption Amount or the Cash Redemption Amount in respect of a

Series of Credit Linked Notes (or, in the case of Linear Basket Notes, a portion thereof equal to the Reference Entity Notional Amount in respect of the Reference Entity in respect of which a Credit Event and a Relevant Event Determination Date has occurred) is likely to be less than the outstanding principal amount of the Notes and may be zero. Similarly, if “Physical Redemption” applies, the market value of the Physical Redemption Assets in respect of a Series of Credit Linked Notes (or, in the case of Linear Basket Notes, a portion thereof equal to the Reference Entity Notional Amount in respect of the Reference Entity in respect of which a Credit Event and a Relevant Event Determination Date has occurred) is likely to be less than the outstanding principal amount of the Notes and may be zero.

In addition, Noteholders should be aware that if “Credit Payment on Maturity” applies to the Notes, payment of the Cash Redemption Amount or Auction Redemption Amount will only be made at maturity of the Notes notwithstanding that the Credit Event leading to the calculation of the Cash Redemption Amount or Auction Redemption Amount occurs before the Scheduled Maturity Date of the Notes and Noteholders will not receive any interim payment of interest or principal in respect of such Note.

The Auction Redemption Amount or Cash Redemption Amount or the value of the Physical Redemption Assets delivered to a Noteholder will reflect the market value of the obligations of the Reference Entity in respect of which a Credit Event occurred less, unless “Adjustment for Unwind Costs” is specified to be not applicable in the applicable Pricing Supplement, a deduction for Unwind Costs (and, in the case of Credit Linked Notes to which “Physical Redemption” applies, Delivery Expenses).

Unwind Costs may be specified to apply to the Notes. Unwind Costs relate to (i) the fees, charges, losses, expenses and costs (if any), including any loss of bargain or cost of funding, or the gain to the Issuer and/or any Affiliate of the Issuer as a result of unwinding, terminating, liquidating, adjusting, obtaining, replacing, settling or re-establishing any underlying or related hedging arrangements (if any) (including, but not limited, to any funding arrangements, currency, options, swaps, and derivative trades or selling or otherwise realising any instruments of any type whatsoever which the Issuer and/or any Affiliate may hold as part of such hedging arrangements (if any)) in relation to the Notes; and (ii) the fees, charges, expenses and costs (if any) incurred by the Issuer and/or any of its Affiliates in connection with the early redemption of the Notes, including any expenses and costs in connection with the delivery of any Physical Redemption Assets. The Issuer is not under any duty to hedge itself with respect to any Credit Linked Notes, nor is it required to hedge itself in a manner that will result in the lowest unwind costs. Investors should be aware that if Unwind Costs are greater than the outstanding nominal amount of the Credit Linked Notes and the Auction Final Price or Final Price or the market value of the Physical Redemption Assets, as the case may be, the Auction Redemption Amount, Cash Redemption Amount or Physical Redemption Assets will be zero.

Delivery Expenses reflect the costs, taxes, duties and/or expenses, including stamp duty, stamp duty reserve tax and/or other costs, duties or taxes arising from the delivery of the Physical Redemption Assets.

See also “*Risks relating to the Credit Event Redemption Method*”.

6.5.2 Risks relating to the Conditions applicable to Credit Linked Notes and the Credit Derivatives Determinations Committees

(i) *Definitions in respect of Credit Linked Notes*

The Conditions of the Credit Linked Notes do not incorporate by reference the definitions and provisions of the 2014 ISDA Credit Derivatives Definitions, as such definitions may be amended by the supplements thereto and there may be differences between the definitions used in Condition 8 (*Credit Linked Notes*) and the Credit Derivatives Definitions. Consequently, investing in Credit Linked Notes is not exactly the same as entering into a credit default swap that incorporates the Credit Derivatives Definitions.

While ISDA has published the Credit Derivatives Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market is expected to continue to evolve and change. Consequently, the Credit Derivatives Definitions and the terms applied to credit derivatives, including Credit Linked Notes, are subject to interpretation and further evolution. Past events have shown that the views of market participants may differ as to how the Credit Derivatives Definitions operate or should operate. As a result of the continued evolution in the market, interpretation of the Credit Linked Notes may differ in the future because of future market standards. Such a result may have a negative impact on the Credit Linked Notes.

There can be no assurances that changes to the terms applicable to credit derivatives generally will be predictable or favourable to the Issuer or Noteholders. The Calculation Agent may from time to time amend any provisions of Condition 8 (*Credit Linked Notes*) of the Conditions and the relevant Credit Linked Notes to incorporate and/or reflect further or alternative documents published by ISDA or the DC Secretary with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the Credit Derivatives Determinations Committee which the Calculation Agent and the Bank determine in a commercially reasonable manner are necessary to reflect market practice for credit derivative transactions. Subject to the foregoing, future amendments or supplements to the terms applicable to credit derivatives generally will only apply to Credit Linked Notes that have already been issued if the Issuer and the Noteholders agree to amend the Credit Linked Notes to incorporate such amendments or supplements and other conditions to amending the Credit Linked Notes have been met.

The 2014 ISDA Credit Derivatives Definitions introduce new “Asset Package Delivery” provisions which enable an Asset Package to be the subject of an Auction held to determine the Auction Final Price for a Reference Entity following the occurrence of an Asset Package Credit Event. As at the date of the Conditions applicable to Credit Linked Notes, the Auction Settlement Terms have not been updated to reflect such Asset Package Delivery provisions. The Calculation Agent has discretion to adjust the Auction Final Price for any Asset Package if it determines that the Auction Final Price does not reflect the price for the entire Asset Package and, in doing so, the Calculation Agent may, but is not obliged to, have regard to any Auction Settlement Terms published by ISDA to settle credit derivatives transactions following an Asset Package Credit Event.

(ii) *Credit Derivatives Determinations Committees*

The Credit Derivatives Determinations Committees (each, an “**ISDA DC**”) were established pursuant to the March 2009 Supplements to the 2003 ISDA Credit

Derivatives Definitions to make determinations that are relevant to the majority of the credit derivatives market and to promote transparency and consistency. Further information about the ISDA DCs may be found at www.isda.org/credit.

Whether or not a Credit Event or Succession Date has occurred, and certain decisions relating thereto, may be dependent on determinations made by the ISDA DC. In certain circumstances, determinations made by the Calculation Agent may be overridden by subsequent determinations made by an ISDA DC. If the Issuer delivers a Credit Event Notice or Successor Notice to the Issue and Paying Agent, the Noteholders should be aware that such notice may be superseded by a determination of an ISDA DC.

In making any determination in its capacity as Calculation Agent or as Issuer, the Issuer shall have regard to and, where applicable, be bound by decisions made by an ISDA DC. Additionally, in making any determination, the ISDA DC owes no duty to any investors in the Notes.

Investors, in their capacity as Noteholders, will not have the ability to refer questions to an ISDA DC since the Credit Linked Notes will not constitute an actual credit default swap transaction that incorporates either the 2003 ISDA Credit Derivatives Definitions or the 2014 ISDA Credit Derivatives Definitions. As a result, Noteholders are dependent on market participants in actual credit transactions to refer specific questions to the relevant ISDA DC. Neither the Issuer nor the Calculation Agent, acting in any capacity, have any duty to the Noteholders to refer, or to desist from referring, specific questions to the relevant ISDA DC.

Noteholders shall have no recourse against the Issuer, the Calculation Agent, any institutions serving on an ISDA DC or the external reviewers in the event of any loss arising directly or indirectly from any action, determination or resolution taken or made by an ISDA DC.

Noteholders should also note that the Issuer and/or its affiliates may be a member of the relevant ISDA DC. No assurance can be given as to how the Issuer and/or its affiliates will vote in connection with any matter to be determined by the ISDA DC and the Issuer and/or its affiliates are not required to vote in a manner which is consistent with the interests of investors in the Credit Linked Notes and they may vote in a manner which is adverse to the interests of investors in the Credit Linked Notes.

The Pricing Supplement set out certain representations relating to the relevant ISDA DC which are deemed to be made by each Noteholder.

(iii) *Exposure to Reference Entities, Obligations, Underlying Obligations, Underlying Obligors, Reference Obligations and Deliverable Obligations*

Unless otherwise provided in the relevant Pricing Supplement, investors in Credit Linked Notes are exposed to the credit risks and other risks associated with each relevant Reference Entity and their Obligations, Underlying Obligations, Underlying Obligors, Reference Obligations, Deliverable Obligations and any relevant jurisdictional risks, in addition to the credit risk of the Issuer.

The Linear Basket Notes are linked to the credit risk of more than one Reference Entity and the likelihood of a Credit Event occurring and the risk of loss of principal or loss of interest on a Linear Basket Note may therefore be greater than for a Single Name Credit Linked Note which is linked to the credit risk of only one Reference Entity. The likelihood of a Credit Event occurring in respect of any of the Reference Entities referenced by a Linear Basket Note will differ for each Reference

Entity and prospective investors should conduct their own analysis of the credit risk of each of the multiple Reference Entities for the relevant Linear Basket Note.

(iv) *Synthetic Exposure*

The Credit Linked Notes do not represent a claim against any Reference Entity and, in the event of any loss, investors in Credit Linked Notes will not have recourse under the Credit Linked Notes to any Reference Entity nor shall a Noteholder have any legal, beneficial or other interest whatsoever in any of the Obligations, the Reference Obligations or the Deliverable Obligations relating to a Credit Linked Note (except to the extent that such Deliverable Obligations are delivered to the relevant Noteholder). The Issuer is not obliged to own or hold any Obligation or Reference Obligation, and no inference may be drawn from the Programme, Condition 8 (*Credit Linked Notes*) or any relevant Pricing Supplement that the Issuer holds any such Obligation or Reference Obligation or has any credit exposure to any Reference Entity. Amounts payable under the Credit Linked Notes are not, in any direct or indirect way, limited by, associated with, or linked or calculated by reference to, any loss of bargain, cost of funding or any other actual loss or cost suffered by the Issuer as a result of its holding or not holding any Obligation or Reference Obligation.

Neither the Issuer nor the Calculation Agent has made any investigation of, or makes any representation or warranty, express or implied, as to the existence or financial or creditworthiness or other condition of any Reference Entity or the Reference Obligation or Obligations or Deliverable Obligations of such Reference Entity or any information provided in respect of such Reference Entity. The Issuer and the Calculation Agent may, at any time, be in possession of information in relation to any Reference Entity (which may or may not be publicly available). None of such persons shall be under any obligation to make any such information available to Noteholders or any other party.

The Issuer and/or the Calculation Agent may have access to information with respect to a Reference Entity that would (or would if available from a Public Source), amongst other things, constitute Publicly Available Information with respect to a Credit Event or otherwise suggest that a Credit Event has occurred or may occur with respect to a Reference Entity. There is no obligation on the Issuer to disclose such information to any Noteholder, nor to respond to any Noteholder's enquiries or requests for information with respect to any such, or similar, event.

(v) *Credit Events*

Prospective investors should note that not all Credit Events have easily ascertainable triggers and disputes can and have arisen as to whether a specific event did or did not constitute a Credit Event. However, under the Credit Linked Notes and subject to any determinations made by an ISDA DC which will be binding on the Issuer and the Calculation Agent, the ISDA DC and/or the Issuer's determination of a Credit Event will, in the absence of manifest error, be conclusive and binding on all persons (including, without limitation, the Noteholders), notwithstanding the disagreement of such persons or other financial institutions, rating agencies or commentators.

Investors should note that a Credit Event occurring prior to the Trade Date may result in a Credit Event being triggered under the Notes as the Notes have a "Credit Event Backstop Date" which is a look-back period of 60 calendar days from the Credit Event Resolution Request Date or the date of the Credit Event Notice. Investors should conduct their own review of any recent developments with respect

to each Reference Entity by consulting publicly available information. If a request to convene an ISDA Credit Derivatives Determinations Committee has been delivered prior to the Trade Date to determine whether a Credit Event has occurred with respect to the Reference Entity, details of such request may be found on the ISDA website. If an ISDA Credit Derivatives Determinations Committee has not been convened to determine such matter as of the Trade Date, one may still be convened after the Trade Date in respect of an event which occurs up to 60 days before the date of a request to convene such ISDA Credit Derivatives Determinations Committee.

(vi) *Successors and Substitute Reference Obligations*

Following a Succession Date, one or more Successor Reference Entity(s) will (subject to Condition 8(m)(vi) (*Surviving Reference Entity*) or unless otherwise specified in the relevant Pricing Supplement) be deemed to be a Reference Entity in replacement of (or in addition to, as applicable) the relevant Reference Entity originally specified in the relevant Pricing Supplement. Subject to Condition 8(m)(vi) (*Surviving Reference Entity*), if more than one Successor has been identified, the Credit Linked Notes will be amended without the consent of the Noteholders to reflect that each Successor will be a Reference Entity. Further, upon a Reference Obligation ceasing to exist in the manner specified in the definition thereof, a Substitute Reference Obligation may be selected.

As a result of the circumstances discussed in the preceding paragraph, a Series of Credit Linked Notes may be linked to the credit of one or more Reference Entities and their Obligations and Reference Obligations notwithstanding that such Reference Entities, Obligations and Reference Obligations were not specified in the relevant Pricing Supplement upon issuance of such Series of Credit Linked Notes. Each such Successor that becomes a Reference Entity could also have a different, and worse, credit rating (if any) than the original Reference Entity.

(vii) *Redemption after Scheduled Maturity Date*

Redemption may occur irrespective of whether the Relevant Credit Event is continuing on or after a Relevant Event Determination Date. The Auction Redemption Date or Cash Redemption Date, the Final Delivery Date or the Physical Redemption Date may be later than the Scheduled Maturity Date. In certain circumstances, delivery of Deliverable Obligations contained in the Physical Redemption Assets may be delayed to a date beyond the Physical Redemption Date. If the Calculation Agent determines, in its sole and absolute discretion, that (1) one or more Reference Entities is or may be subject to (a) a Credit Event, (b) if "Grace Period Extension" is specified as being applicable in the relevant Pricing Supplement, a Potential Failure to Pay or, (c) if "Repudiation/Moratorium" is specified as being applicable in the relevant Pricing Supplement, a Potential Repudiation/Moratorium, or (2) in respect of any Applicable DC Credit Event Question made on or prior to the Scheduled Maturity Date, no DC Resolution has been published as of the Scheduled Maturity Date, the Credit Linked Notes then outstanding shall not be redeemed on the Scheduled Maturity Date but shall be redeemed instead on the Extended Maturity Date. If an extension of the Scheduled Maturity Date applies pursuant to and in accordance with Condition 8(c) (*Maturity Date Extension*), the Issuer may deliver a Credit Event Notice or the ISDA DC may make a DC Credit Event Announcement which will trigger settlement of the Credit Linked Notes in accordance with the Auction Redemption Terms, Physical Redemption Terms or Cash Redemption Terms as the case may be after the Scheduled Maturity Date.

(viii) *Issuer Discretion*

Unless, in accordance with Condition 8 (*Credit Linked Notes*), the ISDA DC makes a DC Credit Event Announcement or a DC No Credit Event Announcement and the Issuer is bound by such determination, the decision when and whether to deliver a Credit Event Notice and, if applicable, a Notice of Publicly Available Information (if required to be delivered in order to trigger settlement under the Condition 8 (*Credit Linked Notes*)), is at the sole and absolute discretion of the Issuer. Such notices are effective when delivered to the Issue and Paying Agent. The delivery of or failure to deliver such notices to Noteholders will not affect the effectiveness of such notices.

(ix) *Commissions and Costs*

The original issue price of the Credit Linked Notes may include amounts in respect of certain commissions paid with respect to the distribution of the Credit Linked Notes together with certain costs (borne by the Issuer) of hedging the Credit Linked Notes. The price at which the Issuer may be willing to purchase the Credit Linked Notes in the secondary market, all other factors being equal, is likely to be less than the original issue price, since the original issue price included, and secondary market prices are likely to exclude, those commissions and the projected profit included in such hedging costs. Any such secondary market prices may differ from values determined by pricing models used by the Issuer.

6.5.3 Risks relating to the Credit Event Redemption Method

The Credit Event Redemption Method specified in the relevant Pricing Supplement will affect how the Credit Linked Notes are redeemed. Prospective investors should assess whether the Credit Event Redemption Method is appropriate for them prior to investing in the Credit Linked Notes.

(i) *Physical Redemption*

Where “Physical Redemption” applies, subject to the provisions of Condition 8(f) (*Physical Redemption Terms*) (as summarised below in the risk factors headed “Redemption Failure/Alternative Redemption”, “Noteholder Obligations” and “Impossibility and Illegality”), the Issuer will select Deliverable Obligations (the “**Physical Redemption Assets**”) to deliver to the Noteholders. The Issuer will then satisfy its obligations under the Credit Linked Notes by the delivery in respect of each Credit Linked Note of its proportion of such Deliverable Obligations. The Issuer is entitled to select deliverable obligations with the lowest value in the market at the relevant time, provided such obligations satisfy certain specifications and limits for qualification as a Deliverable Obligation. This will operate to reduce the value of the assets delivered to the Noteholder upon redemption.

Unless “Adjustment for Unwind Costs” is specified to be not applicable in the applicable Pricing Supplement:

- (A) if Unwind Costs represent fees, charges, losses, expenses and costs incurred by the Issuer and/or any of its Affiliates, then there will be deducted from the amount of the Physical Redemption Assets such Deliverable Obligations with a market value as determined by the Calculation Agent equal to the sum of any Delivery Expenses and such Unwind Costs and the Delivery by the Issuer of such reduced amount of Deliverable Obligations comprising the Physical Redemption Assets shall be deemed to satisfy and discharge in full the obligation of the Issuer to the Noteholder in respect of the relevant Credit Linked Notes; or

- (B) if Unwind Costs represent a gain to the Issuer and/or any of its Affiliates, the Noteholder may receive, as part of the Physical Redemption Assets to be delivered by the Issuer, a cash amount from the Issuer representing all or part of such Noteholder's *pro rata* share of such gain in respect of such Unwind Costs.

Some Deliverable Obligations may have no, or only a limited, trading market, or may be subject to restrictions on transfer, either of which may operate to reduce their value. The liquidity of obligations will generally fluctuate with, among other things, the underlying liquidity of the loan and bond markets, general economic conditions, domestic and international political events, developments or trends in a particular industry and the financial condition of the relevant Reference Entity/Entities. The financial markets have experienced periods of volatility and reduced liquidity which may re-occur and reduce the market value of the relevant Deliverable Obligations.

(ii) *Asset Package Delivery*

In the event that a Governmental Intervention or certain Restructuring Credit Events, which, in each case, constitute an Asset Package Credit Event, occurs, the obligations that may be delivered to Noteholders may include the Asset Package received or retained by a Relevant Holder in place of the Prior Deliverable Obligation or Package Observable Bond in connection with such Asset Package Credit Event. Such Asset Package may be comprised of illiquid assets and/or may be worth significantly less than the original Prior Deliverable Obligation or Package Observable Bond prior to such Asset Package Credit Event. The Issuer has an option to pay Noteholders the Asset Package Cash Redemption Amount in lieu of delivering all or part of the Asset Package.

(iii) *Redemption Failure/Alternative Redemption*

In relation to a Credit Linked Note to which "Physical Redemption" applies, if a Redemption Failure Event occurs, the Credit Linked Note may be subject to alternative settlement and may, in certain circumstances, be redeemed without any payment or Delivery by the Issuer. If all or part of the Physical Redemption Assets to be delivered to a Noteholder is not a whole integral number of the smallest unit of transfer for such Physical Redemption Assets as at the relevant time for Delivery, the Issuer may Deliver such whole integral amount of the Physical Redemption Assets and cash settle the fractional shortfall.

If the Auction Redemption Amount or Cash Redemption Amount in respect of such Note cannot be paid when due as a result of a Redemption Failure Event, the Noteholder, after providing a release and indemnity to the satisfaction of the Issuer, may request such payment to be made to an account or person not affected by such Redemption Failure Event, provided that, if such Redemption Failure Event is continuing for 90 calendar days after the Scheduled Maturity Date or other scheduled payment or delivery date (including the Auction Redemption Date, the Cash Redemption Date or a date scheduled to be the Delivery Date), in respect of an amount to be paid by the Issuer, if the Noteholder has not requested such payment to be made to an account or person not affected by such Redemption Failure Event, the Issuer's obligations in respect of such payment will be discharged and, in respect of an amount to be delivered, if "Fallback Cash Redemption" applies, the Issuer's obligation shall be satisfied by fallback cash redemption at the market value of the Deliverable Obligations which would otherwise have been

delivered determined by the Issuer and, if “Fallback Cash Redemption” does not apply, the Issuer’s obligations in respect of such delivery will be discharged.

(iv) *Noteholder Obligations*

In relation to a Credit Linked Note to which “Physical Redemption” applies, the Issuer’s obligation to Deliver the relevant portion of the Physical Redemption Assets is subject to various conditions, including, without limitation, the obligation of the Noteholder to deliver to the Issuer a Deliverable Obligation Notice within the prescribed time frame. If a Noteholder fails to do so, the obligations of the Issuer to that Noteholder may be discharged either, if “Fallback Cash Redemption” applies, by fallback cash redemption at the market value of the Physical Redemption Assets determined by the Issuer and, if “Fallback Cash Redemption” does not apply, without any payment or Delivery. In any event, no payment or Delivery will be made in respect of a Credit Linked Note to which “Physical Redemption” applies unless the Issuer has received any required instructions, certifications, information and, where applicable, the relevant Credit Linked Note has been delivered and surrendered in accordance with the terms of the Agency Agreement, the Conditions and the terms of any relevant Global Note.

(v) *Impossibility and Illegality*

In relation to a Credit Linked Note to which “Physical Redemption” Terms applies, if, as a result of the application of the provisions of Condition 8(f) (*Physical Redemption Terms*), it is impossible or illegal for the Issuer to Deliver (by reason of an impossibility or illegality, non-receipt of requisite consents of Consent Required Loans or Assignable Loans included in the Physical Redemption Assets, the inclusion in the Physical Redemption Assets of Participations not effected by the Latest Permissible Physical Settlement Date or for any other reason specified in the Condition 8 (*Credit Linked Notes*)), then Condition 8(f)(x) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) relating to partial cash settlement may apply in respect of any undeliverable portion of the Physical Redemption Assets. If such partial cash settlement does not apply, then, in respect of the portion of the Physical Redemption Assets for which it is not possible or legal to take Delivery on the Physical Redemption Date, such Delivery will take place as soon as practicable thereafter in accordance with the provisions of Condition 8 (*Credit Linked Notes*) and in any event on or before the Latest Permissible Physical Settlement Date. The Issuer’s obligations will be deemed to be fully discharged with respect to such Credit Linked Note as at the date on which the relevant portion of the Physical Redemption Assets has been fully Delivered (if any) or otherwise as at the date immediately following the Latest Permissible Physical Settlement Date.

(vi) *Auction Redemption*

If “Auction Redemption” is specified as being applicable in respect of the Credit Linked Notes, then the amounts payable by and/or rights and obligations of the parties under the Credit Linked Notes in respect of the relevant Reference Entity or Reference Obligation will be determined in accordance with the Auction Final Price. This may result in a lower recovery value than a Reference Entity or Reference Obligation would have if such Auction Final Price had not been used.

If “Auction Redemption” is specified as being applicable with respect to the Credit Linked Notes but an ISDA DC does not decide to conduct an Auction with respect to obligations of the relevant Reference Entity satisfying the relevant characteristics as set out in the relevant Pricing Supplement, then the Fallback Redemption Method shall apply. In such circumstances, either, if “Cash Redemption” is the

Fallback Redemption Method or if no Fallback Redemption Method is specified in the applicable Pricing Supplement, the Final Price will be determined pursuant to the Valuation Method or, if “Physical Redemption” is the Fallback Redemption Method, the Issuer will Deliver to Noteholders the Physical Redemption Assets.

Noteholders should note that they will not be able to deliver a Customer Physical Settlement Request (as defined in the Credit Derivatives Auction Settlement Terms) to the Issuer in respect of their holding of Credit Linked Notes.

In the event of a Governmental Intervention Credit Event or certain Restructuring Credit Events which constitute an Asset Package Credit Event, the Auction Final Price may be determined by reference to the value of the Asset Package received or retained by a Relevant Holder in place of the Prior Deliverable Obligation or Package Observable Bond in connection with such Asset Package Credit Event. Such Asset Package may be worth significantly less than the original Package Observable Bond prior to such Asset Package Credit Event and may result in a significantly lower Auction Redemption Amount being paid out to Noteholders than would have been the case following the relevant Credit Event had the Auction Final Price been determined only by reference to Deliverable Obligations.

(vii) *Cash Redemption*

If “Cash Redemption” is specified as being applicable in the relevant Pricing Supplement with respect to the Credit Linked Notes or “Cash Redemption” is the Fallback Redemption Method, then the Calculation Agent will value the Reference Obligation or any other obligation of the Reference Entity fulfilling certain criteria including the Deliverable Obligation Category and Deliverable Obligation Characteristics by asking for quotations from Quotation Dealers. The date, time and method of such auction, and the selection of the Reference Obligation, will impact the Final Price. Investors should also be aware of the possibility that such obligations may no longer exist and no qualifying substitute obligations may have been identified, such quotations may not be available, or the level of such quotations may be substantially reduced as a result of illiquidity in the relevant markets or as a result of factors other than the credit risk of the Reference Entity (for example, liquidity constraints affecting market dealers). Moreover, the market value of a Reference Entity’s obligations may be highly volatile in the period following a Credit Event. Accordingly, any quotations so obtained may differ significantly from the value of the relevant obligation. Quotations may be deemed to be zero in the event that no such quotations are available.

The Quotation Dealers selected by the Calculation Agent must be financial institutions, funds or other entities that purchase or deal in obligations similar to the Reference Obligation and may include the Issuer or any guarantor; however, the Quotation Dealers have no duty towards any Noteholder and may not be aware that the purpose of the auction is to determine a Final Price for purposes of the Credit Linked Notes or any other Credit Linked Notes.

Investors should note that the Final Price determined pursuant to a dealer poll may be significantly different to the Auction Final Price.

In the event of a Governmental Intervention Credit Event or certain Restructuring Credit Events which constitute an Asset Package Credit Event, the Final Price may be determined by reference to the value of the Asset Package received or retained by a Relevant Holder in place of the Prior Deliverable Obligation or Package Observable Bond which would otherwise have been valued in order to determine the Final Price. Such Asset Package may be worth significantly less than the

original Prior Deliverable Obligation or Package Observable Bond prior to such Asset Package Credit Event and may result in a significantly lower Cash Redemption Amount being paid out to Noteholders than would have been the case following the relevant Credit Event had the Final Price been determined only by reference to Deliverable Obligations.

(viii) *Credit Payment on Maturity*

If “Credit Payment on Maturity” applies, the occurrence of a Credit Event will not result in the early redemption of the Credit Linked Notes. Investors are therefore exposed to the risk that, following the occurrence of a Credit Event, they will not receive any interest payments under the Notes from the Interest Payment Date prior to the Event Determination Date (or the Event Determination Date if “Credit Event Accrual Interest” applies) up to the Maturity Date, and the Cash Redemption Amount or Auction Redemption Amount, as applicable, will only be payable on maturity of the Notes.

6.5.4 Other risk factors

(i) *Hedging*

In the ordinary course of their business, including, without limitation, in connection with their market-making activities, the Issuer, the Quotation Dealers and/or any Agent (as defined in the Agency Agreement) or any Affiliate of any of them (each such entity, a “**Programme Party**”) may effect transactions for their own account or for the account of their customers and hold long or short positions in any applicable Reference Obligation or related derivatives. In addition, in connection with the offering of the Credit Linked Notes, the Issuer and/or any other Programme Party may enter into one or more hedging transactions with respect to any applicable Reference Obligation or related derivatives. In connection with such hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer and/or any other Programme Party, the Issuer and/or any other Programme Party may enter into transactions with respect to any applicable Reference Obligation or related derivatives which may affect the market price, liquidity or value of the Credit Linked Notes and which could be deemed to be adverse to the interests of the relevant Noteholders. The Issuer and/or any other Programme Party may pursue such hedging or related derivatives actions and take such steps as they deem necessary or appropriate to protect their interests without regard to the consequences for any Noteholder.

(ii) *Calculation Agent*

In selecting any Deliverable Obligations or in making any other selection in accordance with the Condition 8 (*Credit Linked Notes*), the Calculation Agent is not under any obligation to the Noteholders or any other person and, provided that such selection meets the criteria specified, the relevant Calculation Agent will not be liable (in any capacity whatsoever) to account to the Noteholders or any other person for any profit or other benefit to it which may result directly or indirectly from any such selection.

(iii) *Restructuring*

If Restructuring is specified as a Credit Event in the applicable Pricing Supplement, in addition to being exposed to the risk of other specified Credit Events, the investors will be exposed to the risk that certain obligations of the Reference Entity/Entities are subject to a restructuring in accordance with their terms.

If a Restructuring Credit Event in respect of which either “Mod R” or “Mod Mod R” is specified as applicable in the applicable Pricing Supplement (a “**M(M)R Restructuring**”) occurs with respect to a Reference Entity, then (unless otherwise specified) the Issuer may deliver multiple Credit Event Notices with respect to the Reference Entity to which the Credit Event applies, each such Credit Event Notice setting forth the amount of the aggregate nominal amount of the Notes to which the Credit Event Notice relates (the “**Exercise Amount**”).

Where a Credit Event Notice is delivered with an Exercise Amount that is less than the aggregate nominal amount of Notes outstanding of the Reference Entity Notional Amount outstanding in respect of the relevant Reference Entity, the terms of the Notes relating to the consequences of such Credit Event shall be deemed to apply to a principal amount of the Notes equal to the Exercise Amount only. In respect of Notes for which “Credit Payment on Maturity” does not apply, the Notes will be redeemed pro rata in an amount equal to the Exercise Amount only, with the balance of the principal amount of the Notes remaining outstanding. In respect of Notes for which “Credit Payment on Maturity” applies, the Notes will be redeemed on their Maturity Date pro rata in an amount equal to the Exercise Amount only, with the balance of the principal amount of the Notes being unaffected.

Following the occurrence of a Restructuring, the relevant Determinations Committee may establish separate maturity buckets (each, a “**Maturity Bucket**”) in connection with the settlement of credit derivative transactions. Each Maturity Bucket will relate to transactions with a separate maturity period ending a specified number of years following the Restructuring Date. The relevant Determinations Committee will determine, with respect to each Maturity Bucket, whether an Auction will be held to settle transactions assigned to such Maturity Bucket. Prospective investors should note, therefore, that separate Auctions may be held in respect of each Maturity Bucket. In these circumstances, the terms of the Notes for which Auction Settlement is specified as the Credit Event Redemption Method provide that the Calculation Agent will determine which Auction is the Applicable Auction with respect to the Notes.

In connection with the foregoing, investors should also be aware that, unless the Movement Option is specified as not being applicable under the applicable Pricing Supplement, in certain circumstances, if following an M(M)R Restructuring a No Auction Announcement Date has occurred pursuant to sub-paragraph (b) or (c)(ii) of the definition of that term, the Bank will have the option to elect in good faith that a Parallel Auction and a set of Parallel Auction Settlement Terms shall be deemed applicable to the Notes, and Auction Settlement in respect of the Credit Event. This option is known as the Movement Option.

For these purposes, the Bank can take into account the terms of the relevant Parallel Auction Settlement Terms, the permissible deliverable obligations thereunder, the Deliverable Obligations under the Notes and any hedging transaction that the Bank has or may enter into in connection with the Notes. If the Bank elects to exercise its Movement Option, such exercise will affect the determination of the Auction Final Price. If the Bank elects not to exercise its Movement Option, the Notes will be redeemed in accordance with the Fallback Redemption Method.

Prospective investors should be aware that the decision of the Bank to exercise or not to exercise such option will be made without reference to the interests of investors in the Notes and that the decision made may result in investors in the

Notes recovering less in respect of the Notes than would have been the case had an alternative decision been made.

(iv) *Valuation Factors*

Factors that may influence the value of a Credit Linked Note include, without limitation:

- (a) the actual or perceived creditworthiness and credit ratings of the Reference Entity/Entities;
- (b) the degree of correlation between the creditworthiness of the Reference Entity/Entities and the Issuer;
- (c) expected rates of recovery on obligations of the Reference Entity/Entities;
- (d) actions of a Reference Entity/Entities and its principal creditors;
- (e) the nature of each Reference Entity's outstanding indebtedness, including its maturity and subordination structure and any guarantees that the Reference Entity has provided to other entities;
- (f) the contractually specified credit-related events with respect to a Reference Entity that may trigger the occurrence of an Event Determination Date;
- (g) market liquidity which affects the value of the Credit Linked Notes through its effect on bid-ask spreads and the ability of market participants to hedge exposures;
- (h) the time remaining to the maturity of the Credit Linked Notes; and
- (i) economic, financial, political and regulatory or judicial events or conditions that affect any Reference Entity or its outstanding obligations, or the market for credit derivative transactions or related financial markets, including credit spreads in the market, market liquidity of credit derivative transactions relative to the liquidity of related cash instruments or related credit derivatives, and liquidity for secondary assignments of credit derivatives generally.

(v) *Foreign Exchange Rate Risk*

Prospective investors should note that they may be exposed to exchange rate risks if the Reference Obligation and/or other Deliverable Obligations of the Reference Entity are denominated in a currency other than the Specified Currency in respect of the Notes or if the Notes are redeemed by delivery of securities denominated in a currency other than the Specified Currency (such other currency being, the "**Other Currency**"). This is because, in the event that an Event Determination Date occurs, underlying amounts by reference to which the Cash Redemption Amount, Auction Redemption Amount or the Physical Redemption Assets (as applicable) will be determined will be denominated in the Other Currency and any associated foreign exchange costs or losses (as determined by the Calculation Agent) incurred by the Issuer in connection with the redemption of the Notes will form part of the Unwind Costs which will, unless "Adjustment for Unwind Costs" is specified to be not applicable in the applicable Pricing Supplement, be deducted from the Cash Redemption Amount, Auction Redemption Amount or the amount of the Physical Redemption Assets (as applicable).

(vi) *Sovereign Reference Entity/Entities*

There is no common set of rules or practices that governs the manner in which a sovereign government, faced with deterioration in its fiscal position or the performance of its economy, may attempt to reach resolution with holders of its debt obligations. Due to, among other factors, the role of governments and international organisations as creditors, the ability of a sovereign to enact legislation that may affect holders of its debt obligations, and the role played by other governments, including those of the jurisdictions in which private creditors are located, the development of events is inherently unpredictable. Accordingly, in respect of Sovereign Reference Entity/Entities, the circumstances that may lead to the occurrence of an Event Determination Date is particularly uncertain.

Certain conditions applicable to Credit Linked Notes operate differently in the case of Sovereign Reference Entities. In particular, the obligations that are deliverable following a Restructuring may be determined based on characteristics of the obligation on the date immediately preceding the effective date of the restructuring. Additionally, events such as an annexation, unification, secession, partition, dissolution, consolidation, reconstitution or other events that result in any direct or indirect successor(s) may lead to a Succession Date, and the Reference Entity may change, irrespective of whether any successor assumes the obligations of the predecessor Sovereign Reference Entity.

Under the trading conventions applicable to many credit derivatives transactions with respect to Sovereign Reference Entities, long-tenor obligations may be deliverable following a Restructuring. As a result, it is possible that there will be a wide dispersion in values among Deliverable Obligations, and interest rates and the maturity structure of the Sovereign Reference Entity's deliverable obligations will be an important factor in determining the payment due on redemption upon the occurrence of an Event Determination Date.

6.6 Index Linked Notes

The amounts payable in respect of interest and/or principal are determined by a formula linked to the value of certain underlying index(es). Movements in the value of the underlying index or indices may therefore adversely affect the return on such Notes and may also adversely affect the market value of such Notes prior to maturity or at maturity.

Should an Index Adjustment Event occur, this may affect the value of the underlying index(es) and the Issuer may adjust the terms of the Notes or redeem the Notes at their fair market value. If the Notes are redeemed before the maturity date upon the occurrence of any such event, the Noteholder(s) may receive substantially less than the original amount invested.

If Additional Disruption Events are specified as applicable in the applicable Pricing Supplement, following the occurrence of any Additional Disruption Event (as defined in the Conditions – Index Linked Notes), the Issuer may, in its sole and absolute discretion, (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the other terms of these Conditions and/or the applicable Pricing Supplement to account for the Additional Disruption Event and determine the effective date of that adjustment or (ii) give notice to the Noteholders and redeem all, but not some only, of the Notes at the Early Redemption Amount (Index Linked).

6.7 Equity Linked Notes

The amounts payable in respect of interest and/or principal are determined by a formula linked to the value of certain Underlying Equity(s) (as defined in the Conditions). Movements in the value of the Underlying Equity(s) may therefore adversely affect the return on such Notes and

may also adversely affect the market value of such Notes prior to maturity or at maturity. Where provided for in the terms of the applicable Pricing Supplement, the Issuer may deliver the principal in the form of the Underlying Equity(s), and the value of such Underlying Equity(s) received may become worthless and the entire principal may be at risk.

If the Issuer is required to deliver the Underlying Equity(s) at maturity and a Market Disruption Event (as defined in the Conditions) and/or a Settlement Disruption Event (as defined in the Conditions – Equity Linked Notes) has occurred on the applicable date, the Issuer may decide to pay the Noteholder(s) the cash value of the Underlying Equity(s) in lieu of share delivery. In such case, the Noteholder(s) may have realised a loss on the Underlying Equity(s) as the cash value of the Underlying Equity(s) may be less than the original amount invested.

Should a Share Event (as defined in the Conditions) occur in relation to the Underlying Equity(s), this will affect the value of the Underlying Equity(s) and the Issuer may adjust the terms of the Notes or redeem the Notes at their fair market value. If the Issuer redeems the Notes before the maturity date due to the occurrence of any such extraordinary event, the Noteholder(s) may receive substantially less than the original amount invested.

If Additional Disruption Events are specified as applicable in the applicable Pricing Supplement, following the occurrence of any Additional Disruption Event (as defined in the Conditions – Equity Linked Notes), the Issuer may, in its sole and absolute discretion, (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the other terms of these Conditions and/or the applicable Pricing Supplement to account for the Additional Disruption Event and determine the effective date of that adjustment or (ii) give notice to the Noteholders and redeem all, but not some only, of the Notes at the Early Redemption Amount (Equity Linked).

6.8 Commodity Linked Notes

An investment in Commodity Linked Notes entails significant risks in addition to those associated with investments in a conventional debt security.

6.8.1 Factors affecting the performance of commodities may adversely affect the value of the Notes; commodity prices may be more volatile than other asset classes

Trading in commodities is speculative and commodity prices may be extremely volatile. Commodity prices are affected by a variety of factors that are unpredictable including, for example, changes in supply and demand relationships, weather patterns and extreme weather conditions, governmental programmes and policies, national and international political, military, terrorist and economic events, fiscal, monetary and exchange control programmes and changes in interest and exchange rates. Commodity markets are subject to temporary distortions or other disruptions due to various factors, including lack of liquidity, the participation of speculators and government regulation and intervention. These circumstances could also adversely affect prices of the relevant commodity. Therefore, commodity prices may be more volatile than other asset classes, making investments in commodities riskier than other investments.

6.8.2 Commodities may reference physical commodities or commodity contracts, and certain commodity contracts may be traded on unregulated or “under regulated” exchanges

Commodities include both (i) “physical” commodities, which needs to be stored and transported, and which are generally traded at “spot” price and (ii) commodity contracts, which are agreements either to (a) buy or sell a set amount of underlying physical commodity at a pre-determined price and delivery period (which may be referred to as

delivery month) or (b) make and receive a cash payment based on changes in the price of the underlying physical commodity.

Commodity contracts may be traded on regulated specialised futures exchanges (such as futures contracts). Commodity contracts may also be traded directly between market participants “over-the-counter” on trading facilities that are subject to lesser degrees of regulation, or, in some cases, no substantive regulation. Accordingly, trading in “over-the-counter” contracts may not be subject to the same provisions of, and the protections afforded to, contracts traded on regulated specialised futures exchanges, and there may therefore be additional risks related to the liquidity and price history of the relevant contracts.

6.8.3 Commodity Linked Notes which are linked to a commodity futures contract may provide a different return than Commodity Linked Notes linked to the relevant physical commodity

The price of a futures contract on a commodity will generally be at a premium or at a discount to the spot price of the underlying commodity. This discrepancy is due to factors such as (i) the need to adjust the spot price due to related expenses (e.g. warehousing, transport and insurance costs) and (ii) different methods being used to evaluate general factors affecting the spot and futures market. In addition, and depending on the commodity, there can be significant differences in the liquidity of spot and futures markets. Accordingly, Commodity Linked Notes which are linked to commodity futures contract may provide a different return than Commodity Linked Notes linked to the relevant physical commodity.

6.9 Fund Linked Notes

The Issuer may issue Fund Linked Notes where the Final Redemption Amount or interest payable are dependent upon the price or changes in the price of fund share(s) or unit(s) or where, depending on the price or changes in the price of fund share(s) or unit(s), the Issuer has an obligation to deliver specified assets. Accordingly, an investment in Fund Linked Notes may bear similar market risks to a direct fund investment and investors should take independent professional advice accordingly. An investment in Fund Linked Notes will entail significant risks not associated with a conventional debt security.

Fund Linked Notes may be redeemable by the Issuer by payment of the par value amount and/or by the physical delivery of specified amount of one or more fund share(s) or unit(s) and/or by payment of an amount determined by reference to the value of the fund share(s) or unit(s). Interest payable on Fund Linked Notes may be calculated by reference to the price or value of one or more fund share(s) or unit(s). Potential investors in Fund Linked Notes should be aware that, depending on the terms of the Fund Linked Notes, (i) they may receive no or a limited amount of interest, (ii) payments or delivery of any specified assets may occur at a different time than expected and (iii) except in the case of principal protected Notes, they may lose all or a substantial portion of their investment if the price or value of the fund share(s) or unit(s) do not move in the anticipated direction.

In addition, the movements in the price of fund share(s) or unit(s) may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the fund share(s) or unit(s) may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price or prices of the fund share(s) or unit(s), the greater the effect on yield.

If the Final Redemption Amount or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price

of the fund share(s) or unit(s) on the Final Redemption Amount or interest payable will be magnified.

The price of fund share(s) or unit(s) may be affected by the performance of the fund service providers, and in particular the investment adviser.

The market price of Fund Linked Notes may be volatile and may depend on the time remaining to the redemption date or settlement date (as applicable) and the volatility of the price of fund share(s) or unit(s). The price of fund share(s) or unit(s) may be affected by the economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any shares or units in the fund or funds may be traded.

Following the declaration by a Fund of the terms of any Fund Potential Adjustment Event (as defined in the Conditions), the Calculation Agent will, in its sole and absolute discretion, determine whether such Fund Potential Adjustment Event has a diluting, concentrative or other effect on the theoretical value of the relevant Fund Interests and, if so, will (i) make the corresponding adjustment, if any, to any of the terms of the Conditions and/or the applicable Pricing Supplement as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting, concentrative or other effect and (ii) determine the effective date of that adjustment.

Following the occurrence of a Fund Event (as defined in the Conditions), the Issuer may (i) require the Calculation Agent to make such determinations and/or adjustments to the Conditions and/or the applicable Pricing Supplement as it determines appropriate to account for the Fund Event (which may include, without limitation, delaying any determination and any related payment date until it determines that no Fund Event exists, calculating the value of a Fund Interest and/or replacing a Fund Interest with a replacement fund interest (in accordance with the process as further described in Condition 12 (*Fund Linked Notes*))) or (ii) redeem all, but not some only, of the Fund Linked Notes, at the relevant Early Redemption Amount (Fund Linked) with respect to each Note.

The occurrence of any Fund Event (in each case if applicable to the relevant Fund Linked Notes) may have an adverse effect on the value and liquidity of the affected Fund Linked Notes and the amount (if any) received by an investor following any consequential redemption of the Notes may be substantially less than the amount that an investor has invested in the Notes or may have expected to receive had such an event not occurred.

FORM OF THE NOTES

Each Tranche of Notes will be issued in bearer form (“**Bearer Notes**”) or in registered form (“**Registered Notes**”).

Bearer Notes

Each Tranche of Bearer Notes will initially be in the form of either a temporary global note (the “**Temporary Global Note**”), without interest coupons, or a permanent global note (the “**Permanent Global Note**”), without interest coupons, in each case as specified in the relevant Pricing Supplement. Each Temporary Global Note or, as the case may be, Permanent Global Note (each, a “**Global Note**”) will be deposited on or around the issue date of the relevant Tranche of the Bearer Notes with a depositary or a common depositary for Euroclear Bank SA/NV as operator of the Euroclear System (“**Euroclear**”) and/or Clearstream Banking S.A. (“**Clearstream, Luxembourg**”) and/or The Central Depository (Pte) Limited (“**CDP**”) and/or any other relevant clearing system.

The relevant Pricing Supplement will also specify whether (a) United States, Treasury Regulation §1.163-5(c)(2)(i)(C) (the “**TEFRA C Rules**”) or (b) United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the “**TEFRA D Rules**”) are applicable in relation to the Bearer Notes or (c) if the Bearer Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Pricing Supplement specifies the form of the Bearer Notes as being “Temporary Global Note exchangeable for a Permanent Global Note”, then the Bearer Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Bearer Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Bank shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (a) presentation and (in the case of final exchange) surrender of the Temporary Global Note at the Specified Office of the Issue and Paying Agent; and
- (b) receipt by the Issue and Paying Agent of a certificate or certificates of non-U.S. beneficial ownership, within seven days of the bearer requesting such exchange.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; provided however, that in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note.

Permanent Global Note exchangeable for Definitive Notes and/or Registered Notes

If the relevant Pricing Supplement specifies the form of the Bearer Notes as being “Permanent Global Notes exchangeable for Definitive Notes”, then the Bearer Notes will initially be in the form of a Permanent Global Note which will be exchangeable in whole, but not in part, for Notes in definitive form (“**Definitive Notes**”):

- (a) on the expiry of such period of notice as may be specified in the relevant Pricing Supplement; or
- (b) at any time, if so specified in the relevant Pricing Supplement; or

- (c) if the relevant Pricing Supplement specifies “in the limited circumstances described in the Permanent Global Note”, then if (i) Euroclear or Clearstream, Luxembourg or CDP or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business and no alternative clearing system is available or (ii) (in the case of CDP) CDP has notified the Bank that it is unable or unwilling to act as depository for the Notes and to continue performing its duties set out in the Master Depository Agreement dated 2 September 2002 (as amended, supplemented or varied from time to time, the “**Depository Agreement**”) made between CDP and the Bank and no alternative clearing system is available or (iii) any of the circumstances described in Condition 17 (*Events of Default*) occurs.

The Permanent Global Note will also become exchangeable, in whole but not in part and at the option of the Bank, for Definitive Notes if, by reason of any change in the laws of Singapore or the country of tax residence of any branch outside Singapore through which the Bank is issuing the Notes, the Bank is or will be required to make any withholding or deduction from any payment in respect of the Notes which would not be required if the Notes were in definitive form.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Bank shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Pricing Supplement), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note at the Specified Office of the Issue and Paying Agent within 30 days of the bearer requesting such exchange.

If the relevant Pricing Supplement specifies the Permanent Global Note as also being exchangeable for Registered Notes, the Permanent Global Note will also be exchangeable for Registered Notes in accordance with the Conditions in addition to any Definitive Notes for which it may be exchangeable.

Temporary Global Note exchangeable for Definitive Notes and/or Registered Notes

If the relevant Pricing Supplement specifies the form of the Bearer Notes as being “Temporary Global Note exchangeable for Definitive Notes” and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules nor the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes.

If the relevant Pricing Supplement specifies the form of the Bearer Notes as being “Temporary Global Note exchangeable for Definitive Notes” and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Bank shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Pricing Supplement), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note at the Specified Office of the Issue and Paying Agent within 30 days of the bearer requesting such exchange.

If the relevant Pricing Supplement specifies the Temporary Global Note as also being exchangeable for Registered Notes, the Temporary Global Note will be exchangeable for Registered Notes in accordance with the Conditions in addition to any Permanent Global Note or Definitive Notes for which it may be exchangeable.

Registered Notes

Registered Notes may or may not be cleared through a clearing system.

Where Registered Notes are cleared through a clearing system, each Tranche of Registered Notes will initially be represented upon issue by a registered global note (the "**Registered Global Note**") or a Definitive Note in registered form ("**Registered Definitive Note**"), without interest coupons, as specified in the relevant Pricing Supplement. The Registered Global Note will be evidenced by a Certificate (the "**Global Note Certificate**") and will be deposited on or around the issue date of the relevant Tranche of the Registered Notes with a depositary or a common depositary for, and registered in the name of a common nominee or any other nominee of, Euroclear and/or Clearstream, Luxembourg and/or CDP and/or any other relevant clearing system. Registered Definitive Note(s) will be issued and delivered to the address of the relevant purchaser or its custodian in accordance with the delivery instructions notified to the Registrar (as defined below).

Where Registered Notes are not cleared through any clearing system, each Tranche of such Registered Notes will initially be represented by a Registered Global Note. The Registered Global Note will be evidenced by a Global Note Certificate and will be deposited on or around the issue date with, and registered in the name of, United Overseas Bank Limited or its nominee, acting in its capacity as Registrar and Transfer Agent. For so long as any of the Notes is represented by a Registered Global Note and the Registered Global Note is held by United Overseas Bank Limited or its nominee, acting in its capacity as Registrar and Transfer Agent, each person (other than United Overseas Bank Limited) who is for the time being shown in the records of United Overseas Bank Limited as the holder of a particular principal amount of such Notes (in which regard any statement of accounts, certificate or other document issued by United Overseas Bank Limited, acting in its capacity as Registrar and Transfer Agent, as to the principal amount of Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be deemed to be and shall be treated by the Bank and its agents as the holder of such principal amount of Notes for all purposes.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the Conditions set out under "*Terms and Conditions of the Notes*" below and the provisions of the relevant Pricing Supplement which supplement, amend and/or replace those Conditions.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "Summary of Provisions Relating to the Notes while in Global Form" below.

Legend concerning United States persons

In the case of any Tranche of Notes having a maturity of more than 365 days, the Notes in global form, the Notes in definitive form and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code."

The sections referred to in such legend provide that a United States person who holds a Note, Coupon or Talon will generally not be allowed to deduct any loss realised on the sale, exchange or redemption of such Note, Coupon or Talon and any gain (which might otherwise be characterised as capital gain) recognised on such sale, exchange or redemption will be treated as ordinary income.

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions which, as supplemented, amended and/or replaced by the relevant Pricing Supplement, will be endorsed on each Note in definitive form issued under the Programme. The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "Summary of Provisions Relating to the Notes while in Global Form" below.

1 Introduction

- (a) *Programme:* United Overseas Bank Limited (the "**Bank**" or the "**Issuer**") has established a Structured Notes Programme (formerly, the Debt Issuance Programme) (the "**Programme**") for the issuance of up to U.S.\$5,000,000,000 in aggregate principal amount of notes (the "**Notes**") by the Bank, including through any branch of the Bank outside Singapore as may be specified in the relevant Pricing Supplement (as defined below).
- (b) *Pricing Supplement:* Notes issued under the Programme are issued in series (each, a "**Series**") and each Series may comprise one or more tranches (each, a "**Tranche**") of Notes. Each Tranche is the subject of a pricing supplement (the "**Pricing Supplement**") which supplements these terms and conditions (the "**Conditions**"). The terms and conditions applicable to any particular Tranche of Notes are these Conditions as supplemented, amended and/or replaced by the relevant Pricing Supplement.  - (iii) if Talons are not specified in the relevant Pricing Supplement as being attached to the Notes at the time of issue, references to Talons are not applicable;
 - (iv) any reference to principal shall be deemed to include the Redemption Amount, any additional amounts in respect of principal which may be payable under Condition 16 (*Taxation*), any premium payable in respect of a Note and any other amount in the nature of principal payable pursuant to these Conditions;
 - (v) any reference to interest shall be deemed to include any additional amounts in respect of interest which may be payable under Condition 16 (*Taxation*) and any other amount in the nature of interest payable pursuant to these Conditions;
 - (vi) references to Notes being “outstanding” shall be construed in accordance with the Agency Agreement; and
 - (vii) if an expression is stated in Condition 2(a) (*Definitions*) to have the meaning given in the relevant Pricing Supplement, but the relevant Pricing Supplement gives no such meaning or specifies that such expression is “not applicable”, then such expression is not applicable to the Notes.

3 Form, Denomination and Title

- (a) *Form of Notes:* Notes are issued in bearer form (“**Bearer Notes**”) or registered form (“**Registered Notes**”), as specified in the relevant Pricing Supplement. Bearer Notes are serially numbered and, if interest-bearing, have attached thereto at the time of initial delivery Coupons and, if specified in the relevant Pricing Supplement, Talons. Bearer Notes, the principal amount of which is repayable by instalments (“**Instalment Notes**”), have attached thereto, at the time of their initial delivery, payment receipts (“**Receipts**”) in respect of the instalments of principal. Registered Notes are not exchangeable for Bearer Notes.
- (b) *Denominations:* Bearer Notes are in the Specified Denomination(s) specified in the relevant Pricing Supplement. In the case of a Series of Bearer Notes with more than one Specified Denomination, Notes of one Specified Denomination will not be exchangeable for Notes of another Specified Denomination. Registered Notes are in the Specified Denomination specified in the relevant Pricing Supplement or integral multiples thereof.
- (c) *Title:* Title to the Bearer Notes and the Coupons will pass by delivery. References herein to the “**holders**” of Bearer Notes or Coupons are to the bearers of such Bearer Notes or Coupons. Title to Registered Notes passes by registration in the register which the Bank shall procure to be kept by the Registrar (the “**Register**”). References herein to the “**holders**” of Registered Notes are to the Persons in whose names such Registered Notes are so registered in the Register. A certificate (each, a “**Certificate**”) shall be issued to each holder in respect of its registered holding. Each Certificate shall be numbered serially with an identifying number which will be recorded in the Register. The holder of any Bearer Note, Coupon or Registered Note shall (except as otherwise required by law) be treated as its absolute owner for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any other interest therein, any writing on the relevant Note or Certificate, or any notice of any previous theft or loss thereof) and

no Person shall be liable for so treating such holder. No person shall have any right to enforce any term or condition of any Note under the Contracts (Rights of Third Parties) Act 1999.

(d) *Transfer of Registered Notes and exchange of Bearer Notes for Registered Notes:*

(i) *Transfer of Registered Notes*

A Registered Note may, upon the terms and subject to the conditions set forth in the Agency Agreement and further subject to the provisions of paragraph (v) below, be transferred in whole or in part only (provided that such part is, or is an integral multiple of, the Specified Denomination specified in the relevant Pricing Supplement) upon the surrender of the relevant Certificate, together with the form of transfer endorsed on it duly completed and executed, at the Specified Office of the Registrar. A new Certificate shall be issued to the transferee and, in the case of a transfer of part only of a Registered Note, a new Certificate in respect of the balance not transferred will be issued to the transferor.

(ii) *Exchange of Bearer Notes*

If so specified in the relevant Pricing Supplement and subject to the provisions of paragraph (v) below, the holder of Bearer Notes may exchange the same for the same aggregate principal amount of Registered Notes upon the terms and subject to the conditions set forth in the Agency Agreement. In order to exchange a Bearer Note for a Registered Note, the holder thereof shall surrender such Bearer Note at the Specified Office outside the United States of the Issue and Paying Agent or the Registrar together with a written request for the exchange. Each Bearer Note so surrendered must be accompanied by all unmatured Receipts and Coupons appertaining thereto other than the Coupon in respect of the next payment of interest falling due after the exchange date where the exchange date would, but for the provisions of paragraph (v) below, occur between the Record Date for such payment of interest and the date on which such payment of interest falls due.

(iii) *New Certificate for Registered Notes*

A Certificate representing each new Registered Note or Notes to be issued upon the transfer of a Registered Note or the exchange of a Bearer Note for a Registered Note will, within five Relevant Banking Days of the transfer date or, as the case may be, the exchange date, be available for collection by each relevant holder at the Specified Office of the Registrar or, at the option of the holder requesting such exchange or transfer be mailed (by uninsured post at the risk of the holder(s) entitled thereto) to such address(es) as may be specified by such holder. For these purposes, a form of transfer or request for exchange received by the Registrar or the Issue and Paying Agent, as the case may be, after the Record Date in respect of any payment due in respect of Registered Notes shall be deemed not to be effectively received by the Registrar or the Issue and Paying Agent, as the case may be, until the day following the due date for such payment.

(iv) *Payment of taxes, duty and charges*

The issue of new Registered Notes on transfer or on the exchange of Bearer Notes for Registered Notes will be effected without charge by or on behalf of the Bank, the Issue and Paying Agent or the Registrar, but upon payment by the applicant of (or the giving by the applicant of such indemnity as the Bank, the Issue and Paying Agent or the Registrar may require in respect of) any tax, duty or other governmental charges which may be imposed in relation thereto.

(v) *Fifteen-day period before payment*

No holder may require the transfer of a Registered Note to be registered or a Bearer Note to be exchanged for a Registered Note during the period of 15 days ending on the due date for the payment of any principal or interest in respect of such Note.

- (e) *Status of the Notes*: The Notes constitute direct, unsecured and unsubordinated obligations of the Bank and rank *pari passu* without any preference among themselves and with all other present and future unsecured and unsubordinated obligations of the Bank other than obligations preferred by law.

4 Fixed Rate Note Provisions

- (a) *Application*: This Condition 4 is applicable to the Notes only if the Fixed Rate Note Provisions are specified in the relevant Pricing Supplement as being applicable. In respect of Notes that are Credit Linked Notes, the provisions of this Condition 4 are subject to Condition 8 (*Credit Linked Notes*).
- (b) *Accrual of interest*: The Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 15 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount or Physical Delivery Amount, as the case may be, is improperly withheld or refused, in which case it will continue to bear interest at the rate determined daily by the Calculation Agent to be the rate for overnight deposits in the relevant Specified Currency in which the payment is due to be made or such other rate as may be specified for this purpose in the applicable Pricing Supplement (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Issue and Paying Agent or the Registrar, as the case may be, has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment). Such interest shall be added annually to the overdue sum and shall itself bear interest accordingly.
- (c) *Fixed Coupon Amount and Broken Amount*: The amount of interest payable in respect of each Specified Denomination of Notes for any Interest Period shall be the relevant Fixed Coupon Amount and, if such Notes are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination. Any initial or final broken interest amounts which do not correspond with the Fixed Coupon Amount payable in respect of each Specified Denomination of Notes for any Interest Period shall be the relevant Broken Amount and, if such Notes are in more than one Specified Denomination, shall be the relevant Broken Amount in respect of the relevant Specified Denomination.
- (d) *Calculation of interest amount*: The amount of interest payable in respect of each Note for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Rate of Interest to the principal amount of such Note, multiplying the product by the relevant Day Count Fraction and rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards). For this purpose, a “**sub-unit**” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

5 Floating Rate Note and Variable Linked Interest Provisions

- (a) *Application*

- (i) This Condition 5, other than Condition 5(h) (*Variable Linked Interest and Physical Delivery Interest*), is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Pricing Supplement as being applicable.
 - (ii) This Condition 5, other than Conditions 5(c) (*Screen Rate Determination for Floating Rate Notes where the Reference Rate is not specified as being Compounded Daily SONIA, Compounded Daily SOFR or Compounded Daily SORA*) to 5(g) (*ISDA Determination*), is applicable to the Notes only if the Variable Linked Interest Provisions are specified in the relevant Pricing Supplement as being applicable.
 - (iii) In respect of Notes that are Credit Linked Notes, the provisions of this Condition 5 are subject to Condition 8 (*Credit Linked Notes*).
- (b) *Accrual of interest*: The Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 15 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount or Physical Delivery Amount, as the case may be, is improperly withheld or refused, in which case it will continue to bear interest at the rate determined daily by the Calculation Agent to be the rate for overnight deposits in the relevant Specified Currency in which the payment is due to be made or such other rate as may be specified for this purpose in the applicable Pricing Supplement (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Issue and Paying Agent or the Registrar, as the case may be, has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment). Such interest shall be added annually to the overdue sum and shall itself bear interest accordingly.
- (c) *Screen Rate Determination for Floating Rate Notes where the Reference Rate is not specified as being Compounded Daily SONIA, Compounded Daily SOFR or Compounded Daily SORA*: If Screen Rate Determination is specified in the relevant Pricing Supplement as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will (subject to Condition 5(n) (*Benchmark Replacement (General)*), Condition 5(o) (*Benchmark Replacement (SOR)*) and Condition 5(p) (*Benchmark Replacement (SORA)*), where applicable) be determined by the Calculation Agent on the following basis:
- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
 - (ii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
 - (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations;

- (iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading banks carrying on business in the Principal Financial Centre of the Specified Currency for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined, *provided however*, that if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

- (d) *Screen Rate Determination for Floating Rate Notes where the Reference Rate is specified as being Compounded Daily SONIA*

- (i) Where “Screen Rate Determination” is specified in the relevant Pricing Supplement as the manner in which the Rate of Interest is to be determined and Compounded Daily SONIA is specified in the relevant Pricing Supplement as the Reference Rate (the “**Compounded Daily SONIA Notes**”), the Rate of Interest for each Interest Period will be equal to the relevant SONIA Benchmark, plus or minus (as specified in the relevant Pricing Supplement) the Margin (if any) in accordance with Condition 5(i) (*Maximum or Minimum Rate of Interest*), all as determined by the Calculation Agent.

The “**SONIA Benchmark**” will be determined based on either SONIA Compound with Lookback or SONIA Compound with Observation Period Shift, as follows (subject to Condition 5(d)(ii) below):

- (A) if SONIA Compound with Lookback (“**SONIA Compound with Lookback**”) is specified as applicable in the relevant Pricing Supplement, the SONIA Benchmark for each Interest Period shall be equal to the value of the SONIA rates for each day during the relevant Interest Period, compounded daily, all as calculated by the Calculation Agent on the Interest Determination Date, according to the formula below:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SONIA_{i-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

with the resulting percentage being rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards,

where:

“**d₀**” for any Interest Period, means the number of London Banking Days in the relevant Interest Period;

“**SONIA_{i-pLBD}**” for any London Banking Day “**i**” in the relevant Interest Period, is equal to the SONIA in respect of the London Banking Day falling a number of London Banking Days prior to that day “**i**” equal to the number of Lookback Days.

- (B) if SONIA Compound Observation Period Shift (“**SONIA Compound Observation Period Shift**”) is specified as applicable in the relevant Pricing Supplement, the SONIA Benchmark for each Interest Period shall be equal to the value of the SONIA rates for each day during the relevant Observation Period, compounded daily, all as calculated by the Calculation Agent on the Interest Determination Date, according to the formula below:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SONIA_i \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

with the resulting percentage being rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards,

where:

“**SONIA_i**” for any London Banking Day “i” in the relevant Observation Period, is equal to SONIA in respect of that day “i”.

- (ii) If, subject to Condition 5(n) (*Benchmark Replacement (General)*) (as applicable), in respect of that London Banking Day “i-pLBD” or “i”, as applicable, the Calculation Agent determines that the SONIA is not available on the Relevant Screen Page (the “**SONIA Screen Page**”) or has not otherwise been published by the relevant authorised distributors, such SONIA shall be (x) the Bank of England’s Bank Rate (the “**Bank Rate**”) prevailing at close of business on the relevant London Banking Day; plus (y) the mean of the spread of the SONIA to the Bank Rate over the previous five (5) days on which a SONIA has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate (the “**SONIA Replacement Rate**”).

Notwithstanding the paragraph above, and where applicable, without prejudice to Condition 5(n) (*Benchmark Replacement (General)*), in the event the Bank of England publishes guidance as to (x) how the SONIA is to be determined or (y) any rate that is to replace the SONIA, the Calculation Agent shall, to the extent that it is reasonably practicable, follow such guidance in order to determine the SONIA Replacement Rate for the purpose of the Notes for so long as the SONIA is not available or has not been published by the authorised distributors.

Notwithstanding any other provision of this Condition 5(d)(ii), if the Rate of Interest cannot be determined in accordance with the foregoing provisions by the Calculation Agent, subject to Condition 5(n) (*Benchmark Replacement (General)*), where applicable, the Rate of Interest for the relevant Interest Period will be determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

- (iii) If the relevant Compounded Daily SONIA Notes become due and payable in accordance with Condition 17 (*Events of Default*), the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the relevant Pricing Supplement, be deemed to be the date on which such Notes became due and payable (with corresponding adjustments being deemed to be made to the relevant formula) and the Rate of Interest on such Notes shall, for so long as any such Note remains outstanding, be that determined on such date.

 - (viii) If the relevant Compounded Daily SORA Notes become due and payable in accordance with Condition 17 (*Events of Default*), the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the applicable Pricing Supplement, be deemed to be the date on which such Notes became due and payable (with corresponding adjustments being deemed to be made to the relevant Compounded Daily SORA formula) and the Rate of Interest on such Notes shall, for so long as any such Note remains outstanding, be that determined on such date.

- (h) *Variable Linked Interest and Physical Delivery Interest*: If Variable Linked Interest Provisions are specified in the relevant Pricing Supplement as being applicable or if interest on Physical Delivery Notes is specified in the relevant Pricing Supplement as falling to be determined by reference to an index or formula, as the case may be, the rate and amount of interest shall be determined by the Calculation Agent by reference to the provisions specified in the relevant Pricing Supplement.
- (i) *Maximum or Minimum Rate of Interest*: If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Pricing Supplement, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- (j) *Calculation of Interest Amount*: The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. Unless otherwise specified in the applicable Pricing Supplement, the Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the principal amount of such Note during such Interest Period and multiplying the product by the relevant Day Count Fraction.
- (k) *Calculation of other amounts*: If the relevant Pricing Supplement specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Pricing Supplement.

- (l) *Publication*: The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Issue and Paying Agent, the Registrar and each listing authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. - (n) *Benchmark Replacement (General)*: In addition, notwithstanding the provisions above in this Condition 5, where “Benchmark Replacement (General)” is specified as being applicable in the relevant Pricing Supplement, if the Bank or the Calculation Agent determines that a Benchmark Event (General) has occurred in relation to the Reference Rates Benchmark of the relevant Series of Notes when any Rate of Interest (or the relevant component part thereof) remains to be determined by the current Reference Rates Benchmark, then the following provisions shall apply (subject, if “Benchmark Event – Early Redemption” is specified as applicable in the relevant Pricing Supplement, to Condition 14(h) (*Redemption following Benchmark Event*)):
- (i) if the Bank (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate) determines that there is a Successor Rate (General) in respect of the next succeeding Interest Period, the Bank, subject to sub-paragraph (iii) below, shall as soon as reasonably practicable give notice thereof to the Calculation Agent, the Issue and Paying Agent and the Noteholders, which shall specify the effective date(s) for such Successor Rate (General) and any consequential changes made to these Conditions. The Calculation Agent or such party responsible for determining the Rate of Interest shall apply such Successor Rate (General) to the next applicable succeeding Interest Period(s) for purposes of determining the Rate of Interest (or the relevant component part thereof) applicable to the Notes;
- (ii) if there is no Successor Rate (General) in respect of the next succeeding Interest Period or if the Bank (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) determines that it is not possible or commercially reasonable to use such Successor Rate (General), the Bank shall attempt to determine (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) an Alternative Reference Rate (General) (as defined below) for purposes of determining the Rate of Interest (or the relevant component part thereof) applicable to the Notes and on such determination, subject to sub-paragraph (iii) below, shall promptly give notice thereof to the Calculation Agent, the Issue and Paying Agent and the Noteholders, which shall specify the effective date(s) for such Alternative Reference Rate (General) and any consequential changes made to these Conditions. The Calculation Agent or such party responsible for determining the Rate of Interest shall apply such Alternative Reference Rate (General) to the next applicable succeeding Interest Period(s) for purposes of

determining the Rate of Interest (or the relevant component part thereof) applicable to the Notes;

- (iii) if a Successor Rate (General) or, failing which, an Alternative Reference Rate (General) (as applicable) is notified by the Bank to the Calculation Agent, the Issue and Paying Agent and the Noteholders in accordance with the preceding provisions, such Successor Rate (General) or, failing which, an Alternative Reference Rate (General) (as applicable) shall be the Reference Rates Benchmark for each of the relevant future Interest Periods (subject to the subsequent operation of, and to adjustment as provided in, this Condition 5(n)); provided, however, that if the Bank (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) determines that it is not possible or commercially reasonable to use such Successor Rate (General) or Alternative Reference Rate (General) or the Bank is unable to determine, or does not notify the Calculation Agent, the Issue and Paying Agent and the Noteholders of, a Successor Rate (General) or an Alternative Reference Rate (General) and, if applicable, has not given a notice to Noteholders in accordance with Condition 14(h) (*Redemption following Benchmark Event*), the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner (subject to and taking into consideration, where applicable, the Margin that is to be applied to the relevant Interest Period and, if applicable, any Maximum Rate of Interest and/or Minimum Rate of Interest applicable to the relevant Interest Period); for the avoidance of doubt, the proviso in this sub-paragraph (iii) shall apply to the relevant Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 5(n);
- (iv) if a Successor Rate (General) or, failing which, an Alternative Reference Rate (General) (as applicable) is notified by the Bank to the Calculation Agent, the Issue and Paying Agent and the Noteholders in accordance with the above provisions, the Bank may also (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) specify changes to these Conditions, including but not limited to the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Days, Interest Determination Date (or any other rate fixing dates), Interest Periods, Interest Payment Dates, interest accrual periods, timing and frequency of determining rates and making payments of interests, the definition of the Reference Rates Benchmark applicable to the Notes, and/or the method for determining the fallback rate in relation to the Notes, that may be appropriate to reflect the adoption of such Successor Rate (General) or Alternative Reference Rate (General) in a manner substantially consistent with market practice or if the Bank (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) so determines that the adoption of any portion of such market practice is not administratively feasible or that no market practice for use of such Successor Rate (General) or Alternative Reference Rate (General) (as applicable) exists, the Bank may specify such changes as is reasonably necessary to give effect to the Successor Rate (General) or the Alternative Reference Rate (General), as applicable (the "**Benchmark Amendments**"), in which case the Bank shall as soon as reasonably practicable give notice thereof to the Calculation Agent, the Issue and Paying Agent and the Noteholders, which shall specify the effective date(s) for such changes to these Conditions and the effective date of such changes; and
- (v) if the Bank (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) determines that an Adjustment Spread (General) is required to

be applied to the Successor Rate (General) or the Alternative Reference Rate (General) (as applicable) and determines the quantum of, or a formula or methodology for determining, such Adjustment Spread (General), the Bank shall as soon as reasonably practicable give notice thereof to the Calculation Agent, the Issue and Paying Agent and the Noteholders, which shall specify the effective date(s) for such Adjustment Spread (General) and any consequential changes made to these Conditions, and such Adjustment Spread (General) shall be applied to the Successor Rate (General) or the Alternative Reference Rate (General) (as applicable). If the Bank is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread (General), then such Successor Rate (General) or Alternative Reference Rate (General) (as applicable) will apply without an Adjustment Spread (General). For the avoidance of doubt, the Issue and Paying Agent shall, at the direction and expense of the Bank, effect such Benchmark Amendments, any Adjustment Spread (General) and any other consequential amendments to the Agency Agreement and these Conditions as may be required in order to give effect to this Condition 5(n). The consent of any Noteholder, Couponholder (which includes, for the avoidance of doubt, if Talons are specified in the relevant Pricing Supplement as being attached to the Notes at the time of issue, any holder of any Talon), holder of any Receipt, Paying Agent (including the Issue and Paying Agent), Calculation Agent, Registrar or Transfer Agent shall not be required in connection with effecting the Successor Rate (General) or Alternative Reference Rate (General) (as applicable) or such changes (including, without limitation, the Benchmark Amendments, any Adjustment Spread (General) and any other consequential amendments), including for the execution of any documents or any steps by any Noteholder, any Couponholder (which includes, for the avoidance of doubt, if Talons are specified in the relevant Pricing Supplement as being attached to the Notes at the time of issue, any holder of any Talon), any holder of any Receipt, the Issue and Paying Agent, any Calculation Agent, any Paying Agent, any Registrar or any Transfer Agent (if required).

- (vi) In connection with any such amendment in accordance with this Condition 5(n), the Bank shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

For the purposes of this Condition 5(n):

“Adjustment Spread (General)” means a spread (which may be positive or negative) or formula or methodology for calculating a spread, which the Bank (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) determines is required to be applied to the Successor Rate (General) or the Alternative Reference Rate (General) (as applicable) in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to Noteholders and Couponholders as a result of the replacement of the current Reference Rates Benchmark with the Successor Rate (General) or the Alternative Reference Rate (General) (as applicable) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate (General), is formally recommended in relation to the replacement of the current Reference Rates Benchmark with the Successor Rate (General) by any Relevant Nominating Body;

Rates Benchmark and/or in over-the-counter derivatives transactions which reference the current Reference Rates Benchmark as the Bank deems appropriate, where such rate has been replaced by the Successor Rate (General) or the Alternative Reference Rate (General) (as applicable); or

announcing that such current Reference Rates Benchmark no longer, or as of a specified future date will no longer be, capable of being representative, or is non-representative, of the underlying market and economic reality that such current Reference Rates Benchmark is intended to measure as required by applicable law or regulation and as determined by the regulatory supervisor in accordance with applicable law or regulation;

- (v) it has or will become unlawful for the Calculation Agent, any Paying Agent (if specified in the relevant Pricing Supplement), such other party responsible for the calculation of the Rate of Interest, or the Bank to determine any Rate of Interest and/or calculate any Interest Amount using the current Reference Rates Benchmark specified in the relevant Pricing Supplement (including, without limitation, under Regulation (EU) No. 2016/1011, if applicable);
- (vi) an Administrator Event; or
- (vii) any event which otherwise constitutes an Additional Benchmark Event as specified in the relevant Pricing Supplement,

provided that, in the case of sub-paragraphs (ii), (iii), (iv) and (vi) above, the relevant Benchmark Event (General) shall be deemed to occur on (1) in the case of sub-paragraphs (ii) and (iii) above, the first date on which the current Reference Rates Benchmark is no longer provided and not the date of the relevant public statement or publication, (2) in the case of sub-paragraph (iv) above, the first date on which the current Reference Rates Benchmark is no longer representative (as determined and announced by the regulatory supervisor for the administrator of such Reference Rates Benchmark) and not the date of the relevant public statement or publication, and (3) in the case of sub-paragraph (vi) above, the date on which the authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is:

- (A) required under any applicable law or regulation; or
- (B) rejected, refused, suspended or withdrawn, if the applicable law or regulation provides that the relevant Reference Rates Benchmark is not permitted to be used under the Notes following rejection, refusal, suspension or withdrawal,

- (ii) each Floating Rate Option (with the applicable Designated Maturity) (or if applicable, the index, benchmark or other price source that is referenced in the Floating Rate Option (with the applicable Designated Maturity)); or
- (iii) any other index, benchmark or other price source specified as “Relevant Reference Benchmark” in the applicable Pricing Supplement, and

to the extent a Successor Rate (General) or Alternative Reference Rate (General) (as applicable) is determined to be used in respect of any Notes, such Successor Rate (General) or Alternative Reference Rate (General) (as applicable) (with the applicable maturity or tenor) (or if applicable the index, benchmark or other price source that is referenced in such Successor Rate (General) or Alternative Reference Rate (General)) shall, subject to the Benchmark Amendments, be the Reference Rates Benchmark for such Notes during the period in which it is used.

"Relevant Nominating Body" means, in respect of a Reference Rates Benchmark:

 - (i) *Benchmark Discontinuation and Replacement*

Notwithstanding the provisions above in this Condition 5, if the Bank or the Calculation Agent determines that a Benchmark Event (SOR) has occurred in relation to the current Reference Rate (SOR) prior to the relevant Interest Determination Date when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Reference Rate (SOR), then the Bank shall (subject, if "Benchmark Event – Early Redemption" is specified as applicable in the relevant Pricing Supplement, to Condition 14(h) (*Redemption following Benchmark Event*)) determine (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) the Benchmark Replacement Rate (SOR) (in accordance with Condition 5(o)(ii) (*Benchmark Replacement Rate (SOR)*)) and an Adjustment Spread (SOR), if any (in accordance with Condition 5(o)(iii) (*Adjustment Spread (SOR)*)), and any Benchmark Amendments (in accordance with Condition 5(o)(iv) (*Benchmark Amendments*)) by the relevant Interest Determination Date. - (iii) *Adjustment Spread (SOR)*

If the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) determines (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) (i) that an Adjustment Spread (SOR) is required to be applied to the Benchmark Replacement Rate (SOR) and (ii) the quantum of, or a formula or methodology for determining, such Adjustment Spread (SOR), then such Adjustment Spread (SOR) shall be applied to the Benchmark Replacement Rate (SOR).

(iv) *Benchmark Amendments*

If the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) determines (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) (i) that Benchmark Amendments are necessary to ensure the proper operation of such Benchmark Replacement Rate (SOR) and/or Adjustment Spread (SOR) and (ii) the terms of the Benchmark Amendments, then the Bank shall, subject to giving notice thereof in accordance with Condition 5(o)(v) (*Notices*), without any requirement for the consent or approval of Noteholders or the Agents (as defined in the Agency Agreement), vary these Conditions and/or the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice.

For the avoidance of doubt, the Issue and Paying Agent shall, at the direction and expense of the Bank, effect such consequential amendments to the Agency Agreement and these Conditions as may be required in order to give effect to this Condition 5(o). Noteholders' consent shall not be required in connection with effecting the Benchmark Replacement Rate (SOR) or such other changes, including for the execution of any documents or other steps by the Issue and Paying Agent, the Calculation Agent, the Paying Agents, the Registrar or the Transfer Agent (if required).

In connection with any such variation in accordance with this Condition 5(o)(iv), the Bank shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

(v) *Notices*

Any Benchmark Replacement Rate (SOR), Adjustment Spread (SOR) and the specific terms of any Benchmark Amendments, determined under this Condition 5(o) will be notified promptly by the Bank to the Calculation Agent, the Paying Agents and, in accordance with Condition 23 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

(vi) *Survival of current Reference Rate (SOR)*

Without prejudice to the obligations of the Bank under Conditions 5(o)(i) (*Benchmark Discontinuation and Replacement*), 5(o)(ii) (*Benchmark Replacement Rate (SOR)*), 5(o)(iii) (*Adjustment Spread (SOR)*) and 5(o)(iv) (*Benchmark Amendments*), the current Reference Rate (SOR) and the fallback provisions provided for in this Condition 5(o) will continue to apply unless and until the Calculation Agent has been notified of the Benchmark Replacement Rate (SOR), and any Adjustment Spread (SOR) and Benchmark Amendments, in accordance with Condition 5(o)(v) (*Notices*), and, if

applicable, notice has not been given to Noteholders in accordance with Condition 14(h) (*Redemption following Benchmark Event*).

(vii) *Definitions*

As used in this Condition 5(o):

“Adjustment Spread (SOR)” means either a spread (which may be positive or negative), or the formula or methodology for calculating a spread, in either case, which the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) determines (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) is required to be applied to the Benchmark Replacement Rate (SOR) to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders and Couponholders as a result of the replacement of the current Reference Rate (SOR) with the Benchmark Replacement Rate (SOR) and is the spread, formula or methodology which:

- (A) is formally recommended in relation to the replacement of the current Reference Rate (SOR) with the applicable Benchmark Replacement Rate (SOR) by any Relevant Nominating Body; or
- (B) if the applicable Benchmark Replacement Rate (SOR) is the ISDA Fallback Rate, is the ISDA Fallback Adjustment; or
- (C) is determined by the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) (as the case may be) having given due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the current Reference Rate (SOR) with the applicable Benchmark Replacement Rate (SOR) for the purposes of determining rates of interest (or the relevant component part thereof) for the same interest accrual period and in the same currency as the Notes.

“Alternative Reference Rate (SOR)” means an alternative benchmark or screen rate which the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) determines in accordance with Condition 5(o)(ii) (*Benchmark Replacement Rate (SOR)*) has replaced the current Reference Rate (SOR) for the Corresponding Tenor in customary market usage in the international or if applicable, domestic debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) for the same interest period and in the same currency as the Notes (including, but not limited to, Singapore Government Bonds).

“Benchmark Amendments” means, with respect to any Benchmark Replacement Rate (SOR), any technical, administrative or operational changes (including changes to the definition of “Interest Period”, timing and frequency of determining rates and making payments of interest, changes to the definition of “Corresponding Tenor” solely when such tenor is longer than the Interest Period, any other amendments to these Conditions and/or the Agency Agreement, and other administrative matters) that the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) determines (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) may be appropriate to reflect the adoption of such Benchmark Replacement Rate (SOR) in a manner substantially consistent with market practice (or, if

the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) determines (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) that adoption of any portion of such market practice is not administratively feasible or if the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) determines that no market practice for use of such Benchmark Replacement Rate (SOR) exists, in such other manner as the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) determines is reasonably necessary).

“Benchmark Event (SOR)” means:

- (A) the current Reference Rate (SOR) ceasing to be published for a period of at least five Singapore business days or ceasing to exist; or
- (B) a public statement by the administrator of the current Reference Rate (SOR) that it has ceased or will, by a specified date within the following six months, cease publishing the current Reference Rate (SOR) permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the current Reference Rate (SOR)); or
- (C) a public statement by the supervisor of the administrator of the current Reference Rate (SOR) that the current Reference Rate (SOR) has been or will, by a specified date within the following six months, be permanently or indefinitely discontinued; or
- (D) a public statement by the supervisor of the administrator of the current Reference Rate (SOR) that the current Reference Rate (SOR) has been prohibited from being used or that its use has been subject to restrictions or adverse consequences, or that it will be prohibited from being used or that its use will be subject to restrictions or adverse consequences within the following six months; or
- (E) it has become unlawful for the Issue and Paying Agent, the Calculation Agent, the Bank or any other party to calculate any payments due to be made to any Noteholder using the current Reference Rate (SOR); or
- (F) a public statement by the supervisor of the administrator of the current Reference Rate (SOR) that the current Reference Rate (SOR) is no longer representative or will, by a specified date within the following six months, be deemed to be no longer representative,

provided that the Benchmark Event (SOR) shall be deemed to occur (a) in the case of sub-paragraphs (B) and (C) above, on the date of the cessation of publication of the current Reference Rate (SOR) or the discontinuation of the current Reference Rate (SOR), as the case may be, (b) in the case of sub-paragraph (D) above, on the date of the prohibition or restriction of use of the current Reference Rate (SOR) and (c) in the case of sub-paragraph (F) above, on the date with effect from which the current Reference Rate (SOR) will no longer be (or will be deemed to no longer be) representative and which is specified in the relevant public statement, and, in each case, not the date of the relevant public statement.

“Benchmark Replacement Rate (SOR)” means the Interpolated Benchmark, provided that if the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) cannot determine the Interpolated Benchmark by the relevant Interest Determination Date, then **“Benchmark Replacement Rate (SOR)”** means the first alternative set forth in the order below that can be determined by the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)):

- (A) Term SORA;
- (B) Compounded SORA;
- (C) the Successor Rate (SOR);
- (D) the ISDA Fallback Rate (including Fallback Rate (SOR)); and
- (E) the Alternative Reference Rate (SOR).

“**Compounded SORA**” means the compounded average of SORAs for the applicable Corresponding Tenor, with the rate, or methodology for this rate, and conventions for this rate (which will be compounded in arrears with the selected mechanism to determine the interest amount payable prior to the end of each Interest Period) being established by the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) in accordance with

- (A) the rate, or methodology for this rate, and conventions for this rate selected or recommended by the Relevant Nominating Body for determining Compounded SORA; provided that:
- (B) if, and to the extent that, the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) determines that Compounded SORA cannot be determined in accordance with clause (A) above, then the rate, or methodology for this rate, and conventions for this rate that have been selected by the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) giving due consideration to any industry-accepted market practice for the relevant Singapore dollar denominated notes at such time.

Notwithstanding the foregoing, Compounded SORA will include a selected mechanism as specified in the applicable Pricing Supplement to determine the interest amount payable prior to the end of each Interest Period.

“**Corresponding Tenor**”, with respect to a Benchmark Replacement Rate (SOR) means a tenor (including overnight) having approximately the same length (disregarding business day adjustment) as the applicable tenor for the then-current Reference Rate (SOR).

“**Independent Adviser**” means an independent financial institution of good repute or an independent financial adviser with experience in the local or international debt capital markets appointed by and at the cost of the Bank.

“**Interpolated Benchmark**”, with respect to the current Reference Rate (SOR) means the rate determined for the Corresponding Tenor by interpolating on a linear basis between: (1) the current Reference Rate (SOR) for the longest period (for which the current Reference Rate (SOR) is available) that is shorter than the Corresponding Tenor and (2) the current Reference Rate (SOR) for the shortest period (for which the current Reference Rate (SOR) is available) that is longer than the Corresponding Tenor.

“**ISDA Definitions**” means the 2006 ISDA Definitions published by the International Swaps and Derivatives Association Inc. or any successor thereto, as may be updated, amended or supplemented from time to time, or any successor definitional booklet for interest rate derivatives published from time to time.

“**ISDA Fallback Adjustment**” means the spread adjustment (which maybe positive or negative value or zero) that would apply for derivative transactions referencing the current

Reference Rate (SOR) in the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the current Reference Rate (SOR) for the applicable tenor.

“ISDA Fallback Rate” means the rate that would apply for derivative transactions referencing the current Reference Rate (SOR) in the ISDA Definitions to be effective upon the occurrence of an index cessation event with respect to the current Reference Rate (SOR) for the applicable tenor excluding the applicable ISDA Fallback Adjustment.

“Reference Rate (SOR)” means, initially, Swap Offer Rate (being the originally-specified reference rate of applicable tenor used to determine the Rate of Interest) or any component part thereof, including the relevant USD London Interbank Offered Rate, provided that if a Benchmark Event (SOR) has occurred with respect to Swap Offer Rate or the then-current Reference Rate (SOR), then **“Reference Rate (SOR)”** means the applicable Benchmark Replacement Rate (SOR).

“Relevant Nominating Body” means, in respect of a benchmark or screen rate (as applicable):

“SORA” or **“Singapore Overnight Rate Average”** with respect to any Singapore Business Day means a reference rate equal to the daily Singapore Overnight Rate Average published by the Monetary Authority of Singapore (or a successor administrator), as the administrator of the benchmark, on the Monetary Authority of Singapore’s website currently at <http://www.mas.gov.sg>, or any successor website officially designated by the Monetary Authority of Singapore (or as published by its authorised distributors) on the Singapore Business Day immediately following such Singapore Business Day.

“Successor Rate (SOR)” means a successor to or replacement of the current Reference Rate (SOR) which is formally recommended by any Relevant Nominating Body as the replacement for the current Reference Rate (SOR) for the applicable Corresponding Tenor.

“Term SORA” means the forward-looking term rate for the applicable Corresponding Tenor based on SORA that has been selected or recommended by the Relevant Nominating Body, or as determined by the Bank (in the circumstances set out in Condition 5(o)(i) (*Benchmark Discontinuation and Replacement*)) having given due consideration to any industry-accepted market practice for the relevant Singapore dollar denominated notes.

- (p) **Benchmark Replacement (SORA):** In addition, notwithstanding the provisions above in this Condition 5, where “Benchmark Replacement (SORA)” is specified as being applicable in the relevant Pricing Supplement:

- (i) *Independent Adviser*

If the Bank or the Calculation Agent determines that a SORA Index Cessation Event has occurred in relation to the current Reference Rate (SORA) when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Reference Rate (SORA), the Bank shall (subject, if “Benchmark Event – Early Redemption” is specified as applicable in the relevant Pricing Supplement, to Condition 14(h) (*Redemption following Benchmark Event*)) determine (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) a Successor Rate (SORA), or failing which, an Alternative Reference Rate (SORA) (in accordance with Condition 5(p)(ii) (*Successor Rate (SORA) or Alternative Reference Rate (SORA)*)) and, in either case, an Adjustment Spread (SORA) and any Benchmark Amendments (in accordance with Condition 5(p)(iv) (*Benchmark Amendments*)).

In making such determination, the Independent Adviser appointed pursuant to this Condition 5(p) shall act in good faith as an expert and in consultation with the Bank. In the absence of bad faith or fraud, the Independent Adviser shall have no liability whatsoever to the Bank, the Paying Agents or the Noteholders for any determination made by it, pursuant to this Condition 5(p).

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions, the Calculation Agent shall (acting in good faith and in a commercially reasonable manner) determine the applicable rate.

(ii) *Successor Rate (SORA) or Alternative Reference Rate (SORA)*

If the Bank determines (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) that:

- (A) there is a Successor Rate (SORA), then such Successor Rate (SORA) and the applicable Adjustment Spread (SORA) shall subsequently be used in place of the current Reference Rate (SORA) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 5(p)); or
- (B) there is no Successor Rate (SORA) but that there is an Alternative Reference Rate (SORA), then such Alternative Reference Rate (SORA) and the applicable Adjustment Spread (SORA) shall subsequently be used in place of the current Reference Rate (SORA) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 5(p)).

(iii) *Adjustment Spread (SORA)*

The Adjustment Spread (SORA) (or the formula or methodology for determining the Adjustment Spread (SORA)) shall be applied to the Successor Rate (SORA) or the Alternative Reference Rate (SORA) (as the case may be). If the Bank (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread (SORA), then the Successor Rate (SORA) or Alternative Reference Rate (SORA) (as applicable) will apply without an Adjustment Spread (SORA).

(iv) *Benchmark Amendments*

If any Successor Rate (SORA) or Alternative Reference Rate (SORA) and, in either case, the applicable Adjustment Spread (SORA) is determined in accordance with this Condition 5(p) and the Bank determines (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser):

- (A) that amendments to these Conditions are necessary to ensure the proper operation of such Successor Rate (SORA) or Alternative Reference Rate (SORA) and/or (in either case) the applicable Adjustment Spread (SORA) (such amendments, the “**Benchmark Amendments**”); and
- (B) the terms of the Benchmark Amendments,

then the Bank shall, subject to giving notice thereof in accordance with Condition 5(p)(v) (*Notices*), without any requirement for the consent or approval of Noteholders or the Agents (as defined in the Agency Agreement), vary these Conditions and/or the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice.

For the avoidance of doubt, the Issue and Paying Agent shall, at the direction and expense of the Bank, effect such consequential amendments to the Agency Agreement and these Conditions as may be required in order to give effect to this Condition 5(p)(iv). Noteholders’ consent shall not be required in connection with the effecting of the Successor Rate (SORA) or the Alternative Reference Rate (SORA) (as applicable) or such other changes, including the execution of any documents or any steps by the Issue and Paying Agent, the Calculation Agent, the Paying Agents, the Registrar or the Transfer Agent (if required).

In connection with any such variation in accordance with this Condition 5(p)(iv), the Bank shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

(v) *Notices*

Any Successor Rate (SORA), Alternative Reference Rate (SORA), Adjustment Spread (SORA) and the specific terms of any Benchmark Amendments, determined under this Condition 5(p) will be notified promptly by the Bank to the Calculation Agent, the Paying Agents and, in accordance with Condition 23 (*Notices*), the Noteholders and the Couponholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

(vi) *Survival of current Reference Rate (SORA)*

Without prejudice to the obligations of the Bank under Conditions 5(p)(i) (*Independent Adviser*), 5(p)(ii) (*Successor Rate (SORA) or Alternative Reference Rate (SORA)*), 5(p)(iii) (*Adjustment Spread (SORA)*) and 5(p)(iv) (*Benchmark Amendments*), the current Reference Rate (SORA) and the fallback provisions provided for in this Condition 5(p) will continue to apply unless and until the Calculation Agent has been notified of the Successor Rate (SORA), Alternative Reference Rate (SORA), and any Adjustment Spread (SORA) and Benchmark Amendments, in accordance with Condition 5(p)(v) (*Notices*), and, if applicable, notice has not been given to Noteholders in accordance with Condition 14(h) (*Redemption following Benchmark Event*).

(vii) *Definitions*

As used in this Condition 5(p):

“**Adjustment Spread (SORA)**” means either:

- (A) a spread (which may be positive, negative or zero); or
- (B) a formula or methodology for calculating a spread, in each case to be applied to the Successor Rate (SORA) or the Alternative Reference Rate (SORA) (as the case may be) and is the spread, formula or methodology which:
 - (aa) in the case of a Successor Rate (SORA), is formally recommended in relation to the replacement of the current Reference Rate (SORA) with the Successor Rate (SORA) by any Relevant Nominating Body; or
 - (bb) (if no such recommendation has been made, or in the case of an Alternative Reference Rate (SORA)) the Bank determines (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) as being customarily applied to the relevant Successor Rate (SORA) or the Alternative Reference Rate (SORA) (as the case may be) in debt capital markets transactions to produce an industry-accepted replacement rate for the current Reference Rate (SORA); or
 - (cc) (if no such determination under (bb) is made) the Bank determines (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser), and which is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the current Reference Rate (SORA), where such rate has been replaced by the Successor Rate (SORA) or the Alternative Reference Rate (SORA) (as the case may be).

“Alternative Reference Rate (SORA)” means an alternative benchmark or screen rate which the Bank determines (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) in accordance with Condition 5(p)(ii) (*Successor Rate (SORA) or Alternative Reference Rate (SORA)*) as being customarily applied in market usage in debt capital markets transactions for the purposes of determining rates of interest (or the relevant component part thereof) in Singapore dollars.

“Benchmark Amendments” has the meaning given to it in Condition 5(p)(iv) (*Benchmark Amendments*).

“Independent Adviser” means an independent financial institution of international repute or an independent financial adviser with appropriate expertise appointed by and at the expense of the Bank.

“Reference Rate (SORA)” means, initially, SORA (being the originally-specified benchmark rate used to determine Compounded Daily SORA and the Rate of Interest), provided that if a SORA Index Cessation Event has occurred with respect to SORA or the then-current Reference Rate (SORA), then **“Reference Rate (SORA)”** means the applicable Successor Rate (SORA) or Alternative Reference Rate (SORA) (as the case may be).

- (C) a public statement or publication of information by the regulatory supervisor for the administrator of the current Reference Rate (SORA) announcing that the current Reference Rate (SORA) has been or will be permanently or indefinitely discontinued and such discontinuation is reasonably expected by the Bank to occur prior to the Maturity Date; or
- (D) a public statement or publication of information by or on behalf of the Monetary Authority of Singapore (or the supervisor of a successor administrator of the current Reference Rate (SORA)) as a consequence of which the current Reference Rate (SORA) will be prohibited from being used either generally, or in respect of the Notes, and such prohibition is reasonably expected by the Bank to occur prior to the Maturity Date; or
- (E) a public statement by or on behalf of the Monetary Authority of Singapore (or the supervisor of a successor administrator of the current Reference Rate (SORA)) that the current Reference Rate (SORA) is or will be (or is or will be deemed by such supervisor to be) no longer representative of its relevant underlying market,

provided that the SORA Index Cessation Event shall be deemed to occur:

- (1) in the case of paragraphs (B) and (C) above, on the date of the cessation of publication of the current Reference Rate (SORA) or the discontinuation of the current Reference Rate (SORA), as the case may be;

- (3) in the case of paragraph (E) above, on the date with effect from which the current Reference Rate (SORA) will no longer be (or will be deemed by the relevant supervisor to no longer be) representative of its relevant underlying market and which is specified in the relevant public statement,

and, in each case, not the date of the relevant public statement.

The occurrence of a SORA Index Cessation Event shall be determined by the Bank and promptly notified to the Calculation Agent and the Paying Agents. For the avoidance of doubt, neither the Calculation Agent nor the Paying Agents shall have any responsibility for making such determination.

“**Successor Rate (SORA)**” means a successor to or replacement of the current Reference Rate (SORA) which is formally recommended by any Relevant Nominating Body as the successor to or, as the case may be, replacement of the current Reference Rate (SORA) (which rate may be produced by the Monetary Authority of Singapore or such other administrator).

8 Credit Linked Notes

If the Credit Linked Note Provisions are specified as applicable in the applicable Pricing Supplement, the provisions of this Condition 8 apply, as applicable, as modified by the applicable Pricing Supplement. In the case of any inconsistency between this Condition 8 and the other Conditions, this Condition 8 will prevail.

(ii) *Redemption following the occurrence of a Credit Event*

Unless the Credit Linked Notes have been previously redeemed or purchased and cancelled as provided for in these Conditions, if a Relevant Credit Event and a Relevant Event Determination Date has occurred, the Bank will redeem the Credit Linked Notes (or, with respect to Linear Basket Notes, and/or if the Credit Event is an M(M)R Restructuring Credit Event, the Applicable Proportion thereof) as follows:

- (A) if “Cash Redemption” is specified as the Credit Event Redemption Method in the applicable Pricing Supplement (or if “Cash Redemption” is specified as the Fallback Redemption Method and Condition 8(e) (*Auction Redemption Terms*) requires that the Bank redeems the Notes in accordance with Condition 8(g) (*Cash Redemption Terms*)), by payment of, in the case of Notes to which Credit Payment on Maturity does not apply, the Cash Redemption Amount on the relevant Cash Redemption Date and, in the case of Notes to which Credit Payment on Maturity applies, the Final Cash Redemption Amount on the Final Cash Redemption Date in accordance with Condition 8(g) (*Cash Redemption Terms*);

(iii) *Credit Event Notice and Notice of Publicly Available Information*

- (A) If a Credit Event Notice and, if applicable, a Notice of Publicly Available Information is required to be delivered for an Event Determination Date to occur, the Bank shall deliver a Credit Event Notice and, if applicable, a Notice of Publicly Available Information to the Issue and Paying Agent and the Issue and Paying Agent will deliver a copy of the Credit Event Notice and, if applicable, the Notice of Publicly Available Information to the Noteholders in accordance with Condition 23 (*Notices*) (provided that failure to deliver a copy of such Credit Event Notice and/or such Notice of Publicly Available Information to the Noteholders shall not affect the effectiveness of the Credit Event Notice and/or the Notice of Publicly Available Information, as determined by the Bank and/or the Calculation Agent, or the rights of the Bank to redeem the Credit Linked Notes (or, with respect to the Linear Basket Notes, or if the Credit Event is an M(M)R Restructuring Credit Event, the Applicable Proportion thereof)).
- (B) If a Credit Event Notice is not required to be delivered in order for an Event Determination Date to occur, then the Bank shall give written notice not less than five Business Days prior to the date for redemption of the Notes (or a portion thereof) containing the same information required to be included in a Credit Event Notice to the Issue and Paying Agent and the Issue and Paying Agent will deliver a copy of such notice to the Noteholders in accordance with Condition 23 (*Notices*) (provided that any failure to give such notice to the Issue and Paying Agent or Noteholders shall not affect any determinations made by the Bank and/or the Calculation Agent or the rights of the Bank to redeem the Credit Linked Notes (or, with respect to the Linear Basket Notes, or if the Credit Event is an M(M)R Restructuring Credit Event, the Applicable Proportion thereof)).
- (C) The Calculation Agent's determination of a Credit Event will, in the absence of manifest error and subject to the definition of "Event Determination Date", be conclusive and binding on all persons (including, without limitation, the Issue and Paying Agent and each Noteholder).
- (D) None of the Bank, the Calculation Agent, the Issue and Paying Agent and the Paying Agents will have any liability whatsoever for the failure of the Calculation Agent for any reason to determine that a Credit Event has occurred or with respect to the Bank's timing as to when to deliver a Credit Event Notice (or any such other notice required to be delivered by the Bank to the Issue and Paying Agent, the Noteholder(s) or any other party in accordance with this Condition 8, including a Notice of Publicly Available Information or Notice of Physical Settlement) nor will they have any duty or responsibility to investigate or check whether any Credit Event has, or may have, occurred or may be continuing. In addition, the failure of the Bank or the Issue and Paying Agent to deliver the Credit Event Notice shall not affect the effectiveness of any determination made, or any other notice delivered, by the Bank or the Calculation Agent in respect of a relevant Reference Entity.

- (iv) *Relevant Time*
 - (A) Subject to Condition 8(q) (*Notices*) and sub-paragraph (B) of this Condition 8(a)(iv), in order to determine the day on which an event occurs for purposes of this Condition 8, the demarcation of days shall be made by reference to Greenwich Mean Time (or Tokyo time if the Calculation Agent determines that Tokyo time is the market convention with respect to the relevant Reference Entity), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.
 - (B) Notwithstanding the definition of “Credit Event Notice” and sub-paragraph (A) of this Condition 8(a)(iv), if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or Tokyo time if the Calculation Agent determines that Tokyo time is the market convention with respect to the relevant Reference Entity), irrespective of the time zone of its place of payment.
- (b) *Interest on Credit Linked Notes*
 - (i) *Accrual of Interest*

Provided that a Relevant Event Determination Date has not occurred in respect of a Reference Entity during the Notice Delivery Period and on or prior to the Scheduled Maturity Date then, subject to Condition 8(b)(ii) (*Suspension of Interest following an Applicable DC Credit Event Question*), interest (if any) shall accrue on the Credit Linked Notes in accordance with Conditions 4 (*Fixed Rate Note Provisions*), 5 (*Floating Rate Note and Variable Linked Interest Provisions*) and/or 6 (*Zero Coupon Note Provisions*), as applicable (as completed, amended and/or supplemented by the applicable Pricing Supplement).
 - (ii) *Suspension of Interest following an Applicable DC Credit Event Question*

Subject to Condition 8(b)(iii) (*Payment of Suspended Interest*) and 8(b)(iv) (*Payment of Interest – M(M)R Restructuring Credit Event*), if an Applicable DC Credit Event Question is made on or prior to any Interest Payment Date in respect of which a DC Resolution has not been published, the payment of interest (if any) in respect of the Notes (or, if the Notes are Linear Basket Notes, the Applicable Proportion of the Credit Linked Notes) scheduled to be paid to Noteholders on or about such Interest Payment Date will be suspended.
 - (iii) *Payment of Suspended Interest*
 - (A) If, in connection with an Applicable DC Credit Event Question, either (1) an Applicable DC Credit Event Announcement is made but the Calculation Agent determines that the Event Determination Date relating thereto is a date falling after such Interest Payment Date or (2) an Applicable DC No Credit Event Announcement or an Applicable DC Credit Question Dismissal is made, payment of the suspended interest will be made five Business Days after the date the Event Determination Date is so determined or the date of the Applicable DC No Credit Event Announcement or Applicable DC Credit Question Dismissal, as applicable.
 - (B) If, in connection with an Applicable DC Credit Event Question, an Applicable DC Credit Event Announcement is made and the Calculation Agent determines that the Event Determination Date relating thereto is a date falling on or prior to such Interest Payment Date, no payment of the suspended interest will be made and the accrual of interest prior to such Interest Payment Date will be determined in accordance with Condition 8(b)(v) (*Accrual of Interest upon Credit Event*).

- (C) No additional amount in respect of interest and no adjustment shall be made to the amount of any interest in connection with the delay or postponement of any payment of interest pursuant to Condition 8(b)(ii) (*Suspension of Interest following an Applicable DC Credit Event Question*) above. For the avoidance of doubt, no interest shall accrue on any Note after the Scheduled Maturity Date. The Bank shall endeavour to give notice to the Noteholders in accordance with Condition 23 (*Notices*) as soon as reasonably practicable should any payment of interest be suspended and/or postponed pursuant to this Condition 8(b).

(iv) *Payment of Interest – M(M)R Restructuring Credit Event*

If, in connection with an Applicable DC Credit Event Question, an Applicable DC Credit Event Announcement is made and the Credit Event is an M(M)R Restructuring Credit Event:

- (A) save for the portion of suspended interest relating to the Applicable Proportion of the Notes, payment of the remaining portion of suspended interest will be made five Business Days after the date on which the relevant Credit Event Notice is delivered; and
- (B) payment of the portion of suspended interest relating to the Applicable Proportion of the Notes will not be made and the accrual of interest relating to the Applicable Proportion of the Notes prior to such Interest Payment Date will be determined in accordance with Condition 8(b)(v) (*Accrual of Interest upon Credit Event*).

(v) *Accrual of Interest upon Credit Event*

If a Relevant Event Determination Date has occurred in respect of a Reference Entity during the Notice Delivery Period but prior to the Scheduled Maturity Date then, notwithstanding anything to the contrary in Conditions 4 (*Fixed Rate Note Provisions*), 5 (*Floating Rate Note and Variable Linked Interest Provisions*) and/or 6 (*Zero Coupon Note Provisions*), as applicable, interest will cease to accrue on the Credit Linked Notes (or, if the Notes are Linear Basket Notes or if the Credit Event is an M(M)R Restructuring Credit Event, on the Applicable Proportion of the Credit Linked Notes) as at the earlier to occur of the day prior to:

- (A) the Scheduled Maturity Date; and
- (B)
 - (1) if “No Accrual of Interest upon Credit Event” is specified in the applicable Pricing Supplement as applicable, the Interest Payment Date (or Interest Commencement Date where no Interest Payment Date has occurred) occurring on or immediately preceding the Relevant Event Determination Date; or
 - (2) if “Partial Accrual of Interest upon Credit Event” is specified in the applicable Pricing Supplement as applicable, the Relevant Event Determination Date and such interest accrued between (x) the Interest Payment Date occurring immediately preceding the Relevant Event Determination Date and (y) the Scheduled Maturity Date or the Relevant Event Determination Date (as applicable) shall be payable on the Scheduled Maturity Date, the second Business Day following the Auction Redemption Date, on the Cash Redemption Date or on or prior to the scheduled Physical Redemption Date (as applicable).

For the avoidance of doubt, interest (if any) shall, in the case of Linear Basket Notes only, continue to accrue on the remaining portion of the Linear Basket Notes then outstanding.

(vi) *Accrual of Interest upon Credit Event – Credit Payment on Maturity*

If Credit Payment on Maturity applies and a Relevant Event Determination Date has occurred in respect of a Reference Entity during the Notice Delivery Period but prior to the Scheduled Maturity Date then, notwithstanding that the Final Cash Redemption Amount or the Final Auction Redemption Amount shall be payable on the Final Cash Redemption Date or Final Auction Redemption Date (as applicable), interest shall cease to accrue on the Applicable Proportion of the Credit Linked Notes in accordance with Condition 8(b)(v) (*Accrual of Interest upon Credit Event*). Where Credit Payment on Maturity applies, following the occurrence of a Credit Event, if the Scheduled Maturity Date is defined in the applicable Pricing Supplement by reference to an Interest Payment Date, then the Scheduled Maturity Date shall be the date which would have been such Interest Payment Date notwithstanding that due to the occurrence of a Credit Event interest has ceased to accrue in accordance with Condition 8(b)(v) (*Accrual of Interest upon Credit Event*).

(vii) *Adjustment Payment*

If, in accordance with the provisions above, following the determination of an Event Determination Date, such Event Determination Date is deemed either to have occurred on a date that is different from the date that was originally determined to be the Event Determination Date or not to have occurred, or an Event Determination Date is deemed to have occurred prior to a preceding Interest Payment Date, the Calculation Agent will determine (A) the adjustment payment, if any, that is payable to reflect any change that may be necessary to the amount previously calculated and/or paid in respect of the relevant Series and (B) the date in which such adjustment payment is payable, if any. For the avoidance of doubt, no accruals of interest shall be taken into account when calculating any such adjustment payment.

(c) *Maturity Date Extension*

- (i) Where the Calculation Agent determines on or prior to the Scheduled Maturity Date, in its sole and absolute discretion, that (1) one or more Reference Entities is or may be subject to (i) a Credit Event, (ii) if “Grace Period Extension” is specified as being applicable in the applicable Pricing Supplement, a Potential Failure to Pay or, (iii) if “Repudiation/Moratorium” is specified as being applicable in the applicable Pricing Supplement, a Potential Repudiation/Moratorium, or (2) in respect of any Applicable DC Credit Event Question made on or prior to the Scheduled Maturity Date, no DC Resolution has been published as of the Scheduled Maturity Date, it shall notify the Issue and Paying Agent and the Credit Linked Notes then outstanding shall not be redeemed on the Scheduled Maturity Date but shall be redeemed instead on the Extended Maturity Date.
- (ii) If any amount is payable on the Scheduled Maturity Date of a Credit Linked Note to which the provisions of Condition 8(c)(i) apply, such amount shall fall due on the Extended Maturity Date and shall be payable without any interest or other sum payable in respect of the postponement of the payment of such amount.

(d) *Credit Event Notice after M(M)R Restructuring*

(i) *M(M)R Restructuring Credit Event*

Upon the occurrence of an M(M)R Restructuring, the Bank may deliver multiple Credit Event Notices with respect to such M(M)R Restructuring Credit Event, each such Credit Event Notice setting forth the amount of the Aggregate Nominal Amount of the Credit Linked Notes to which such Credit Event Notice applies which may be less than the Aggregate Nominal Amount of such Credit Linked Note or if the Notes are Linear Basket Notes, may be less than the Reference Entity Notional Amount of the affected Reference

Entity (the aggregate of such amounts with respect to a Series, the “**Exercise Amount**”); provided that if the Credit Event Notice does not specify an Exercise Amount, then either (i) the Aggregate Nominal Amount of the Credit Linked Notes outstanding immediately prior to the delivery of such Credit Event Notice or (ii) if the Notes are Linear Basket Notes, the relevant Reference Entity Notional Amount outstanding in respect of the affected Reference Entity, (and, in either case, not a portion thereof) will be deemed to have been specified as the Exercise Amount. Accordingly, notwithstanding anything to the contrary in this Condition 8, where an M(M)R Restructuring Credit Event has occurred and the Bank has delivered a Credit Event Notice for an Exercise Amount that is less than (i) the Aggregate Nominal Amount of the Notes, or (ii) the Reference Entity Notional Amount outstanding in respect of the affected Reference Entity, in each case as at the date immediately prior to the delivery of such Credit Event Notice, as applicable, the provisions of this Condition 8 shall be deemed to apply to a principal amount of the Notes equal to the Exercise Amount only and all the provisions shall be construed accordingly.

(ii) *Redemption of Notes following partial exercise*

If the Bank has delivered a Credit Event Notice in respect of an M(M)R Restructuring that specifies an Exercise Amount that is less than the Aggregate Nominal Amount of the Credit Linked Notes and (other than in the case of Linear Basket Notes) only one Reference Entity is specified for the Credit Linked Notes (or, with respect to Linear Basket Notes only, in relation to a Reference Entity that specifies an Exercise Amount that is less than such Reference Entity’s Reference Entity Notional Amount), then:

- (A) the relevant provisions of Condition 8(e) (*Auction Redemption Terms*), 8(f) (*Physical Redemption Terms*) or 8(g) (*Cash Redemption Terms*) relating to Redemption of Credit Linked Notes shall apply to the Exercise Amount, including, for the purposes of calculating the Auction Redemption Amount, the Cash Redemption Amount or the Physical Redemption Assets to be Delivered to Noteholders. In such circumstances, the Calculation Agent may adjust such provisions of this Condition 8 and/or applicable Pricing Supplement as it determines appropriate to take account of this Condition 8(d), including the basis of the calculation of any Auction Redemption Amount, Cash Redemption Amount or the Physical Redemption Assets to be Delivered to Noteholders;
- (B) following any payment of an Auction Redemption Amount, Cash Redemption Amount or Delivery of the Physical Redemption Assets to Noteholders or any other determination made in respect of any Exercise Amount, the Reference Entity Notional Amount for the relevant Reference Entity shall be reduced by an amount equal to the Exercise Amount (and, for the avoidance of doubt, the aggregate of the Reference Entity Notional Amounts shall be reduced accordingly). The Notes in an amount equal to the Aggregate Nominal Amount or the relevant Reference Entity Notional Amount, as applicable, less the Exercise Amount shall remain outstanding (the “**Outstanding Amount**”) and interest (if applicable) shall accrue on the Outstanding Amount as provided for in Conditions 4 (*Fixed Rate Note Provisions*), 5 (*Floating Rate Note and Variable Linked Interest Provisions*) and/or 6 (*Zero Coupon Note Provisions*), as applicable, and the Bank may thereafter deliver one or more further Credit Event Notices in respect of such Outstanding Amount to which this Condition 8 shall continue to apply; and
- (C) the Calculation Agent may adjust the provisions of this Condition 8 and/or the applicable Pricing Supplement in such manner as it may determine to be appropriate to account for such event.

- (iii) If the provisions of this Condition 8(d) apply in respect of the Credit Linked Notes, on any redemption of part of each such Credit Linked Note, the relevant Credit Linked Note or, if the Credit Linked Notes are represented by a Global Note, such Global Note shall be endorsed to reflect such part redemption.
- (iv) Other than in respect of a Linear Basket Note or a Credit Linked Note where there is more than one Reference Entity, the Exercise Amount in connection with a Credit Event Notice describing an M(M)R Restructuring must be an amount that is at least 1,000,000 units of the Settlement Currency (or, if Japanese Yen, 100,000,000 units) and an integral multiple thereof or the Aggregate Nominal Amount of the Credit Linked Notes or, if the Notes are Linear Basket Notes, the Outstanding Amount in respect of the Reference Entity Notional Amount of the affected Reference Entity.

(e) *Auction Redemption Terms*

(i) *Redemption of the Credit Linked Notes where Auction Redemption applies*

Notwithstanding anything to the contrary in Condition 14 (*Redemption and Purchase*) and unless previously redeemed or purchased and cancelled, if “Auction Redemption” is specified as the Credit Event Redemption Method in the applicable Pricing Supplement (or if “Cash or Physical or Auction Redemption” is specified in the applicable Pricing Supplement and Auction Redemption is selected by the Bank), following the occurrence of a Relevant Event Determination Date, then:

- (A) subject to sub-paragraph (B) of this Condition 8(e)(i), the Bank shall, subject as aforesaid, redeem:
 - (1) each Note in whole at the Auction Redemption Amount; or
 - (2) if the Notes are Linear Basket Notes, (y) a portion of the principal amount of each Note equal to the Applicable Proportion determined by reference to the Reference Entity Notional Amount of the Reference Entity in respect of which the Credit Event occurred on the relevant Auction Cash Redemption Date at the Auction Redemption Amount, and (z) the remaining portion of each Note at its *pro rata* Final Redemption Amount on the Scheduled Maturity Date; or
 - (3) if the Credit Event is an M(M)R Restructuring Credit Event, (y) a portion of the principal amount of each Note equal to the Applicable Proportion determined by reference to the Exercise Amount specified in the Credit Event Notice relating to the relevant Credit Event on the relevant Auction Redemption Date at the Auction Redemption Amount, and (z) the remaining portion of each Note at its *pro rata* Final Redemption Amount on the Scheduled Maturity Date; and
- (B) in the case of Notes to which Credit Payment on Maturity applies, the Bank shall redeem each Note in whole on the later to occur of (1) the Auction Redemption Date in respect of the relevant Reference Entity and Credit Event and (2) the Scheduled Maturity Date (the “**Final Auction Redemption Date**”) at the Final Auction Redemption Amount.

Payment by the Bank of the Auction Redemption Amount shall fully and effectively discharge the Bank’s obligation to redeem the Applicable Proportion of the relevant Note and payment by the Bank of the Final Auction Redemption Amount shall fully and effectively discharge the Bank’s obligation to redeem the entirety of the relevant Note.

(ii) *Fallback Redemption*

Without prejudice to the foregoing, but without duplication of settlement, if the Calculation Agent determines:

- (A) except where the Bank delivers a Notice to Exercise Movement Option to the Issue and Paying Agent on or prior to the Movement Option Cut-off Date pursuant to Condition 8(e)(iii) (*Movement Option*), that with respect to a Credit Event, no Applicable Auction is being, or will be, held; or
- (B) with respect to a Credit Event and any relevant Applicable DC Credit Event Question, Applicable Resolution and/or Applicable Auction, that (1) an Auction Cancellation Date has occurred, (2) a No Auction Announcement Date has occurred (and, in circumstances where such No Auction Announcement Date occurs pursuant to sub-paragraph (b) or sub-paragraph (c)(ii) under the definition of "No Auction Announcement Date", the Bank has not exercised the Movement Option), (3) a DC Credit Event Question Dismissal occurs or (4) a Relevant Event Determination Date was determined pursuant to sub-paragraph (a) of the definition of "Event Determination Date" or pursuant to sub-paragraph (a) of the definition of "Non-Standard Event Determination Date", and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Relevant Event Determination Date, or (5) a Relevant Event Determination Date was determined pursuant to sub-paragraph (b)(ii)(B)(II)(2) of the definition of "Non-Standard Event Determination Date",

then, the Fallback Redemption Method shall apply and the Bank shall redeem each Note in accordance with Condition 8(g) (*Cash Redemption Terms*) (if "Cash Redemption" is specified in the applicable Pricing Supplement as the Fallback Redemption Method or if no Fallback Redemption Method is specified in the applicable Pricing Supplement) or in accordance with Condition 8(f) (*Physical Redemption Terms*) (if "Physical Redemption" is specified in the applicable Pricing Supplement as the Fallback Redemption Method).

(iii) *Movement Option*

If "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" is specified in the applicable Pricing Supplement and the Calculation Agent determines in respect of a Restructuring Credit Event that a No Auction Announcement Date has occurred pursuant to sub-paragraph (b) of the definition of "No Auction Announcement Date", the Bank may elect in its sole and absolute discretion to deliver a Notice to Exercise Movement Option to the Calculation Agent at any time on or prior to the Movement Option Cut-off Date. If a Notice to Exercise Movement Option is so delivered, then, provided that the related Event Determination Date is not reversed on or prior to the relevant Auction Redemption Date, redemption of the Credit Linked Notes (or, if the Credit Linked Notes are Linear Basket Notes or if the Credit Event is an M(M)R Restructuring Credit Event, the Applicable Proportion of the Credit Linked Notes) shall take place by payment by the Bank of the Auction Redemption Amount on the Auction Redemption Date (or, if Credit Payment on Maturity applies, by payment of the Final Auction Redemption Amount on the Final Auction Redemption Date), for which purposes the Auction Redemption Amount and the Auction Redemption Date shall be determined by reference to the relevant Parallel Auction identified by the Bank in the Notice to Exercise Movement Option. If a Notice to Exercise Movement Option is delivered by the Bank, all references in this Condition 8 to "Applicable Auction", "Applicable Auction Settlement Terms", "Auction Cancellation Date" and "Auction Final Price Determination Date" shall be deemed to be references to the "Parallel Auction", "Parallel Auction Settlement Terms"

and “Parallel Auction Cancellation Date” and the terms of this Condition 8 shall be construed accordingly.

(iv) *Auction Final Price of the Asset Package*

If an Asset Package Credit Event has occurred and the Auction Final Price for the Applicable Auction reflects the entire relevant Asset Package in respect of the Prior Deliverable Obligation(s) or Package Observable Bond(s) (as applicable) (including any cash forming part of the Asset Package and the Asset Market Value of any Non-Financial Instrument or Non-Transferable Instrument), the Auction Redemption Amount or Final Auction Redemption Amount shall be determined using the Auction Final Price. If the Calculation Agent determines that the Auction Final Price does not reflect the price of the entire relevant Asset Package, as determined above, the Calculation Agent shall make such adjustment to the Auction Final Price and/or the Auction Redemption Amount or Final Auction Redemption Amount in its sole and absolute discretion as it deems necessary to reflect the value of the Asset Package and to preserve the economic effects of the terms of the Notes and, for such purposes the Calculation Agent may take into account any method of determining the Asset Market Value of any Asset that is a Non-Transferable Instrument or a Non-Financial Instrument forming part of the Asset Package but that has not been taken into account in the Auction Final Price that may be published by the DC Secretary.

(v) *Notice of Auction Redemption Amount*

Following the determination of the Auction Redemption Amount or the Final Auction Redemption Amount (as applicable) with respect to any Credit Linked Notes subject to the terms set out herein, the Bank shall, or may cause the Issue and Paying Agent to, deliver a notice in accordance with Condition 23 (*Notices*) to the Noteholders specifying the Auction Redemption Amount or the Final Auction Redemption Amount (as applicable) (including the Auction Final Price and, if applicable, Unwind Costs) (provided that any failure to give such notice to the Issue and Paying Agent or Noteholders shall not affect any determinations made by the Bank and/or the Calculation Agent or the rights of the Bank to redeem the Credit Linked Notes (or, with respect to the Linear Basket Notes, the Applicable Proportion thereof)).

(f) *Physical Redemption Terms*

(i) *Delivery of Physical Redemption Assets*

(A) Subject to Condition 8(j) (*Effect of DC Announcements*) and notwithstanding anything to the contrary in Condition 14 (*Redemption and Purchase*), and unless previously redeemed or purchased and cancelled, if “Physical Redemption” is specified as the Credit Event Redemption Method in the applicable Pricing Supplement (or if “Cash or Physical Redemption” or “Cash or Physical or Auction Redemption” is specified in the applicable Pricing Supplement and Physical Redemption is selected by the Bank) or if “Physical Redemption” is applicable as Fallback Redemption Method and Condition 8(e) (*Auction Redemption Terms*) requires that the Bank redeems the Notes in accordance with this Condition 8(f) following the occurrence of a Relevant Event Determination Date, the Credit Linked Notes (or, if the Credit Linked Notes are Linear Basket Notes or if the Credit Event is an M(M)R Restructuring Credit Event, the Applicable Proportion thereof) shall, subject to and in accordance with this Condition 8(f), be redeemed by, in respect of each Noteholder: (i) Delivery (at the risk of the relevant Noteholder) of the Physical Redemption Assets on or prior to the Physical Redemption Date in accordance with Condition 8(f)(ii) (*Physical Redemption Assets*); and (ii) payment of the Portfolio

Shortfall Proceeds in accordance with Condition 8(f)(iii) (*Portfolio Shortfall Proceeds*).

- (B) Upon Delivery of the Physical Redemption Assets and payment of any Portfolio Shortfall Proceeds and/or Partial Cash Redemption Amount to each Noteholder, the Bank's obligations in respect of the redemption of the Credit Linked Notes (or, if the Notes are Linear Basket Notes or if the Credit Event is an M(M)R Restructuring Credit Event, the Applicable Proportion thereof) shall be fully and effectively discharged. If the Notes are Linear Basket Notes or the Credit Event is an M(M)R Restructuring Credit Event, the remaining portion of each Note which is not so redeemed shall be redeemed on the Scheduled Maturity Date at its *pro rata* Final Redemption Amount, subject to the occurrence of a further Relevant Event Determination Date during the Notice Delivery Period.
- (C) In order for the Credit Linked Notes to be redeemed in accordance with this Condition 8(f):

- (1) The Bank shall deliver a Notice of Physical Settlement to the Issue and Paying Agent and the Issue and Paying Agent will deliver a copy of the Notice of Physical Settlement to the Noteholders in accordance with Condition 23 (*Notices*) provided that any failure to deliver a copy of such Notice of Physical Settlement to the Noteholders shall not affect the effectiveness of the Notice of Physical Settlement, as determined by the Calculation Agent, or the rights of the Bank to redeem the Credit Linked Notes (or, if the Notes are Linear Basket Notes or if the Credit Event is an M(M)R Restructuring Credit Event, the Applicable Proportion thereof)).

The Bank may, at any time, deliver to the Issue and Paying Agent a NOPS Amendment Notice in order to give notice that the Bank is replacing the Deliverable Obligations in the Notice of Physical Settlement or a prior NOPS Amendment Notice, as applicable, and the Issue and Paying Agent will deliver a copy of the NOPS Amendment Notice to the Noteholders in accordance with Condition 23 (*Notices*) provided that any failure to deliver such a copy of such NOPS Amendment Notice to the Noteholders shall not affect the effectiveness of the NOPS Amendment Notice, as determined by the Calculation Agent, or the rights of the Bank to redeem the Credit Linked Notes (or, if the Notes are Linear Basket Notes or if the Credit Event is an M(M)R Restructuring Credit Event, the Applicable Proportion thereof).

Moreover, the failure of the Bank or the Issue and Paying Agent to deliver a Notice of Physical Settlement or a NOPS Amendment Notice, as applicable, shall not affect the effectiveness of any determination made by the Bank or the Calculation Agent, or any other notice delivered by the Bank in respect of a relevant Reference Entity.

- (2) The relevant Noteholder shall deliver, prior to 5.00 p.m. (Singapore time) on the 10th Business Day following the date of the Notice of Physical Settlement and, if relevant, any NOPS Amendment Notice, a duly completed notice in writing (a "**Deliverable Obligation Notice**"):
- (I) specifying the Series number of the Notes and the aggregate nominal amount of the Notes which are the subject of the Deliverable Obligation Notice;
- (II) including such details as are required for the transfer or assignment of the Physical Redemption Assets which may include account details

and/or the name and address of any person(s) into whose name evidence of the Physical Redemption Assets is to be registered and/or any bank, broker or agent to whom documents evidencing the Physical Redemption Assets are to be delivered;

- (III) specifying the name and number of the account which the Portfolio Shortfall Proceeds (if any) are to be credited;
 - (IV) certifying, *inter alia*, that the beneficial owner of each Note is not a U.S. person (as defined in the Deliverable Obligation Notice) or a person who purchased such Note for resale to U.S. persons, that the Note is not being redeemed within the United States or on behalf of a U.S. person and no cash, notes or other property have been or will be delivered within the United States or to, or for the account or benefit of, a U.S. person in connection with any redemption thereof;
 - (V) authorising the production of such certification in any applicable administrative or legal proceedings, all as provided in the Agency Agreement;
 - (VI) if the Credit Linked Notes are in bearer form, including or accompanied by evidence, satisfactory to the Calculation Agent, of the ownership of the Credit Linked Notes by the relevant Noteholder; and
 - (VII) if the Credit Linked Notes are in definitive form, including or accompanied by the definitive Credit Linked Notes.
- (D) Forms of the Deliverable Obligation Notice may be obtained during normal office hours from the Issue and Paying Agent.
- (E) If the relevant definitive Credit Linked Notes (if they are then so represented) and the Deliverable Obligation Notice are not delivered in accordance with this provision, the obligations of the Bank to commence procuring the delivery of the Physical Redemption Assets and the payment of the Portfolio Shortfall Proceeds (if any) to such Noteholder shall, subject this Condition 8(f)(i), Condition 8(f)(iii) (*Portfolio Shortfall Proceeds*) and 8(j) (*Effect of DC Announcements*), be deferred until the third Business Day following the date on which such Noteholder delivers the Deliverable Obligation Notice and relevant definitive Credit Linked Notes (if they are then so represented). The relevant Noteholder shall not be entitled to any payment, whether of interest or otherwise, in the event of such deferred delivery and payment.
- (F) If the holder of any such Credit Linked Note fails to deliver a Deliverable Obligation Notice or the Bank is unable to obtain details for the transfer or assignment the delivery of the Physical Redemption Assets and the payment of the Portfolio Shortfall Proceeds (if any) from the person nominated by the Noteholder in accordance with sub-paragraph (C) of this Condition 8(f)(i) in the manner and on the dates specified in this Condition 8(f)(i) by the 90th calendar day following the date of the Notice of Physical Settlement or, if relevant, the last NOPS Amendment Notice, if “Fallback Cash Redemption” is specified to apply in the applicable Pricing Supplement, the Bank shall apply “Cash Redemption” pursuant to the fallback cash redemption terms in Condition 8(f)(x) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) with respect to the Physical Redemption Assets that have not been transferred or assigned and if “Fallback Cash Redemption” is

not specified to apply in the applicable Pricing Supplement, the Bank shall have no further liability or obligation whatsoever in respect of such Credit Linked Note.

- (G) No Deliverable Obligation Notice may be withdrawn after receipt thereof by Clearstream, Luxembourg or Euroclear (as applicable) or the Issue and Paying Agent, as the case may be, as provided above. After delivery of a Deliverable Obligation Notice, the relevant Noteholder may not transfer the Credit Linked Notes which are the subject of such notice.
- (H) Failure to properly complete and deliver a Deliverable Obligation Notice may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided in this Condition 8 shall be made by the Bank, and shall be conclusive and binding on the relevant Noteholder.
- (I) Delivery of the Physical Redemption Assets and payment of the Portfolio Shortfall Proceeds (if any) in respect of each Noteholder shall be made by the Bank pursuant to the details specified in the applicable Deliverable Obligation Notice.
- (J) If the Physical Redemption Assets include a Deliverable Obligation which is a Loan, the Noteholders agree to comply, for the purposes of settlement of the relevant Credit Linked Notes, with the provisions of any documentation (which term shall be deemed to include any market advisory that the relevant Credit Derivatives Determinations Committee Resolves to approve for such purposes) that the relevant Credit Derivatives Determinations Committee Resolves constitutes documentation customarily used in the relevant market for delivery of such Loan at that time, as such documentation may be amended to the extent that the relevant Credit Derivatives Determinations Committee Resolves is appropriate, which is consistent with the payment and delivery obligations of the parties hereunder. The Noteholders further agree that compliance by the Bank and the Noteholders with the provisions of any such documentation shall be required for, and, without further action, constitute, delivery for the purposes of this Condition 8(f)(i) (to the extent that such documentation contains provisions describing how delivery should be effected).

(ii) *Physical Redemption Assets*

Subject to the rest of this Condition 8(f)(ii), the Bank may only Deliver the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, and only in the amounts specified therein.

Until the date on which the Physical Redemption Assets have been fully Delivered, the Bank or any other person (whether or not on behalf of the Bank) may continue to be the legal owner of the Deliverable Obligations comprising the Physical Redemption Assets which it is not possible, practical or legal to deliver. None of the Bank nor any such other person will (i) be under any obligation to deliver or procure delivery to the relevant Noteholder or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by the Bank or that person in its capacity as legal owner of such Deliverable Obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such Deliverable Obligations comprising the Physical Redemption Assets until the date on which the Physical Redemption Assets have been fully Delivered, (iii) be under any liability to such Noteholder or any other person in respect of any loss or damage which such Noteholder or other person may sustain or suffer as a result, whether directly or indirectly, of the Bank or any person (whether or not on behalf of the Bank) being the legal owner of such Deliverable Obligations comprising the Physical Redemption Assets until the date on

which the Physical Redemption Assets have been fully Delivered, or (iv) have any liability whatsoever to such Noteholder or any other person if, as a result of a Redemption Failure Event or for any other reason whatsoever (including, without limitation, Credit Linked Conditions 8(f)(iii) (*Portfolio Shortfall Proceeds*) to 8(f)(ix) (*Alternative Procedures Relating to Loans not Delivered*)), it is unable to effect Delivery of any Deliverable Obligations comprising the Physical Redemption Assets and its obligations hereunder are satisfied by partial cash settlement or fallback cash redemption (if applicable) or are deemed to be fully discharged in accordance with this Condition 8.

(iii) *Portfolio Shortfall Proceeds*

If all or any part of the Physical Redemption Assets that would, but for this Condition 8(f)(iii), be required to be Delivered to a Noteholder is not a whole integral multiple of the smallest unit of transfer for any such Physical Redemption Assets at the relevant time of Delivery, as determined by the Bank, the Bank will Deliver and such Noteholder will only be entitled to receive the portion of the Physical Redemption Assets specified by the Bank which is closest to but less than the full Physical Redemption Assets, after consideration of such smallest unit or units of transfer (such portion of the Physical Redemption Assets that is not so Delivered to such Noteholder, the “**Portfolio Delivery Shortfall**”). The Bank shall, as soon as reasonably practicable (which may, for the avoidance of doubt, be after the Physical Redemption Date), liquidate the portion of the Physical Redemption Assets corresponding to the Portfolio Delivery Shortfall and pay to such Noteholder the liquidation proceeds (such proceeds, the “**Portfolio Shortfall Proceeds**”) on or before the tenth Business Day following receipt of the last instalment of the Portfolio Shortfall Proceeds.

Notwithstanding anything to the contrary in Condition 8(f)(i) (*Delivery of Physical Redemption Assets*) or 8(f)(iii) (*Portfolio Shortfall Proceeds*), the Bank may elect to Deliver to Noteholders Deliverable Obligations with an Outstanding Principal Balance or a Due and Payable Amount, as applicable (or the equivalent Currency Amount of any such amount), that is (A) greater than, or (B) less than, what the Noteholder would otherwise have been entitled to receive by way of Physical Redemption Assets. If the Bank exercises its election pursuant to sub-paragraph (B) of this Condition 8(f)(iv), the Bank shall pay to Noteholders no later than the Business Day following the relevant Latest Permissible Physical Settlement Date an amount in respect of each Note determined by the Calculation Agent equal to the portion of the Physical Redemption Assets of such Note in respect of which Deliverable Obligations were not delivered.

(v) *Partial Cash Redemption due to Impossibility or Illegality*

rise to such impossibility or illegality and, as soon as practicable thereafter, the Bank shall Deliver and the Affected Noteholder shall take Delivery of the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice as applicable which were not delivered on the Delivery Date. (vii) *Partial Cash Redemption of Assignable Loans*

If:

- (A) the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice include Assignable Loans that, due to the non-receipt of any requisite consents, are not, on the Physical Redemption Date, capable of being assigned or novated to the Affected Noteholder and such consents are not obtained or deemed given by the Latest Permissible Physical Settlement Date; and

- (C) If an Asset Package Credit Event has occurred, (I) valuation of a Prior Deliverable Obligation or Package Observable Bond specified in the notice to the Issue and Paying Agent may be satisfied by valuation of the related Asset Package and such Asset Package shall be treated as having the same currency and Outstanding Principal Balance as that of the Prior Deliverable Obligation or Package Observable Bond, as applicable, to which it corresponds immediately prior to the Asset Package Credit Event, (II) if the Asset Package is zero, a Quotation shall be deemed to have been obtained for the Outstanding Principal Balance of the Prior Deliverable Obligation or Package Observable Bond (as applicable) equal to zero, and (III) for any other Asset Package the Calculation Agent shall determine the value of the Asset Package in its sole and absolute discretion and a Quotation shall be deemed to have been obtained for such valuation provided that the Calculation Agent may obtain Quotations for some or all of the components of the Asset Package and/or take account of any method of determining the Asset Market Value of any Asset that is a Non-Transferable Instrument or a Non-Financial Instrument that may be published by the DC Secretary.

(h) *Redemption Upon Merger Event*

If "Redemption Following Merger" is specified as being applicable in the applicable Pricing Supplement, then:

- (i) If at any time the Bank becomes aware that any Noteholder is a Reference Entity, the Bank may, in its sole and absolute discretion, elect to redeem all of the Credit Linked Notes of that Noteholder at their Early Redemption Amount (and the Final Redemption Amount shall, notwithstanding this Condition 8, be zero).
- (ii) In the event that the Bank and/or the Calculation Agent determines, in its discretion, acting in a commercially reasonable manner, that a Merger Event has occurred, the Bank may

give notice to the Noteholders in accordance with Condition 23 (*Notices*) and redeem or cancel, as applicable, all of the Credit Linked Notes at their Early Redemption Amount and the Final Redemption Amount shall, notwithstanding this Condition 8, be zero.

The Bank shall not be responsible for monitoring the identity of each Noteholder from time to time for the purpose of enabling the Bank to exercise its rights hereunder or otherwise.

(i) *Redemption Failure Event*

(i) If a Redemption Failure Event has occurred and exists on the Scheduled Maturity Date or Redemption Date, the obligation of the Bank to pay the Auction Redemption Amount, the Cash Redemption Amount, the Final Auction Redemption Amount, the Final Cash Redemption Amount or to Deliver the Physical Redemption Assets or part thereof, as the case may be, will be postponed without further act or notice and such payment or Delivery will be made on a Business Day selected by the Bank on which such Redemption Failure Event no longer exists, provided that, if such Redemption Failure Event continues to exist on the tenth Business Day after the Scheduled Maturity Date or Redemption Date or other scheduled payment or delivery date (including a date scheduled to be the Delivery Date) in respect of an amount required to be paid or Deliverable Obligations to be Delivered (as the case may be), the Noteholder may request the Bank in writing to make payment of such amount to such account or to such other person as the Noteholder specifies, provided that, the Bank first receives an irrevocable and unconditional release and indemnity in respect of liabilities arising therefrom to its sole and absolute satisfaction.

(ii) *Continuing Redemption Failure Event*

(A) Notwithstanding anything to the contrary in these Conditions but subject to sub-paragraph (B) below, if the Bank determines (in its discretion, acting in a commercially reasonable manner) that such Redemption Failure Event continues to exist on the 90th calendar day after the Scheduled Maturity Date or Redemption Date or other scheduled payment or delivery date (including a date scheduled to be the Delivery Date) (a "**Continuing Redemption Failure Event**") in respect of an amount required to be paid where the Noteholder has not elected for payment to be made to a third party (if applicable) in accordance with sub-paragraph (i) above, or Deliverable Obligations to be Delivered (as the case may be), no such payment or Delivery will be made by the Bank and the Bank's obligations to the Noteholder hereunder will be deemed to be fully discharged as of that date.

(B) Notwithstanding sub-paragraph (A) above, if a Continuing Redemption Failure Event occurs as a result of the circumstances described in sub-paragraph (c) of the definition of "Redemption Failure Event", and "Fallback Cash Redemption" is specified to apply in the applicable Pricing Supplement, the Bank shall apply "Cash Redemption" pursuant to the fallback cash redemption terms in Condition 8(f)(x) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) with respect to the Deliverable Obligations that have not been Delivered.

(iii) Any postponement or deemed discharge of payment pursuant to this Condition 8(i) will not constitute a default hereunder (including for the purpose of Condition 17 (*Events of Default*)) and will not entitle the relevant Noteholder to any additional interest or other payment as a result thereof. For the avoidance of doubt, the provisions of this Condition 8(i)(iii) are in addition to any provisions of Condition 8(f) (*Physical Redemption Terms*) above regarding, *inter alia*, the failure to Deliver Deliverable Obligations.

(j) *Effect of DC Announcements*

(i)

(A) *Reversal of DC Credit Event Announcement*

If an Event Determination Date is subsequently reversed prior to the relevant Auction Final Price Determination Date, a Valuation Date, a Redemption Date (or, if earlier, a Delivery Date) or the Scheduled Maturity Date, a Credit Event shall be deemed not to have occurred with respect to the Reference Entity for the purposes of this Condition 8.

(B) *Linear Basket Notes*

Where the Notes are Linear Basket Notes, an Event Determination Date may occur in respect of each Reference Entity comprised in the basket provided that, other than in respect of a Restructuring, an Event Determination Date shall apply only once to each such Reference Entity.

(C) *Reversal of DC Resolutions relating to Successors*

Notwithstanding anything to the contrary herein, no succession will occur, and any succession previously determined with respect to a Reference Entity shall be deemed not to have occurred, if, or to the extent that, a DC Resolution publicly announces that a previous Successor that had been Resolved has been reversed by a subsequent DC Resolution of the relevant Credit Derivatives Determinations Committee, unless the prior Resolution or any prior determination by the Calculation Agent has resulted in the identification of one or more Successors or the identification of one or more Substitute Reference Obligations.

(ii) *Redemption Suspension*

If, following the occurrence of a Relevant Event Determination Date but prior to the relevant Redemption Date, Delivery Date or, to the extent applicable, a Valuation Date in respect of a Reference Entity, there is an Applicable DC Credit Event Meeting Announcement, all timing requirements in this Condition 8 that pertain to settlement shall toll and remain suspended until the date of the Applicable DC Credit Event Announcement or Applicable DC Credit Event Question Dismissal, as applicable. During such suspension period, the Bank is not obliged to take any action in connection with the settlement of such Credit Event or the redemption, if any, of the Credit Linked Notes. Once the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal has occurred, the relevant timing requirements that pertain to settlement that have previously tolled or been suspended shall resume on the Business Day following such public announcement by the DC Secretary with the Bank having the benefit of the full day notwithstanding when the tolling or suspension began. The Bank shall deliver, or cause the Issue and Paying Agent to deliver, a notice (a "**Redemption Suspension Notice**") in accordance with Condition 23 (*Notices*) to the Noteholders giving notice of any suspension or resumption of timing requirements pursuant to this Condition 8(j).

(k) *Principal Protected Redemption Terms*

Subject to Condition 8(j) (*Effect of DC Announcements*), if "Principal Protected Redemption" is specified as the Credit Event Redemption Method in the applicable Pricing Supplement and a Relevant Event Determination Date occurs then, unless previously redeemed or purchased and cancelled, redemption of the Credit Linked Notes shall take place by payment by the Bank of (a) if Credit Payment on Maturity applies, the Applicable Proportion of the Principal Protected Amount and the outstanding portion of each Note (if any) at its *pro rata* Final Redemption Amount (as determined by the Calculation Agent) on the Final Cash Redemption Date and (b) if Credit Payment on Maturity does not apply, the Applicable Proportion of the Principal Protected Amount on the Cash Redemption Date and the outstanding portion of each Note (if any) at its *pro rata* Final Redemption Amount (as determined by the Calculation Agent) on the Scheduled Maturity

Date. For the avoidance of doubt, nothing in this Condition 8(k) shall prejudice the provisions of Condition 8(b) (*Interest on Credit Linked Notes*).

(l) *Fixed Recovery Redemption Terms*

(i) *Redemption at the Fixed Recovery Redemption Amount*

Subject to Condition 8(j) (*Effect of DC Announcements*), unless previously redeemed or purchased and cancelled, if “Fixed Recovery Redemption” is specified as the Credit Event Redemption Method in the applicable Pricing Supplement, then following the occurrence of a Relevant Event Determination Date, redemption of the Credit Linked Notes (or, if the Credit Linked Notes are Linear Basket Notes or if the Credit Event is an M(M)R Restructuring Credit Event, the Applicable Proportion thereof) shall take place in accordance with Condition 8(g) (*Cash Redemption Terms*), provided that the Cash Redemption Amount or Final Cash Redemption Amount (if “Credit Payment on Maturity” applies) shall be determined using the Fixed Recovery Percentage specified in the applicable Pricing Supplement instead of the Final Price, as further set out in the definitions of Cash Redemption Amount and Final Cash Redemption Amount in Condition 8(s) (*Adherence to ISDA Protocols in Relation to Alternative Settlement or Valuation Method*).

(ii) *Fixed Recovery Percentage of zero*

If the Fixed Recovery Percentage is zero, following the occurrence of a Relevant Event Determination Date, the occurrence of the Fixed Recovery Redemption Date shall fully and effectively discharge the Bank’s obligation to redeem the Applicable Proportion of the relevant Note.

(m) *Successor Provisions*

(i) *Successor Determinations*

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors provided that the Calculation Agent will not make such determination if, at the time of the determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent will make all calculations and determinations required to be made under this definition on the basis of Eligible Information and will notify the Issue and Paying Agent of any such calculation or determination as soon as practicable. In calculating the percentages used to determine whether an entity qualifies as a Successor under sub-paragraph (i) of this Condition 8(m), if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

(ii) *Multiple Successors*

Following a Succession Date, if more than one Successor has been identified, the Credit Linked Notes will be amended without the consent of the Noteholders to reflect the following terms:

- (A) each Successor will be a Reference Entity and more than one Credit Event may occur during the Term of the Credit Linked Notes but, subject to Condition 8(d) (*Credit Event Notice after M(M)R Restructuring*), once only in relation to each Successor;

- (B) where a Credit Event occurs in respect of a Reference Entity after such Succession Date, the Credit Linked Notes will not redeem in whole in respect of a Successor but instead the provisions of this Condition 8 shall be deemed to apply to the nominal amount represented by that Reference Entity only (the “**Partial Nominal Amount**”), the Credit Linked Notes shall, thereafter, be redeemed in part (such redeemed part being equal to a Noteholder’s *pro rata* share of the Partial Nominal Amount) (provided that if Credit Payment on Maturity applies, such partial redemption shall occur only on the Final Cash Redemption Date or Final Auction Redemption Date) and this Condition 8 and/or the applicable Pricing Supplement shall be construed accordingly. Following such event, the Credit Linked Notes shall remain outstanding in an amount equal to the Aggregate Nominal Amount of the Credit Linked Notes minus the Partial Nominal Amount and interest shall accrue on any remaining amount only (in accordance with this Condition 8, adjusted in such manner as the Calculation Agent in its discretion, acting in a commercially reasonable manner, determines to be appropriate to reflect the economic effects of the identification of more than one Successor); and
- (C) with respect to Linear Basket Notes only, the Reference Entity Notional Amount of the original Reference Entity will be divided equally between the number of Successors and the Calculation Agent shall determine the relevant type of Reference Entity (including any relevant Obligation and Deliverable Obligation Category and Deliverable Obligation Characteristics in its discretion, acting in a commercially reasonable manner) by reference to market practice in such type of Reference Entity. If a single entity would be a Reference Entity hereunder more than once, then it will be deemed to be a Reference Entity only once, and the Reference Entity Notional Amount for such Reference Entity will be the sum of the Reference Entity Notional Amounts otherwise applicable to it (and such change shall have no effect on the Aggregate Nominal Amount of the Linear Basket Notes).

(iii) *Exchange Offer*

In the case of an exchange offer, the determination required pursuant to sub-paragraph (a) of the definition of “Successor” shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

(iv) *Joint Potential Successors*

If two or more entities (each, a “**Joint Potential Successor**”) jointly succeed to a Relevant Obligation (the “**Joint Relevant Obligation**”) either directly or as a provider of a Relevant Guarantee, then (1) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (2) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

(v) *Eligible Successors*

An entity may only be a Successor if:

- (A) either (1) the related Succession Date occurs on or after the Successor Backstop Date, or (2) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014;

- (B) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
- (C) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.

(vi) *Surviving Reference Entity*

Save as otherwise provided in the applicable Pricing Supplement, where any Reference Entity (the “**Surviving Reference Entity**”) (other than a Reference Entity that is subject to a succession) would be a Successor to any other Reference Entity (the “**Legacy Reference Entity**”) pursuant to a succession through the application of the foregoing provisions, (A) if Fixed Number of Reference Entities is not specified as applying in the applicable Pricing Supplement, such Surviving Reference Entity shall be deemed a Successor to the Legacy Reference Entity or (B) if Fixed Number of Reference Entities is specified as applying in the applicable Pricing Supplement, such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity and the Calculation Agent shall select an additional entity to constitute a Reference Entity in replacement of the Legacy Reference Entity (such entity an “**Additional Reference Entity**”) such that the number of Reference Entities in respect of the Credit Linked Notes, prior to the succession is equal to the number of Reference Entities following the succession. Each Additional Reference Entity shall be of the same Transaction Type with a comparable credit rating as the Surviving Reference Entity, and shall be principally traded in the credit derivatives market in respect of the same Geographical Region as the relevant Surviving Reference Entity, where “**Geographical Region**” means such region determined in good faith by the Calculation Agent to give best effect to the then current market practice in respect of the Surviving Reference Entity, as determined by the Calculation Agent in its sole and absolute discretion. Any such Additional Reference Entity will be deemed to be a Reference Entity for the purposes of the Notes and all references in this Condition 8 to a “Reference Entity” or “Reference Entities” shall be construed accordingly.

If one or more Additional Reference Entities are selected, the Calculation Agent may select a Substitute Reference Obligation in respect of each such Additional Reference Entity in accordance with the definition of “Substitute Reference Obligation”.

(n) *Deliverable Obligations*

(i) *Restructuring Maturity Limitation*

If (1) “Physical Redemption” is specified as the Credit Event Redemption Method and “Mod R” is specified as applicable in the applicable Pricing Supplement and (2) “Restructuring” is the only Credit Event specified in a Credit Event Notice delivered by the Bank, then, unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may only be specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, if it (I) is a Fully Transferable Obligation and (II) has a final maturity date not later than the Restructuring Maturity Limitation Date, in each case, as of the Delivery Date.

(ii) *Modified Restructuring Maturity Limitation*

(A) If (1) “Physical Redemption” is specified as the Credit Event Redemption Method and “Mod Mod R” is specified as applicable in the applicable Pricing Supplement and (2) “Restructuring” is the only Credit Event specified in a Credit Event Notice delivered by the Bank, then, unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention,

a Deliverable Obligation may only be specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of the Delivery Date. Notwithstanding the foregoing, for purposes of this paragraph, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

- (B) Where Modified Restructuring Maturity Limitation applies and a Deliverable Obligation specified in the Notice of Physical Settlement (or in any NOPS Amendment Notice, if applicable) is a Conditionally Transferable Obligation with respect to which consent is required to novate, assign or transfer, and the requisite consent is refused (whether or not a reason is given for such refusal and, where a reason is given for such refusal, regardless of that reason), or is not received by the Physical Redemption Date (in which case it shall be deemed to have been refused), the Bank shall promptly notify the Issue and Paying Agent of such refusal (or deemed refusal) and if the Noteholder does not designate a third party or the Noteholder does not take Delivery on or prior to the Loan Alternative Procedure Start Date, then Condition 8(f)(ix) (*Alternative Procedures Relating to Loans not Delivered*) shall apply.

(iii) *Determination of Final Maturity Date*

For the purposes of making a determination under sub-paragraph (i) or (ii)(A) of this Condition 8(n), the relevant final maturity date shall, subject to the definition of “Conditionally Transferable Obligation” and Condition 8(r)(viii) (*Fully Transferable Obligation and Conditionally Transferable Obligation*), be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

(iv) *Multiple Holder Obligation*

Unless “Multiple Holder Obligation” is specified to be not applicable in the applicable Pricing Supplement, then none of the events described in sub-paragraphs (a) to (d) of the definition of “Restructuring” shall constitute a Restructuring unless the Obligation is a Multiple Holder Obligation, where “**Multiple Holder Obligation**” means an Obligation that (1) at the time of the event which constitutes a Restructuring Credit Event is held by more than three holders that are not Affiliates of each other and (2) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event (provided that sub-paragraph (2) shall be deemed to be satisfied where the Obligation is a Bond).

(o) *Reference Obligation*

(i) *Standard Reference Obligation and Non-Standard Reference Obligation*

- (A) If “Standard Reference Obligation” is specified as applicable in the applicable Pricing Supplement, then the Reference Obligation for the relevant Reference Entity will be the Standard Reference Obligation which is the obligation of the relevant Reference Entity with the relevant Seniority Level specified from time to time on the SRO List published by ISDA on its website at www.isda.org from time

to time (or any successor website thereto) or by a third party designated by ISDA for such purposes.

- (B) If “Standard Reference Obligation” is not specified as applicable in the applicable Pricing Supplement, then the Reference Obligation(s) for the relevant Reference Entity will be each Non-Standard Reference Obligation specified in the applicable Pricing Supplement for such Reference Entity.

(ii) *Substitute Reference Obligation*

- (A) If a Substitution Event has occurred with respect to a Non-Standard Reference Obligation, the Calculation Agent may identify a Substitute Reference Obligation in accordance with sub-paragraphs (C), (D) and (E) of this Condition 8(o)(ii) to replace such Non-Standard Reference Obligation; provided that the Calculation Agent will not identify an obligation as the Substitute Reference Obligation if, at the time of the determination, such obligation has already been rejected as the Substitute Reference Obligation by the relevant Credit Derivatives Determinations Committee and such obligation has not changed materially since the date of the relevant DC Resolution.

- (B) If any of the events set forth under sub-paragraph (a) or (c) of the definition of “Substitution Event” have occurred with respect to a Non-Standard Reference Obligation, such Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for purposes of the “Not Subordinated” Obligation Characteristic or “Not Subordinated” Deliverable Obligation Characteristic and sub-paragraph (C)(2) of this Condition 8(o)(ii)). If the event set forth in sub-paragraph (b) of the definition of “Substitution Event” has occurred with respect to a Non-Standard Reference Obligation and no Substitute Reference Obligation is available, such Non-Standard Reference Obligation will continue to be a Reference Obligation until the Substitute Reference Obligation is identified or, if earlier, until any of the events set forth under sub-paragraph (a) or (c) of the definition of “Substitution Event” occur with respect to such Non-Standard Reference Obligation.

- (C) The Substitute Reference Obligation shall be an obligation that on the Substitution Date:

- (1) is a Borrowed Money obligation of the Reference Entity (either directly or as provider of a guarantee);
- (2) satisfies the Not Subordinated Deliverable Obligation Characteristic as of the date it was issued or incurred (without reflecting any change to the priority of payment after such date) and on the Substitution Date; and

(3)

- (I) if the Non-Standard Reference Obligation was a Conforming Reference Obligation when issued or incurred and immediately prior to the Substitution Event Date:

- a. is a Deliverable Obligation (other than a Loan) determined in accordance with sub-paragraph (a) of the definition of “Deliverable Obligation”; or if no such obligation is available,
- b. is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with sub-paragraph (a) of the definition of “Deliverable Obligation”;

- (II) if the Non-Standard Reference Obligation was a Bond (or any other Borrowed Money obligation other than a Loan) which was a Non-Conforming Reference Obligation when issued or incurred and/or immediately prior to the Substitution Event Date:
 - a. is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available;
 - b. is a Deliverable Obligation (other than a Loan) determined in accordance with sub-paragraph (a) of the definition of “Deliverable Obligation”; or if no such obligation is available,
 - c. is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,
 - d. is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with sub-paragraph (a) of the definition of “Deliverable Obligation”; or
- (III) if the Non-Standard Reference Obligation was a Loan which was a Non-Conforming Reference Obligation when incurred and/or immediately prior to the Substitution Event Date:
 - a. is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,
 - b. is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
 - c. is a Deliverable Obligation (other than a Loan) determined in accordance with sub-paragraph (a) of the definition of “Deliverable Obligation”; or if no such obligation is available,
 - d. is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with sub-paragraph (a) of the definition of “Deliverable Obligation”.
- (D) If more than one potential Substitute Reference Obligation is identified pursuant to the process described in sub-paragraph (C) of this Condition 8(o)(ii), the Substitute Reference Obligation will be the potential Substitute Reference Obligation that most closely preserves the economic equivalent of the delivery and payment obligations of the Bank under the relevant Series, as determined by the Calculation Agent. The Calculation Agent will (if a Substitute Reference Obligation has not been identified) notify the Issue and Paying Agent of a Substitute Reference Obligation as soon as reasonably practicable after it has been identified in accordance with sub-paragraph (C) of this Condition 8(o)(ii) and the Substitute Reference Obligation shall replace the Non-Standard Reference Obligation immediately upon such notification.
- (E) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation then, subject to sub-paragraph (A) of this Condition 8(o)(ii) and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with sub-paragraph (B) of this Condition 8(o)(ii), the

Calculation Agent may continue to attempt to identify the Substitute Reference Obligation.

(iii) *Reference Obligation Only Series*

- (A) If the event set out in sub-paragraph (a) of the definition of “Substitution Event” occurs with respect to the Reference Obligation in a Series of Notes in respect of a Reference Entity to which “Reference Obligation Only” applies, and such Reference Obligation is the only Reference Obligation for such Reference Entity, the Applicable Proportion of the Notes shall be redeemed at the fair market value of the Applicable Proportion of the Notes determined by the Bank as at the Substitution Event Date and, unless “Adjustment for Unwind Costs” is specified to be not applicable in the applicable Pricing Supplement, adjusted to take into account any Unwind Costs, if applicable (the “**Substitution Event Redemption Amount**”). The Bank shall deliver, or cause the Issue and Paying Agent to deliver, a notice in accordance with Condition 23 (*Notices*) to the Noteholders stating the occurrence of such Substitution Event and setting out the Redemption Date in respect thereof, which shall be a date not earlier than the relevant Substitution Event Date.
- (B) Notwithstanding the definition of “Substitute Reference Obligation” (1) no Substitute Reference Obligation shall be determined in respect of the Reference Obligation for a Reference Entity to which “Reference Obligation Only” applies, and (2) if the events set out in sub-paragraph (b) or (c) of the definition of “Substitution Event” occur with respect to the Reference Obligation to which “Reference Obligation Only” applies, such Reference Obligation shall continue to be the Reference Obligation.

(iv) *DC Substitute Reference Obligation Resolution*

Notwithstanding the provision of Condition 8(o)(ii) (*Substitute Reference Obligation*), the Calculation Agent may, but shall not be obliged to, select as the Substitute Reference Obligation for a Series of Notes an obligation of the relevant Reference Entity which is determined by DC Resolution to be the Substitute Reference Obligation to a Non-Standard Reference Obligation.

(p) *Calculation Agent*

- (i) The “Calculation Agent” responsible for making calculations and determinations in respect of the Credit Linked Notes and for the purposes of this Condition 8 shall be the entity specified as such in the applicable Pricing Supplement. Except as otherwise specified in the applicable Pricing Supplement, any determination, discretion or calculation of the Bank or the Calculation Agent as may be specified in this Condition 8 will be made at the discretion, acting in a commercially reasonable manner, of the Bank or the Calculation Agent, as applicable, and neither the Bank nor the Calculation Agent assume any obligation to, or relationship of agency or trust with, any Noteholders or any other person and shall be (save in the case of manifest error at the time the relevant determination is made) final and binding on the Noteholders. Furthermore, each Noteholder agrees that neither the Bank nor the Calculation Agent is acting as fiduciary for or as an advisor to such Noteholder and acts in all respects as an arm’s length contractual counterparty in respect of its duties as Bank or Calculation Agent. In making any such determination or calculation or exercising any such discretion, neither the Bank nor Calculation Agent shall be required to take into account any person’s interest other than its own.

In addition, whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. Any delay, deferral or

forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Notes including, without limitation, the giving of any notice by it to any person shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Calculation Agent and the Bank shall, in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

- (ii) The Calculation Agent is responsible for, *inter alia*:
 - (A) determining a Successor or Successors and making any other determinations required to be made under Condition 8(m) (*Successor Provisions*);
 - (B) determining whether (1) the aggregate amounts due under any Reference Obligation have been materially reduced by redemption or otherwise (other than due to any scheduled redemption, amortisation or prepayments), (2) any Reference Obligation is an Underlying Obligation with a Qualifying Guarantee of a Reference Entity and, other than due to the existence or occurrence of a Credit Event, the Qualifying Guarantee is no longer a valid and binding obligation of such Reference Entity enforceable in accordance with its terms, or (3) for any reason other than as described in (1) or (2) above and other than due to the existence or occurrence of a Credit Event, any Reference Obligation is no longer an obligation of a Reference Entity;
 - (C) identifying and determining a Substitute Reference Obligation;
 - (D) in the event that multiple Credit Event Notices with respect to an M(M)R Restructuring Credit Event are delivered pursuant to Condition 8(d) (*Credit Event Notice after M(M)R Restructuring*), making any modifications required pursuant to that Condition;
 - (E) obtaining Quotations (and, if necessary, determining whether such Quotations shall include or exclude accrued but unpaid interest) and determining the Final Price in accordance with the applicable Valuation Method;
 - (F) converting the Quotation Amount into the relevant Obligation Currency;
 - (G) determining the Quotation Dealers (where none have been specified in the applicable Pricing Supplement) and substituting Quotation Dealers;
 - (H) determining the Currency Rate;
 - (I) determining the number of Business Days in each Physical Settlement Period;
 - (J) determining the Outstanding Principal Balance or Due and Payable Amount the Deliverable Obligations to be included in the Physical Redemption Assets;
 - (K) if "Include Accrued Interest" is specified in the applicable Pricing Supplement with respect to Deliverable Obligations, determining accrued but unpaid interest; and
 - (L) determining whether a Merger Event has occurred.
- (iii) Except as otherwise expressly specified herein or in the applicable Pricing Supplement, whenever the Calculation Agent is required to act or to exercise judgment, it will do so in good faith and in a commercially reasonable manner.
- (iv) The Calculation Agent shall as soon as practicable after making any of the determinations specified in sub-paragraphs (ii)(A) to (L) of this Condition 8(p) notify the Bank of such determination.

- (v) If any of the matters set out in this Condition 8(p) are decided and/or determined by a Credit Derivatives Determinations Committee, the Calculation Agent may follow such decision or determination to the extent such decision and/or determination is applicable to any Credit Linked Notes. In certain circumstances, the Calculation Agent shall be required to follow the decisions or determinations of a Credit Derivatives Determinations Committee or determinations made by the Calculation Agent may be overridden by subsequent determinations made by a Credit Derivatives Determinations Committee.
 - (vi) Notwithstanding anything to the contrary in these Conditions, the Calculation Agent may from time to time amend any provisions of this Condition 8 or the Credit Linked Notes to incorporate and/or reflect further or alternative documents published by ISDA or the DC Secretary with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the Credit Derivatives Determinations Committee which the Calculation Agent and the Bank determine in a commercially reasonable manner are necessary to reflect market practice for credit derivative transactions. The applicable Pricing Supplement may be amended and restated from time to time to reflect such changes in market convention without the consent of the Noteholders and the Noteholders are deemed to agree to this provision by the purchase of the Notes.
- (q) *Notices*
- (i) *Notices required to be delivered*

The Bank shall deliver, or may cause the Issue and Paying Agent to deliver, notice to the Noteholders of the following, to the extent required to be delivered pursuant to the terms of the Credit Linked Notes:

 - (A) a Credit Event Notice and, if applicable, a Notice of Publicly Available Information;
 - (B) a Notice of Physical Settlement and, if applicable, any NOPS Amendment Notice;

 - (E) the designation of any Substitute Reference Obligation (provided that (1) no such notice shall be required following a determination by a Credit Derivatives Determinations Committee of a Substitute Reference Obligation has occurred and (2) the failure of the Bank to deliver a notice to the Noteholders pursuant to this Condition 8(q) shall not affect the effectiveness of any designation of such Substitute Reference Obligation by the Calculation Agent (such designation to be in accordance with this Condition 8);
 - (F) following the determination of the Cash Redemption Amount with respect to any Credit Linked Notes subject to the provisions of Condition 8(g) (*Cash Redemption Terms*), a notice specifying, to the extent applicable:

 - (I) a Repudiation/Moratorium Extension Notice; or
 - (J) a Redemption Suspension Notice.

(ii) *Effectiveness of Notices*

- (A) Any notice required to be delivered by the Bank to Noteholders in accordance with this Condition 8 shall be deemed to have been delivered to Noteholders upon delivery of such notice (which may be delivered by facsimile, e-mail and/or any other means of communication accepted by the Issue and Paying Agent) to the Issue and Paying Agent. The failure of the Issue and Paying Agent to deliver any such notice to Noteholders shall not affect the effectiveness of any notice delivered by the Bank or the effectiveness of any determinations by the Calculation Agent or the Bank or, as applicable, the right of the Bank to redeem the Credit Linked Notes (or, with respect to Linear Basket Notes, the Applicable Proportion thereof) pursuant to and in accordance with Condition 8(a) (*Redemption of Credit Linked Notes*).
- (B) A notice delivered by the Bank to the Issue and Paying Agent on or prior to 4:00 p.m. (London time) on a Business Day will be effective on such Business Day. A notice delivered after 4:00 p.m. (London time) on a Business Day will be deemed effective on the next following Business Day, regardless of the form in which it is delivered.
- (C) Other than as specified herein, Clauses 8 (*Miscellaneous Duties of the Paying Agents and the Registrar*) and 14 (*Notices*) of the Agency Agreement shall apply to any relevant communications and notices delivered in accordance with this Condition 8.

(iii) *Confidentiality*

Noteholders will treat as confidential any information about a Reference Entity which is designated by the Bank as confidential information and conveyed to the Noteholders for the purposes of identifying the Credit Event or giving rise to its determination of a Credit Event.

- (r) *Provisions taken from the ISDA supplement titled "Additional Provisions for Monoline Insurer Reference Entities (September 15, 2014)"*

If this Condition 8(r) is specified as applicable in the applicable Pricing Supplement, the following provisions will apply:

(i) *Obligation and Deliverable Obligation*

Paragraph (a) of the definition of “Obligation” in Condition 8(u) (*Definitions*) and paragraph (a) of the definition of “Deliverable Obligation” in Condition 8(u) (*Definitions*) are hereby amended by adding “or Qualifying Policy” after “or as provider of a Relevant Guarantee”.

(ii) *Interpretation of Provisions*

In the event that an Obligation or a Deliverable Obligation is a Qualifying Policy, the terms of Condition 8(v)(iv) (*Interpretation of Obligation Characteristics and Deliverable Obligation Characteristics*) will apply, with references to the Relevant Guarantee, the Underlying Obligation and the Underlying Obligor deemed to include the Qualifying Policy, the Insured Instrument and the Insured Obligor, respectively, except that:

- (A) the Obligation Category “Borrowed Money” and the Obligation Category and Deliverable Obligation Category “Bond” shall be deemed to include distributions payable under an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the Deliverable Obligation Category “Bond” shall be deemed to include such an Insured Instrument, and the terms “obligation” and “obligor” as used in this Condition 8 in respect of such an Insured Instrument shall be construed accordingly;
- (B) references in the definitions of “Assignable Loan” and “Consent Required Loan” to “the guarantor” and “guaranteeing” shall be deemed to include “the insurer” and “insuring”, respectively;
- (C) neither the Qualifying Policy nor the Insured Instrument must satisfy on the relevant date the Deliverable Obligation Characteristic of “Accelerated or Matured”, whether or not that characteristic is otherwise specified as applicable in the applicable Pricing Supplement;
- (D) if the “Assignable Loan”, “Consent Required Loan”, “Direct Loan Participation” or “Transferable” Deliverable Obligation Characteristics are specified in the applicable Pricing Supplement and if the benefit of the Qualifying Policy is not transferred as part of any transfer of the Insured Instrument, the Qualifying Policy must be transferable at least to the same extent as the Insured Instrument;
- (E) with respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term “maturity”, as such term is used in the “Maximum Maturity” Deliverable Obligation Characteristic, shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur;
- (F) with respect to a Qualifying Policy and an Insured Instrument, only the Qualifying Policy must satisfy on the relevant date or dates the “Not Subordinated” Obligation Characteristic or Deliverable Obligation Characteristic, if applicable.

(iii) *Outstanding Principal Balance*

References in paragraph (a) of the definition of “Outstanding Principal Balance” to a Guarantee, the Underlying Obligation and the Underlying Obligor shall be deemed to include a Qualifying Policy, the Insured Instrument and the Insured Obligor respectively. Any provisions of an Insured Instrument limiting recourse in respect of such Insured Instrument to the proceeds of specified assets (including proceeds subject to a priority of payments) or reducing the amount of any Instrument Payments owing under such Insured Instrument shall be disregarded for the purposes of paragraph (b)(ii) of the definition of “Outstanding Principal Balance” provided that such provisions are not applicable to the Qualifying Policy by the terms thereof and the Qualifying Policy continues to guarantee or

insure, as applicable, the Instrument Payments that would have been required to be made absent any such limitation or reduction.

(iv) *Deliver*

For the purposes of the definition of “Deliver” in Condition 8(u) (*Definitions*), “**Deliver**” with respect to an obligation that is a Qualifying Policy means to Deliver both the Insured Instrument and the benefit of the Qualifying Policy (or a custodial receipt issued by an internationally recognised custodian representing an interest in such an Insured Instrument and the related Qualifying Policy), and “**Delivery**” and “**Delivered**” will be construed accordingly.

(v) *Provisions for Determining a Successor*

Condition 8(m)(iv) (*Joint Potential Successors*) and the definition of “Successor” are hereby amended by adding “or Qualifying Policy” after each occurrence of “a Relevant Guarantee”. The paragraph appearing at the end of the definition of “Successor” is hereby amended by adding “or provider of a Qualifying Policy” after “as guarantor or guarantors”.

(vi) *Original Non-Standard Reference Obligation, Substitute Reference Obligation and Substitution Event*

The definition of “Original Non-Standard Reference Obligation”, Condition 8(o)(ii)(C)(1) (*Substitute Reference Obligation*) and paragraph (c) of the definition of “Substitution Event” are hereby amended by adding “or Qualifying Policy” after “a guarantee”.

(vii) *Restructuring*

(A) With respect to an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest or a Qualifying Policy with respect thereto, subparagraphs (a) to (e) inclusive of the definition of “Restructuring” in Condition 8(u) (*Definitions*) are hereby amended to read as follows:

- (a) a reduction in the rate or amount of the Instrument Payments in paragraph (A)(x) of the definition thereof that are guaranteed or insured by the Qualifying Policy (including by way of redenomination);

- (vi) *Relevant Definitions*

“**LPN Reference Obligation**” means each Reference Obligation other than any Additional Obligation. For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation from constituting a Reference Obligation. Each LPN Reference Obligation is issued for the sole purpose of providing funds for the Issuer to finance a loan to the Reference Entity. For the purposes of the Credit Linked Notes, each such loan shall be an Underlying Loan.

“**Reference Obligation**” means, as of the Trade Date, each of the obligations listed as a Reference Obligation of the Reference Entity in the Pricing Supplement or set forth on the relevant LPN Reference Obligations List (each, a “**Markit Published LPN Reference Obligation**”), as published by Markit Group Limited, or any successor thereto, as of the Trade Date, any Additional LPN and each Additional Obligation. Each Reference Obligation determined in accordance with the foregoing will be a Reference Obligation notwithstanding anything to the contrary in these Conditions, and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity. Standard Reference Obligation shall be Not Applicable. The proviso in the definition of Original Non-Standard Reference Obligation shall not apply.

It is intended that there may be more than one Reference Obligation, as a result of which all applicable references in these Conditions to “the Reference Obligation” shall be construed as a reference to “a Reference Obligation” and all other provisions of these Conditions shall be construed accordingly.

 - (B) in futures or options contracts relating to the relevant Index on any relevant Related Exchange; or
 - (ii) any event (other than an event described in (i) above) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (A) to effect transactions in, or obtain market values for, on any relevant Exchange(s), Index Components that comprise 20 per cent. or more of the level of the relevant Index, or (B) to effect transactions in, or obtain market values for, futures or options contracts relating to the relevant Index on any relevant Related Exchange; or

- (c) the closure on any Exchange Business Day of any relevant Exchange(s) relating to Index Components that comprise 20 per cent. or more of the level of the relevant Index or any Related Exchange(s) prior to its Scheduled Closing Time,

which in any of the above cases the Calculation Agent determines is material.

For the purpose of determining whether a Market Disruption Event in respect of an Index exists at any time, if a Market Disruption Event occurs in respect of an Index Component included in the Index at any time, then the relevant percentage contribution of that Index Component to the level of the Index shall be based on a comparison of (i) the portion of the level of the Index attributable to that Index Component, and (ii) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event.

“Multiplier” means the percentage or amount specified in the applicable Pricing Supplement.

“Reference Price” means the Reference Price as specified in the applicable Pricing Supplement, or if no such price is specified in the applicable Pricing Supplement:

- (a) where the Notes relate to a single Index, the price or level at the Valuation Time on the Valuation Date of the Index as determined by or on behalf of the Calculation Agent without regard to any subsequently published correction or, if such day is a Reference Trading Day, the Calculation Agent shall, where practicable, determine the Reference Price in the manner set out in the applicable Pricing Supplement or, if not set out or not so practicable, determine the Reference Price in accordance with its good faith estimate of the Reference Price as of the Valuation Time on such day; the amount determined pursuant to the foregoing shall be converted, if Exchange Rate is specified as applying in the applicable Pricing Supplement, into the Specified Currency at the Exchange Rate and such converted amount shall be the Reference Price; or
- (b) where the Notes relate to a Basket of Indexes, an amount equal to the sum of the values calculated for each Index at the price or level at the Valuation Time on the Valuation Date of the Index as determined by or on behalf of the Calculation Agent without regard to any subsequently published correction or, if such day is a Reference Trading Day, the Calculation Agent shall, where practicable, determine the Reference Price in the manner set out in the applicable Pricing Supplement, or if not set out or not so practicable, determine the Reference Price in accordance with its good faith estimate of the Reference Price as of the Valuation Time on such day, multiplied by the relevant Multiplier. Each value determined pursuant to the foregoing shall be converted, if Exchange Rate is specified as applying in the applicable Pricing Supplement, into the Specified Currency at the Exchange Rate and the sum of such converted amounts shall be the Reference Price.

“Related Exchange” means, in relation to an Index, each Exchange or quotation system specified as such in relation to such Index in the applicable Pricing Supplement, any successor to such exchange or quotation system to which trading in futures or options contracts relating to such Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange) *provided however*, where “All Exchanges” is specified as the Related Exchange in the applicable Pricing Supplement, the Related Exchange shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Index.

“Strike Price” means, in respect of an Index Linked Note, the level or number specified as such in the applicable Pricing Supplement.

“Valuation Date” means the date (or each date) specified as such in the applicable Pricing Supplement or, if such date is not a Scheduled Trading Day in respect of an Index, the

immediately succeeding Scheduled Trading Day, unless Disrupted Day is specified as applying in the applicable Pricing Supplement and, in the opinion of the Calculation Agent, such day is a Disrupted Day in respect of an Index:

- (a) where the Notes relate to a single Index, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date. In that case, the eighth Scheduled Trading Day Maturity Date (“**Reference Trading Day**”), as the case may be, shall be deemed to be the Valuation Date notwithstanding the fact that such day is a Disrupted Day; or
- (b) where the Notes relate to a Basket of Indexes, the Valuation Date for each Index not affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to the disrupted Index, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or, if a shorter period, such number of Scheduled Trading Days up to the third Scheduled Trading Day before the immediately following Interest Payment Date or the Maturity Date, as the case may be, is a Disrupted Day relating to the disrupted Index. In that case, that eighth Scheduled Trading Day or third Scheduled Trading Day before the immediately following Interest Payment Date or the Maturity Date (“**Reference Trading Day**”), as the case may be, shall be deemed to be the Valuation Date for the disrupted Index notwithstanding the fact that such a day is a Disrupted Day.

“**Valuation Time**” means the Valuation Time specified in the applicable Pricing Supplement or, if no Valuation Time is specified, the Scheduled Closing Time on the relevant Exchange on the relevant Valuation Date in relation to each Index to be valued. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.

10 Equity Linked Notes

If the Equity Linked Note Provisions are specified as applicable in the applicable Pricing Supplement, the provisions of this Condition 10 apply, as applicable, as modified by the applicable Pricing Supplement. In the case of any inconsistency between this Condition 10 and the other Conditions, this Condition 10 will prevail.

(a) *Redemption of Equity Linked Notes*

Unless previously redeemed or purchased and cancelled, each nominal amount of Equity Linked Notes equal to the Calculation Amount set out in the applicable Pricing Supplement (the “**Specified Amount**”) will be redeemed by the Bank (A) if Cash Settlement is specified in the applicable Pricing Supplement, by payment of the Final Redemption Amount specified in, or determined in the manner specified in, the applicable Pricing Supplement on the Maturity Date or (B) if Physical Delivery is specified in the applicable Pricing Supplement, by delivery of the Asset Amount specified in, or determined in the manner specified in, the applicable Pricing Supplement on the Maturity Date (subject as provided below) or (C) if Cash Settlement and/or Physical Delivery is specified in the applicable Pricing Supplement, by payment of the Final Redemption Amount and/or by delivery of the Asset Amount on the terms set out in the applicable Pricing Supplement, in each case on the Maturity Date (subject as provided below).

(b) *Potential Adjustment Events, De-listing, Merger Event, Tender Offer, Nationalisation and Insolvency, Adjustments for Equity Linked Notes in respect of Underlying Equities quoted in European Currencies and Correction of Underlying Equity Prices*

- (i) If Potential Adjustment Events are specified in the applicable Pricing Supplement, then following the declaration by an Equity Issuer of the terms of any Potential Adjustment

Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting, concentrative or other effect on the theoretical value of the Underlying Equities and, if so, will (a) make the corresponding adjustment, if any, to any one or more of the relevant Rate of Interest and/or Interest Amount(s), the Final Redemption Amount and/or the Asset Amount and/or the Strike Price and/or any of the other terms of these Conditions and/or the applicable Pricing Supplement as the Calculation Agent determines appropriate to account for that diluting, concentrative or other effect (provided that no adjustment will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the Underlying Equity) and (b) determine the effective date of that adjustment. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Underlying Equities traded on that options exchange.

In making any determination in respect of any such adjustment, the Calculation Agent shall not have regard to any interests arising from circumstances particular to individual Noteholders or Couponholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such determination for individual Noteholders or Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Calculation Agent shall not be entitled to require, nor shall any Noteholder or Couponholder be entitled to claim, from the Bank, the Calculation Agent, the Issue and Paying Agent or any other person any indemnification or payment in respect of any tax consequences of any such determination upon individual Noteholders or Couponholders.

Upon making any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 23 (*Notices*), stating the adjustment to the relevant Rate of Interest and/or Interest Amount(s), the Final Redemption Amount and/or the Asset Amount and/or the Strike Price and/or any of the other terms of these Conditions and/or the applicable Pricing Supplement and giving brief details of the Potential Adjustment Event.

- (ii) If (x) De-listing, Merger Event, Nationalisation and Insolvency is specified as applying in the applicable Pricing Supplement and/or (y) Tender Offer is specified as applying in the applicable Pricing Supplement and (in the case of (x)) a De-listing, Merger Event, Nationalisation or Insolvency occurs or (in the case of (y)) a Tender Offer occurs, in each case, in relation to an Underlying Equity, the Bank may:
 - (A) require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the relevant Rate of Interest and/or Interest Amount(s), the Final Redemption Amount and/or the Asset Amount and/or the Strike Price and/or any of the other terms of these Conditions and/or the applicable Pricing Supplement to account for the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be; or
 - (B) give notice to the Noteholders in accordance with Condition 23 (*Notices*) and redeem all, but not some only, of the Notes, with each Specified Amount being redeemed at the Early Redemption Amount (Equity Linked) (determined in accordance with the applicable Pricing Supplement) in respect of each Note together with, if so specified in the applicable Pricing Supplement, accrued interest.

If the provisions of Condition 10(b)(ii)(A) apply the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the De-listing, Merger Event, Nationalisation or Insolvency or Tender Offer, as the case may be,

made by an options exchange to options on the Underlying Equities traded on that options exchange.

In making any determination in respect of any such adjustment, the Bank and/or Calculation Agent shall not have regard to any interests arising from circumstances particular to individual Noteholders or Couponholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such determination for individual Noteholders or Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Bank and/or Calculation Agent shall not be entitled to require, nor shall any Noteholder or Couponholder be entitled to claim, from the Bank, the Calculation Agent, the Issue and Paying Agent or any other person any indemnification or payment in respect of any tax consequences of any such determination upon individual Noteholders or Couponholders.

Upon the occurrence (if applicable) of a De-listing, Merger Event, Nationalisation or Insolvency or Tender Offer, the Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 23 (*Notices*) stating the occurrence of the De-listing, Merger Event, Nationalisation or Insolvency or Tender Offer, as the case may be, giving details thereof and the action proposed to be taken in relation thereto.

- (iii) In respect of Equity Linked Notes relating to Underlying Equities originally quoted, listed and/or dealt as of the Trade Date in a currency of a member state of the European Union that has not adopted the single currency in accordance with the Treaty establishing the European Community, as amended, if such Underlying Equities are at any time after the Trade Date quoted, listed and/or dealt exclusively in euro on the relevant Exchange, then the Calculation Agent will adjust any one or more of the relevant Rate of Interest and/or Interest Amount(s), the Final Redemption Amount and/or the Asset Amount and/or the Strike Price and/or any of the other terms of these Conditions and/or the applicable Pricing Supplement as the Calculation Agent determines to be appropriate to preserve the economic terms of the Notes. The Calculation Agent will make any conversion necessary for the purposes of any such adjustment as of the Valuation Time at an appropriate midmarket spot rate of exchange determined by the Calculation Agent prevailing as of the Valuation Time. No adjustments under this Condition 10(b)(iii) will affect the currency denomination of any payments in respect of the Notes.

Upon making any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 23 (*Notices*), stating the adjustment to the Final Redemption Amount and/or the Asset Amount and/or the Strike Price and/or any of the other terms of these Conditions and/or the applicable Pricing Supplement.

- (iv) If Correction of Underlying Equity Prices is specified as applying in the applicable Pricing Supplement and the price of an Underlying Equity published on the Valuation Date or an Averaging Date, as the case may be, is subsequently corrected and the correction (the "**Corrected Underlying Equity Price**") is published on the relevant Exchange prior to the Correction Cut-Off Date specified in the applicable Pricing Supplement, then such Corrected Underlying Equity Price shall be deemed to be the closing price for such Underlying Equity for the Valuation Date or the Averaging Date, as the case may be, and the Calculation Agent shall use such Corrected Underlying Equity Price in determining the relevant Rate of Interest and/or Interest Amount(s) and/or the Final Redemption Amount.

(c) *Share Events and Consequences in respect of a Portfolio*

If the Notes are specified as Equity Linked Notes in the applicable Pricing Supplement and relate to a Basket of Underlying Equities, the provisions of this Condition 10(c) apply, as applicable, as modified by the applicable Pricing Supplement.

(i) General Guidelines

Upon the occurrence, at any time prior to the last Valuation Date, of a Share Event as determined by the Calculation Agent in respect of any Underlying Equity (the "**Affected Underlying Equity**"), the Calculation Agent shall, in order to maintain at all times the same number of Underlying Equities in the Basket (subject as provided in Condition 10(c)(iii)(3) (*De-Merger*) in relation to a De-Merger), elect one of the following procedures, depending on the circumstances:

- (1) keep the Affected Underlying Equity in the Basket, if it considers that such Affected Underlying Equity continues to satisfy the Selection Condition;
- (2) apply Condition 10(c)(ii)(1) (*New Share Method*), when the Share Event results in the distribution of (x) New Share(s), in order to replace the Affected Underlying Equity by a successor share; or
- (3) apply Condition 10(c)(ii)(2) (*Substitution Method*), in all other cases, to substitute a new share for the Affected Underlying Equity in the Basket.

(ii) Methods

(1) New Share Method

The procedure described below may be applied by the Calculation Agent when the occurrence of a Share Event gives rise to the distribution of a New Share in consideration for the Affected Underlying Equity. The Affected Underlying Equity will be replaced by the consideration to which a holder of such Affected Underlying Equity would be entitled to receive in respect of such holding upon consummation of the Share Event, i.e. a New Share and/or, as the case may be, Other Consideration. In such case, the Affected Underlying Equity shall be replaced by the New Share in the Basket, the New Share and the New Share issuer will be deemed to be an Underlying Equity and an Equity Issuer, respectively. The replacement of the Affected Underlying Equity, and, where applicable, the adjustment of the Initial Price (as described below) shall take effect on the trading day (in respect of the sole New Share) following the Effective Date.

Where applicable, for the purposes of determining the Performance Rate of the New Share in respect of each Valuation Date falling after the Effective Date, the Calculation Agent shall calculate an adjusted Initial Price, which shall be equal to:

$$\frac{\text{Initial Price of the Affected Underlying Equity}}{Qe + K}$$

Where:

"**Qe**" means the number of New Shares per Affected Underlying Equity which a holder of an Affected Underlying Equity is entitled to receive upon consummation of the Share Event.

"**K**" means the Other Consideration, expressed as a number or a fraction of a number of the New Share (or Retained New Share (as defined in Condition 10(c)(iii)(1) (*Take-Over Bid*) below in the case of a Take-Over Bid), as the case may be), based on the respective valuations of the New Share and the Other Consideration in accordance with market conditions, as determined by the Calculation Agent on the Effective Date.

(2) Substitution Method

In the event that the Calculation Agent determines that Condition 10(c)(ii)(1) (*New Share Method*) is impossible to implement, i.e. when the occurrence of the Share Event does not result in the distribution of any New Share, it will substitute for the Affected Underlying Equity an ordinary share of another issuer that qualifies as a Substitute Share, in which case the Substitute Share and its issuer shall be deemed to be the relevant Underlying Equity and the relevant Equity Issuer, respectively. The substitution of the Affected Underlying Equity, and, where applicable, the adjustment of the Initial Price (as described below), shall take effect on the trading day (in respect of the Substitute Share) following the Effective Date.

Where applicable, for the purposes of determining the Performance Rate of the Substitute Share in respect of each Valuation Date falling after the Effective Date, the Calculation Agent shall calculate an adjusted Initial Price which shall be equal to:

$$\frac{\text{Initial Price of the Affected Underlying Equity}}{AF(s)} \times AS(s)$$

Where:

“**AF(s)**” means the Reference Price of the Affected Underlying Equity on the relevant Exchange on the trading day (in respect of the Substitute Share) following the Effective Date, or if such Reference Price cannot be obtained, the last Reference Price available for the Affected Underlying Equity before the Effective Date.

“**AS(s)**” means the Reference Price of the Substitute Share determined on the same day as AF(s).

(iii) Applicable by type of Share Event

(1) Take-Over Bid

If any Underlying Equity is the subject of a Take-Over Bid, the Calculation Agent may:

- (x) keep such Affected Underlying Equity in the Basket, provided such Share continues to satisfy the Selection Condition;
- (y) if the consideration for the Affected Underlying Equity consists of (a) New Share(s) (and/or, as the case may be, Other Consideration), apply Condition 10(c)(ii)(1) (*New Share Method*) to replace the Affected Underlying Equity by a successor New Share.

For the avoidance of doubt, in the case where several New Shares have been exchanged therefor, the Calculation Agent shall select one of the New Shares (the “**Retained New Share**”) to replace the Affected Underlying Equity in the Basket. In such case, for the purposes of applying Condition 10(c)(ii)(1) (*New Share Method*), the non-retained New Shares shall be expressed as a number or fraction of a number of the Retained New Share as if they were Other Consideration; or

- (z) if the consideration for the Affected Underlying Equity does not consist of any New Share, the Calculation Agent shall apply Condition 10(c)(ii)(2) (*Substitution Method*) in order to substitute a Substitute Share for the Affected Underlying Equity in the Basket.

(2) Merger

Following the occurrence of a Merger:

- (x) if the consideration for the Affected Underlying Equity consists of a New Share (and/or, as the case may be, Other Consideration), the Calculation Agent shall apply Condition 10(c)(ii)(1) (*New Share Method*) in order to replace the Affected Underlying Equity by the successor New Share in the Basket; or
- (y) if the consideration for the Affected Underlying Equity does not consist of any New Share, the Calculation Agent shall apply Condition 10(c)(ii)(2) (*Substitution Method*) in order to substitute a Substitute Share to the Affected Underlying Equity in the Basket.

In the event of a Merger affecting two Equity Issuers comprised in the Basket, the Calculation Agent will select a Substitute Share to replace the absorbed Equity Issuer's Underlying Equity, as described above. The absorbing Equity Issuer's Underlying Equity (which is not an Affected Underlying Equity) shall not be removed from the Basket, *provided however*, that such Underlying Equity continues to satisfy the Selection Condition. If such is not the case, the Calculation Agent may also apply Condition 10(c)(ii)(2) (*Substitution Method*) in respect of the absorbing Equity Issuer.

(3) De-Merger

In the event any Share is subject to a De-Merger:

- (x) if the consideration for the Affected Underlying Equity consists of two or more New Shares (and as the case may be, Other Consideration), the Affected Underlying Equity will be replaced by a Basket comprising the New Shares resulting from such De-Merger (the "**De-Merger Basket**"), which shall be deemed to represent one Underlying Equity only in the Basket. The Reference Price to be taken into account by the Calculation Agent in respect of the Affected Underlying Equity for the determination of any Performance Rate of the Affected Underlying Equity after the Effective Date will be the arithmetic sum of the price of each of the New Shares comprising the De-Merger Basket on the relevant Exchange, as respectively weighted in accordance with the exchange parity used in the process of De-Merger. It is moreover understood that if the De-Merger also consists of Other Consideration, such Other Consideration shall be expressed as a number or fraction of number of one of the New Shares comprised in the De-Merger Basket, as selected by the Calculation Agent, and shall be taken into account in the abovementioned arithmetic sum;
- (y) if the consideration for the Affected Underlying Equity consists solely of one type of share qualifying as a New Share (and/or, as the case may be, Other Consideration), the Calculation Agent shall apply Condition 10(c)(ii)(1) (*New Share Method*) in order to replace the Affected Underlying Equity by the successor New Share in the Basket; or
- (z) if the consideration for the Affected Underlying Equity does not consist of any New Share, the Calculation Agent shall apply Condition 10(c)(ii)(2) (*Substitution Method*) in order to substitute a Substitute Share to the Affected Underlying Equity in the Basket.

(4) Stake Event

In the event of an Equity Issuer taking a stake exceeding 20% in another Equity Issuer (unless a Merger or a Take-Over Bid), and where the Underlying Equity of

the latter Equity Issuer are the Affected Underlying Equity in respect of such event, the Calculation Agent may:

- (x) keep such Affected Underlying Equity in the Basket, provided such Underlying Equity continues to satisfy the Selection Condition; or
- (y) apply Condition 10(c)(ii)(2) (*Substitution Method*) in order to substitute a Substitute Share to the Affected Underlying Equity in the Basket.

(5) Nationalisation, De-Listing

In case of occurrence of Nationalisation or De-Listing in respect of any Underlying Equity, the Calculation Agent may, whenever the Affected Underlying Equity no longer satisfies the Selection Condition, apply Condition 10(c)(ii)(2) (*Substitution Method*) in order to substitute a Substitute Share to the Affected Underlying Equity in the Basket.

(6) Similar events

In case of occurrence of any event similar to any event mentioned in Conditions 10(c)(iii)(1) (*Take-Over Bid*) to 10(c)(iii)(5) (*Nationalisation, De-Listing*) above, and which may result in the same type of effect on the Affected Underlying Equity, the Calculation Agent may apply the procedure that would be applied in case of occurrence of the event to which it is most similar.

(d) *Physical Settlement*

If Physical Settlement is specified to apply in the applicable Pricing Supplement, in order to obtain delivery of the Asset Amount(s) in respect of any Equity Linked Note:

- (A) if such Note is represented by a Global Note, the relevant Noteholder must deliver to Euroclear, Clearstream, Luxembourg, CDP, the Registrar or any Paying Agent with a copy to the Bank and not later than the close of business in each place of receipt on the Cut-Off Date, a duly completed Asset Transfer Notice; or
- (B) if such Note is in definitive form, the relevant Noteholder must deliver (i) if this Note is a Bearer Note, to any Paying Agent, or (ii) if this is a Registered Note, to the Registrar or any Paying Agent, in each case, with a copy to the Bank and not later than the close of business in each place of receipt on the Cut-Off Date, a duly completed Asset Transfer Notice (as defined below).

Forms of the Asset Transfer Notice may be obtained during normal business hours from the Specified Office of the Registrar or any Paying Agent.

An Asset Transfer Notice may only be delivered (i) if such Note is represented by a Global Note, in such manner as is acceptable to Euroclear, Clearstream, Luxembourg, CDP, the Registrar or any Paying Agent which is expected to be by authenticated SWIFT message or tested telex or (ii) if such Note is in definitive form, in writing or by tested telex.

If this Note is in definitive form, this Note must be delivered together with the duly completed Asset Transfer Notice.

Unless otherwise specified in the applicable Pricing Supplement, an Asset Transfer Notice must:

- (1) specify the name and address of the relevant Noteholder, the person from whom the Bank may obtain details for the delivery of the Asset Amount and any details required for delivery of the Asset Amount set out in the applicable Pricing Supplement;

- (2) specify the nominal amount of Notes which are the subject of such notice and the number of the Noteholder's account at Euroclear, Clearstream, Luxembourg, CDP or the Registrar, as the case may be, to be debited with such Notes and irrevocably instruct and authorise Euroclear, Clearstream, Luxembourg, CDP or the Registrar, as the case may be, to debit the relevant Noteholder's account with such Notes on or before the Delivery Date;
- (3) include an undertaking to pay all Delivery Expenses and, in the case of Notes represented by a Global Note, an authority to debit a specified account of the Noteholder at Euroclear, Clearstream, Luxembourg, CDP or the Registrar, in respect thereof and to pay such Delivery Expenses;
- (4) specify an account to which dividends (if any) payable pursuant to this Condition 10(d) or any other cash amounts specified in the applicable Pricing Supplement as being payable are to be paid; and
- (5) authorise the production of such notice in any applicable administrative or legal proceedings.

No Asset Transfer Notice may be withdrawn after receipt thereof by Euroclear, Clearstream, Luxembourg, CDP, the Registrar or a Paying Agent, as the case may be, as provided above. After delivery of an Asset Transfer Notice, the relevant Noteholder may not transfer the Notes which are the subject of such notice.

In the case of Notes represented by a Global Note, upon receipt of an Asset Transfer Notice, Euroclear, Clearstream, Luxembourg, CDP or the Registrar, as the case may be, shall verify that the person specified therein as the Noteholder is the holder of the specified nominal amount of Notes according to its books or other official records.

Failure to complete and deliver an Asset Transfer Notice properly may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided in this Condition 10(d) shall be made, in the case of Notes represented by a Global Note, by Euroclear, Clearstream, Luxembourg, CDP, the Registrar or any Paying Agent as the case may be, after consultation with the Bank and shall be conclusive and binding on the Bank and the relevant Noteholder and, in the case of Notes in definitive form, by the relevant Paying Agent or the Registrar, as the case may be, after consultation with the Bank, and shall be conclusive and binding on the Bank and the relevant Noteholder.

Delivery of the Asset Amount in respect of each Note shall be made on the Asset Amount Settlement Date (such date, subject to adjustment in accordance with this Condition 10, the "**Delivery Date**") at the risk of the relevant Noteholder in such commercially reasonable manner as the Calculation Agent shall in good faith determine and notify to the person designated by the Noteholder in the relevant Asset Transfer Notice or in such manner as is specified in the applicable Pricing Supplement. All Delivery Expenses arising from the delivery of the Asset Amount in respect of such Note shall be for the account of the relevant Noteholder and no delivery of the Asset Amount shall be made until all Delivery Expenses have been paid to the satisfaction of the Bank by the relevant Noteholder, provided that if any Delivery Expenses remain unpaid on or after the tenth Business Day after the Cut-off Date, the Bank may (at its discretion) in lieu of postponing the delivery of the Asset Amount, make such downward adjustment to the Asset Amount to be delivered to account for any Delivery Expenses which remain unpaid. The Bank shall not be obliged to make or procure any delivery if to do so would breach any applicable securities or other relevant laws.

After delivery of the Asset Amount and for the Intervening Period, none of the Bank, the Calculation Agent nor any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Noteholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities or obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations, or (iii) be under any liability to a Noteholder in respect of any loss or damage which such Noteholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities or obligations.

If a Noteholder fails to give an Asset Transfer Notice as provided herein with a copy to the Bank not later than the close of business in each place of receipt on the Cut-off Date specified in the applicable Pricing Supplement, then the Asset Amount will be delivered as soon as practicable after the Maturity Date (in which case, such date of delivery shall be the Delivery Date) at the risk of such Noteholder in the manner provided above. For the avoidance of doubt, in such circumstances, such Noteholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Delivery Date falling after the originally designated Delivery Date and no liability in respect thereof shall attach to the Bank.

If the relevant Noteholder fails on or before the date falling 45 calendar days after the Cut-off Date specified in the applicable Pricing Supplement (the "**Final Date**") (i) to deliver an Asset Transfer Notice in the manner set out herein, or (ii) in the case of Definitive Notes to deliver the Note related thereto, or (iii) to pay the Delivery Expenses, the Bank shall be discharged from its obligation (or, as the case may be, part thereof) in respect of such Note and shall have no further obligation or liability whatsoever in respect thereof.

If, prior to the delivery of the Asset Amount in respect of any Note in accordance with this Condition 10, a Settlement Disruption Event is subsisting, then the Delivery Date in respect of such Note shall be postponed until the date on which no Settlement Disruption Event is subsisting and notice thereof shall be given to the relevant Noteholder in accordance with Condition 23 (*Notices*). Such Noteholder shall not be entitled to any payment, whether of interest or otherwise, on such Note as a result of any delay in the delivery of the Asset Amount pursuant to this paragraph. Where delivery of the Asset Amount has been postponed as provided in this paragraph, the Bank shall not be in breach of these Conditions and no liability in respect thereof shall attach to the Bank.

For so long as delivery of the Asset Amount in respect of any Note is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Bank may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Disruption Cash Settlement Price not later than on the third Business Day following the date that the notice of such election (the "**Election Notice**") is given to the Noteholder in accordance with Condition 23 (*Notices*). Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Noteholder in accordance with Condition 23 (*Notices*).

For the purposes of the Notes, (i) the Bank shall be under no obligation to register or procure the registration of any Noteholder or any other person as the registered shareholder in the register of members of any Company, (ii) the Bank shall not be obliged to account to any Noteholder or any other person for any entitlement received or that is receivable in respect of any Underlying Equity comprising the Asset Amount in respect of any Note if the date on which the Underlying Equity is first traded on the relevant Exchange ex such entitlement is on or prior to the Delivery Date and (iii) any interest, dividend or other distribution in respect of any Asset Amount will be payable to the party that would

receive such interest, dividend or other distribution according to market practice for a sale of the relevant Underlying Equity executed on the Delivery Date and to be delivered in the same manner as the Asset Amount. Any such interest dividend or other distribution to be paid to a Noteholder shall be paid to the account specified in the relevant Asset Transfer Notice.

(e) *Failure to Deliver due to Illiquidity*

If Failure to Deliver due to Illiquidity is specified as applying in the applicable Pricing Supplement and, in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets comprising the Asset Amount (the “**Affected Relevant Assets**”), where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a “**Failure to Deliver**”), then:

- (i) subject as provided elsewhere in these Conditions and/or the applicable Pricing Supplement, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Delivery Date in accordance with Condition 10(d) (*Physical Settlement*); and
- (ii) in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof, the Bank may elect in its sole discretion, in lieu of delivery of the Affected Relevant Assets, to pay to the relevant Noteholder in respect of each Specified Amount the Failure to Deliver Settlement Price on the fifth Business Day following the date the Failure to Deliver Notice is given to the Noteholders in accordance with Condition 23 (*Notices*). Payment of the Failure to Deliver Settlement Price will be made in such manner as shall be notified to the Noteholders in accordance with Condition 23 (*Notices*). The Calculation Agent shall give notice (such notice a “**Failure to Deliver Notice**”) as soon as reasonably practicable to the Noteholders in accordance with Condition 23 (*Notices*) that the provisions of this Condition 10(e) apply.

(f) *Additional Disruption Events*

If Additional Disruption Events are specified as applicable in the applicable Pricing Supplement, then if an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the other terms of these Conditions, and/or the applicable Pricing Supplement to account for the Additional Disruption Event and determine the effective date of that adjustment; or
- (ii) give notice to the Noteholders and redeem all, but not some only, of the Notes at the Early Redemption Amount (Equity Linked).

In the case of any inconsistency between this Condition 11 and the rest of these Conditions, this Condition 11 will prevail.

(b) *Market Disruption Events and Correction of a Commodity Reference Price*

(i) *Market Disruption Events*

If the Calculation Agent determines in respect of any day in respect of which a Commodity Reference Price is to be determined (each a “**Commodity Valuation Date**”) that a Market Disruption Event has occurred or is occurring in respect of one or more Commodities, then the Calculation Agent shall determine the Level of the relevant Commodity or Commodities on such Commodity Valuation Date, at such time and in such manner, as it considers commercially reasonable in its sole and absolute discretion, acting in good faith.

If the Calculation Agent determines that on any Commodity Business Day a Market Disruption Event has occurred or is occurring, then the Calculation Agent shall determine if such Market Disruption Event has a material effect on the Notes and, if so, (I) the Calculation Agent may make such adjustments to any of these Conditions as it considers appropriate to account for any such Market Disruption Event and determine the date(s) on which any such adjustments will be effective; or (II) the Bank may give notice to the Noteholders in accordance with Condition 23 (*Notices*) and redeem all, but not some only, of the Notes, each Specified Amount being redeemed at the Early Redemption Amount (Commodity Linked) (determined in accordance with the applicable Pricing Supplement) in respect of each Note together with, if so specified in the applicable Pricing Supplement, accrued interest.

(ii) *Subsequent correction of a Commodity Reference Price*

If Correction of Commodity Reference Price is specified as applying in the applicable Pricing Supplement and the Commodity Reference Price of a Commodity in relation to a Commodity Valuation Date is subsequently corrected and such correction is published by the relevant Price Source no later than the second Commodity Business Day prior to the relevant Specified Interest Payment Date or the Maturity Date, as the case may be, and in any such case the Calculation Agent has notified the Bank within that time, then the Commodity Reference Price of that Commodity in respect of any such Commodity Valuation Date shall be the Commodity Reference Price of that Commodity as so corrected.

(iii) *Notification*

The Bank shall, as soon as reasonably practicable, notify the Noteholders of the existence or occurrence of a Market Disruption Event on any day that but for the occurrence or existence of a Market Disruption Event would have been a Commodity Valuation Date in accordance with Condition 23 (*Notices*).

If exactly three quotations are provided as requested, the price for that date will be the Specified Price provided by the relevant Reference Dealer that remains after disregarding the Specified Prices having the highest and lowest values. If fewer than three quotations are provided, it will be deemed that the price for the date cannot be determined.

 - (iii) it has become impracticable, illegal or impossible for the Bank to purchase, sell or otherwise deal (or to continue to do so) in the relevant shares or securities, or any options or futures contracts in relation to such shares or securities or such other property or asset, in order to perform its obligations under the Notes or in respect of any relevant hedging arrangements in connection with the Notes (whether such hedge is held directly by the Bank or indirectly through an affiliate) under the restriction or limitation of the existing or future law, rule, regulation, judgment, order, directive or decree of any Government Authority or otherwise; or
 - (iv) any other event beyond the control of the Bank has occurred which makes it impracticable, illegal or impossible for the Bank to perform its obligations under the Notes or to effectively hedge its obligations under the Notes (whether such hedge is held directly by the Bank or indirectly through an affiliate).

For the purposes of this Condition 14(f), "Government Authority" means any nation, state or government, any province or other political subdivision thereof, any body, agency or ministry, any taxing, monetary, foreign exchange or other authority, court, tribunal or other instrumentality and any other entity exercising, executive, legislative, judicial, regulatory or administrative functions of or pertaining to government.

- (h) *Redemption following Benchmark Event*: If "Benchmark Event – Early Redemption" is specified as applicable in the relevant Pricing Supplement, then if following the occurrence of a Benchmark Event (General), Benchmark Event (SOR) or SORA Index Cessation Event, as applicable:
- (i) if Condition 5(n)(i) or (ii) (*Benchmark Replacement (General)*), Condition 5(o) (*Benchmark Replacement (SOR)*) or Condition 5(p) (*Benchmark Replacement (SORA)*) applies, for so long as the Bank does not notify the Calculation Agent, the Issue and Paying Agent and the Noteholders a Successor Rate (General) or an Alternative Reference Rate (General) in accordance with Condition 5(n)(i) or (ii) (*Benchmark Replacement (General)*), a Successor Rate (SOR) or an Alternative Reference Rate (SOR) in accordance with Condition 5(o) (*Benchmark Replacement (SOR)*) or a Successor Rate (SORA) or an

Alternative Reference Rate (SORA) in accordance with Condition 5(p) (*Benchmark Replacement (SORA)*), as applicable;

- (iii) the Bank determines that an Adjustment Spread (General), an Adjustment Spread (SOR) or an Adjustment Spread (SORA), as applicable, is or would be a benchmark, index or other price source whose production, publication, methodology or governance would subject the Bank or the Calculation Agent to material additional regulatory obligations (such as the obligations for administrators under the EU Benchmark Regulation); or
- (iv) the Bank determines that having determined a Successor Rate (General) or an Alternative Reference Rate (General) (as the case may be) and an Adjustment Spread (General) (if any) in accordance with Condition 5(n) (*Benchmark Event (General)*), a Successor Rate (SOR) or an Alternative Reference Rate (SOR) (as the case may be) and an Adjustment Spread (SOR) (if any) in accordance with Condition 5(o) (*Benchmark Replacement (SOR)*) or a Successor Rate (SORA) or an Alternative Reference Rate (SORA) (as the case may be) and an Adjustment Spread (SORA) (if any) in accordance with Condition 5(p) (*Benchmark Replacement (SORA)*), as applicable, the adjustments provided for in Condition 5(n) (*Benchmark Event (General)*), Condition 5(o) (*Benchmark Replacement (SOR)*) or Condition 5(p) (*Benchmark Replacement (SORA)*), as applicable, would not achieve a commercially reasonable result for either the Bank or the Noteholders,

the Bank may give notice to the Noteholders as soon as practicable in accordance with Condition 23 (*Notices*) and the Bank shall redeem all, but not some only, of the Notes then outstanding on the Interest Payment Date immediately succeeding the date it provides such notice to Noteholders at the Early Redemption Amount in respect of each Note (together with interest accrued to (but excluding) the date fixed for redemption (without double counting)).

Words and expressions defined in Condition 5(n) (*Benchmark Event (General)*), Condition 5(o) (*Benchmark Replacement (SOR)*) or Condition 5(p) (*Benchmark Replacement (SORA)*) shall have the same meanings in this Condition 14(h).

 - (i) the Reference Price; and
 - (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the Pricing Supplement for the purposes of this Condition 14(i) or, if none is so specified, a Day Count Fraction of 30/360 on an unadjusted basis.

- (j) *Purchase*: The Bank or any of its Subsidiaries may at any time purchase Notes in the open market or otherwise and at any price, provided that all unmatured Coupons are purchased therewith. - (ii) in the case of RMB Notes cleared through CDP, inside Singapore or from an account inside Singapore to an account outside Singapore and outside the PRC or from an account outside Singapore and outside the PRC to an account inside Singapore, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation).

“Governmental Authority” means (in the case of RMB Notes cleared through Euroclear, Clearstream, Luxembourg and/or an alternative clearing system) any de facto or de jure government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of Hong Kong or (in the case of RMB Notes cleared through CDP) the Monetary Authority of Singapore or any other governmental authority or any other entity (private or public) charged with the regulation of the financial markets of Singapore; and

Notice of any such

modification shall be given to the Noteholders in accordance with Condition 23 (*Notices*), but failure to give, or non-receipt of, such Notice, shall not affect the validity of such modifications.

Additionally, certain provisions of these Conditions that may be applicable to a particular series of Notes (including, but not limited to, Conditions 8(p)(vi) (*Calculation Agent*) and 8(s) (*Adherence to ISDA Protocols in Relation to Alternative Settlement or Valuation Method*)) provide that the relevant Notes or these Conditions may be amended without the consent of the Noteholders.

Couponholders shall be deemed for all purposes to have notice to the contents of any notice given to the holders of Bearer Notes in accordance with this Condition 23 (*Notices*).

- (b) *Notice of redenomination*: If the country of the Specified Currency becomes or, announces its intention to become, a Participating Member State, the Bank may, without the consent of the Noteholders and Couponholders, on giving at least 30 days' prior notice to the Noteholders, the Paying Agents and the Registrar, designate a date (the "**Redenomination Date**") being an Interest Payment Date under the Notes falling on or after the date on which such country becomes a Participating Member State.
- (c) *Redenomination*: Notwithstanding the other provisions of these Conditions, with effect from the Redenomination Date:
- (i) the Notes shall be deemed to be redenominated into euro in the denomination of euro 0.01 with a principal amount for each Note equal to the principal amount of that Note in the Specified Currency, converted into euro at the rate for conversion of such currency into euro established by the Council of the European Union pursuant to the Treaty (including compliance with rules relating to rounding in accordance with European Community regulations); *provided however*, that, if the Bank determines, with the agreement of the Issue and Paying Agent then market practice in respect of the redenomination into euro 0.01 of internationally offered securities is different from that specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Bank shall promptly notify the Noteholders and Couponholders, each listing authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation and the Paying Agents of such deemed amendments;
 - (ii) if Notes have been issued in definitive form:
 - (A) all unmatured Coupons denominated in the Specified Currency (whether or not attached to the Notes) will become void with effect from the date (the "**Euro Exchange Date**") on which the Bank gives notice (the "**Euro Exchange Notice**") to the Noteholders that replacement Notes and Coupons denominated in euro are available for exchange (provided that such Notes and Coupons are available) and no payments will be made in respect thereof;
 - (B) the payment obligations contained in all Notes denominated in the Specified Currency will become void on the Euro Exchange Date but all other obligations of the Bank thereunder (including the obligation to exchange such Notes in accordance with this Condition 25) shall remain in full force and effect;
 - (C) new Notes and Coupons denominated in euro will be issued in exchange for Notes and Coupons denominated in the Specified Currency in such manner as the Issue and Paying Agent may specify and as shall be notified to the Noteholders in the Euro Exchange Notice; and
 - (iii) all payments in respect of the Notes (other than, unless the Redenomination Date is on or after such date as the Specified Currency ceases to be a sub-division of the euro, payments of interest in the respect of periods commencing before the Redenomination Date) will be made solely in euro by cheque drawn on, or by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) maintained by the payee with, a bank in the principal financial centre of any Member State of the European Communities.

- (d) *Interest*: Following redenomination of the Notes pursuant to this Condition 25, where Notes have been issued in definitive form, the amount of interest due in respect of the Notes will be calculated by reference to the aggregate principal amount of the Notes presented (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant holder.
- (e) *Interest Determination Date*: If the Floating Rate Note Provisions are specified in the relevant Pricing Supplement as being applicable and Screen Rate Determination is specified in the relevant Pricing Supplement as the manner in which the Rate(s) of Interest is/are to be determined, with effect from the Redenomination Date, unless otherwise provided for in the applicable Pricing Supplement, the Interest Determination Date shall be deemed to be the second TARGET Settlement Day before the first day of the relevant Interest Period.

- (b) *Jurisdiction*: The Courts of England are to have non-exclusive jurisdiction to settle any disputes that may arise out of or in connection with any Notes, Receipts, Coupons or Talons and accordingly any legal action or proceedings arising out of or in connection with any Notes, Receipts, Coupons or Talons (“**Proceedings**”) may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of the Courts of England and waives any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum.
- (c) *Service of process*: The Bank agrees that the process by which any Proceedings in England are begun may be served on it by being delivered to it at its branch in England or at any other address of the Bank in the United Kingdom at which service of process may be served on it in accordance with section 1139 of the Companies Act 2006. Nothing in this paragraph shall affect the right of any Noteholder to serve process in any other manner permitted by law.
- (d) *Non-exclusivity*: The submission to the jurisdiction of the Courts of England shall not (and shall not be construed so as to) limit the right of any Noteholder to take Proceedings in any other court of competent jurisdiction, nor shall the taking of Proceedings in any one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not) if and to the extent permitted by law.

27 Severability

Should any of the provisions contained in these Conditions be or become invalid, the validity of the remaining provisions shall not be affected in any way.

28 Contractual Recognition of Stay in Resolution

SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Accountholders

Each Global Note will be in bearer form and each Registered Global Note will be in registered form and will be evidenced by a Global Note Certificate. In relation to any Tranche of Notes which is cleared through a clearing system and represented by a Global Note and/or Registered Global Note, references in the Conditions to “Noteholder” are references to the holder of the relevant Global Note and/or the relevant Registered Global Note which, for so long as the Global Note and/or the Registered Global Note is held by a depository or a common depository for, or registered in the name of a common nominee or any other nominee of, Euroclear and/or Clearstream, Luxembourg and/or CDP and/or any other relevant clearing system, will be that depository or common depository or common nominee or nominee, as the case may be. In relation to any Tranche of Notes which is not cleared through any clearing system and represented by a Registered Global Note and so long as such Registered Global Note is registered in the name of United Overseas Bank Limited or its nominee, acting in its capacity as Registrar and Transfer Agent, references in the Conditions to “Noteholder” are references to each person (other than United Overseas Bank Limited) who is for the time being shown in the records of United Overseas Bank Limited as the holder of a particular principal amount of such Notes (each, a “**Relevant Accountholder**” and in which regard any statement of accounts, certificate or other document issued by United Overseas Bank Limited, acting in its capacity as Registrar and Transfer Agent, as to the principal amount of Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be deemed to be and shall be treated by the Bank and its agents as the holder of such principal amount of Notes for all purposes.

Exchange of Temporary Global Notes

Whenever any interest on a Temporary Global Note is to be exchanged for an interest in a Permanent Global Note and/or (if so specified in the relevant Pricing Supplement) a Registered Note, the Bank shall procure:

- (a) in the case of first exchange, the prompt delivery (free of charge to the bearer) of such Permanent Global Note and/or Registered Note, duly authenticated, to the bearer of the Temporary Global Note; or
- (b) in the case of any subsequent exchange, an increase in the principal amount of such Permanent Global Note and/or Registered Note in accordance with its terms,

in each case in an aggregate principal amount equal to the aggregate of the principal amounts specified in the certificates issued by Euroclear and/or Clearstream, Luxembourg and/or CDP and/or any other relevant clearing system and received by the Issue and Paying Agent and/or Registrar against presentation and (in the case of final exchange) surrender of the Temporary Global Note at the Specified Office of the Issue and Paying Agent within seven days of the bearer requesting such exchange.

Whenever a Temporary Global Note is to be exchanged for a Definitive Note and/or (if so specified in the relevant Pricing Supplement) a Registered Note, the Bank shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes and/or Registered Notes, duly authenticated (in the case of Definitive Notes) and with Coupons and Talons attached (if so specified in the relevant Pricing Supplement), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note at the Specified Office of the Issue and Paying Agent within 30 days of the bearer requesting such exchange.

If:

- (a) a Permanent Global Note and/or Registered Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (Singapore time) on the seventh day after the bearer of a Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note and/or Registered Note; or

- (b) Definitive Notes and/or a Registered Note have not been delivered by 5.00 p.m. (Singapore time) on the thirtieth day after the bearer of a Temporary Global Note has requested exchange of the Temporary Global Note for Definitive Notes and/or a Registered Note; or
- (c) a Temporary Global Note (or any part thereof) has become due and payable in accordance with the Conditions or the dates for final redemption of a Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the temporary Global Note (including the obligation to deliver a Permanent Global Note and/or any Registered Note or increase the principal amount thereof or deliver Definitive Notes and/or any Registered Note, as the case may be) will become void at 5.00 p.m. (Singapore time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (Singapore time) on such thirtieth day (in the case of (b) above) or at 5.00 p.m. (Singapore time) on such due date (in the case of (c) above) and the bearer of the Temporary Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Note or others may have under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or CDP and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note will acquire directly against the Bank all those rights to which they would have been entitled if, immediately before the Temporary Global Note became void, they had been the holders of Definitive Notes and/or Registered Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or CDP and/or any other relevant clearing system.

Exchange of Permanent Global Notes

Whenever a Permanent Global Note is to be exchanged for Definitive Notes and/or (if so specified in the relevant Pricing Supplement) a Registered Note, the Bank shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and (in the case of Definitive Notes) with Coupons and Talons attached (if so specified in the relevant Pricing Supplement), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of Permanent Global Note at the Specified Office of the Issue and Paying Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes and/or a Registered Note have not been delivered by 5.00 p.m. (Singapore time) on the thirtieth day after the bearer of a Permanent Global Note for Definitive Notes and/or a Registered Note; or
- (b) a Permanent Global Note (or any part of it) has become due and payable in accordance with the Conditions or the date for the final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Permanent Global Note in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes and/or any Registered Note) will become void at 5.00 p.m. (Singapore time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (Singapore time) on such due date (in the case of (b) above) and the bearer of the Permanent Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or CDP and/or any other relevant clearing system as being entitled to an interest in a Permanent Global Note will acquire directly against the Bank all those rights to which they would have been entitled if, immediately before the Permanent Global Note became void, they had been the holders of Definitive Notes and/or Registered Notes in an aggregate principal amount equal to the principal amount of Notes

they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or CDP and/or any other relevant clearing system.

Electronic Consent and Written Resolution

While any Global Note or Registered Global Note is held on behalf of, or is registered in the name of any nominee for, a clearing system, then:

Any resolution passed in such manner shall be binding on all Noteholders and holders of Coupons, Talons and Receipts, even if the relevant consent or instruction proves to be defective; and
- (b) where Electronic Consent is not being sought, for the purpose of determining whether a Written Resolution (as defined in the Agency Agreement) has been validly passed, the Bank shall be entitled to rely on consent or instructions given in writing directly to the Bank (1) by accountholders in the clearing system with entitlements to such Global Note or Registered Global Note or, (2) where the accountholders hold any such entitlement on behalf of another person, on written consent from or written instruction by the person identified by that accountholder as the person for whom such entitlement is held. For the purpose of establishing the entitlement to give any such consent or instruction, the Bank shall be entitled to rely on any certificate or other document issued by, in the case of (1) above, the Relevant Clearing System and in the case of (2) above, the Relevant Clearing System and the accountholder identified by the Relevant Clearing System for the purposes of (2) above. Any resolution passed in such manner shall be binding on all Noteholders and holders of Coupons, Talons and Receipts, even if the relevant consent or instruction proves to be defective. As used in this paragraph, "commercially reasonable evidence" includes any certificate or other document issued by Euroclear, Clearstream, Luxembourg or any other relevant clearing system, or issued by an accountholder of them or an intermediary in a holding chain, in relation to the holding of interests in the Notes. Any such certificate or other document shall be conclusive and binding for all purposes. Any such certificate or other document may comprise any form of statement or print out of electronic records provided by the Relevant Clearing System (including Euroclear's EUCLID or Clearstream, Luxembourg's CreationOnline system) in accordance with its usual procedures and in which the accountholder of a particular principal or nominal amount of the Notes is clearly identified together with the amount of such holding. Notes that are initially deposited with the common depository Euroclear and Clearstream, Luxembourg may also be credited to the accounts of subscribers with (if indicated in the relevant Pricing Supplement) other clearing systems through direct or indirect accounts with Euroclear and Clearstream, Luxembourg held by such other clearing systems. Conversely, Notes that are initially deposited with any other clearing system may similarly be credited to the accounts of subscribers with Euroclear, Clearstream, Luxembourg or other clearing systems.

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note and/or Global Note Certificate (each an “**Accountholder**”) must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder’s share of each payment made by the Bank to the holder of such Global Note and/or Global Note Certificate and in relation to all other rights arising under the Global Note and/or Global Note Certificate. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note and/or Global Note Certificate will be determined by the respective rules and procedures of Euroclear, Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by the Global Note and/or Global Note Certificate, Accountholders shall have no claim directly against the Bank in respect of payment due under the Notes and such obligations of the Bank will be discharged by payment to the holder of the Global Note and/or Global Note Certificate.

Clearance and Settlement under the Depository System

In respect of Notes which are accepted for clearance by CDP in Singapore, clearance will be effected through an electronic book-entry clearance and settlement system for the trading of debt securities (“**Depository System**”) maintained by CDP.

CDP, a wholly-owned subsidiary of Singapore Exchange Limited, is incorporated under the laws of Singapore and acts as a depository and clearing organisation. CDP holds securities for its accountholders and facilitates the clearance and settlement of securities transactions between accountholders through electronic book-entry changes in the securities accounts maintained by such accountholders with CDP.

In respect of Notes which are accepted for clearance by CDP, the entire issue of the Notes is to be held by CDP in the form of a global note for persons holding the Notes in securities accounts with CDP (“**Depositors**”). Delivery and transfer of Notes between Depositors is by electronic book-entries in the records of CDP only, as reflected in the securities accounts of Depositors. Although CDP encourages settlement on the third business day following the trade date of debt securities, market participants may mutually agree on a different settlement period if necessary.

Settlement of over-the-counter trades in the Notes through the Depository System may only be effected through certain corporate depositories (“**Depository Agents**”) approved by CDP under the Companies Act to maintain securities sub-accounts and to hold the Notes in such securities sub-accounts for themselves and their clients. Accordingly, Notes for which trade settlement is to be effected through the Depository System must be held in securities sub-accounts with Depository Agents. Depositors holding the Notes in direct securities accounts with CDP, and who wish to trade such Notes through the Depository System, must transfer the Notes to be traded from such direct securities accounts to a securities sub-account with a Depository Agent for trade settlement.

CDP is not involved in money settlement between Depository Agents (or any other persons) as CDP is not a counterparty in the settlement of trades of debt securities. However, CDP will make payment of interest and repayment of principal on behalf of issuers of debt securities.

Although CDP has established procedures to facilitate transfer of interest in the Notes in global form among Depositors, it is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the Bank, the Issue and Paying Agent or any other agent will have the responsibility for the performance by CDP of its obligations under the rules and procedures governing its operations.

Notes outside clearing systems

The Notes may also not be cleared through a clearing system.

Where the Bank issues Notes directly to investors, the Registered Global Note representing such Notes will be registered in the name of United Overseas Bank Limited or its nominee, in its capacity as Registrar and Transfer Agent. For so long as any such Notes is represented by a Registered Global Note and the Registered Global Note is held by United Overseas Bank Limited or its nominee, acting in its capacity as Registrar and Transfer Agent, each person (other than United Overseas Bank Limited) who is for the time being shown in the records of United Overseas Bank Limited as the holder of a particular principal amount of such Notes (each, a “**Relevant Accountholder**” and in which regard any statement of accounts, certificate or other document issued by United Overseas Bank Limited, acting in its capacity as Registrar and Transfer Agent, as to the principal amount of Notes standing to the credit of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be deemed to be and shall be treated by the Bank and its agents as the holder of such principal amount of Notes for all purposes, and the expressions “Noteholder” and “holder of Notes” and related expressions shall be construed accordingly.

Notes may be accelerated by a Relevant Accountholder in certain circumstances described in Condition 17 (*Events of Default*). In such circumstances, where Notes are still represented by a Registered Global Note and the Registered Global Note (or any part thereof) has become due and repayable in accordance with the Conditions and payment in full of the amount due has not been made in accordance with the provisions of the Registered Global Note, then holders of interests in such Registered Global Note credited to their accounts with United Overseas Bank Limited, acting in its capacity as the Registrar and Transfer Agent, will become entitled to proceed directly against the Bank on the basis of statements of account provided by United Overseas Bank Limited, acting in its capacity as the Registrar and Transfer Agent, on and subject to the terms of the UOB Deed of Covenant.

BUY BACK ARRANGEMENTS

The Issuer intends, but is under no obligation, to buy back Notes. In this capacity, it intends to use reasonable efforts to quote a price at which it is willing to purchase Notes. The prices quoted by the Issuer will be by reference to one Note. Prices quoted by the Issuer will be determined by the Issuer in its absolute discretion. Such prices, and the trading value of Notes, may be equal to, higher or lower than the Issue Price (as specified in the applicable Pricing Supplement) of such Notes, and will vary depending on many factors.

These buy back arrangements are on a reasonable efforts basis and do not assure liquidity for Notes. There can be no assurance that the Issuer will buy back Notes or, if it does so, that it will continue to do so. Accordingly, there can be no assurance that investors will have access to a firm buy back price for Notes in a principal amount which investors may wish to sell.

TAXATION

The statements below are of a general nature and are based on certain aspects of current tax laws in Singapore and administrative guidelines and circulars issued by the MAS in force as at the date of this Offering Circular and are subject to any changes in such laws or administrative guidelines or circular or the interpretation of those laws or guidelines or circular occurring after such date, which changes could be made on a retroactive basis, including amendments to the Income Tax (Qualifying Debt Securities) Regulations to include the conditions for the income tax and withholding tax exemptions under the qualifying debt securities (“QDS”) scheme for early redemption fee (as defined in the ITA) and redemption premium (as such term has been amended by the ITA). It should be noted that as of the date of this Offering Circular, the Income Tax (Qualifying Debt Securities) Regulations have not been amended to reflect the amendments made to the ITA in respect of the QDS scheme pursuant to the Income Tax (Amendment) Act 2023. Neither these statements nor any other statements in this Offering Circular are intended or are to be regarded as advice on the tax position of any holder of the Notes or of any person acquiring, selling or otherwise dealing with the Notes or on any tax implications arising from the acquisition, sale or other dealings in respect of the Notes. The statements made herein do not purport to be a comprehensive or exhaustive description of all the tax considerations that may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and do not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or financial institutions in Singapore which have been granted the relevant Financial Sector Incentive(s)) may be subject to special rules or tax rates. Prospective holders of the Notes are advised to consult their own professional tax advisers as to the Singapore or other tax consequences of the acquisition, ownership of or disposal of the Notes, including, in particular, the effect of any foreign, state or local tax laws to which they are subject. It is emphasised that none of the Issuer, the Arranger, the Dealer or any other persons involved in the Programme accepts responsibility for any tax effects or liabilities resulting from the subscription for, purchase, holding or disposal of the Notes.

Interest and Other Payments

Subject to the following paragraphs, under Section 12(6) of the Income Tax Act 1947 of Singapore (the “ITA”), the following payments are deemed to be derived from Singapore:

- (a) any interest, commission, fee or any other payment in connection with any loan or indebtedness or with any arrangement, management, guarantee, or service relating to any loan or indebtedness which is (i) borne, directly or indirectly, by a person resident in Singapore or a permanent establishment in Singapore (except in respect of any business carried on outside Singapore through a permanent establishment outside Singapore or any immovable property situated outside Singapore) or (ii) deductible against any income accruing in or derived from Singapore; or
- (b) any income derived from loans where the funds provided by such loans are brought into or used in Singapore.

Such payments, where made to a person not known to the paying party to be a resident in Singapore for tax purposes, are generally subject to withholding tax in Singapore. The rate at which tax is to be withheld for such payments (other than those subject to the 15 per cent final withholding tax described below) to non-resident persons (other than non-resident individuals) is currently 17 per cent. The applicable rate for non-resident individuals is currently 24 per cent. However, if the payment is derived by a person not resident in Singapore otherwise than from any trade, business, profession or vocation carried on or exercised by such person in Singapore and is not effectively connected with any permanent establishment in Singapore of that person, the payment is subject to a final withholding tax of 15 per cent. The rate of 15 per cent. may be reduced by applicable tax treaties.

However, certain Singapore-sourced investment income derived by individuals from financial instruments is exempt from tax, including

- (a) interest;
- (b) discount income (not including discount income arising from secondary trading); and
- (c) early redemption fee and redemption premium from debt securities,

except where such income is derived through a partnership in Singapore or is derived from the carrying on of a trade, business or profession.

Withholding Tax Exemption on Qualifying Payments by Specified Entities

Pursuant to Section 45I of the ITA, payments of income which are deemed under Section 12(6) of the ITA to be derived from Singapore and which are made by a specified entity shall be exempt from withholding tax if such payments are liable to be made by such specified entity for the purpose of its trade or business under a debt security which is issued during the period from 17 February 2012 to 31 March 2021 (both dates inclusive). Notwithstanding the above, permanent establishments in Singapore of non-resident persons are required to declare such payments in their annual income tax returns and will be assessed to tax on such payments (unless specifically exempt from tax). A specified entity includes a bank or merchant bank licensed under the Banking Act 1970 of Singapore.

Qualifying Debt Securities Scheme

As the Programme as a whole is arranged by United Overseas Bank Limited, which was a Financial Sector Incentive (Bond Market) Company (as defined in the ITA) prior to 1 January 2014 and is a Financial Sector Incentive (Capital Market) Company or Financial Sector Incentive (Standard Tier) Company (as defined in the ITA) on or after 1 January 2014 and is a Specified Licensed Entity (as defined below), any tranche of the Notes which are debt securities issued or to be issued under the Programme from the date of this Offering Circular to 31 December 2028 (the “**Relevant Notes**”) would be qualifying debt securities (“**QDS**”) for the purposes of the ITA, to which the following treatments shall apply:

- (a) subject to certain prescribed conditions having been fulfilled (including the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities in respect of the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require, and the inclusion by the Issuer in all offering documents relating to the Relevant Notes of a statement to the effect that where interest, discount income, early redemption fee or redemption premium from the Relevant Notes is derived by a person who is not resident in Singapore and who carries on any operation in Singapore through a permanent establishment in Singapore, the tax exemption for QDS shall not apply if the non-resident person acquires the Relevant Notes using the funds and profits of such person’s operations through the Singapore permanent establishment), interest, discount income (not including discount income arising from secondary trading), early redemption fee and redemption premium (collectively, the “**Specified Income**”) from the Relevant Notes, derived by a holder who is not resident in Singapore and who (i) does not have any permanent establishment in Singapore or (ii) carries on any operation in Singapore through a permanent establishment in Singapore but the funds used by that person to acquire the Relevant Notes are not obtained from such person’s operations through a permanent establishment in Singapore, are exempt from Singapore income tax;
- (b) subject to certain conditions having been fulfilled (including the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities in respect of the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require), Specified Income from the Relevant Notes derived by any company or body of persons (as defined in the ITA) in Singapore is subject to income tax at a concessionary rate of 10 per cent. (except for holders of the relevant Financial Sector Incentive(s) who may be taxed at different rates); and

- (c) subject to:
- (i) the Issuer including in all offering documents relating to the Relevant Notes a statement to the effect that any person whose interest, discount income, early redemption fee or redemption premium (i.e. the Specified Income) derived from the Relevant Notes is not exempt from tax shall include such income in a return of income made under the ITA; and
 - (ii) the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities in respect of the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require,

payments of Specified Income derived from the Relevant Notes are not subject to withholding of tax by the Issuer.

The term “**Specified Licensed Entity**” means any of the following persons:

- (a) a bank or merchant bank licensed under the Banking Act 1970 of Singapore;
- (b) a finance company licensed under the Finance Companies Act 1967 of Singapore;
- (c) a person who holds a capital markets services licence under the Securities and Futures Act 2001 of Singapore to carry on a business in any of the following regulated activities: advising on corporate finance or dealing in capital markets products.

Notwithstanding the foregoing:

- (i) if during the primary launch of any tranche of Relevant Notes, the Relevant Notes of such tranche are issued to less than four persons and 50 per cent. or more of the issue of such Relevant Notes is beneficially held or funded, directly or indirectly, by related parties of the Issuer, such Relevant Notes would not qualify as QDS; and
- (ii) even though a particular tranche of Relevant Notes are QDS, if, at any time during the tenure of such tranche of Relevant Notes, 50 per cent. or more of such Relevant Notes which are outstanding at any time during the life of their issue is beneficially held or funded, directly or indirectly, by any related party(ies) of the Issuer, Specified Income derived from such Relevant Notes held by:-
 - (1) any related party of the Issuer; or
 - (2) any other person where the funds used by such person to acquire such Relevant Notes are obtained, directly or indirectly, from any related party of the Issuer,

shall not be eligible for the tax exemption or the concessionary rate of tax described above.

The term “**related party**”, in relation to a person (A), means any person (a) who directly or indirectly controls A; (b) who is being controlled directly or indirectly by A; or (c) who, together with A, is directly or indirectly under the control of a common person.

The terms “**early redemption fee**” and “**redemption premium**” are defined in the ITA as follows:

“early redemption fee”, in relation to debt securities and QDS, means any fee payable by the issuer of the securities on the early redemption of the securities; and

“redemption premium”, in relation to debt securities and QDS, means any premium payable by the issuer of the securities on the redemption of the securities upon their maturity or on the early redemption of the securities.

References to “early redemption fee” and “redemption premium” in this Singapore tax disclosure have the same meaning as defined in the ITA.

Where interest, discount income, early redemption fee or redemption premium (i.e. the Specified Income) is derived from any of the Relevant Notes by any person who is not resident in Singapore and who carries on any operations in Singapore through a permanent establishment in Singapore, the tax exemption available for QDS under the ITA (as mentioned above) shall not apply if such person acquires such Relevant Notes using the funds and profits of such person's operations through a permanent establishment in Singapore. Any person whose interest, discount income, early redemption fee or redemption premium derived from the Relevant Notes is not exempt from tax (including for the reasons described above) is required to include such income in a return of income made under the ITA.

Capital Gains

Any gains considered to be in the nature of capital made from the sale of the Notes will not be taxable in Singapore. However, any gains derived by any person from the sale of the Notes as part of a trade or business carried on by that person in Singapore, may be taxable as such gains are considered revenue in nature.

Holders of the Notes who apply or who are required to apply Singapore Financial Reporting Standard 109 – Financial Instruments ("**FRS 109**") or Singapore Financial Reporting Standard (International) 9 ("**SFRS(I) 9**") (as the case may be) for Singapore income tax purposes may be required to recognise gains or losses (not being gains or losses in the nature of capital) for tax purposes in accordance with the provisions of FRS 109 or SFRS(I) 9 (as the case may be) (as modified by the applicable provisions of Singapore income tax law) even though no sale or disposal of the Notes is made. See also "Adoption of FRS 109 or SFRS(I) 9 for Singapore Income Tax Purposes".

Adoption of FRS 109 or SFRS(I) 9 for Singapore Income Tax Purposes

Section 34AA of the ITA requires taxpayers who comply or who are required to comply with FRS 109 or SFRS(I) 9 for financial reporting purposes to calculate their profit, loss or expense for Singapore income tax purposes in respect of financial instruments in accordance with FRS 109 or SFRS(I) 9 (as the case may be), subject to certain exceptions. The Inland Revenue Authority of Singapore has also issued a circular entitled "Income Tax: Income Tax Treatment Arising from Adoption of FRS 109 – Financial Instruments".

Holders of the Notes who may be subject to the tax treatment under Section 34AA of the ITA should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding or disposal of the Notes.

Estate Duty

Singapore estate duty has been abolished with respect to all deaths occurring on or after 15 February 2008.

SUBSCRIPTION AND SALE

Notes may be sold from time to time by the Bank to the dealers appointed pursuant to the Dealer Agreement (as defined below) either generally or in relation to a particular Tranche of Notes (the “**Dealers**”). The arrangements under which Notes may from time to time be agreed to be sold by the Bank to, and purchased by, Dealers are set out in an amended and restated dealer agreement dated 7 December 2012 as further amended and restated by a second amended and restated dealer agreement dated 14 November 2014, as further amended and restated by a third amended and restated dealer agreement dated 5 May 2021 and as further amended and restated by a fourth amended and restated dealer agreement dated 25 October 2024 (the “**Dealer Agreement**”) made between the Bank and the Dealers which replaces the dealer agreement dated 2 September 2002 as supplemented by the first supplemental dealer agreement dated 17 February 2006. The Dealer Agreement also makes provision for the resignation or termination of appointment of the existing Dealer and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes. Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be purchased by the relevant Dealer(s) and the commissions or other agreed deductibles (if any) payable or allowable by the Bank in respect of such purchase.

The Bank may, at its discretion, choose not to sell any Series of Notes to any Dealers and instead, offer and issue Notes directly to investors. In such cases, the Registered Global Note representing such Notes will be registered in the name of United Overseas Bank Limited or its nominee, in its capacity as Registrar and Transfer Agent. Investors in such Notes are required to hold a securities account with United Overseas Bank Limited, which will be subject to its standard terms and conditions.

Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act (“**Regulation S**”).

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder.

The Bank has represented, warranted and undertaken that neither they nor any of their respective affiliates (including any person acting on behalf of the Bank or any of their respective affiliates) has offered or sold, or will offer or sell, any Notes in any circumstances which would require the registration of any of the Notes under the Securities Act and, in particular, that:

Terms used above have the meanings given to them by Regulation S.”

Each Dealer which has purchased Notes in accordance with the Dealer Agreement shall determine and certify to the Issue and Paying Agent or the Bank the completion of the distribution of the Notes of such Tranche purchased by it. In the case of an agreement between the Bank and more than one Dealer for the issue by the Bank and the purchase by such Dealer(s) of any Notes, the Issue and Paying Agent or the Bank shall notify each Relevant Dealer when all Relevant Dealers have certified as provided in this paragraph.

Each Dealer will represent that it has not entered and will agree that it will not enter into any contractual arrangement with any distributor (as that term is defined in Regulation S) with respect to the distribution or delivery of the Notes, except with its affiliates or with the prior written consent of the Bank.

who is within the United States or its possessions or to a United States person, except as permitted by the TEFRA D Rules; and

- (c) *Additional provision if United States person*: if it is a United States person, it is acquiring the Notes for the purposes of resale in connection with their original issuance and, if it retains Notes for its own account, it will only do so in accordance with the requirements of United States Treasury Regulation §1.163-5(c)(2)(i)(D)(6) (or any successor rules for the purposes of Section 4701 of the Code),

Index-, commodity-, interest-, equity-, credit-, fund- or currency-linked Notes

Each issuance of index-, commodity-, interest-, equity-, credit-, fund-, or currency-linked Notes shall be subject to such additional U.S. selling restrictions as the relevant Dealer(s) shall agree with the Bank as a term of the issuance and purchase or, as the case may be, subscription of such Notes. Each Dealer has agreed that it shall offer, sell and deliver such Notes only in compliance with such additional U.S. selling restrictions.

Prohibition of Sales to EEA Retail Investors

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Offering Circular as completed by the applicable Pricing Supplement in relation thereto to any retail investor in the EEA.
