At 31 March 2015	2,971,929	(376,426)	2,595,503

1(d)(ii) Details of any changes in the company's share capital arising from rights issue, bonus issue, share buy-backs, exercise of share options or warrants, conversion of other issues of equity securities, issue of shares for cash or as consideration for acquisition or for any other purpose since the end of the previous period reported on. State also the number of shares that may be issued on conversion of all the outstanding convertibles, as well as the number of shares held as treasury shares, if any, against the total number of issued shares excluding treasury shares of the issuer, as at the end of the current financial period reported on and as at the end of the corresponding period of the immediately preceding financial year.

There has been no change to the Company's share capital since 31 December 2015. The Company had 2,181,144,730 ordinary shares as at 31 December 2015 and 31 March 2016, and did not have any outstanding options, convertible securities or treasury shares as at 31 March 2015 and 31 March 2016.

- 1(d)(iii) To show the total number of issued shares excluding treasury shares as at the end of the current financial period and as at the end of the immediately preceding year.**

	As at 31 March 2016	As at 30 June 2015
Number of issued shares	2,181,144,730	2,181,144,730

The Company did not have any treasury shares as at 31 March 2016 and as at 30 June 2015.

- 1(d)(iv) A statement showing all sales, transfers, disposal, cancellation and/or use of treasury shares as at the end of the current financial period reported on.**

Not applicable. The Company does not have any treasury shares during and as at the end of the current financial period reported on.

- 2. Whether the figures have been audited or reviewed and in accordance with which auditing standard or practice.**

The figures have not been audited nor reviewed by the auditors.

- 3. Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of a matter).**

Not applicable. The figures have not been audited nor reviewed by the auditors.

- 4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.**

The Group and the Company have applied the same accounting policies and methods of computations in the financial statements for the current reporting period, as compared to the Company's most recently audited financial statements for the financial year ended 30 June 2015.

- 5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.**

Not applicable.

- 6. Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends.**

**(a) Based on the weighted average number of ordinary shares on issue; and
(b) On a fully diluted basis (detailing any adjustments made to the earnings).**

	Group	
	9MFY16	9MFY15
Earnings/(loss) per ordinary share for the period based on net loss attributable to shareholders:		
(a) Basic earnings/(loss) per share (Rp)	(14.46)	(11.97)
- Basic earnings/(loss) per share (S\$ cents)	(0.15)	(0.13)
Weighted average number of shares	2,181,144,730	2,181,144,730
(b) On a fully diluted basis (Rp)	(14.46)	(11.97)
- On a fully diluted basis (S\$ cents)	(0.15)	(0.13)

For both 9MFY15 and 9MFY16, the weighted average number of shares for the financial periods was determined based on the total number of shares as there's no change in the number of shares during the financial periods, being 2,181,144,730 shares as at 31 March 2015 and 31 March 2016.

The diluted loss per share are the same as the basic loss per share for both 9MFY15 and 9MFY16 as there were no outstanding convertible securities for the financial periods ended 31 March 2015 and 31 March 2016.

For illustration purposes, the basic loss per share and diluted loss per share in Rp are converted to S\$ cents using the average rate of S\$ 1: Rp 9,792.71 for 9MFY16 (9MFY15: S\$ 1: Rp 9,432.36).

- 7. Net asset value (for the issuer and group) per ordinary share based on the total number of issued shares excluding treasury shares of the issuer at the end of the:-**
(a) current financial period reported on; and
(b) immediately preceding financial year.

	Group		Company	
	31 March 2016	30 June 2015	31 March 2016	30 June 2015
Net asset value (Rp million)	276,279	307,814	2,587,694	2,605,562
Number of shares at the end of the period	2,181,144,730	2,181,144,730	2,181,144,730	2,181,144,730
Net asset value per share (Rp)	126.67	141.12	1,186.39	1,194.58
Net asset value per share (S\$ cents)	1.29	1.43	12.07	12.07

For illustration purposes, the net asset value per share in Rp was converted at the exchange rate of S\$ 1:Rp 9,830.09 for 9MFY16. (FY15 : S\$ 1:Rp 9,894.62)

- 8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:-**
(a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors;

Revenue/ Cost of sales

There was no revenue or cost of sales reported for the current financial period (9MFY16) or the comparable financial period (9MFY15) as the Group has yet to commence production at its gold mine in Indonesia.

Interest income

Interest income decreased by Rp 0.6b, from Rp 0.8b in 9MFY15 to Rp 0.2b in 9MFY16 due to lower fixed deposits held during the current financial period reported on.

Other expenses

Other expenses decreased by Rp 1.4b, from Rp 2.3b in 9MFY15 to Rp 0.9b in 9MFY16, mainly due to lower unrealised foreign exchange losses in 9MFY16.

Other operating expenses

Other operating expenses increased by Rp 2.0b from Rp 1.5b in 9MFY15 to Rp 3.5b in 9MFY16. This was mainly due to higher land rental expenses for the concession blocks of Rp 0.8b expensed for the current financial period reported on and higher site-related expenses of Rp 1.2b.

General and administrative (“G&A”) expenses

G&A expenses increased by Rp 4.3b, from Rp 23.1b for 9MFY15 to Rp 27.4b for 9MFY16. The increase was mainly due to an increase in staff costs of Rp 1.7b in 9MFY16 as a result of higher headcount, and increases in other G&A expenses of Rp 4.1b due to increased activities at the Group’s operations in Indonesia, partially offset by a decrease in professional fees of Rp 1.5b in 9MFY16.

Loss before tax

Due to the above reasons the Group’s loss before tax increased by Rp 5.3b from Rp 26.2b in 9MFY15 to Rp 31.5b in 9MFY16.

(b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

Assets

Exploration and evaluation assets (“**EEA**”) increased by Rp 18.5b, from Rp 171.9b as at 30 June 2015 to Rp 190.4b as at 31 March 2016, mainly due to the additional exploration and evaluation expenses (“**EEE**”) capitalised in 9MFY16.

Property, plant and equipment (“**PPE**”) increased by Rp 1.4b, from Rp 5.2b as at 30 June 2015 to Rp 6.6b as at 31 March 2016, mainly due to additions to PPE of Rp 2.3b, partially offset by depreciation charges of Rp 0.9b.

Prepaid lease, both non-current and current portions increased by Rp 2.7b, from Rp 30.9b as at 30 June 2015 to Rp 33.6b as at 31 March 2016, due to additions of Rp 4.3b, partially offset by land rental expensed off of Rp 1.5b.

Other debtors and deposits increased by Rp 2.2b, from Rp 0.6b as at 30 June 2015 to Rp 2.8b as at 31 March 2016, mainly due to a deposit of Rp 2.2b paid to Yunnan Chihong Resources Exploration & Development Company Limited (“Yunnan Chihong”) in 3QFY16 under the non-binding framework agreement signed in January 2016.

Liabilities

Trade payables increased by Rp 4.0b, from Rp 2.2b as at 30 June 2015 to Rp 6.2b as at 31 March 2016, due mainly to the exploration and evaluation activities at the site.

Other payables and accruals increased slightly by Rp 0.2b, from Rp 6.4b as at 30 June 2015 to Rp 6.6b as at 31 March 2016, due mainly to higher accruals for staff related costs and professional fees.

Amount due to a related party decreased by Rp 0.5b, from Rp 1.1b as at 30 June 2015 to Rp 0.6b as at 31 March 2016, mainly due to the partial repayment of the amount due to Mr. Wijaya Lawrence (Executive Chairman and President of the Group).

The Group’s working capital decreased by Rp 53.8b, from Rp 101.3b as at 30 June 2015 to Rp 47.5b as at 31 March 2016, mainly due to net cash outflow for operating activities of Rp 24.9b and net cash outflow for investing activities of Rp 25.1b in 9MFY16.

Cashflow

The net cash outflow for operating activities of Rp 24.9b in 9MFY16 was mainly due to the operating loss before working capital changes of Rp 26.9b offset by Rp 1.8b from working capital changes.

Cash used for working capital in 9MFY16 amounted to Rp 1.8b, mainly due to an increase in trade payables of Rp 4.1b, a decrease in prepayments of Rp 0.2b, an increase in other payables and accruals of Rp 0.2b, offset by a decrease in other debtors and deposits of Rp 2.2b and a decrease in amount due from a related party of Rp 0.5b.

Net cash used in investing activities of Rp 25.1b in 9MFY16 was mainly due to the investment in EEA of Rp 18.5b, prepayment of land lease of Rp 4.3b and purchase of property, plant and equipment of Rp 2.3b.

There was no cashflow for financing activities in 9MFY16.

As at 31 March 2016, the Group had cash and cash equivalents of Rp 54.2b, representing a decrease of Rp 52.1b from Rp 106.3b as at 30 June 2015.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable. No forecast or prospect statement has been previously disclosed to shareholders.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Since the beginning of 2016, the gold price has strengthened significantly from approximately US\$1,080 to approximately US\$1,290/oz, representing an increase of almost 20% over the last four months. The Group believes that the higher gold price further enhances the viability of the Ciemas Gold Project.

The Ciemas Gold Project boasts high grades, large and open resources, and low projected costs which de-risk the opportunity.

The Board remains focused on the commencement of gold production at the Ciemas Gold Project, with mining of ore to be processed in a pilot plant expected to commence in 1QFY17 (during the period from 1 July 2016 to 30 September 2016) from which first production is expected in 2QFY17 (during the period from 1 October 2016 to 31 December 2016) (see Section 14(c) below for further details).

The volatility of the foreign exchange for the US dollar against our functional currency (IDR) will continue to have a significant impact on the Group's financial results.

11. Dividend

(a) Current Financial Period Reported On

Any dividend declared for the current financial period reported on?

None.

(b) Corresponding Period of the Immediately Preceding Financial Year

Any dividend declared for the corresponding period of the immediately preceding financial year?

None.

(c) Date payable

Not applicable.

(d) Books closure date

Not applicable.

12. If no dividend has been declared (recommended), a statement to that effect.

No dividend has been declared or recommended for 3QFY16.

13. If the Group has obtained a general mandate from shareholders for Interested Person Transactions (“IPT”), the aggregate value of such transactions as required under Rule 920(1)(a)(ii). If no IPT mandate has been obtained, a statement to that effect.

Name of Interested Person	Aggregate value of all interested person transactions during the financial period under review (excluding transactions less than \$100,000 and transactions conducted under shareholders’ mandate pursuant to Rule 920)	Aggregate value of all interested person transactions conducted under shareholders’ mandate pursuant to Rule 920 (excluding transactions less than \$100,000)
-	Nil	Nil

The Group does not have any general mandate from shareholders pursuant to Rule 920.

Additional disclosure required for Mineral, Oil and Gas Companies

14 (a) Rule 705(6)(a) of the Catalist Listing Manual

i. Use of funds/cash for the quarter :

For 3QFY16, the Group’s use of funds/cash for mining and exploration activities was as follows:

<u>Purpose</u>	Budgeted		Actual		Variance	
	US\$ Million	Rp Million	US\$ Million	Rp Million	Rp Million	%
Long term lease of additional land within the Group’s concession blocks for mining and exploration	3.0	41,385	0.3	4,294	(37,091)	-89.6%
Exploration and evaluation expenses	1.7	23,763	0.9	12,532	(11,231)	-47.3%
Total	4.7	65,148	1.2	16,826	(48,322)	-74.2%

* USD amount converted at US\$1 : Rp 13,719.28 as at 31 March 2016

In 3QFY16, only Rp 12.6b (US\$ 0.9m) was incurred for exploration and evaluation expenses out of the Rp 23.8b (US\$ 1.7m) budgeted due to the ongoing engineering design work. No capital expenditure was budgeted or spent because engineering studies for the pilot plant remain ongoing. In 3QFY16, the Group maintained focus on its Production Programme, Resource Upgrade Programme, Exploration Programme, and Pilot Plant Programme (together, the “**Programmes**”), as described below.

The acquisition of additional surface rights which permit mining activities within the Group's Mining Permit 1 (2,878.5 hectares) and Mining Permit 2 (200.0 hectares) (collectively "**Mining Permits**") remains an ongoing process. For strategic reasons, the timing of the expenditure (upon acquisition of rights) will depend on the negotiation process. During 3QFY16, Rp 4.3b (US\$ 0.3m) was incurred for the long-term lease of land use rights out of the Rp 41.4b (US\$ 3.0m) budgeted.

Please see Section 14 (c) below for a more comprehensive outline of activities during the quarter under review.

ii. **Projection on the use of funds/cash for the next immediate quarter, including principal assumptions :**

For the next immediate quarter, from 1 April 2016 to 30 June 2016 ("4QFY16"), the Group's use of funds/cash for mining and exploration activities is expected to be as follows:

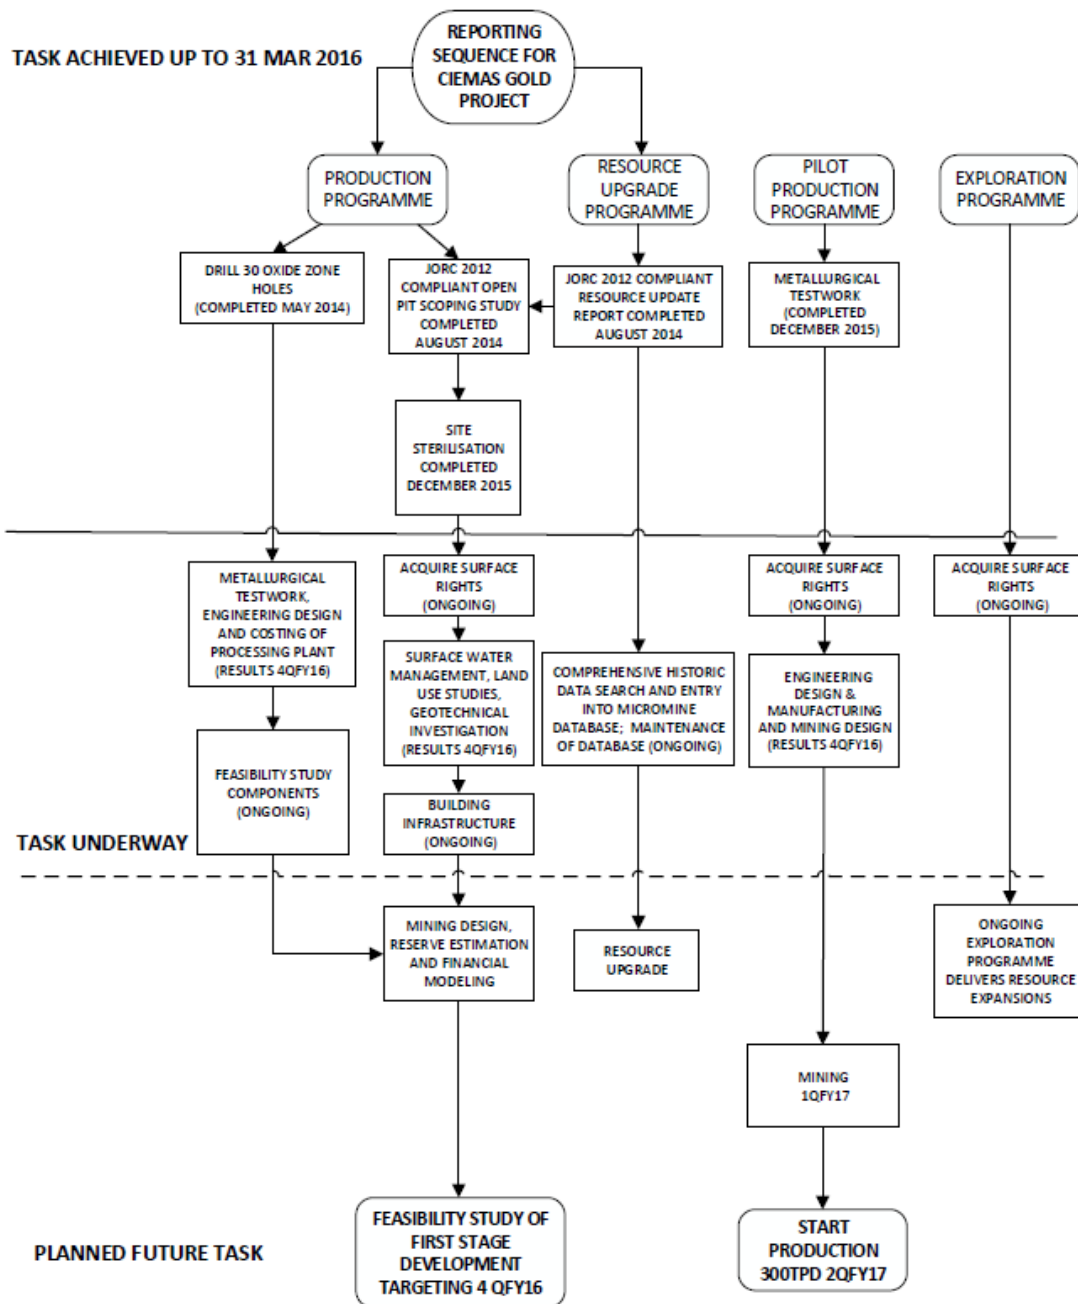

Purpose	Budgeted	
	US\$ million	Rp million
Long-term lease of additional land within the Group's concession blocks for mining and exploration	2.7	37,000
Exploration and evaluation expenses	1.5	20,100
Total	4.2	57,100
<i>* USD amount converted at US\$1 : Rp 13,719.28 as at 31 March 2016</i>		

For 4QFY16, Rp 20.1b (US\$ 1.5m) is expected to be spent on exploration and evaluation expenses and Rp 37.0b (US\$ 2.7m) on long-term lease of land use rights.

The Group's exploration and evaluation plans for 4QFY16 are expected to be as follows:

- 1) Geotechnical Investigation: Wilton has engaged Golder Associates (PT Geotechnical & Environmental Services Indonesia) to conduct the geotechnical investigation and assessment for the process plant and Tailings Storage Facility ("TSF"). The work is currently in progress;
- 2) Mine design: Planning for the mine design & surface water management are underway;
- 3) Pilot plant: Detailed engineering design drawing for the pilot plant is in progress; and
- 4) Infrastructure: Planning for the construction of the base camp and ancillary infrastructure that will serve both the pilot plant and the four main prospect areas are underway.

These are shown in chart below in the context of the overall project workflow:

14 (b) Rule 705(6)(b) of the Catalyst Listing Manual

The Board confirms that to the best of their knowledge, nothing has come to its attention which may render the above information provided to be false or misleading in any material aspects.

14 (c) Rule 705(7)(a) of the Catalyst Listing Manual

Details of exploration (including geophysical surveys), mining development and/or production activities undertaken by the Group and a summary of the expenditure incurred on those activities including explanations for any material variances with previous projections, for the period under review. If there has been no exploration development and/or production activity respectively, that fact must be stated.

For 3QFY16, the Group continued with exploration, evaluation and development activities of its mining permits at the Ciemas Gold Project, through the pursuit of four programmes, as follows:

- a) Resource Upgrade Programme;
- b) Production Programme;
- c) Exploration Programme; and
- d) Pilot Production Programme.

Activities on each of the Programmes in 3QFY16 are set out below:

a) Resource Upgrade Programme

In September 2014, the Group received the Mineral Resource update from SRK in accordance with the JORC Code 2012 edition, the summary results of which are presented in Section 14 (d) of this announcement.

The Board has decided to focus its efforts on the Pilot Production Programme whilst working towards the completion of a feasibility study for the development of the four main prospect areas.

b) Production Programme

The intention of the Production Programme is to evaluate additional options for the mining operation and processing plant, as recommended by the Group's independent consultants. The Production Programme comprises the following:

Mine Concept and Design

In September 2014, Wilton received a Scoping Study prepared by Mancala on the concept of open cut mining of the Ciemas Gold Project, and this study strongly recommended the adoption of an open cut approach to the initial development of the Group's deposits, followed by underground development of deeper ore. Mancala estimated a C1 cash cost¹ of US\$451/oz, a C2 production cost² of US\$584/oz, and a C3

¹ C1 cash cost represents the costs for mining, processing, administration, including accounting movements for stockpiles and gold-in-circuit. It does not include capital costs for exploration, mine development or processing, mill capital works. It includes net proceeds from by-product credits. It does not include the cost of royalties.

² C2 production cost reflects C1 costs plus depreciation and amortisation. This brings in the capital cost of production.

³ C3 total cost reflects C2 plus interest, other indirect costs and royalties. Total cost represents all costs attributable to gold production over the same period. It represents a full production cost.

⁴ The report author notes that: The physical and financial outcomes presented in the Scoping Study have been estimated from low level technical and economic data, which are insufficient to support the estimation of Ore Reserves, or to provide certainty that the conclusions of the Scoping Study will be realised.

total cost³ of US\$633/oz, which in the Company's view, would make the estimated production costs for Ciemas Gold Project to be below those of most competitors.⁴

Further studies are required to generate a feasibility study report together with an estimate of Ore Reserves. The group is moving forward to Mining engineering design.

Geotechnical Investigation

The Group has completed the sterilisation testing and identified the areas on which major infrastructures could be constructed. This testing was carried out to ensure that such areas are not underlain by economic mineralisation. The mine site layout plans and exact locations for the processing plant and TSF have been made. The Group has engaged Golder Associates to conduct the geotechnical investigations and assessment for the processing plant and TSF. The purpose is to assess likely geotechnical and hydrogeological issues and design constraints (including embankment stability, foundations and potential impoundment issues) associated with the planned development. It is expected to complete by 4QY16.

Processing Plant Design

The metallurgical testwork and engineering design study for the processing plant have been completed. The Company expects to receive the final report on the metallurgical testwork and engineering design study in 4QFY16.

c) Exploration Programme

In parallel with the development of the Pasir Manggu, Cikadu, Sekolah, and Cibatu resources, the Group plans to expand exploration to some other mineralised areas identified by historical exploration within its 3,078.5 Ha of mining permits in the Ciemas District. However, priority is on the Pilot Production Programme to run in parallel with the Feasibility Study.

Acquisition of additional surface access rights within the mining permits, where mining rights are already held by the Group, greatly facilitates the process of exploration and development.

Additional surface rights to areas within the Concession Blocks are being negotiated. These additional surface rights cover areas from which promising results were obtained by historical exploration.

d) Pilot Production Programme

The Group engaged Shandong Xinhai Mining Technology and Equipment Inc. ("Xinhai") to carry out the engineering design for the pilot plant. The pilot plant would have an approximate capacity of 300 tonnes per day of ore. The process plant engineering design and the mining engineering design have been completed. A detailed engineering drawing design is in progress and is expected to be completed during 4QFY16. Mining of ore to be processed by the pilot plant is scheduled to commence by 1QFY17, with production commencing 2QFY17.

14 (d) Rule 705(7)(b) of the Catalyst Listing Manual

Update on its reserves and resources, where applicable, in accordance with the requirements as set out in Practice Note 4C, including a summary of reserves and resources set out in Appendix 7D.

The Group's JORC Code 2012 compliant Mineral Resource estimate by SRK Consulting China Limited ("SRK"), effective 30 June 2014, was originally announced on 4 September 2014. Pursuant to Catalyst Rule requirements, the Mineral Resource estimate was updated at the Group's most recent year end of 30 June 2015 and announced in the Annual Qualified Person's Report, prepared by SRK, which was included in the Company's Annual Report for FY2015 and announced on 7 October 2015.

There were no changes to the Mineral Resource estimates between 30 June 2014 and 30 June 2015. The updated Mineral Resource estimate is shown below.

Table 1: Estimated Resources as at 30 June 2015

Property	Category	As of 30 June 2015		
		Resource (kt)	Au (g/t)	Au (kg)
Pasir Manggu	Measured	120	7.3	870
	Indicated	450	7.5	3,390
	Inferred	270	3.8	1,030
Cikadu	Indicated	1,100	9.1	9,970
	Inferred	360	8.4	3,040
Sekolah	Indicated	710	9.2	6,520
	Inferred	300	8.6	2,580
Cibatu	Indicated	660	9.1	5,990
	Inferred	670	8.3	5,580
Total	Measured	120	7.3	870
	Indicated	2,920	8.9	25,870
	Measured	3,040	8.8	26,740
	Inferred	1,600	7.6	12,230

Note: Mineral Resources are not Mineral Reserves and do not have demonstrated economic viability. All figures are rounded to reflect the relative accuracy of the estimate. All composites have been capped where appropriate.

Figures for Au metal in this table are estimated based on the resource tonnages and grades, and do not represent the exact amount of extractable metal for this Project. They should be treated differently from the expected production of gold bullion.

The information in the Report which relates to Mineral Resource estimates is based on information compiled by Dr Anson Xu, and Mr Pengfei Xiao, employees of SRK Consulting China Ltd. Dr Xu, FAusIMM, and Mr Xiao, MAusIMM, have sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which they are undertaking to qualify as Competent Persons as defined in

the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Dr Xu and Mr Xiao consent to the reporting of this information in the form and context in which it appears.

Dr Xu and Mr Xiao each meet the definition of a Qualified Person pursuant to the Listing Manual Section B: Rules of Catalist of the Singapore Exchange Securities Trading Limited ("SGX-ST") ("Catalist Rules").

The Mineral Resource update was used as the basis of the Scoping Study of open cut development of the Group's deposits by Mancala. The Scoping Study identified and quantified some of the modifying factors necessary for the estimation of Ore Reserves.

The process of Ore Reserves estimation will not be finalised until other modifying factors, are quantified by additional test work and studies that will lead to the release of a Feasibility Study. This is now expected to be completed by 4QFY16 as indicated in the chart in Section 14(a).

15. Negative Confirmation by the Board pursuant to Rule 705(5)

The Board, do hereby confirm on behalf of the board of directors of the Company that, to the best of our knowledge, nothing has come to the attention of the Board, which may render the unaudited financial statements for the third quarter and nine months ended 31 March 2016 to be false or misleading in any material aspects.

16. Confirmation that the issuer has procured undertakings from all its directors and executive officers under Rule 720(1) of the Catalist Rules

The Company confirms that it has procured all the required undertakings from all its directors and executive officers in the format set out in Appendix 7H under Rule 720(1) of the Catalist Rules.

BY ORDER OF THE BOARD

Wijaya Lawrence
Chairman and President
5 May 2016
