The ADDX platform will serve as an additional distribution channel for the funds managed by the Group, including the Maritime Fund and Cash Management Fund, broadening the Group's investor reach and boosting its total assets under management ("**AUM**").

ADDX, which aims to make investing fairer by democratising private markets, is a digital securities exchange that connects accredited investors to a selection of private market investment opportunities that include hedge funds, private equity, private credit, real estate, venture capital as well as debt and structured products. It currently serves individual accredited investors from 39 countries spanning Asia Pacific, Europe, and the Americas (except the United States), as well as corporate and institutional investors.

Using blockchain and smart contract technology, ADDX reduces manual interventions in the issuance, custody, and distribution of private market products. The resulting efficiency allows the platform to fractionalise investments in a scalable and commercially viable manner, reducing minimum investment sizes, and thereby widening investor access to private markets.

To-date, ADDX has listed more than 60 deals on its platform and worked with blue-chip names such as Hamilton Lane, Partners Group, Investcorp, Singtel, UOB, CGS-CIMB, as well as Temasek-owned entities Mapletree, Azalea, SeaTown and Fullerton Fund Management. The full-service capital market platform has raised a total of US\$140 million in funding since its inception in 2017, and is backed by entities including the Singapore Exchange, the Stock Exchange of Thailand, Temasek subsidiary Heliconia Capital, the Development Bank of Japan, United Overseas Bank, Hamilton Lane, Tokai Tokyo Financial Holdings and KB Securities.

ADDX has been approved by the Monetary Authority of Singapore as a recognised market operator. It also has a capital markets services license to deal in securities and collective investment schemes as well as to provide custodial services.
