1. General information

Ying Li International Real Estate Limited (the “**Company**”) is listed on the Mainboard of the Singapore Exchange Securities Trading Limited (the “**Singapore Exchange**” or “**SGX-ST**”) and incorporated and domiciled in Singapore. These unaudited condensed interim consolidated financial statements as at and for the six months period ended 31 December 2024 (“**2H2024**”) and full financial year then ended (“**FY2024**”) comprise the Company and its subsidiaries (collectively, the “**Group**”).

The principal activity of the Company is investment holding. The principal activities of its subsidiaries are:

- (a) Property development;
- (b) Mall and property management;
- (c) Property consultancy, sale, marketing and management;
- (d) Commercial property leasing services; and
- (e) Others - Investment holding.

2. Basis of preparation

The unaudited condensed interim financial statements for 2H2024 have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Committee Singapore. The unaudited condensed interim financial statements do not include all the information required for a complete set of financial statements and should be read in conjunction with the Group’s audited financial statements for the financial year ended 31 December 2023. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and its performance since the last interim financial statements for the six months period ended 30 June 2024.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The unaudited condensed interim financial statements are presented in Chinese Renminbi (“**RMB**”) and all values are rounded to the nearest thousand (“**RMB’000**”) as indicated.

The condensed interim financial statements have been prepared on a going concern basis as the directors have assessed that the Group and the Company would have the ability to meet the obligations for the next twelve months from the reporting date, taking into consideration available cash balances, profitability and cashflow of the Group’s operations.

2.1. New and amended standards adopted by the Group

A number of amendments to standards have become applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

2.2. Use of judgements, estimates and assumptions

In preparing the unaudited condensed interim financial statements, the management team of the Group (“**Management**”) has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by Management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the financial year ended 31 December 2023.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

- Valuation of investment properties
- Estimation of net realisable value for development properties
- Valuation of financial asset, at FVPL
- Assessment of expected credit loss (“**ECL**”) of trade and other receivables
- Provision on litigation cases and penalties
- Deferred income tax

- Classification of unquoted investment in limited partnership

3. Seasonal operations

The Group's businesses were not affected significantly by seasonal or cyclical factors during the financial period.

4. Segment and revenue information

The Group is organised into the following main business segments:

- Property investment : Leasing of investment properties to generate rental income, facilities management income and holding of properties for capital appreciation
- Property development : Development and sales of residential, commercial and other types of properties and equity investment in property development companies
- Others : Mainly related with corporate office functions and investment holding

These operating segments are reported in a manner consistent with the internal reporting provided to the executive committee for allocating resources and assessing performance. Interest income, interest expenses and borrowings are not allocated to the operating segments for the financial year ended 31 December 2024 as they were no longer a measurement of the performance of the operating segments with the replacement of the majority of bank loans with loans from a subsidiary of controlling shareholder. Accordingly, the segment information regarding interest income, interest expenses and borrowings for the financial period/year ended 31 December 2023 has been restated for comparative purpose.

As announced by the Company on 21 February 2023, the Company and its subsidiary, Chongqing Yingli Real Estate Development Co., Ltd., commenced an arbitration with the China Chongqing Arbitration Commission in January 2023 against, among others, Shengyu (BVI) Limited (“**Shengyu**”) and Hengda Real Estate Group (Chongqing) Company Limited (恒大地产集团重庆有限公司) (“**Hengda Chongqing**”) (collectively, the “**Debtors**”) in respect of the Debtors’ failure to make payment for its purchase of the entire issued and paid-up share capital in the Company’s wholly-owned subsidiary Shiny Profit Enterprises Limited and a separate parcel of land pursuant to a conditional sale and purchase agreement entered into between the Company and Shengyu. The Group through its appointed lawyer has attended the arbitral tribunal on 31 August 2023 and 29 November 2023 respectively, and presented relevant supporting documents for the amount to be claimed from the Debtors. On 6 December 2024, the Company has been notified of the arbitral award in which the arbitration tribunal ruled in favour of the Group, and the Debtors have been ordered to pay the consideration of RMB503,759,490.27, along with the legal fees incurred by the Group and a portion of the arbitration costs.

As at 31 December 2024, the net outstanding receivables from the Debtors in relation to the disposal of subsidiaries and a land parcel amounted to RMB262,710,000 (31 December 2023: RMB262,710,000), calculated based on the gross outstanding balance of RMB575,350,000 (31 December 2023: RMB575,350,000), net of loss allowance of RMB312,640,000 (31 December 2023: RMB312,640,000) recognised in previous years.

The Management has reviewed the recoverability of the outstanding receivables from the Debtors and is of the opinion that the expected credit loss allowance had been adequately provided for as at 31 December 2024. In assessing the adequacy of ECL, the Management has taken into consideration the arbitral award granted by China Chongqing Arbitration Commission and the Chinese legal counsel’s advice to continue to trace the significant assets owned by Shengyu and to enforce against such assets located in the PRC and/or to commence legal proceedings against the other Debtors to hold them jointly liable to make payment.

Beginning of financial year	-	210,000

Unquoted investment in limited partnership relates to a subsidiary's investment of RMB559 million (at cost) to subscribe for 26% of the subordinated shares in Shanghai Zhaoli Investment Centre (LLP) where it invested directly in Shanghai Sheng Ke Investment Centre (LLP) which in turn owns the project companies holding the Beijing Tongzhou Project.

The unquoted investment in limited partnership is carried at fair value based on valuation performed at the end of every financial year by international independent firm of professional valuers who have the appropriate recognised professional qualification and recent experience in the financial assets being valued. Discussions on the valuation process, key inputs applied in the valuation approach and the reasons for the fair value changes are held between Management, the fund manager and the independent valuer annually.

The unquoted investment in limited partnership has been fully written down during the financial year ended 31 December 2023 based on valuation performed as at 31 December 2023, mainly due to the stringent policies maintained by local authorities in the property sector, which prolonged the property development and sales period, thus leading to a reduction of forecasted margin of the project as a result of significant fixed costs such as finance costs, to be incurred on a yearly basis. Management has reassessed that there is no change in the fair value of the investment as at 31 December 2024.

15. Investment properties

The Group's investment properties consist of retail, office, car parks and other commercial properties, held for long-term rental yields and/or capital appreciation and are not substantially occupied by the Group. They are mainly leased to third parties under operating leases.

The Group engages external, independent and qualified valuers to determine the fair value of the Group's properties at the end of every financial year based on the property's best use. As at 31 December 2024, the fair values of the properties have been determined by international independent firm of professional valuers who have the appropriate recognised professional qualification and recent experience in the financial assets being valued. Discussions on the valuation process, key inputs applied in the valuation approach and the reasons for the fair value changes are held between Management and the independent valuer annually.

The fair value of the Group's investment properties is determined based on significant unobservable inputs and is categorised under Level 3 of the fair value measurement hierarchy. Level 3 fair values of the Group's properties have been derived using the direct comparison method and income approach on property basis. Sales prices of comparable properties in close proximity are adjusted for differences in key attributes such as location, building age and size. The most significant input in this valuation approach is the reference to market evidence of transaction prices for similar properties and the rental income of the properties and were performed in accordance with International Valuation Standards and the Royal Institution of Chartered Surveyors' Global Valuation Standards.

Outlook

Generally linked to the country's economic growth, the real estate market forms an integral part of the domestic economy.

According to a report published by the China's National Bureau of Statistics ("NBS") on 17 January 2025, China's economy has expanded by 5% in 2024, meeting the government's annual economic target set at beginning of 2024. Following the NBS publication, the International Monetary Fund raised China's 2025 growth forecast to 4.6% from an earlier projection of 4.5%, as stimulus measures start percolating in the world's second-largest economy.

In a continuation of the Chinese authorities' efforts to address issues in the real estate market, China rolled out a slew of measures in the second half of 2024 to support the real estate market, including cutting mortgage rates and allowing local governments to buy unsold housing units and idle land with special bond proceeds.

Against the backdrop of the evolving macro-economic challenges and uncertain market conditions in recent years, the Group has calibrated our business model after undertaking a strategic review, moving from asset heavy to asset light, focusing on property management services in order to mitigate the impact of regulatory measures over the real estate development sector, offloading non-core property assets and to identify emerging growth opportunities that are unrelated to the real estate market but aligned with China's 5-Year Plans.

Chongqing's Gross Domestic Product ("GDP") in 2024 is projected to reach RMB3.2 trillion, a 5.7% increase, with per capita GDP surpassing RMB100,000 for the first time. For 2025, Chongqing is targeting a GDP growth of 6%. In recent years, Chongqing has concentrated on developing the Chengdu-Chongqing economic circle, driving regional growth and positioning it as a key hub for innovation in China's high-quality development. Chongqing aims to achieve GDP of RMB4 trillion by 2027 as it approaches the 30th anniversary of its municipality status.

The Group's core real estate business activities are based in Chongqing and the investment property portfolio comprises integrated office and retail management. As at 31 December 2024, the Group's investment properties have a total gross floor area of over 300,000 square metres ("sqm") which comprises four main segments of retail (approximately 66%), office (approximately 10%), car park and warehousing (approximately 24%).

According to a report issued by Cushman & Wakefield in January 2025 on Chongqing's commercial and logistics property market, the city's high-quality retail property sector saw an influx of 300,000 sqm of new supply in 2024. Over the next three years, approximately 1.2 million sqm of additional supply is expected, distributed across various districts. Amid evolving consumer preferences and a slowdown in new developments, many existing retail properties are actively undergoing adjustments and upgrades to enhance their competitiveness.

According to the same report, due to the high vacancy rate of new projects and lease terminations in some buildings, the overall vacancy rate for Chongqing's Grade A office market has increased in 2024. Preliminary data suggests that approximately 564,000 sqm of new supply is expected over the next three years. If these projects enter the market as scheduled, vacancy rates and rental rates will remain under pressure.

For the retail rental segment, the Group continues to monitor the emerging retail trends and seeks to work with tenants to explore innovative retail concepts and experiences. This ensures that the Group's retail properties remain relevant and captivating in the face of a growing and competitive retail market.

On the office rental segment, the Group continues to focus on retaining existing quality tenants and attracting new tenants by integrating new innovations, creating conducive spaces and more agile workspaces.

Adhering to the Group's core values, the management team is committed to the strategy of developing a cross-border property investment and asset management platform, focusing on strengthening our core operating activities and enhancing the quality of our business development initiatives.
